Dari segi operasional, total produksi batubara Perseroan mencapai 77,8 juta ton, meningkat dari tahun 2022 yaitu 71,9 juta ton. Kenaikan ini didukung oleh upaya Perseroan dalam mengoptimalkan produktivitas dan meningkatkan efisiensi biaya secara berkesinambungan.

First in operations, the Company had a total coal production of 77.8 million tons, an increase of 71.9 million tons from 2022. The increase was driven by the Company's efforts to optimize productivity and continuously pursue cost efficiency.

Para Pemegang Saham dan Pemangku Kepentingan yang Terhormat, Dear Shareholders and Stakeholders,

Tahun ini, kami merayakan usia Perseroan yang ke-50. Usia emas ini menjadi pembuktian bagi kami bahwa Perseroan telah berhasil melalui segala rintangan dan hambatan dengan gigih. Dengan terus berkonsolidasi dengan entitas anak, kami bersyukur Perseroan mampu meraih pertumbuhan kinerja operasional dan finansial yang baik sepanjang tahun 2023. Dalam kesempatan ini, kami akan melaporkan hasil pengawasan, pengawalan, dan pandangan kami terhadap jalannya kepengurusan Perusahaan selama tahun 2023.

This year, we celebrated the Company's 50th anniversary. This golden age speaks for the perseverance we embraced as we navigated through the business obstacles in that 50-year journey. We are grateful that, through solid consolidation with some of the Company's subsidiaries, we were able to deliver positively in both our finances and operations throughout the entire year. Please allow us on this occasion to report our oversight, guidance, and overview of the Company's management in 2023.

PANDANGAN ATAS KONDISI EKONOMI

Pada tahun 2023, ekonomi global belum mengalami pemulihan sesuai ekspektasi walaupun pandemi COVID-19 resmi dinyatakan berakhir. Di tengah perlambatan ekonomi global yang masih mengintai, Indonesia berhasil meraih pertumbuhan konstruktif sebesar 5,05%. Capaian ini menunjukkan Indonesia mampu mengimbangi kinerjanya dengan sangat baik, sebagaimana juga tercermin melalui tingkat inflasi sebesar 2,61%, terendah selama dua dekade terakhir. Dua komponen terbesar yang menyumbang Produk Domestik Bruto (PDB) Indonesia pada tahun 2023 adalah konsumsi rumah tangga dan investasi sebesar 4,82%, menandakan laju ekonomi nasional bergerak dengan intensif.

ECONOMIC OVERVIEW

In 2023, the global economic recovery fell short of expectations, even after the COVID-19 pandemic was officially over. Amidst the threat of a slowing global economy, Indonesia posted a constructive growth rate of 5.05%. This figure further proved the country's ability to strike a performance balance, as associated with such strong growth was a tamed inflation rate of 2.61%, a low not seen in two decades. The two largest contributors to Indonesia's Gross Domestic Product (GDP) in 2023 were household consumption and investment, with 4.82% combined, signifying the intensive pace at which the national economy was moving.

LAPORAN DEWAN KOMISARIS

Report from the Board of Commissioners

Hasil produksi batubara nasional pada tahun 2023 terpantau mencapai 770,2 juta ton, tertinggi sepanjang sejarah, melebihi target yang ditetapkan sebesar 694,50 juta ton. Peningkatan ini turut mendukung ketahanan energi nasional dan mendukung pertumbuhan ekonomi, karena hingga saat ini, batubara masih menjadi salah satu komoditas ekspor utama di Indonesia.

PENILAIAN ATAS KINERJA DIREKSI

Dewan Komisaris mengapresiasi Direksi yang telah menunjukkan kepemimpinan yang sinergis dan strategis sepanjang tahun 2023. Direksi telah berupaya dengan maksimal untuk mempertahankan kelangsungan usaha Perseroan dan memetakan rencana-rencana yang realistis untuk dilakukan di tahun-tahun mendatang. Di bawah pengelolaan Direksi, kami melihat Perseroan mampu memperkuat kinerjanya, baik secara operasional maupun finansial.

We noted that the national coal production output in 2023 reached 770.2 million tons, the highest in history, exceeding the target set at 694.50 million tons. The increase also supported both the nation's energy security and economic growth, given that coal still remains one of Indonesia's major export commodities.

ASSESSMENT OF PERFORMANCE OF THE BOARD OF DIRECTORS

As the Board of Commissioners, we applaud the Board of Directors for their synergistic and strategic leadership throughout 2023. The Board of Directors has made all the efforts necessary to maintain the Company's business sustainability and mapped out realistic plans for the coming years. We have seen how, under their management, the Company was able to deliver more in both finances and operations.

Dengan infrastruktur, pengalaman, dan kesiapan Perseroan yang matang, kami optimis Perseroan dapat tetap meraih kemajuan yang positif di tahun-tahun mendatang.

We are more than certain that, with its mature infrastructure, experience, and readiness, the Company can continue to make progress in the years to come.

Dari segi operasional, total produksi batubara Perseroan mencapai 77,8 juta ton, meningkat dari tahun 2022 yaitu 71,9 juta ton. Kenaikan ini didukung oleh upaya Perseroan dalam mengoptimalkan produktivitas dan meningkatkan efisiensi biaya secara berkesinambungan.

First in operations, the Company had a total coal production of 77.8 million tons, an increase of 71.9 million tons from 2022. The increase was driven by the Company's efforts to optimize productivity and continuously pursue cost efficiency.

Sementara dari segi finansial, struktur keuangan Perseroan mengalami perbaikan dan penguatan yang patut diapresiasi. Perseroan terus berupaya menjaga keseimbangan arus kas dengan maksimal dan meningkatkan profitabilitasnya. Pada 2023, Perseroan membukukan pendapatan usaha sebesar USD1.679,9 juta, menurun dari tahun 2022 yaitu USD1.830,1 juta. Di akhir 2023, Perseroan membukukan laba tahun berjalan sebesar USD23,2 juta, menurun dari tahun 2022 yaitu USD556,7 juta.

Second, in finances, the Company's increasingly improved and stronger financial structure deserves our appreciation. The Company has been seeking to maintain a healthy cash flow balance while increasing profitability. In 2023, The Company recorded a revenues of USD1,679.9 million, a decrease from 2022 of USD1,830.1 million. By the end of 2023, the Company recorded a comprehensive income for the year of USD23.2 million, down from USD556.7 million in 2022.

Walaupun mengalami penurunan, namun pencapaian yang berhasil diraih Perseroan selama tahun 2023 memaknai kepiawaian Direksi dalam menavigasi Perseroan secara adaptif. Oleh sebab itu, dengan mengevaluasi kinerja yang dicapai Perseroan, kami menilai bahwa Direksi telah berhasil menjalankan tugas dan tanggung jawabnya dengan baik dan mengapresiasi kerja keras Direksi sepanjang tahun 2023.

PENGAWASAN ATAS PERUMUSAN DAN PELAKSANAAN STRATEGI PERSEROAN

Salah satu mandat yang diwenangkan kepada Dewan Komisaris adalah melakukan pengawasan terhadap jalannya Perseroan. Kami memenuhi mandat ini dengan senantiasa mencermati dan mengawal seluruh pergerakan dan perkembangan Perseroan. Keterlibatan kami ada di setiap proses yang dilakukan, dari sejak perumusan, perencanaan, pelaksanaan, hingga dampak dari pelaksanaan strategi.

Secara berkala, kami melakukan rapat gabungan dengan Direksi untuk mengenali dan membahas isu-isu yang perlu ditangani. Intensitas pertemuan dan interaksi yang tinggi memungkinkan kami untuk memberikan persetujuan terhadap keputusan-keputusan yang akan diambil oleh Direksi, sehingga proses bisnis berjalan dengan efektif dan efisien. Dengan latar belakang pengalaman dan kompetensi setiap anggota Dewan Komisaris, kami mampu menyumbangkan beragam pandangan dan pendapat yang bermanfaat bagi Perseroan.

Sepanjang tahun 2023, kami melihat bahwa tidak terdapat dampak atau hasil negatif dari pelaksanaan strategi yang dilakukan Perseroan. Kami senantiasa memastikan bahwa kegiatan usaha Perseroan dijalankan dalam koridor hukum yang berlaku dengan menghormati dan memenuhi hak seluruh pemangku kepentingan.

PANDANGAN ATAS PROSPEK USAHA

Tantangan ekonomi global sangat memengaruhi dinamika industri pertambangan batubara. Perubahan iklim yang drastis, kebijakan suku bunga yang masih tinggi, serta penurunan harga batubara menyebabkan tingkat permintaan tertekan. Industri batubara diramalkan berpotensi mengalami stagnasi di tahun mendatang.

Menyikapi hal ini, kami mendukung langkah Direksi untuk merealisasikan proyek hilirisasi batubara. Dengan infrastruktur, pengalaman, dan kesiapan Perseroan yang matang, kami optimis Perseroan dapat tetap meraih

What the Company achieved in 2023 reflects the Board of Directors' expertise and adaptability. The evaluation of the Company's achievements led us to the conclusion that the Board of Directors has succeeded in discharging their duties and responsibilities and to our appreciation of their hard work throughout 2023.

OVERSIGHT OF THE FORMULATION AND EXECUTION OF THE COMPANY'S STRATEGY

One of the mandates given to the Board of Commissioners is to oversee how the Company is run. We are fulfilling this mandate by having ourselves observe and oversee every progress and advancement the Company makes. We are supervisorily involved in every process run, from formulation, planning, and implementation to the impact of implementing the strategy.

Periodically, we hold joint meetings with the Board of Directors to identify and discuss issues at hand that need to be addressed. The high intensity of meetings and interactions enables us to give immediate approval for decisions that the Board of Directors needs to take to ensure effective and efficient business management. With our diverse experience and competency background, we have been able to contribute from different angles and a variety of opinions that are beneficial to the Company.

Throughout 2023, we did not see any negative impacts or results from the Company's strategy execution. That's because we have always ensured that the Company's business activities are carried out within the applicable legal corridors by respecting and fulfilling the rights of all stakeholders.

VIEWS ON BUSINESS PROSPECTS

Global economic challenges greatly influence the dynamics of the coal mining industry. Drastic climate change, persistently high interest rate policies, and the recent drop in coal prices will put further pressure on coal demand. We then expect stagnation in the coal industry in the upcoming year.

In response to this, we will support the Board of Directors' steps to realize the coal downstream project. We are more than certain that, with its mature infrastructure, experience, and readiness, the Company can continue to

kemajuan yang positif di tahun-tahun mendatang. Agar dapat tetap tumbuh, Perseroan harus mampu mengharmonisasikan seluruh elemen usaha secara terpadu, antara lain sumber daya manusia yang unggul, tata kelola yang bertanggung jawab, kinerja operasional yang produktif, serta kinerja keuangan yang sehat.

PANDANGAN ATAS PENERAPAN TATA KELOLA PERUSAHAAN

Praktik tata kelola yang kuat dan berkelanjutan sejatinya tidak hanya diterapkan untuk kepatuhan semata. Bagi kami, praktik tata kelola merupakan bentuk komitmen, tanggung jawab, dan kepedulian yang perlu diwujudkan secara konsisten untuk menciptakan pertumbuhan bisnis yang progresif.

Di bawah kepemimpinan Direksi, kami melihat adanya perkembangan yang positif atas penerapan tata kelola Perseroan. Dengan berpegang teguh pada prinsip-prinsip fundamental praktik Tata Kelola Perusahaan yang Baik (*Good Corporate Governance/GCG*) yang terintegrasi dengan aspek Lingkungan, Sosial, dan Tata Kelola (*Environmental, Social, and Governance/ESG*), Perseroan memastikan kegiatan usahanya dikelola secara tepat dan transparan. Kami juga memastikan bahwa tata kelola Perseroan berfungsi secara optimal dalam meningkatkan kualitas kepatuhan Perseroan terhadap seluruh peraturan yang berlaku.

Selama tahun 2023, kami menilai bahwa setiap organ tata kelola Perseroan telah melaksanakan tugas dan tanggung jawabnya dengan optimal. Secara rutin, Dewan Komisaris menerima laporan dari Komite Audit, Komite Nominasi dan Remunerasi, serta Komite Manajemen Risiko. Laporan ini memungkinkan kami untuk melakukan analisis secara komprehensif dan memberikan rekomendasi yang tepat kepada Direksi. Dalam rapat-rapat bersama dengan Direksi, kami senantiasa mengawasi dan mengevaluasi perkembangan kinerja Perseroan serta membantu Direksi dalam membuat keputusan yang praktis.

PERUBAHAN KOMPOSISI DEWAN KOMISARIS

Berdasarkan keputusan RUPS Tahunan tanggal 30 Juni 2023, Perseroan telah mengangkat Bapak Anggawira sebagai Komisaris Independen. Kami mengucapkan selamat bergabung kepada Bapak Anggawira, kiranya amanat yang diberikan kepada beliau dapat terlaksana dengan optimal. Di samping itu, pada Oktober 2023, Bapak Benjamin Bao (Jianmin Bao) mengakhiri masa jabatannya sebagai Komisaris Perseroan. Seluruh jajaran Dewan Komisaris

make progress in the years to come. To secure further growth, the Company must, in an integrated manner, harmonize all business elements such as excellent human resources, responsible governance, productive operations, and healthy finances.

VIEWS ON THE IMPLEMENTATION OF GOVERNANCE COMPANY

Strong and sustainable governance practices are not only implemented for compliance alone. For us here at Bumi Resources, governance practices manifest in our commitment, responsibility, and care that we feel we need to fulfill with consistency to create progressive business growth.

We see how, under the leadership of the Board of Directors, there have been positive developments in corporate governance practice. With strict adherence to the fundamental principles of good corporate governance (GCG) practices, which are integrated with environmental, social, and governance (ESG) aspects, the Company ensures that its business is managed not only properly but also transparently. We also ensure that the Company's corporate governance functions optimally to improve the quality of the Company's regulatory compliance.

Based on the assessment we made in 2023, all the Company's governance bodies performed their respective duties and responsibilities optimally. We received routine reports from the Audit Committee, Nomination and Remuneration Committee, and Risk Management Committee. Their reports allowed us to make comprehensive analysis and give informed recommendations to the Board of Directors. In our joint meetings, we monitored and evaluated the Company's progress in terms of business performance and assisted the Board of Directors in making practical decisions.

CHANGES IN THE COMPOSITION OF THE BOARD OF COMMISSIONERS

Based on the decision of the Annual GMS dated 30 June 2023, the Company has appointed Mr. Anggawira as Independent Commissioner. We would like to welcome Mr. Anggawira, and we hope that he can optimally fulfill the mandate given to him. And in October 2023, Mr. Benjamin Bao (Jianmin Bao) ended his term of office as Commissioner of the Company. The entire Board of Commissioners would like to thank Mr. Benjamin Bao for his dedication and

PENUTUP

Perjalanan panjang yang telah dilalui Perseroan hingga saat ini menandakan bahwa Perseroan mampu mengarungi segala badai dengan tangguh. Dengan berbagai tantangan yang timbul silih berganti, kami optimis Perseroan dapat mempertahankan kelangsungan usaha secara jangka panjang dengan dukungan dan keterlibatan seluruh pemangku kepentingan.

Oleh sebab itu, kami mengucapkan terima kasih kepada seluruh pemegang saham atas kepercayaan yang diberikan kepada Perseroan sehingga Perseroan dapat meraih kinerja yang positif dan berkelanjutan selama tahun 2023. Kami juga mengapresiasi Direksi yang telah memimpin dan mengelola Perseroan secara strategis, dengan merangkul seluruh entitas anak dan karyawan.

Dengan fondasi bisnis dan struktur keuangan yang semakin kuat, kami optimis Perseroan dapat meraih pertumbuhan yang apresiatif dan membanggakan di tahun-tahun mendatang.

CLOSING

The long journey that we have made to date speaks for the perseverance with which we weathered all the storms as they stood in our way. Having seen how the Company overcame one challenge after another, and with the continued support and engagement of stakeholders, we are optimistic about sustaining the Company's business long into the future.

We should thank shareholders for their continued trust, which has allowed us to deliver positive and sustainable performance in 2023. We also appreciate the Board of Directors for their effective management of the Company and strategic leadership, which included all subsidiaries and employees in the process.

We are certain that, with its increasingly strong business foundations and financial structures, the Company can achieve encouraging growth in the years to come.

Menginjak usia yang ke-50 tahun, Perseroan berhasil membuktikan diri sebagai perusahaan pertambangan batubara yang berdikari dan tak tergoyahkan. Dengan kepemimpinan yang solid dan kolaboratif, Perseroan berhasil mengatasi segala tantangan dengan tangguh.

The Company marked its 50th anniversary by maturing into an independent coal miner that has remained steadfast in any given circumstances. With solid and collaborative leadership, the Company has overcome all challenges with resilience.

**Para Pemegang Saham dan Pemangku Kepentingan yang Terhormat,
Dear Shareholders and Stakeholders,**

Tahun 2023 merupakan tahun penggenapan perjalanan Perseroan selama 50 tahun. Kami bersyukur bahwa Perseroan berhasil memupuk pertumbuhan yang berkelanjutan dan meraih kinerja yang membanggakan selama perjalanannya. Tantangan demi tantangan dapat kami hadapi dengan berbagai strategi dan mitigasi.

Dalam kesempatan ini, kami akan memaparkan rangkaian upaya, strategi, kebijakan, serta pencapaian yang berhasil diraih Perseroan selama tahun 2023 dalam hal operasional dan finansial.

TINJAUAN KONDISI EKONOMI

Dana Moneter Internasional (International Monetary Fund/IMF) meramalkan bahwa ekonomi dunia pada tahun 2023 tumbuh sebesar 3% dengan tingkat inflasi mencapai 5,8%, lebih tinggi dibandingkan periode sebelum pandemi. Proyeksi ini mempertimbangkan ekonomi global yang belum dapat pulih seutuhnya akibat terpaan sejumlah tantangan yang signifikan, yaitu ketegangan geopolitik yang meresahkan, tingginya inflasi dan suku bunga, serta perubahan iklim yang memburuk.

The year 2023 marked the Company's golden anniversary. We could not be more proud of our 50-year journey's consistent growth trajectory. With the proper strategies and mitigation efforts, we were able to overcome challenges one after the other.

Please allow us to use this opportunity to elaborate on our efforts, strategies, and policies, as well as what we accomplished in terms of operations and finances in 2023.

ECONOMIC OVERVIEW

The International Monetary Fund (IMF) predicted that the global economy would only grow by 3% in 2023, with a relatively high inflation rate of 5.8%, which is still higher than pre-pandemic levels. The IMF made this projection after learning that the global economy had not fully recovered from the effects of significant challenges such as unsettling geopolitical tensions, high inflation and interest rates, and climate change, which was worsening.

Namun, di tengah muramnya kondisi ekonomi global, Indonesia termasuk salah satu negara yang berhasil mempertahankan kinerja positif. Kami turut mengapresiasi pencapaian Indonesia yang berhasil meraih pertumbuhan sebesar 5,05% pada tahun 2023. Walaupun melambat dari tahun sebelumnya yaitu 5,31%, kami memahami bahwa tantangan ekonomi global berdampak signifikan bagi laju pertumbuhan ekonomi nasional. Oleh sebab itu, pencapaian ini masih membuktikan tingkat resiliensi Indonesia yang sangat baik dibandingkan negara-negara lainnya.

Di sisi industri, berdasarkan data Kementerian Energi dan Sumber Daya Mineral (ESDM), capaian produksi batubara Indonesia sepanjang 2023 berhasil melampaui target yang ditetapkan dan mencetak rekor tertinggi sepanjang sejarah. Produksi batubara Indonesia terealisasi sebesar 770,2 juta ton pada 2023, meningkat dari tahun 2022 yakni 685,8 juta ton. Capaian ini melampaui target yang ditetapkan di awal tahun sebesar 694,50 juta ton dengan persentase capaian sebesar 110,90%.

Despite the somewhat bleak economic outlook, Indonesia was among its global peers that continued to deliver positive growth. We appreciated how the country was able to grow its economy by 5.05% in 2023. Despite a slowdown from the previous year's 5.31%, we recognize that global economic challenges have had a significant impact on the pace of national economic growth. Indonesia's impressive accomplishments serve as further proof of its global resilience.

On the industrial front, the data released by the Ministry of Energy and Mineral Resources (ESDM) show that Indonesia's coal production in 2023 surpassed the stated targets to reach a record high in history. Indonesians produced a total of 770.2 million tons in 2023, increasing from 685.8 million tons produced in 2022. The total production volume exceeded the 694.50 million tons target set at the beginning of the year, accounting for 110.90%.

Dengan lanskap bisnis yang semakin luas dan kompleks, Perseroan terus berupaya memperkuat fundamental dan konsolidasi kegiatan usahanya. Kami menjawab tantangan bisnis dan ekonomi dengan menerapkan strategi, kebijakan, dan solusi yang praktis.

Despite the expanding and complex business landscape, the Company has remained steadfast in its commitment to strengthening business fundamentals through consolidated operations.

KEBIJAKAN DAN STRATEGI PERSEROAN

Sebagai organ tata kelola utama yang berperan dalam menakhodai kegiatan usaha Perseroan, kami memastikan bahwa perumusan dan penerapan strategi dilakukan berdasarkan pertimbangan yang matang, komprehensif, dan objektif. Dilatarbelakangi kompetensi dan pengalaman yang ekstensif dari setiap anggota Direksi, kami memadukan persepsi dan pandangan dari seluruh pihak yang berkepentingan agar mendapatkan pemahaman yang akurat atas isu dan hal-hal yang harus diputuskan bersama. Kebijakan dan strategi yang diambil haruslah berpedoman pada visi dan misi Perseroan serta mengutamakan kepentingan Perseroan.

COMPANY POLICIES AND STRATEGIES

As the main governance body that directs the Company's business, we always ensure that the formulation and implementation of strategies are always based on thorough, comprehensive, and objective consideration. Our respective competences and lengthy experiences allow us, as members of the Board of Directors, to integrate perspectives and insights from all stakeholders to give ourselves a better understanding of current issues that need collective decisions. We must align all our policies and strategies with the Company's vision and mission while placing its interests in priority.

Proses perumusan dan penerapan strategi ini juga mencakup pengawalan dan evaluasi hasil secara berkesinambungan. Dalam rapat-rapat internal serta rapat gabungan bersama Dewan Komisaris, kami melakukan pembahasan dan peninjauan secara detail atas perkembangan dan pelaksanaan strategi yang telah dilakukan. Aktivitas ini memungkinkan Perseroan untuk mempelajari efektivitas strategi yang telah dilakukan dan menghindarkan Perseroan dari dampak yang tidak terduga.

Dengan lanskap bisnis yang semakin luas dan kompleks, Perseroan terus berupaya memperkuat fundamental dan konsolidasi kegiatan usahanya. Kami menjawab tantangan bisnis dan ekonomi dengan menerapkan strategi, kebijakan, dan solusi yang praktis. Beberapa strategi yang kami lakukan adalah melakukan efisiensi biaya dengan konsisten, meningkatkan produktivitas kinerja, menyelaraskan arah strategi dan kinerja entitas anak, serta menyempurnakan penggunaan digitalisasi untuk mendukung kelancaran usaha.

KINERJA PERSEROAN DI TAHUN 2023

Menginjak usia yang ke-50 tahun, Perseroan berhasil membuktikan diri sebagai perusahaan pertambangan batubara yang berdikari dan tak tergoyahkan. Dengan kepemimpinan yang solid dan kolaboratif, Perseroan berhasil mengatasi segala tantangan dengan tangguh.

Dari segi finansial, Perseroan membukukan pendapatan usaha sebesar USD1.679,9 juta pada 2023, menurun sebesar 8,2% dari USD1.830,1 juta pada 2022. Penurunan juga dialami pada perolehan laba komprehensif tahun berjalan sebesar 95,8%, yaitu dari USD556,76 juta pada 2022 menjadi USD23,2 juta pada 2023. Secara umum, kinerja ini disebabkan oleh harga batubara yang ternormalisasi.

Walaupun mengalami penurunan kinerja finansial secara umum, saat ini Perseroan adalah satu-satunya perusahaan tambang batubara yang tidak terikat pada utang. Kondisi ini meringankan langkah Perseroan untuk bertumbuh secara pesat dan menghasilkan kinerja yang profitabel. Perbaikan neraca keuangan ini juga meningkatkan peluang saham Perseroan untuk mengalami *rebound*.

The process of formulating and implementing strategies also entails continuous monitoring and evaluation of outcomes. Through internal meetings and joint sessions with the Board of Commissioners, we engage in detailed discussions and reviews of the progress and execution of strategies. These activities enable the Company to assess the effectiveness of implemented strategies and mitigate unforeseen impacts.

Despite the expanding and complex business landscape, the Company has remained steadfast in its commitment to strengthening business fundamentals through consolidated operations. We addressed business and economic challenges through practical strategies, policies, and solutions. Our strategies include pursuing efficiency, increasing productivity, aligning subsidiaries with the Company's strategic direction, and refining digitalization to support seamless business operations.

THE COMPANY'S PERFORMANCE IN 2023

The Company marked its 50th anniversary by maturing into an independent coal miner that has remained steadfast in any given circumstances. With solid and collaborative leadership, the Company has overcome all challenges with resilience.

From a financial perspective, the Company booked revenues of USD1,679.9 million in 2023, a decrease of 8.2% from USD1,830.1 million in 2022. The decline was also experienced in the comprehensive income for the year by 95.8%, from USD556.76 million in 2022 to USD23.2 million in 2023. In general, this performance was due to normalized coal prices.

Despite the decline, the Company cemented its position as the only large coal miner that is not saddled with so much debt. That financial strength clears the way for the Company's rapid growth and profitable results. The Company's improved balance sheet has also given it a better opportunity for its stock to rebound.

LAPORAN DIREKSI

Report from the Board of Directors

Dari segi operasional, Perseroan menghasilkan 77,8 juta ton batubara pada 2023, meningkat dari tahun 2022 yaitu 71,9 juta ton. Penyerapan terbesar dari penjualan batubara Perseroan adalah pasar domestik (Indonesia), diikuti oleh China dan India. Pada tahun 2023, Perseroan telah memenuhi syarat Domestic Market Obligation (DMO) sebagai bentuk pertanggungjawaban dan kepatuhan terhadap peraturan yang berlaku.

Saat ini, Perseroan berfokus mengembangkan 5 (lima) aset eksisting, antara lain Citra Palu Minerals (CPM) yang sudah memproduksi emas, Gorontalo Minerals (GM) yang memiliki tambang emas dan tembaga, Dairi Prima Mineral (DPM) untuk prospek seng dan timah hitam, Linge Mineral Resources (LMR) untuk prospek emas, dan Suma Heksa Sinergi (SHS) untuk prospek emas. Perseroan akan terus melakukan sejumlah diversifikasi dan pengembangan untuk memperkuat pilar-pilar bisnisnya dan memperluas basis pelanggan.

PERBANDINGAN PENCAPAIAN KINERJA DAN TARGET

Perseroan menargetkan produksi batubara pada 2023 sebesar 75-80 juta ton, dan berhasil terealisasi sebesar 77,8 juta ton. Untuk mencapai target yang ditetapkan, berbagai tantangan perlu dihadapi dengan tepat, seperti fluktuasi harga batubara dan cuaca yang tidak ideal. Siklus komoditas yang membuat fluktuasi harga batubara perlu diwaspadai karena tidak dapat diprediksi.

Selain itu, harga batubara juga sempat tertekan oleh perusahaan batubara India yang menaikkan produksi batubaranya pada semester kedua 2023. Kenaikan produksi ini membuat India sebagai konsumen terbesar batubara memangkas impor dan membuat permintaan global menurun.

TANTANGAN DAN MITIGASI

Selain fluktuasi harga batubara yang tidak dapat diprediksi, Perseroan juga menemui berbagai tantangan, seperti melambungnya harga bahan bakar yang berkaitan erat dengan peningkatan komponen biaya operasional. Regulasi mengenai setoran sebesar 30% dari pendapatan ekspor selama 3 (tiga) bulan yang berlaku sejak 1 Agustus 2023 juga menjadi salah satu tantangan yang harus disikapi dengan tepat.

Operationally, the Company produced 77.8 million tons of coal in 2023, an increase from 71.9 million tons in 2022. The largest absorber of the Company's coal was in the domestic market (Indonesia), with China and India coming next. In 2023, the Company met the Domestic Market Obligation (DMO) requirements as a form of accountability and regulatory compliance.

Currently, the Company focuses on developing its 5 existing assets, including Citra Palu Minerals (CPM), which is already producing gold, Gorontalo Minerals (GM) with gold and copper mines, Dairi Prima Mineral (DPM) for zinc and black tin prospects, Linge Mineral Resources (LMR) for gold prospects, and Suma Heksa Sinergi (SHS) for gold prospects. The Company will continue to diversify and develop initiatives to strengthen business pillars and expand its customer base.

PERFORMANCE ACHIEVEMENT AND TARGET COMPARISON

We had set a production target of 75-80 million tons in 2023, with 77.8 million tons realized. Meeting the target involved overcoming enormous challenges such as coal price fluctuations and unfavorable weather conditions. One of our concerns was the unpredictable commodity cycle that caused the price of coal to fluctuate.

Another concern was the increase in coal production by Indian coal miners that got to press coal prices in the back half. The increased production caused India, as the largest coal consumer, to cut imports, which eventually led to weaker global demand.

CHALLENGES AND MITIGATIONS

Besides the unpredictable fluctuations in coal prices, the Company also encountered a variety of other challenges, such as soaring fuel prices that had directly impacted operational costs. The recently issued regulation, effective August 1, 2023, that requires a 30% deposit of three-month export revenue also posed a challenge that needed an appropriate response.

PROSPEK USAHA

Selaras dengan tujuan pemerintah Indonesia untuk melakukan dekarbonisasi, Perseroan akan menyelami prospek proyek hilirisasi melalui kemitraan strategis dengan pihak-pihak eksternal. Dalam memilih mitra bisnis yang tepat, Perseroan mempertimbangkan sejumlah aspek, antara lain teknologi, pembaharuan, dan pendanaan hijau. Selain itu, Perseroan juga akan menganalisis potensi keuntungan dari insentif yang diberikan oleh pemerintah.

Dalam jangka menengah, Perseroan memiliki rencana hilirisasi batubara menjadi bahan kimia dan mengupayakan proyek diversifikasi non batubara, terutama di bidang logam. Perseroan juga tengah mengamati teknologi *Carbon Capture Utilization and Storage* (CCUS) dan *Carbon Capture Storage* (CCS) sebagai tren baru dalam menghadapi transisi energi untuk mencapai target Net Zero Emission (NZE) global.

Saat ini, Perseroan memiliki cadangan batubara yang signifikan di KPC dan Arutmin, dengan perencanaan anggaran belanja modal mencapai Rp625,55 miliar di tahun 2024. Dalam proyeksi kami, harga batubara akan meningkat pada tahun 2024 yang utamanya disebabkan oleh ketidakpastian geopolitik dan permintaan batubara yang meningkat untuk konsumsi listrik di musim dingin.

Perseroan telah mendapat persetujuan dari Kementerian Energi dan Sumber Daya Mineral (ESDM) terkait Rencana Kerja dan Anggaran Biaya (RKAB) untuk Izin Usaha Pertambangan Khusus (IUPK) KPC dan Arutmin periode 2024-2026. Perseroan optimis mampu memproduksi batubara sebanyak 80 juta ton pada 2024. Target ini juga selaras dengan target volume yang ditetapkan Kementerian ESDM pada 2024 yakni sebanyak 775 juta ton.

TATA KELOLA PERUSAHAAN

Sepanjang tahun 2023, Perseroan terus menerapkan praktik tata kelola perusahaan yang baik (*Good Corporate Governance/GCG*) secara terintegrasi di semua lini usaha, termasuk entitas anak. Praktik GCG Perseroan juga mengadopsi prinsip-prinsip Pedoman Umum Governansi Korporat Indonesia (PUGKI) yang diterbitkan oleh Komite Nasional Kebijakan Governansi (KNKG), yakni perilaku beretika, akuntabilitas, transparansi, dan keberlanjutan.

BUSINESS PROSPECTS

In line with the Indonesian government's goal to decarbonize, the Company will delve into the prospects of downstream projects through strategic partnerships with external parties. When selecting the right business partners, the Company considers several aspects, including technology, innovation, and green financing. Additionally, the Company will analyze the potential benefits of incentives provided by the government.

In the medium term, the Company has a downstream plan to process coal into chemicals and to diversify non-coal projects, especially in the metal sector. The Company is also studying Carbon Capture Utilization and Storage (CCUS) and Carbon Capture Storage (CCS) technologies as new trends in addressing the energy transition to achieve global Net Zero Emission (NZE) targets.

Currently, the Company has significant coal reserves in KPC and Arutmin, for which we intend to spend Rp625.55 billion in 2024. We anticipate an increase in coal prices in 2024, owing primarily to geopolitical uncertainties, which will increase demand for coal as electricity consumption rises in the winter.

The Company has obtained approval from the Ministry of Energy and Mineral Resources (ESDM) on the 2024-2026 Work Plan and Budget (RKAB) for the Special Mining Business License (IUPK) of KPC and Arutmin. We're optimistic that we can produce 80 million tons of coal in 2024. This target is also consistent with the volume target of 775 million tons set by the Ministry of ESDM for 2024.

CORPORATE GOVERNANCE

Throughout 2023, the Company continued to implement integrated Good Corporate Governance (GCG) practices across all business lines, including subsidiaries. The Company's GCG practice also adheres to the principles of the Indonesian General Corporate Governance Guidelines (PUGKI) issued by the National Committee on Governance Policy (KNKG), which cover ethical behavior, accountability, transparency, and sustainability.

LAPORAN DIREKSI

Report from the Board of Directors

Pada 2023, Perseroan berhasil memenangkan penghargaan untuk kategori *International Risk Management* pada CIR Risk Management Awards 2023, mengalahkan 9 (sembilan) perusahaan internasional lainnya. Kategori ini merupakan satu-satunya kategori yang dapat diikuti oleh perusahaan non-United Kingdom. Penghargaan ini merupakan bentuk pengakuan atas keunggulan dan prestasi Perseroan dalam bidang manajemen risiko di tingkat internasional.

Perseroan senantiasa mengelola risiko-risiko usahanya dengan konsisten dan hati-hati dalam melalui proses yang berlapis dan terstruktur. Kami menyusuri setiap potensi risiko dan menyusun langkah mitigasi yang konkret dan solutif sehingga mampu melindungi Perseroan dari potensi dampak negatif.

Tak hanya itu, Perseroan juga sukses meraih penghargaan bergengsi dalam ajang TOP GRC Awards 2023, yang mengukuhkan kapabilitas Perseroan dalam menerapkan tata kelola, manajemen risiko, dan kepatuhan.

PERUBAHAN KOMPOSISI DIREKSI

Berdasarkan keputusan RUPS Tahunan tanggal 30 Juni 2023, Perseroan telah menyetujui pengangkatan Bapak Agoes Projosasmito sebagai Wakil Presiden Direktur, Bapak Adrian Wicaksono sebagai Direktur, Bapak Phiong Phillipus Darma sebagai Direktur, Bapak Eddy Sanusi sebagai Direktur, dan Bapak Himawan Setiadi sebagai Direktur.

Saya mengucapkan selamat datang dan selamat bergabung kepada Bapak Agoes Projosasmito, Bapak Adrian Wicaksono, Bapak Phiong Phillipus Darma, Bapak Eddy Sanusi, dan Bapak Himawan Setiadi. Berbekal pengalaman dan kompetensi yang dimiliki masing-masing anggota Direksi, kami berkomitmen untuk memberikan kontribusi yang optimal bagi pertumbuhan Perseroan di masa mendatang.

In 2023, the Company won the award for the International Risk Management category at the CIR Risk Management Awards 2023, surpassing 9 other international companies. International Risk Management is the only category contested by non-United Kingdom companies. This award is a recognition of the Company's excellence and achievements in risk management at the international level.

The Company consistently and carefully manages its business risks through layered and structured processes. We navigate through every potential risk and develop tangible and solution-oriented mitigation measures to protect the Company from potential negative impacts.

Moreover, the Company also successfully garnered prestigious awards at the TOP GRC Awards 2023, reaffirming the Company's capabilities to apply governance, risk management, and compliance.

CHANGE IN BOARD OF DIRECTORS COMPOSITION

Based on the decision of the Annual General Meeting held on June 30, 2023, the Company approved the appointment of Mr. Agoes Projosasmito as Vice President Director; and Mr. Adrian Wicaksono, Mr. Phiong Phillipus Darma, Mr. Eddy Sanusi, and Mr. Himawan Setiadi as Directors.

I extend a warm welcome to the Board and also congratulate Mr. Agoes Projosasmito, Mr. Adrian Wicaksono, Mr. Phiong Phillipus Darma, Mr. Eddy Sanusi, and Mr. Himawan Setiadi. With our respective experience and competencies as members of the Board, we are committed to making optimal contributions to the Company's growth in the future.

Sekilas BUMI

BUMI at a Glance

Usia emas yang dicapai Perseroan memberi makna tersendiri bagi perjalanan panjang Perseroan, sekaligus membuktikan kemampuan Perseroan dalam mempertahankan posisinya sebagai salah satu pemimpin industri.

The golden age achieved by the Company gives a special meaning to the Company's long journey, as well as proves the Company's ability to maintain its position as one of the industry leaders.

Perseroan didirikan pada 26 Juni 1973 dengan nama PT Bumi Modern, dengan berfokus pada bidang industri perhotelan dan pariwisata. Setelah melakukan penawaran saham perdana pada 1990 dengan kode saham BUMI, PT Bumi Modern Tbk bertransformasi dan memasuki Industri minyak, gas alam, dan pertambangan pada 1998. Seiring dengan pesatnya pertumbuhan industri pertambangan nasional, PT Bumi Modern Tbk memutuskan untuk melakukan ekspansi usaha di bidang pengolahan batubara dan barang tambang lainnya.

Pada 2000, melalui Akta Pernyataan Keputusan Rapat Perubahan Anggaran Dasar PT Bumi Modern Tbk No. 18 tanggal 5 Juli 2000, dibuat di hadapan Alfira Kencana, S.H., pengganti dari Sutjipto, S.H., Notaris di Jakarta, Perseroan melakukan perubahan nama menjadi PT Bumi Resources Tbk. Perubahan nama tersebut memperoleh pengesahan dari Kementerian Hukum

The Company was founded on June 26, 1973, as PT Bumi Modern, with a focus on the hotel and tourism industry. Following its initial public offering in 1990 under the stock code BUMI, PT Bumi Modern Tbk transformed and entered the oil, natural gas, and mining industries in 1998. In response to the rapid growth of the national mining industry, PT Bumi Modern Tbk decided to expand its operations in the processing sector of coal and other mining products.

In 2000, the Company changed its name to PT Bumi Resources Tbk on July 5, 2000, through the Deed of Statement of Meeting Resolution on Amendments to the Articles of Association of PT Bumi Modern Tbk No. 18, made in the presence of Alfira Kencana, S.H., substitute for Sutjipto, S.H., Notary in Jakarta. Riwayat Pendidikan | Educational Background

Beliau merupakan lulusan Yokohama National University, Jepang (1966).

He is a graduate of Yokohama National University, Japan (1966).

Riwayat Pekerjaan | Work Experience

Beliau memulai karirnya di Pertamina (1966-1981). Dalam 5 tahun terakhir dari masa jabatannya di Pertamina, beliau menjabat sebagai Kepala Biro Pemasaran Luar Negeri/Ekspor untuk minyak mentah dan produk minyak bumi. Selepas masa tugasnya dari Pertamina, beliau menjadi konsultan independen untuk perusahaan perdagangan minyak mentah dan produk minyak bumi internasional. Beliau yang mengeluarkan gagasan dan melaksanakan penjualan minyak mentah Indonesia dengan harga premium, bertentangan dengan kebijakan OPEC.

Pada 1984, beliau bergabung dengan Unocal Indonesia di kantor pusat Jakarta. Unocal Indonesia saat itu merupakan salah satu produsen minyak dan gas terbesar di Indonesia dan perusahaan minyak multinasional dari Amerika Serikat. Selama 10 tahun masa karirnya, beliau telah memberikan kontribusi yang signifikan terhadap keberhasilan operasional Unocal Indonesia. Beliau menghadiri berbagai konferensi mengenai industri perminyakan di Amerika Serikat, Inggris, dan Singapura.

He started his career at Pertamina (1966-1981). In the last 5 years of his tenure at Pertamina, he served as Head of the Foreign/Export Marketing Bureau for crude oil and petroleum products. After his tenure at Pertamina, he became an independent consultant for international crude oil and petroleum product trading companies. He was the one who proposed the idea and implemented the sale of Indonesian crude oil at a premium price, which contradicted OPEC policy.

In 1984, he joined Unocal Indonesia at the Jakarta head office. At that time, Unocal Indonesia was one of the largest oil and gas producers in Indonesia and a multinational oil company from the United States. During his 10-year career, he has made a significant contribution to the operational success of Unocal Indonesia. He attended various conferences on the oil industry in the United States, England, and Singapore.

He is the first Indonesian to be appointed Vice President at Unocal Indonesia, with the concurrent positions of VP Commercial Affairs and VP Government Relations. In 1994-1997, he served as CEO and President Director of Bakrie Investindo and as Deputy President Commissioner of PT Bakrie Capital Indonesia for the period 1997-1999. He previously served as Chairman of the Nomination and Remuneration Committee, and since September 14, 2021, he has served as a Member of the Company's Audit Committee and was reappointed based on a Circular Letter dated August 23, 2022.

KOMITMEN BUMI

Pengelolaan dan pengembangan Sumber Daya Manusia (SDM) memegang peranan yang sangat penting dalam menjaga ketahanan, meningkatkan daya saing, dan mendorong pertumbuhan Perseroan. Seiring dengan agresifnya kompetisi bisnis dan perubahan zaman, Perseroan harus mampu menerapkan sistem pengelolaan SDM yang terkoordinasi dan terhubung dengan baik.

Secara garis besar, pengelolaan SDM Perseroan meliputi rangkaian tahapan, proses, kebijakan, dan program, antara lain rekrutmen, penilaian dan evaluasi kinerja, remunerasi, sanksi, mutasi, rotasi, pengembangan jenjang karir, serta pelatihan dan pengembangan kompetensi. Seluruh kebijakan dan program ini bertujuan untuk mempertahankan talenta yang unggul dan kompeten serta mampu mengisi kebutuhan Perseroan dengan sesuai. Dengan keberadaan individu yang tepat di posisi yang tepat (*right man on the right place*), Perseroan mampu mengejar pertumbuhan dan mencapai target yang ditetapkan.

Perseroan menegaskan komitmennya untuk senantiasa memperlakukan setiap karyawan dengan adil, wajar, dan setara tanpa membedakan latar belakang suku, agama, ras, gender, dan kelas sosial. Perseroan tidak mempekerjakan tenaga kerja paksa atau anak di bawah umur. Lebih dari

BUMI'S COMMITMENT

The management and development of Human Resources (HR) play a crucial role in maintaining resilience, enhancing competitiveness, and driving the Company's growth. With the aggressive nature of business competition and the changing times, the Company must be able to implement a coordinated HR management system that is well-connected.

Broadly speaking, the Company's HR management encompasses a series of stages, processes, policies, and programs, including recruitment, performance assessment and evaluation, remuneration, sanctions, mutations, rotations, career development, as well as training and competency development. All of these policies and programs aim to retain excellent and competent talents who are able to meet the Company's needs appropriately. With the right individuals in the right positions, the Company can pursue growth and achieve set targets.

The Company reaffirms its commitment to treat every employee fairly, reasonably, and equally without discriminating based on ethnic background, religion, race, gender, or social class. The Company does not employ forced labor or underage workers. Furthermore, the

Untuk meningkatkan transparansi dan penyelerasan target kinerja dengan target Perseroan, maka Perseroan akan menggunakan sistem pengelolaan kinerja secara digital dengan nama BRIGHT.

To increase transparency and alignment of performance targets with Company targets, the Company will use a digital performance management system named BRIGHT.

itu, Perseroan berkomitmen penuh untuk memenuhi kewajibannya sebagai korporasi yang bertanggung jawab dan berintegritas serta senantiasa mematuhi peraturan yang berlaku.

Company is fully committed to fulfilling its obligations as a responsible and integrity-driven corporation, always adhering to applicable regulations.

FOKUS DAN KEBIJAKAN SDM TAHUN 2023

Selama tahun 2023, Perseroan berfokus untuk menjalankan inisiatif dan kebijakan yang berhubungan dengan pengelolaan SDM sebagai berikut:

1. Memastikan pemenuhan kebutuhan staf untuk pengembangan bisnis perusahaan. Perseroan berusaha untuk memenuhi kebutuhan personil untuk mendukung pengembangan bisnis melalui dua cara, yaitu dengan menggunakan SDM eksisting di perusahaan dan melakukan pengadaan SDM dari luar perusahaan. Pemenuhan SDM dari grup internal Perseroan dilakukan dengan melakukan percepatan pengembangan kompetensi sesuai dengan kebutuhan bisnis yang baru dan ini dilakukan sebagai bagian dari pengembangan karir pegawai. Kebutuhan talenta baru juga dipenuhi melalui pengadaan SDM dari sumber di luar Perseroan dengan *professional hiring*, mengingat keterbatasan jumlah pegawai yang memiliki kompetensi yang sesuai. Oleh karena itu, Perseroan harus mampu menarik talenta dari luar melalui skema remunerasi yang kompetitif.

FOCUS AND HR POLICIES FOR THE YEAR 2023

Throughout the year 2023, the Company focuses on implementing initiatives and policies related to HR management as follows:

1. Ensuring the fulfillment of staff needs for the company's business development. The Company strives to meet personnel needs to support business development through two methods: utilizing existing human resources within the company and procuring human resources from outside the company. Meeting HR needs from the Company's internal pool is accomplished by accelerating competency development in line with new business requirements, as part of employee career development. The need for new talents is also met through the procurement of human resources from external sources through professional hiring, considering the limited number of employees with relevant competencies. Therefore, the Company must be able to attract talent from outside through a competitive remuneration scheme.

Human Resources

2. Pengembangan kompetensi sesuai dengan kebutuhan bisnis Perseroan. Pengembangan kompetensi dilakukan dengan melaksanakan program pelatihan yang sistematis untuk mengasah kemampuan teknis, manajerial dan kepemimpinan dari seluruh talenta yang ada di dalam Perseroan. Kompetensi teknis yang dibangun antara lain berkaitan dengan fungsi fungsi yang ada di Perseroan dan kebutuhan kompetensi untuk hilirisasi dan mengelola peluang peluang bisnis baru yang akan di garap oleh Perseroan.
3. Meningkatkan Produktivitas dan Keterlekatan Pekerja (*Employee Engagement*). Selain harus mampu untuk menarik talenta dari luar, Perseroan harus mampu untuk mempertahankan talenta-talenta yang dimiliki oleh Perseroan saat ini. Perseroan memfokuskan pada peningkatan produktivitas pegawai dengan membekali pegawai dengan kompetensi yang sesuai dan memberikan pengalaman dan paket remunerasi yang mendorong kolaborasi dan pencapaian target target Perseroan. Hal ini dilakukan agar seluruh pegawai dapat berkontribusi dan merasa menjadi bagian dari Perseroan yang pada akhirnya akan meningkatkan kepuasan kerja dan keterlekatan (*engagement*) terhadap Perseroan.
4. Menjaga daya saing kompensasi untuk peningkatan retensi karyawan. Perseroan telah melakukan berbagai upaya untuk meningkatkan daya saing Perseroan dengan memberlakukan skema kompensasi yang menarik seperti bonus dan tunjangan serta pemberian fasilitas kerja hingga fasilitas makan siang bagi seluruh karyawan. Tingkat *turnover* karyawan terbukti sangat rendah selama tahun 2023. Hal ini merupakan bukti bahwa karyawan merasa nyaman bekerja di lingkungan Perseroan.
2. Competency development according to the Company's business needs. Competency development is carried out by implementing systematic training programs to enhance technical, managerial, and leadership skills of all talents within the Company. Technical competencies developed include those related to the Company's functions and competency needs for downstreaming and managing new business opportunities to be pursued by the Company.
3. Enhancing Productivity and Employee Engagement. In addition to being able to attract talent from outside, the Company must be able to retain the talents it currently possesses. The Company focuses on increasing employee productivity by equipping employees with relevant competencies and providing experiences and remuneration packages that encourage collaboration and achievement of the Company's targets. This is done so that all employees can contribute and feel part of the Company, ultimately enhancing job satisfaction and engagement with the Company.
4. Maintaining competitive compensation to improve employee retention. The Company has made various efforts to enhance its competitiveness by implementing attractive compensation schemes such as bonuses, allowances, and providing workplace facilities including lunch facilities for all employees. The turnover rate of employees was proven to be very low during the year 2023. This is evidence that employees feel comfortable working in the Company's environment.

KOMPOSISI KARYAWAN

Hingga 31 Desember 2023, total karyawan Perseroan berjumlah 85 orang, meningkat sebesar 23,19% dibandingkan 69 orang pada tahun 2022. Jumlah karyawan Perseroan saat ini berbanding selaras dengan tingkat produktivitas dan efektivitas kinerja yang dihasilkan.

Dikarenakan Perseroan bergerak di bidang pertambangan, maka jumlah karyawan Perseroan masih didominasi oleh karyawan pria, namun tidak terdapat pembatasan bagi karyawan wanita untuk bergabung dengan Perseroan dan mengembangkan jenjang karirnya. Perseroan memberikan kesempatan dan ruang yang sama bagi setiap individu untuk memaksimalkan talentanya dan mengaktualisasi diri.

EMPLOYEE COMPOSITION

As of December 31, 2023, the total number of employees in the Company amounted to 85 people, representing an increase of 23.19% compared to 69 people in 2022. The current number of employees in the Company is in line with the level of productivity and effectiveness of performance achieved.

Given that the Company operates in the mining sector, the majority of its employees are still male. However, there are no restrictions on female employees joining the Company and developing their careers. The Company provides equal opportunities and space for every individual to maximize their talents and self-actualize.

PROGRAM DAN KEBIJAKAN SDM

Rekrutmen

Perseroan melakukan program rekrutmen secara selektif sesuai kebutuhan dan perkembangan organisasi, serta mengisi kekosongan jabatan bila ada karyawan yang pensiun atau mengundurkan diri. Dalam proses rekrutmen, Perseroan menyeleksi kandidat dengan mempertimbangkan latar belakang pendidikan dan riwayat jabatan, melakukan uji kemampuan teknis dan tes kepribadian, serta wawancara langsung untuk memastikan kesesuaian kompetensi kandidat dengan kebutuhan Perseroan.

PROGRAMS AND HR POLICIES

Recruitment

The Company conducts recruitment programs selectively according to organizational needs and developments, as well as filling vacancies when employees retire or resign. In the recruitment process, the Company selects candidates by considering their educational background and job history, conducting technical ability tests and personality assessments, as well as conducting direct interviews to ensure the compatibility of the candidates' competencies with the Company's needs.

Program Magang

Pada 2023, Perseroan telah memberikan kesempatan kepada 9 (sembilan) mahasiswa untuk melakukan program magang di Perseroan dengan jangka waktu yang bervariasi antara 1 (satu) hingga 3 (tiga) bulan. Dalam program magang, Perseroan menyediakan pembimbing yang sesuai dengan latar belakang peserta sehingga dapat memberikan bimbingan yang relevan dan konstruktif.

Promosi

Program promosi merupakan bagian dari pengelolaan program karier dan suksesi di Perseroan. Selama tahun 2023, Perseroan telah mempromosikan sejumlah karyawan potensial untuk mengisi jabatan manajerial dengan mempertimbangkan hasil evaluasi kinerja, keahlian, potensi di masa mendatang, serta dedikasi dan loyalitas karyawan.

Rotasi dan Mutasi

Berdasarkan kesepakatan antara Perseroan dan karyawan, Perseroan dapat melakukan rotasi dan pengayaan pekerjaan (*job enrichment*) bagi karyawan. Program ini memberikan kesempatan dan peluang yang positif bagi karyawan untuk mengembangkan keahlian dan kariernya di posisi lain dengan mempertimbangkan sejumlah aspek, seperti minat, potensi, pemenuhan kekosongan jabatan, serta kondisi lainnya.

Remunerasi

Dengan mempertimbangkan kesehatan kondisi perusahaan dan hasil kinerja di tahun buku, Perseroan berupaya memberikan apresiasi kepada karyawan dalam bentuk remunerasi yang layak dan kompetitif. Komponen remunerasi karyawan terdiri dari upah dasar dan tunjangan transportasi. Selain itu, Perseroan juga memberikan bantuan biaya pendidikan untuk anak pegawai, penghargaan prestasi, serta fasilitas kesehatan termasuk perawatan gigi dan fasilitasacamata.

Perseroan terus melakukan evaluasi dan peninjauan secara berkala terhadap standar gaji dan nilai manfaat karyawan dengan mempertimbangkan standar gaji dalam lingkup grup dan di industri sejenis, kondisi perekonomian, serta kemampuan Perseroan. Sebagai bagian dari program retensi karyawan untuk level manajerial, Perseroan memberikan fasilitas kendaraan dinas kepada karyawan level tertentu dengan standar tipe kendaraan yang menarik diikuti dengan peremajaan setiap 5 (lima) tahun. Setelah 5 (lima) tahun, karyawan level manajemen diberikan hak untuk memiliki kendaraan tersebut dengan harga 50% dari rata rata harga pasar.

Internship Program

In 2023, the Company provided opportunities for 9 (nine) students to participate in an internship program with varying durations ranging from 1 (one) to 3 (three) months. During the internship program, the Company provides suitable mentors for the participants to provide relevant and constructive guidance.

Promotion

The promotion program is part of the career and succession management program at the Company. During 2023, the Company promoted a number of potential employees to fill managerial positions based on performance evaluations, skills, future potential, as well as dedication and loyalty of the employees.

Rotation and Mutation

Based on agreements between the Company and employees, the Company can carry out job rotation and enrichment for employees. This program provides opportunities and positive prospects for employees to develop their skills and careers in other positions, considering various aspects such as interests, potential, filling job vacancies, and other conditions.

Remuneration

Considering the company's financial health and performance results in the fiscal year, the Company strives to provide appreciation to employees in the form of fair and competitive remuneration. Employee remuneration components consist of basic wages and transportation allowances. Additionally, the Company provides educational assistance for employees' children, performance awards, as well as healthcare facilities, including dental care and eyeglass facilities.

The Company continues to conduct periodic evaluations and reviews of employee salary standards and benefits values, considering salary standards within the group and in similar industries, economic conditions, and the Company's capabilities. As part of the employee retention program for managerial levels, the Company provides company vehicle facilities to certain level employees with attractive vehicle type standards, followed by refurbishment every 5 (five) years. After 5 (five) years, management-level employees are given the right to own the vehicle at 50% of the average market price.

Penilaian Kinerja

Untuk menilai tingkat efektivitas dan produktivitas kinerja karyawan serta mendukung pencapaian sasaran kinerja Perseroan, setiap karyawan menyepakati kontrak kinerja dengan atasan masing masing. Kontrak kinerja ini berisi sasaran yang akan dicapai oleh pegawai disertai dengan ukuran/indikator kinerja yang akan dijadikan acuan dalam penilaian kinerja di akhir tahun.

Setiap tahunnya, Perseroan melakukan penilaian kinerja dengan menggunakan metode *Key Performance Indicators* (KPI). Hasil penilaian kinerja ini selanjutnya dijadikan acuan dalam menentukan penyesuaian gaji karyawan atau sebagai pertimbangan dalam pemberian bonus dan promosi bagi karyawan.

PELATIHAN DAN PENGEMBANGAN KOMPETENSI

Dalam upaya mengembangkan talenta dan mengasah keahlian karyawan, Perseroan menyediakan akses, kesempatan, dan ruang yang optimal bagi karyawan untuk mengikuti berbagai pelatihan atau forum pengembangan kompetensi. Program pelatihan mencakup pengembangan *hard-skill* (pengetahuan teknis sesuai lingkup kerja) dan *soft-skill* (pengembangan karakter, manajerial, kepemimpinan, dan etika kerja).

Sepanjang 2023, Perseroan telah melakukan investasi untuk seluruh pelatihan dan pengembangan kompetensi karyawan sebesar Rp203.644.821.

Performance Evaluation

To assess the effectiveness and productivity levels of employee performance and support the achievement of the Company's performance targets, each employee agrees to a performance contract with their respective supervisors. This performance contract contains the goals to be achieved by the employees along with the performance measures/ indicators that will be used as references in the performance evaluation at the end of the year.

Every year, the Company conducts performance evaluations using the Key Performance Indicators (KPI) method. The results of these performance evaluations are then used as a reference in determining salary adjustments for employees or as considerations in providing bonuses and promotions for employees.

TRAINING AND COMPETENCY DEVELOPMENT

In an effort to develop talent and hone employees' skills, the Company provides optimal access, opportunities, and space for employees to participate in various training or competency development forums. Training programs include the development of hard skills (technical knowledge relevant to the scope of work) and soft skills (character development, managerial skills, leadership skills, and work ethics).

Throughout 2023, the Company has invested a total of Rp203,644,821 in training and competency development for all employees.

Serikat Pekerja

Sebagai salah satu implementasi klausul penghormatan Hak Asasi Manusia (HAM) di dunia bisnis, Perseroan memberikan kebebasan kepada karyawan untuk berserikat dan berkumpul sebagaimana tercantum dalam Buku Panduan Pedoman Perilaku (*Code of Conduct*). Walaupun karyawan Perseroan saat ini belum membentuk serikat pekerja secara independen, komunikasi karyawan dan Perseroan tetap berjalan melalui berbagai media komunikasi yang ada.

RENCANA STRATEGI 2024

Di tahun 2024, Perseroan menghadapi berbagai tantangan bisnis yang semakin kompetitif, oleh karena itu, Perseroan akan menjalankan berbagai strategi sebagai berikut:

Perbaikan sistem Pengelolaan Kinerja

Sistem pengelolaan kinerja adalah merupakan cara Perseroan untuk menyelaraskan perilaku seluruh karyawan dengan tujuan organisasi secara berkelanjutan. Proses penentuan sasaran kinerja di level korporasi harus sesuai dengan dengan arah pengembangan bisnis Perseroan untuk kedepannya untuk menjamin kelangsungan bisnis Perseroan (*business continuity*).

Identifikasi peluang-peluang bisnis baru sudah dilakukan oleh Perseroan dengan melibatkan konsultan yang ahli dibidangnya. Selanjutnya, sasaran bisnis tersebut harus di turunkan menjadi sasaran divisi/departemen agar tiap fungsi yang ada di perseroan bisa berkontribusi dalam pencapaian sasaran sesuai dengan tanggung jawab masing masing. Perilaku pegawai juga harus selaras dengan sasaran divisi atau departemen dengan menterjemahkannya menjadi sasaran individu.

Oleh karena itu, Perseroan akan memperkenalkan sistem pengelolaan kinerja yang baru dengan menggunakan pendekatan *balanced scorecard*, di mana Perseroan tidak hanya mengukur perspektif finansial saja, melainkan juga perspektif pelanggan, internal bisnis proses, dan pembelajaran dan pengembangan.

Untuk meningkatkan transparansi dan penyelarasan target kinerja dengan target Perseroan, maka Perseroan akan menggunakan sistem pengelolaan kinerja secara digital dengan nama BRIGHT.

Trade Union

As one of the implementations of the clauses respecting Human Rights (HR) in the business world, the Company grants freedom to employees to unionize and assemble as stated in the Code of Conduct. Although the Company's employees have not yet formed independent trade unions, communication between employees and the Company continues through various communication channels.

STRATEGIC PLAN FOR 2024

In 2024, the Company faces various increasingly competitive business challenges; therefore, the Company will execute various strategies as follows:

Improvement of Performance Management System

The performance management system is the Company's way to sustainably align the behavior of all employees with the organization's goals. The process of determining performance targets at the corporate level must align with the Company's future business development direction to ensure business continuity.

The Company has identified new business opportunities involving expert consultants in the field. Subsequently, these business goals need to be translated into division/department goals so that each function within the Company can contribute to achieving goals in line with their respective responsibilities. Employee behavior must also align with division or department goals by translating them into individual goals.

Therefore, the Company will introduce a new performance management system using the balanced scorecard approach, where the Company measures not only the financial perspective but also the customer perspective, internal business processes, and learning and development perspective.

To increase transparency and alignment of performance targets with Company targets, the Company will use a digital performance management system named BRIGHT.

Digitalisasi Proses Kerja

Digitalisasi proses kerja dan pemantauan kinerja menjadi sebuah kharusan jika Perseroan ingin meningkatkan akurasi data dan kecepatan dalam pengambilan keputusan. Perseroan akan menerapkan digitalisasi pada proses pengelolaan SDM seperti manajemen kinerja, pengadaan barang dan jasa (*procurement*), pengelolaan kehadiran dan cuti pegawai, dan lain lain.

Pengelolaan proses perubahan akan dikelola secara sistematis untuk memastikan adopsi digital dan perubahan perilaku pegawai benar benar terjadi. Cara yang akan ditempuh antara lain melakukan pelatihan kepada seluruh pegawai terkait dengan penggunaan system baru tersebut dan menunjuk “agent of change” untuk meminimalkan resistensi dan mempercepat program digitalisasi proses kerja.

Pengelolaan Talenta dan Karir Pegawai

Pengelolaan talenta akan menjadi fokus pengembangan pegawai guna mendorong kesiapan calon pengganti untuk mengisi posisi kunci di Perseroan. Perencanaan karir dilakukan untuk tiap tiap karyawan untuk memberikan sasaran pengembangan dan penugasan bagi tiap pegawai. Pelatihan dan pengembangan akan tetap dilanjutkan dengan fokus utama pada peningkatan kompetensi teknis, manajerial dan kepemimpinan.

Pembuatan dan Pengkajian Ulang Kebijakan untuk Mendukung Transformasi

Proses kerja dengan memanfaatkan aplikasi digital harus diatur dengan kebijakan yang sesuai untuk memastikan perubahan perilaku karyawan secara permanen. SOP yang tidak sesuai akan dikaji ulang dan direvisi agar tidak menjadi penghambat proses perubahan. Dengan pembaruan kebijakan dan SOP ini, efektivitas dan efisiensi proses kerja akan benar-benar bisa dipastikan agar Perseroan mampu untuk mencapai sasaran bisnis dan memenangkan persaingan di masa yang akan datang.

Digitalization of Work Processes

Digitalization of work processes and performance monitoring is imperative if the Company wants to improve data accuracy and speed in decision-making. The Company will implement digitalization in HR processes such as performance management, procurement, employee attendance and leave management, and others.

Change management processes will be managed systematically to ensure the adoption of digital and behavioral changes among employees. Methods to be employed include training all employees on the use of the new system and appointing “agents of change” to minimize resistance and accelerate the digitalization of work processes.

Talent and Employee Career Management

Talent management will be the focus of employee development to encourage the readiness of potential successors to fill key positions in the Company. Career planning will be conducted for each employee to provide development goals and assignments. Training and development will continue with a primary focus on enhancing technical, managerial, and leadership competencies.

Development and Review of Policies to Support Transformation

Work processes using digital applications must be regulated with appropriate policies to ensure permanent changes in employee behavior. Inappropriate standard operating procedures (SOPs) will be reviewed and revised to avoid hindering the change process. With the update of policies and SOPs, the effectiveness and efficiency of work processes can truly be ensured so that the Company can achieve its business goals and win in future competition.

Application Development and Technology Support

The *Daily Production Dashboard* provides *real-time* visibility into daily production, allowing for more efficient monitoring of operational performance. The *Real-time Fuel Level Dashboard* enables direct monitoring of fuel levels, aiding in logistics planning and inventory management. The *General Info Portal* provides easy access to commonly needed information across various departments, facilitating effective collaboration and information exchange.

SiHepi *Integrated Helpdesk System* mengintegrasikan layanan *help desk* secara komprehensif, memungkinkan pengelolaan masalah teknis yang lebih efisien. *Fuel Control Tower Dashboard* memberikan wawasan mendalam tentang penggunaan bahan bakar, membantu dalam pengelolaan biaya operasional yang lebih efisien. Sementara itu, The Post-Blast app membantu dalam manajemen paskapeledakan, termasuk pemantauan dampak lingkungan dan keselamatan setelah proses peledakan selesai.

Water level monitoring system memberikan pemantauan langsung terhadap tingkat air, membantu dalam pengambilan keputusan terkait manajemen lingkungan dan keselamatan. *Life of Mine dashboard* membantu memberikan pemahaman mendalam tentang siklus hidup penambangan, membantu dalam perencanaan strategis jangka panjang. *Project Online Initiative* memungkinkan manajemen proyek secara *online*, memfasilitasi kolaborasi antara tim proyek dan pemantauan kemajuan proyek secara *real-time*.

Road Heatmap memberikan informasi tentang kondisi jalan di area penambangan, membantu dalam perencanaan rute transportasi yang lebih efisien. *Advanced Blending Optimization* bertujuan untuk meningkatkan efisiensi operasional dengan mengoptimalkan proses pencampuran batubara. *Acid mine drainage generator* membantu dalam mengelola limbah tambang untuk mengurangi dampak lingkungan.

Selain itu, *workshop* terkait keamanan siber meningkatkan pemahaman dan kesadaran terhadap keamanan siber di seluruh organisasi. *Coal flow coordination command* membantu dalam mengoordinasikan aliran batubara untuk memastikan pengiriman yang tepat waktu dan efisien. *Arutmin Integrated Management System* mengintegrasikan manajemen operasional di lokasi tambang Arutmin, meningkatkan efisiensi dan responsivitas.

The SiHepi Integrated Helpdesk System integrates comprehensive help desk services, enabling more efficient management of technical issues. The Fuel Control Tower Dashboard offers deep insights into fuel usage, aiding in more efficient operational cost management. Meanwhile, the Post-Blast app assists in post-blasting management, including monitoring environmental impacts and safety after the blasting process.

The Water Level Monitoring System provides direct monitoring of water levels, aiding in decision-making related to environmental management and safety. The Life of Mine dashboard provides a deep understanding of the mining lifecycle, assisting in long-term strategic planning. The Project Online Initiative allows for online project management, facilitating collaboration among project teams and real-time project progress monitoring.

The Road Heatmap provides information on road conditions in mining areas, aiding in more efficient transportation route planning. Advanced Blending Optimization aims to enhance operational efficiency by optimizing coal blending processes. The Acid Mine Drainage Generator assists in managing mine waste to reduce environmental impacts.

Furthermore, cybersecurity awareness workshops enhance understanding and awareness of cybersecurity throughout the organization. The Coal Flow Coordination Command helps coordinate coal flow to ensure timely and efficient deliveries. The Arutmin Integrated Management System integrates operational management at Arutmin mining sites, enhancing efficiency and responsiveness.

ANALISIS DAN PEMBAHASAN MANAJEMEN

Management Discussion and Analysis

BUMI, KPC, dan Arutmin terus memperkuat komunikasi dengan Pemerintah untuk memastikan rencana hilirisasi batubara yang ditetapkan pemerintah dapat dilaksanakan secara efektif dan memberikan nilai tambah bagi seluruh pihak yang terlibat.

BUMI, KPC, and Arutmin continue to strengthen communication with the government to ensure that the coal downstream plans established by the government can be implemented effectively and provide additional benefits for all parties involved.

TINJAUAN MAKRO EKONOMI

Macro Economic Review

Di tengah membaranya tensi geopolitik, perubahan iklim, tingginya inflasi, dan kenaikan suku bunga yang menekan pemulihan ekonomi global, Indonesia berhasil mencatatkan pertumbuhan apresiatif sebesar 5,05%. Capaian ini sedikit menurun dari tahun 2022 yaitu 5,31% yang utamanya disebabkan oleh dampak pelemahan ekonomi global.

Pertumbuhan ekonomi nasional pada 2023 utamanya ditopang oleh komponen pengeluaran konsumsi rumah tangga yang tumbuh sebesar 4,82% (yoy) dan Pembentukan Modal Tetap Bruto (PMTB) yang mencapai 4,40% (yoy). Dari sisi lapangan usaha, sektor yang mengalami pertumbuhan signifikan adalah transportasi dan pergudangan sebesar 13,96% (yoy). Sedangkan dari sisi pengeluaran, pertumbuhan tertinggi dialami oleh konsumsi lembaga non-profit rumah tangga (LNPRT) sebesar 9,83% (yoy).

Dengan capaian ekonomi yang berhasil diraih Indonesia sepanjang 2023, Indonesia menjadi salah satu negara yang terbukti tumbuh kuat dan tangguh dibandingkan sejumlah negara lainnya, antara lain Malaysia (3,77%) dan Republik Korea Selatan (1,36%), Amerika Serikat (2,5%), Perancis (0,9%), maupun Jerman yang mengalami kontraksi (-0,3%).

Amidst the escalating geopolitical tensions, climate change dynamics, soaring inflation rates, and the pressure of rising interest rates impeding global economic recovery, Indonesia has managed to register appreciable growth at 5.05%. This achievement marks a slight decline from the preceding year of 2022, which stood at 5.31%, primarily attributed to the repercussions of global economic downturn.

The national economic growth in 2023 was predominantly underpinned by the components of household consumption expenditure, which grew by 4.82% (yoy), and Gross Fixed Capital Formation (GFCF) reaching 4.40% (yoy). From a sectoral standpoint, significant growth was witnessed in the transportation and warehousing sector at 13.96% (yoy). Meanwhile, from the expenditure perspective, the highest growth was experienced in the consumption of non-profit institutions serving households (NPISH) at 9.83% (yoy).

With the economic achievements realized throughout 2023, Indonesia emerges as one of the countries that have demonstrated robust and resilient growth compared to several others, including Malaysia (3.77%), the Republic of South Korea (1.36%), the United States (2.5%), France (0.9%), and Germany, which experienced contraction (-0.3%).

Total penjualan batubara Perseroan pada tahun 2023 mencapai 78,7 juta ton, meningkat dari tahun 2022 yaitu 69,4 juta ton. Berikut adalah klasifikasi pencapaian penjualan batubara Perseroan berdasarkan berbagai segmen.

The total coal sales of the Company in 2023 reached 78.7 million tons, an increase from 69.4 million tons in 2022. Below is the classification of the Company's coal sales achievement based on various segments.

TINJAUAN INDUSTRI BATUBARA

Coal Industry Overview

Mengutip data Kementerian Energi dan Sumber Daya Mineral (ESDM), capaian produksi batubara Indonesia sepanjang 2023 berhasil melampaui target yang ditetapkan dan mencapai rekor tertinggi sepanjang sejarah. Berdasarkan data dari Minerba One Map Indonesia (MODI), produksi batubara Indonesia terealisasi sebesar 770,2 juta ton pada 2023, meningkat dari tahun 2022 yakni 685,8 juta ton. Capaian ini melampaui target yang ditetapkan di awal tahun sebesar 694,50 juta ton dengan persentase capaian sebesar 110,90%.

Dari sisi ekspor, realisasi ekspor tercatat sebesar 406,67 juta ton, mencapai 88,41% dari rencana yang ditargetkan yaitu 460 juta ton. Sedangkan terkait DMO, jumlah DMO yang terealisasi adalah sebesar 71,06 juta ton, mencapai 40,19% dari target DMO yang ditetapkan pemerintah yakni 176,80 juta ton.

Quoting data from the Ministry of Energy and Mineral Resources (ESDM), Indonesia's coal production achievement throughout 2023 has surpassed the set target, reaching a historic high. According to data from the Minerba One Map Indonesia (MODI), Indonesia's coal production amounted to 770.2 million tons in 2023, an increase from 685.8 million tons in 2022. This achievement exceeded the initial year target of 694.50 million tons by 110.90%.

On the export front, the realization of exports stood at 406.67 million tons, achieving 88.41% of the targeted plan of 460 million tons. Concerning the Domestic Market Obligation (DMO), the realized DMO amounted to 71.06 million tons, reaching 40.19% of the government's set DMO target of 176.80 million tons.

TINJAUAN INDUSTRI BATUBARA

Coal Industry Overview

Kinerja industri batubara selama tahun 2023 dipengaruhi oleh harga yang relatif baik, tingkat permintaan yang tinggi, dan faktor cuaca yang cukup mendukung. Pemakaian batubara domestik juga mengalami peningkatan dari target yang ditetapkan, yaitu sebesar 177 juta ton. Hal ini disebabkan meningkatnya tingkat permintaan karena adanya tambahan Pembangkit Listrik Tenaga Uap (PLTU) baru dari proyek-proyek 35 GW yang sedang diselesaikan.

Capaian realisasi investasi subsektor mineral dan batubara (minerba) sampai dengan 31 Desember 2023 adalah sebesar USD7,46 miliar atau 96,8% dari target tahun 2023 sebesar USD7,7 miliar. Peningkatan investasi di sektor pertambangan mendorong peningkatan produksi dan penjualan komoditas tambang yang membutuhkan lebih banyak tenaga kerja.

Pada 2023, penggunaan teknologi di sektor pertambangan juga mencatatkan kemajuan yang positif, terutama untuk kegiatan eksplorasi, produksi, dan pengolahan. Peningkatan penggunaan teknologi berperan signifikan dalam mendorong peningkatan efisiensi dan produktivitas, yang pada akhirnya berdampak pada peningkatan kapasitas tenaga kerja sektor pertambangan.

The performance of the coal industry during 2023 was influenced by relatively favorable prices, high demand levels, and supportive weather conditions. The utilization of domestic coal also saw an increase from the set target of 177 million tons, driven by the rising demand due to the addition of new Steam Power Plants (PLTU) from the ongoing 35 GW projects.

The realization of investment in the mineral and coal subsector (minerba) until December 31, 2023, amounted to USD 7.46 billion, or 96.8% of the 2023 target of USD 7.7 billion. Increased investment in the mining sector has propelled the increase in production and sales of mining commodities, requiring more labor force.

In 2023, the use of technology in the mining sector also showed positive progress, especially in exploration, production, and processing activities. The increased use of technology played a significant role in driving efficiency and productivity improvements, ultimately impacting the increase in the workforce capacity of the mining sector.

STRATEGI BISNIS DAN PENGEMBANGAN USAHA

Business Strategy and Business Development

BUMI saat ini menjajaki usaha bisnis baru di luar batubara dan mempersiapkan bisnis di sektor hilir batubara, Mineral, Logam, dan Energi. Kami mencari mitra strategis dalam bisnis ini yang dapat memberi kami teknologi dan wawasan. Selain itu, BUMI juga berupaya mengatasi permasalahan global, Kami juga melakukan kajian dekarbonisasi sebagai salah satu solusi untuk mengimbangi potensi dampak lingkungan.

BUMI currently looking at a new business venture beyond coal and exercising the detailed business case of downstream coal, Minerals, Metals and Energy Sector. We are looking for strategic partners in this business who could provide us with technology and insights. Additionally, BUMI is addressing global issues, We are also engaging in a study of decarbonization as one of the solutions to offset any potential environmental impacts.

Kami masih merupakan perusahaan batubara termal, namun kami unik karena strategi kami dalam memasuki dunia yang semakin sadar lingkungan. Kami adalah perusahaan bahan bakar fosil, namun kami ingin berinvestasi dalam cara memitigasi dampak lingkungan apa pun. Termasuk menjajaki sektor energi alternatif.

Sehubungan dengan strategi kemitraan kami, BUMI mencari mitra yang bersedia berkembang bersama BUMI. Mereka dapat berperan sebagai investor, operator, atau kontraktor bisnis baru kita. Karena proyek-proyek baru tersebut sebagian besar merupakan bisnis baru bagi BUMI, maka kami terbuka untuk berkolaborasi dengan mitra lokal yang potensial dan perusahaan global lainnya, agar proyek dapat terealisasi dengan sukses.

Tahap pengembangan terdepan kami, proyek hilirisasi batubara yang ditujukan untuk memproduksi amonia, kini berada pada tahap akhir dengan bermitra dengan perusahaan milik negara asal Tiongkok yang sudah matang dalam teknologi gasifikasi batubara. Hal ini menunjukkan bahwa bermitra dengan perusahaan yang memiliki keahlian di bidang teknologi merupakan salah satu strategi utama yang dilakukan BUMI.

BUMI, KPC, dan Arutmin terus memperkuat komunikasi dengan Pemerintah untuk memastikan rencana hilirisasi batubara yang ditetapkan pemerintah dapat dilaksanakan secara efektif dan memberikan nilai tambah bagi seluruh pihak yang terlibat. Dukungan pemerintah melalui Peraturan Menteri Nomor 8 Tahun 2023 dengan memasukkan proyek gasifikasi batubara di Kutai Timur sebagai salah satu Proyek Strategis Nasional (PSN) merupakan langkah awal positif dari Pemerintah untuk mempercepat hilirisasi batubara.

Semua rencana strategis tersebut tentu tidak mudah dan penuh tantangan. BUMI akan terus berkomitmen untuk menjalankan seluruh rencana tersebut dengan tata kelola yang baik demi keberlangsungan bisnis Perusahaan di masa depan.

We are still a thermal coal company, but we are unique because of our strategy of navigating into an increasingly environmentally conscious world. Yet, we are a fossil fuel company, but we want to invest in ways to mitigate any environmental impacts. This includes exploring alternative energy sectors.

Regarding our partnering strategy, BUMI seeking partners who are willing to venture with BUMI. It can be either investors, operators, or contractors to our new business. As the new projects mostly are new businesses for BUMI, we are thus open to collaborate with right potential partners from Middle East, China, Europe, and other global companies, to realize projects successfully.

Our most advanced stage of development, the coal downstream project aimed at producing ammonia, is now in its final stage of partnering with a well-known Chinese state-owned company that is mature in coal gasification technology. This indicates that partnering with a company possessing expertise in technology is one of the key strategies undertaken by BUMI.

BUMI, KPC, and Arutmin continue to strengthen communication with the government to ensure that the coal downstream plans established by the government can be implemented effectively and provide additional benefits for all parties involved. Government support through Ministerial Regulation No. 8 of 2023 has included the coal gasification project in Kutai Timur as one of the National Strategic Projects (PSN), which is a positive initial step by the Government to accelerate coal downstreaming.

All of these strategic plans are certainly not easy and are highly challenging. BUMI will continue to commit to executing all of these plans with good governance for the sustainability of the company's business in the future.

Perseroan merupakan pemilik terbesar cadangan dan sumber daya batubara di Indonesia, dengan kapasitas masing-masing sebanyak 2,5 miliar MT dan 8,5 miliar MT, sehingga total mencapai 11,0 miliar MT. Segmen usaha ini dikelola oleh PT Kaltim Prima Coal (KPC), PT Arutmin Indonesia (Arutmin), dan PT Pendopo Energi Batubara. Alur produksi batubara akan dijelaskan dalam sub bab pembahasan Kinerja Entitas Anak, di mana masing-masing Entitas Anak akan menjabarkan alur produksi, kapasitas, dan perkembangan usahanya.

The Company is the largest owner of coal reserves and resources in Indonesia, with respective capacities of 2.5 billion MT and 8.5 billion MT, totaling 11.0 billion MT. This business segment is managed by PT Kaltim Prima Coal (KPC), PT Arutmin Indonesia (Arutmin), and PT Pendopo Energi Batubara. The coal production process will be elucidated in the sub-section discussing the Performance of Subsidiaries, wherein each Subsidiary will outline its production process, capacity, and business development.

SEGMENT BISNIS MINERAL/NON-BATUBARA

Sejak 2010, Perseroan telah mengintegrasikan seluruh aset tambang mineral non-batubara di bawah PT Bumi Resources Minerals Tbk (BRMS). Strategi ini bertujuan untuk mengembangkan aset secara konsisten hingga masuk tahap produksi komersial. BRMS merupakan perusahaan publik yang tercatat di BEI sejak 2010 dan saat ini berada di bawah manajemen independen yang berfokus pada pengembangan aset-aset ini hingga tahap produksi. Kegiatan usaha BRMS dijalankan oleh berbagai unit operasional, yakni Dairi Prima Mineral yang memproduksi seng dan timah hitam, Citra Palu Minerals yang memproduksi emas, Gorontalo Minerals yang memproduksi emas dan tembaga, dan Linge Mineral Resources yang memproduksi emas.

NON-COAL/MINERAL BUSINESS SEGMENT

Since 2010, the Company has integrated all non-coal mineral assets under PT Bumi Resources Minerals Tbk (BRMS). This strategy aims to consistently develop the assets until they reach the commercial production stage. BRMS is a publicly listed company on the Indonesia Stock Exchange (BEI) since 2010 and is currently under independent management focusing on the development of these assets to the production stage. BRMS's business activities are carried out by various operational units, namely Dairi Prima Mineral producing zinc and lead, Citra Palu Minerals producing gold, Gorontalo Minerals producing gold and copper, and Linge Mineral Resources producing gold.

KINERJA ENTITAS ANAK

Performance of Subsidiaries

PT Kaltim Prima Coal (KPC)

Sejak 1 Januari 2022, KPC telah memiliki Izin Usaha Pertambangan Khusus (IUPK) dari pemerintah Indonesia untuk melaksanakan eksplorasi, produksi, dan pemasaran batubara di wilayah seluas 61.543 hektar di Sangatta dan Bengalon, Kabupaten Kutai Timur, Provinsi Kalimantan Timur.

Tambang Sangatta merupakan tambang terbesar di Indonesia dan salah satu yang terbesar di dunia. Memproduksi batubara tipe *bituminous* dan *sub-bituminous*, tambang ini berlokasi dekat dengan fasilitas-fasilitas pelabuhan di Tanjung Bara yang terhubung dengan lokasi tambang melalui *overland conveyor* (OLC) sepanjang 13 kilometer. Keberadaan jalur OLC kedua dan peningkatan fasilitas pemuatan tongkang mendukung peningkatan produksi di tahun-tahun mendatang.

Memproduksi batubara tipe *bituminous*, tambang Bengalon juga berlokasi dekat dengan pantai dan terhubung dengan fasilitas pelabuhan melalui jalan sekitar 25 km. Lokasi yang dekat dengan pelabuhan memberikan keuntungan bagi KPC, salah satunya efisiensi biaya transportasi dari lokasi tambang ke lokasi pelabuhan.

KPC memproduksi 4 (empat) jenis batubara:

1. Prima, batubara berkualitas unggul dengan kalori tinggi, memiliki kandungan abu sangat rendah dan kandungan sulfur menengah dengan kelembaban rendah.
2. Pinang, memiliki kalori yang lebih rendah dari Prima dengan tingkat kelembaban yang lebih tinggi.
3. Melawan, batubara *sub-bituminous* dengan kandungan sulfur dan abu rendah, serta tingkat kelembaban yang tinggi.
4. KPC 4200, batubara *sub-bituminous* dengan kalori lebih rendah dari Melawan, kandungan sulfur dan abu rendah, serta tingkat kelembaban yang tinggi.

Pada 2023, KPC mencatat total produksi batubara (siap jual) dari tambang Sangatta dan Bengalon mencapai 53,6 juta ton, meningkat sebesar 9% dari sebesar 49,2 juta ton di tahun 2022. Produksi ini didukung oleh fasilitas pemrosesan dan pengiriman batubara dengan kapasitas sebesar 60 juta ton per akhir 2023.

PT Kaltim Prima Coal (KPC)

In January 1, 2022, KPC obtained a Special Mining Business License (IUPK) from the Indonesian government to conduct exploration, production, and marketing of coal in an area spanning 61,543 hectares in Sangatta and Bengalon, Kutai Timur Regency, East Kalimantan Province.

Sangatta Mine is the largest coal mine in Indonesia and one of the largest in the world. Producing bituminous and sub-bituminous coal, this mine is located near port facilities in Tanjung Bara connected to the mine site via a 13-kilometer overland conveyor (OLC). The presence of a second OLC line and enhancements in barge loading facilities support increased production in the coming years.

Producing bituminous coal, Bengalon Mine is also located near the coast and connected to port facilities via a road approximately 25 km away. The proximity to the port provides advantages for KPC, including cost-efficient transportation from the mine site to the port.

KPC produces 4 (four) types of coal:

1. Prima, superior quality coal with high calorific value, very low ash content, medium sulfur content, and low moisture content.
2. Pinang, with lower calorific value than Prima and higher moisture content.
3. Melawan, sub-bituminous coal with low sulfur and ash content, and high moisture content.
4. KPC 4200, sub-bituminous coal with lower calorific value than Melawan, low sulfur and ash content, and high moisture content.

In 2023, KPC recorded a total coal production (saleable) from Sangatta and Bengalon mines reaching 53.6 million tons, a 9% increase from 49.2 million tons in 2022. This production is supported by coal processing and delivery facilities with a capacity of 60 million tons by the end of 2023.

PT Arutmin Indonesia (Arutmin)

Arutmin beroperasi di area konsesi seluas 34.207 hektar di Blok 6 Kalimantan, yang mencakup sejumlah area sempit di sebelah tenggara Kalimantan dan ujung utara Pulau Laut. Arutmin mengelola 6 (enam) tambang batubara terbuka (*open cut*) yaitu Senakin, Satui, Mulia/Jumbang, Sarongga, Asam-asam, dan Kintap. Seluruh tambang memiliki lokasi strategis tidak jauh dari fasilitas pelabuhan milik Arutmin – North Pulau Laut Coal Terminal (NPLCT) yang terletak di pesisir utara Pulau Laut.

Tambang Senakin memproduksi batubara *bituminous*. Batubara tersebut dipecah, dipisahkan, dan kemudian dicuci untuk mengurangi kandungan abunya dan meningkatkan harga jualnya.

Tambang Satui memproduksi batubara bituminous yang harus dipecah namun tidak perlu dicuci karena memiliki kandungan abu yang rendah. Tambang Mulia/Jumbang, Asam Asam, dan Kintap memproduksi batubara *ecocoal* (*sub-bituminous*) yang banyak digunakan untuk pembangkit listrik tenaga uap di dalam dan luar negeri. Batubara tersebut memiliki kandungan belerang dan abu yang sangat rendah sehingga dikategorikan sebagai batu bara ramah lingkungan.

Tambang Sarongga memproduksi batubara kalori rendah (*low sub-bituminous*). Batubara Tambang Sarongga memiliki kandungan abu, belerang, dan CV yang rendah. Batubara dipecah dan banyak digunakan untuk pembangkit listrik tenaga uap.

Pada 2023, total produksi batubara di tambang Arutmin mencapai 23,8 juta ton, meningkat 8,9% dari produksi 21,8 juta ton di 2022. Saat ini, Arutmin beroperasi dengan izin IUPK yang berlaku selama 10 tahun hingga 2 November 2030.

PT Arutmin Indonesia (Arutmin)

Arutmin operates in a concession area of 34,207 hectares in Block 6 Kalimantan, which covers a narrow strip of land in the southeast of Kalimantan and the northern tip of Laut Island. Arutmin manages 6 (six) open cut coal mines namely Senakin, Satui, Mulia/Jumbang, Sarongga, Asam-asam and Kintap. All mines are strategically located near Arutmin's port facility - the North Pulau Laut Coal Terminal (NPLCT) located on the north coast of Laut Island.

The Senakin mine produces bituminous coal. The coal is broken, separated and then washed to reduce its ash content and increase its selling price.

The Satui mine produces bituminous coal which must be broken but does not need to be washed as it has a low ash content. The Mulia/Jumbang, Asam Asam and Kintap mines produce ecocoal (sub-bituminous) coal which is widely used for steam power generation at home and abroad. The coal has a very low sulfur and ash content and is therefore categorized as environmentally friendly coal.

Sarongga Mine produces low calorie coal (low sub-bituminous). Sarongga Mine coal has low ash, sulfur and CV content. The coal is broken down and widely used for steam power generation.

In 2023, total coal production at Arutmin's mines reached 23.8 million tons, an increase of 8.9% from the production of 21.8 million tons in 2022. Currently, Arutmin operates under an IUPK license valid for 10 years until November 2, 2030.

PT Pendopo Energi Batubara (PEB)

Didirikan pada 1995, PEB telah memiliki Perjanjian Karya Pengusahaan Pertambangan Batubara (PKP2B) generasi ketiga dengan pemerintah Indonesia. Berlokasi di Muara Enim dan Pali, Sumatera Selatan, 140 km barat daya Palembang, tambang PEB dapat diakses melalui jalan provinsi, Sungai Musi/Lematang, dan dilintasi jalan khusus batubara milik pihak ketiga sepanjang ±116 km yang menghubungkan Lahat dengan pelabuhan batubara di Sungai Musi.

PEB memiliki konsesi seluas 17.840 hektar dengan izin operasi selama 30 tahun, sejak 5 Mei 2009 sampai 4 Mei 2039 dengan opsi perpanjangan izin selama 2x10 tahun. Berdasarkan studi kelayakan yang dilakukan oleh konsultan pertambangan independen dengan metode JORC, PEB memiliki sumber daya batubara potensial sebesar 2,3 miliar ton dan 1,3 miliar ton cadangan

PT Pendopo Energi Batubara (PEB)

Established in 1995, PEB has obtained a third-generation Coal Mining Business Work Agreement (PKP2B) with the Indonesian government. Located in Muara Enim and Pali, South Sumatra, 140 km southwest of Palembang, PEB's mines can be accessed via provincial roads, the Musi/Lematang River, and a ±116 km dedicated coal road connecting Lahat to the coal port on the Musi River.

PEB holds a concession covering 17,840 hectares with a 30-year operational permit, valid from May 5, 2009, to May 4, 2039, with an option for a 2x10 year extension. Based on a feasibility study conducted by an independent mining consultant using the JORC method, PEB has potential coal resources of 2.3 billion tons and coal reserves of 1.3 billion tons. PEB obtained feasibility study results and production

batubara. PEB memperoleh hasil studi kelayakan dan izin produksi dengan kapasitas 7,6 juta ton per tahun sejak 2006, sesuai surat Direktur Pembinaan Pengusahaan Mineral dan Batubara No. 360/48/DPP/2006.

PEB mendapatkan izin operasi/produksi sesuai dengan Surat Keputusan Menteri Energi dan Sumber Daya Mineral No. 325.K/30/DJB/2009 tanggal 1 Juli 2009 dan perubahannya dengan No. 686.K/30/DJB/2011 tanggal 30 Maret 2011. Sumber daya batubara Pendopo dikategorikan sebagai batubara muda, memiliki kandungan kelembaban (IM) 16,4-27% dengan total kelembaban (TM) antara 55-60%, kandungan abu 4-8%, kandungan sulfur rendah (<0,2%) dan kandungan kalori di bawah 3.000 kcal/kg (GAR).

PEB bekerja sama dengan para mitra strategis untuk mengembangkan industri-industri batubara kalori rendah yang bernilai tambah, meliputi PLTU Mulut Tambang, *coal upgrading*, dan *coal gasification/liquefaction*. PEB juga melakukan penjualan batubara secara langsung ke PLTU Mulut Tambang baik yang telah beroperasi maupun yang akan dibangun, serta kepada pembeli lainnya untuk tujuan domestik dan luar negeri.

Sejak kuartal akhir 2022, PEB telah melakukan penjualan komersial perdana kepada pihak *Coal Trader* dan berlanjut dengan pengiriman secara rutin minimal 2 (dua) tongkang per bulan untuk tujuan domestik. Penjualan ini terus berlanjut dan meningkat. Per akhir tahun 2023, PEB berhasil melakukan penjualan secara komersial sebesar 242.000 ton.

Terkait proyek PLTU Mulut Tambang, seiring dengan perubahan kebijakan pemerintah untuk tidak lagi membangun pembangkit listrik berbahan bakar batubara, PEB sedang menjajaki kerja sama secara intensif dengan mitra strategis guna membangun pembangkit listrik secara *hybrid* (batubara dengan pembangkit listrik alternatif lainnya). PEB juga menjajaki alternatif lainnya dengan membangun PLTU untuk kepentingan sendiri (*captive*) di mana penggunaannya adalah industri-industri yang akan dibangun di Pendopo. Saat ini, PEB tengah membuat kajian pembangunan industri di Pendopo untuk tetap memanfaatkan cadangan batubara yang sangat besar di PEB.

Sehubungan proyek *coal upgrading* dan *coal gasification*, saat ini PEB dan sejumlah mitra strategis tengah menjalankan studi lebih lanjut secara lebih komprehensif agar proyek-proyek tersebut dapat doperasikan secara

permits with a capacity of 7.6 million tons per year since 2006, as per the letter from the Director of Mineral and Coal Mining Development No. 360/48/DPP/2006.

PEB obtained operation/production permits according to the Minister of Energy and Mineral Resources Decree No. 325.K/30/DJB/2009 dated July 1, 2009, and its amendment No. 686.K/30/DJB/2011 dated March 30, 2011. Pendopo's coal resources are categorized as young coal, with moisture content (IM) of 16.4-27%, total moisture (TM) between 55-60%, ash content of 4-8%, low sulfur content (<0.2%), and calorific value below 3,000 kcal/kg (GAR).

PEB collaborates with strategic partners to develop value-added low-calorific coal industries, including Mulut Tambang power plants, coal upgrading, and coal gasification/liquefaction. PEB also directly sells coal to Mulut Tambang power plants, both operational and planned, as well as to other domestic and international buyers.

Since the fourth quarter of 2022, PEB has conducted its inaugural commercial sales to Coal Traders and continued with regular shipments of at least 2 (two) barges per month for domestic purposes. These sales are ongoing and increasing. By the end of 2023, PEB successfully achieved commercial sales of 242,000 tons.

Regarding the Mulut Tambang power plant project, with the government's policy shift away from building coal-fired power plants, PEB is intensively exploring partnerships to develop hybrid power plants (coal with other alternative power sources). PEB is also exploring other alternatives by building captive power plants for industries to be established in Pendopo. Currently, PEB is conducting studies on industrial development in Pendopo to utilize its vast coal reserves.

In terms of coal upgrading and coal gasification projects, PEB and several strategic partners are conducting further comprehensive studies to operationalize these projects commercially. The targeted end products of these projects

komersial. Produk akhir yang ditargetkan dari proyek-proyek tersebut adalah batubara berkalori tinggi, DME, methanol, pupuk, dan SNG.

PEB telah menandatangani MoU dengan salah satu pemilik teknologi *coal upgrading* yang berasal dari Tiongkok, India, dan Jerman, dan mengirimkan sampel batubara ke pabrik yang bersangkutan. Terkait *coal gasification*, PEB didukung oleh Induk Usaha untuk melakukan diskusi terkait pembuatan FS dengan calon mitra strategis yang diharapkan dapat segera membangun pabriknya di Pendopo.

Gallo Oil (Jersey) Ltd.

Gallo Oil (Jersey) Ltd. melalui Perjanjian Bagi Hasil (PSA) dengan Ministry of Oil and Mineral (MOM) Republik Yaman telah melakukan eksplorasi minyak dan gas bumi di Republik Yaman sejak 1997, yaitu Konsesi Blok 13. Untuk konsesi ini, Perusahaan memiliki saham pengoperasian 100%. Oleh karena terdapat krisis politik/perang di Yaman sejak awal 2013, situasi masih tidak kondusif untuk meneruskan operasi. Saat ini, Perusahaan telah menghentikan operasinya di Yaman.

PT Bumi Resources Minerals Tbk (BRMS)

PT Citra Palu Mineral (CPM)

BRMS memiliki 96,97% saham atas CPM yang memiliki hak Kontrak Karya atas konsesi penambangan seluas 85.180 hektar yang terdiri atas 5 (lima) blok terpisah di Sulawesi Tengah dan Sulawesi Selatan.

Hingga akhir 2023, CPM menemukan tambahan cadangan dan sumber daya mineral yang telah dirilis sehingga total sumber daya mineral di Poboya saat ini mencapai 42,7 juta ton bijih, dengan kandungan emas 2,6 g/ton Au dan total cadangan mineral sebesar 31,5 juta ton bijih dengan kadar emas 2,4 g/ton Au.

Seluruh temuan cadangan dan sumber daya tersebut telah tersertifikasi oleh Komite Cadangan Mineral Indonesia (KCMII). Pada November 2022, pabrik pengolahan bijih emas yang kedua yang berlokasi di Poboya, Palu dengan kapasitas 4.000 ton bijih per hari mulai beroperasi. Sebelumnya, CPM mengoperasikan pabrik pengolahan bijih pertama dengan kapasitas 500 ton bijih per hari sejak 2020. Dengan bertambahnya pabrik kedua yang memiliki kapasitas lebih besar, CPM berharap dapat meningkatkan produksi emas di masa mendatang.

include high-calorific coal, DME, methanol, fertilizers, and SNG.

PEB has signed MoUs with coal upgrading technology providers from China, India, and Germany and sent coal samples to the respective plants. Regarding coal gasification, PEB is supported by its parent company to discuss FS with potential strategic partners expected to soon build their plants in Pendopo.

Gallo Oil (Jersey) Ltd.

Gallo Oil (Jersey) Ltd., through a Production Sharing Agreement (PSA) with the Ministry of Oil and Mineral (MOM) of the Republic of Yemen, has been conducting oil and gas exploration in the Republic of Yemen since 1997, specifically in Concession Block 13. For this concession, the Company holds a 100% operating stake. However, due to the political crisis/war in Yemen since early 2013, the situation remains uncondusive to continue operations. Currently, the Company has suspended its operations in Yemen.

PT Bumi Resources Minerals Tbk (BRMS)

PT Citra Palu Mineral (CPM)

BRMS holds 96.97% of the shares in CPM, which holds the Contract of Work rights over a mining concession spanning 85,180 hectares consisting of 5 (five) separate blocks in Central Sulawesi and South Sulawesi.

By the end of 2023, CPM has discovered additional mineral reserves and resources that have been disclosed, resulting in a total mineral resource at Poboya reaching 42.7 million tons of ore, with a gold content of 2.6 g/ton Au, and total mineral reserves of 31.5 million tons of ore with a gold content of 2.4 g/ton Au.

All discovered reserves and resources have been certified by the Indonesian Mineral Reserve Committee (KCMII). In November 2022, the second gold ore processing plant located in Poboya, Palu, with a capacity of 4,000 tons of ore per day, commenced operations. Previously, CPM operated the first ore processing plant with a capacity of 500 tons of ore per day since 2020. With the addition of the second plant with a larger capacity, CPM aims to increase gold production in the future.

Aset Lancar

Perseroan mencatatkan adanya penurunan aset lancar sebesar 8,8% yang utamanya disebabkan oleh adanya penurunan Aset Keuangan Lancar Lainnya terkait dengan penarikan dana investasi jangka pendek yang digunakan untuk melunasi bunga atas *Mandatory Convertible Bonds* (MCB) pada Februari 2023.

Current Assets

The Company recorded a decrease in current assets of 8.8% which was mainly due to the decrease of Other Current Financial Assets related to the withdrawal of funds from the short term investments, which was used to repay outstanding *Mandatory Convertible Bonds* (MCB) interest in February 2023.

Aset Tidak Lancar

Aset Tidak Lancar Lainnya mengalami penurunan sebesar 5,9% yang utamanya disebabkan oleh penurunan atas nilai Investasi pada Entitas Asosiasi dan Ventura Bersama karena adanya pembagian deviden yang dilakukan oleh Entitas Ventura Bersama, PT Kaltim Prima Coal (KPC). Nilai deviden tersebut secara pencatatan akuntansi mengurangi nilai buku bersih atas investasi Perseroan terhadap KPC.

Non-Current Assets

Our Other Non-Current Assets fell by 5.9%, mainly caused by a decrease in the value of Investments in Associated Entities and Joint Ventures due to dividend distribution by our Joint Venture Entity, PT Kaltim Prima Coal (KPC). According to accounting records, the dividend value will reduce the net book value of the Company's investment in KPC.

Total Aset

Per 31 Desember 2023, total aset Perseroan turun sebesar 6,4% yang disebabkan oleh faktor-faktor di atas.

Total Assets

As of December 31, 2023, the Company's total assets decreased by 6.4% mainly due to the above factors.

Liabilitas Jangka Pendek

Perseroan membukukan penurunan liabilitas jangka pendek sebesar 8,1%. Hal ini terutama disebabkan oleh pembayaran yang dilakukan Perseroan atas bunga MCB pada tahun 2023 (lihat catatan diatas).

Liabilitas Jangka Panjang

Perseroan membukukan penurunan Liabilitas Jangka Panjang sebesar 22,4%. Hal ini utamanya disebabkan oleh penerimaan dividen dari KPC (lihat catatan Aset Tidak Lancar diatas), yang mengurangi saldo utang pihak berelasi Perseroan.

Total Liabilitas

Secara akumulatif, total liabilitas Perseroan turun sebesar 14,5% yang disebabkan oleh faktor-faktor di atas.

Total Ekuitas

Per 31 Desember 2023, total ekuitas Perseroan turun sebesar 1,6% yang disebabkan oleh adanya kenaikan pada Selisih Transaksi Perubahan Ekuitas pada Entitas Anak/ Entitas Asosiasi.

Pendapatan Usaha

Pendapatan usaha Perseroan terdiri dari segmen usaha batubara sebesar USD1,633 juta, segmen usaha emas sebesar USD45,6 juta dan segmen usaha jasa sebesar USD1 juta.

Current Liabilities

The Company posted a decrease in short-term liabilities of 8.1%. This was mainly due to payments made by the Company for MCB Interest in 2023 (see above).

Long-Term Liabilities

There was a decrease in Long-Term Liabilities of 22.4%. The majority was caused by the receipt of Dividends from KPC (see Other Non-Current Assets above), which reduced our Related Party Loans.

Total Liabilities

Overall, the Company's total liabilities decreased by 14.5% due to the above factors.

Total Equity

As of December 31, 2023, the Company's total equity decreased by 1.6% due to an increase in the Difference in Transactions for Changes in Equity in Subsidiaries/ Associated Entities.

Operating Revenue

The Company's operating revenues consist of the coal business segment of USD1.633 million, the gold business segment of USD45.6 million and the service business segment of USD1 million.

TINJAUAN KEUANGAN

Financial Review

Per 31 Desember 2023, Perseroan membukukan penurunan pendapatan usaha sebesar 8% yang disebabkan oleh penurunan pendapatan pada segmen usaha batubara. Harga rata-rata penjualan batubara selama tahun 2023 menurun jika dibandingkan dengan tahun 2022 (2023; USD64,0/t, 2022; USD82,8/t).

Beban Pokok Pendapatan

Pada 2023, beban pokok pendapatan Perseroan meningkat sebesar 6% yang disebabkan oleh kenaikan *stripping ratio* dan bahan bakar pada segmen usaha batubara dibandingkan dengan tahun 2022 (2023; 7,5 bcm/t, 2022: 6,6 bcm/t).

Laba Kotor

Sebagai akibat dari hal-hal diatas dan kondisi pasar batubara global, Perseroan mencatatkan penurunan laba kotor sebesar 63%. Upaya Perseroan untuk menekan biaya dan melakukan efisiensi pada segmen usaha batubara membantu mengurangi efek dari penurunan harga batubara global tersebut.

Beban Usaha

Beban usaha Perseroan pada 2023 menurun sebesar 45% disebabkan oleh penurunan biaya atas pajak. Pada tahun 2022 terdapat biaya pajak atas bunga terkait dengan pelunasan atas pokok dan bunga pinjaman Perseroan, yang tidak lagi terjadi pada tahun 2023.

Laba Sebelum Pajak Penghasilan

Laba sebelum pajak penghasilan Perseroan mengalami penurunan sebesar 88% pada 2023 yang utamanya disebabkan oleh penurunan bagian atas laba neto dari KPC (harga rata-rata batubara turun dari USD137,8/t menjadi USD89,1/t) dan penurunan laba dari segmen usaha batubara, yang di *off set* dengan penurunan beban bunga (lihat catatan diatas).

Laba Tahun Berjalan yang Dapat Diatribusikan kepada Pemilik Entitas Induk

Pada 2023, laba tahun berjalan menurun sebesar 98% yang disebabkan oleh faktor-faktor yang telah dijelaskan di atas

Laba Komprehensif Lainnya Setelah Pajak

Perseroan mencatat adanya kenaikan rugi komprehensif lainnya setelah pajak pada tahun berjalan 2023 sebesar USD3,7 juta.

As of December 31, 2023, the Company recorded a decrease in operating revenue of 8% due to a decrease in the coal business segment. The average sales price of coal declined during 2023 compared to 2022 (2023; USD64.0/t, 2022; USD82.8/t).

Cost of Goods Sold

In 2023, the Company's cost of revenue increased by 6% due to an increase in the stripping ratio and fuel cost in our coal mining business compared to 2022 (2023; 7.5 bcm/t, 2022: 6.6 bcm/t).

Gross Profit

As the result of the above and global coal markets, gross profit decreased by 63%. The Company introduced cost reductions and improved efficiencies in our coal business segment, which reduced the effect of the global coal price downturn.

Operating Expenses

The Company's operating expenses in 2023 decreased by 45% due to a decrease in tax expenses. In 2022 there were taxes on interest related to the repayment of principal and interest on the Company's loans, which were no longer outstanding in 2023.

Profit Before Income Tax

The Company's profit before income tax saw a decrease by 88% in 2023, mainly due to a decrease in the share of net profits from our equity income in KPC (average coal realized price fell from USD137.8/t to USD89.1/t) and a reduction in profits from our coal business segment, off set by the reduction in our interest expense (see above).

Profit for the Year Attributable to Owners of the Parent Entity

In 2023, profit for the year saw a decrease by 98% due to the factors described above.

Other Comprehensive Income After Tax

The Company recorded an increase in other comprehensive loss after tax in 2023 of USD3.7 million.

Jumlah Laba Komprehensif Tahun Berjalan

Per 31 Desember 2023, Perseroan mencatat penurunan laba komprehensif tahun berjalan sebesar 96%.

Total Comprehensive Income for the Year

As of 31 December 2023, the Company record a decrease in comprehensive profit for the year of 96%.

Arus Kas dari Aktivitas Operasi

Arus Kas Perseroan dari Aktivitas Operasi pada periode yang berakhir pada tahun 2023 mengalami penurunan yang signifikan jika dibandingkan dengan periode tahun lalu sebesar 80%. Penurunan tersebut utamanya disebabkan oleh penurunan pembayaran bunga dan beban keuangan sebesar 81% karena adanya pelunasan pokok dan bunga pinjaman yang dilakukan oleh Perseroan pada tahun 2022.

Cash Flow from Operating Activities

The Company's cash flow from the operating activity in the current period ended 2023 has significant decreased compared to the prior period by 80%. It was mainly caused by the decrease of payment of interest and finance charges by 81%, due to the loan principal and interest already fully paid by the Company in 2022.

Arus Kas dari Aktivitas Investasi

Arus Kas Perseroan dari Aktivitas Investasi pada periode yang berakhir pada tahun 2023 mengalami peningkatan dibandingkan dengan periode tahun lalu sebesar 120%. Hal tersebut terutama disebabkan oleh pengembalian penempatan Aset Keuangan Lancar Lainnya dan penurunan belanja Perseroan terhadap properti pertambangan dan aset tetap masing-masing sebesar 33% dan 85%.

Cash Flow from Investing Activities

The Company's cash flow from the Investment Activity in the current period ended 2023 has increased compared to the prior period by 120%. This was mainly due to the return of our investment funds under the Receipts of Other Current Financial Assets and also, the decrease of the Company's procurement on mining properties and fixed assets by 33% and 85%, respectively.

Arus Kas dari Aktivitas Pendanaan

Arus kas Perseroan yang diperoleh dari aktivitas pendanaan mengalami penurunan sebesar 87% dibandingkan dengan periode tahun lalu karena tidak adanya penerimaan dari penawaran umum terbatas (PUT) seperti pada periode tahun lalu dan adanya penurunan saldo hutang pihak berelasi.

Cash Flow from Financing Activities

The Company's cash flow provided by financing activities has decreased by 87% compared to prior period, as there was no funds received from the rights issue (NPR), as compared to the previous period, and due to a reduction in funds Due to Related Parties.

Kas dan Bank Pada Akhir Periode

Jumlah kas dan bank Perseroan pada akhir 2023 mengalami peningkatan sebesar 13% karena hal-hal tersebut diatas.

Cash and Cash Equivalents at the End of the Period

The total cash and cash equivalents of the Company at the end of 2023 experienced an increase of 13% due to the above.

Rasio Likuiditas

Perseroan senantiasa melakukan pengelolaan risiko likuiditas secara teratur guna menjaga stabilitas kinerja keuangan. Hal ini dengan mengawasi dan memperbaharui profil jatuh tempo pinjaman dan sumber pendanaan lainnya, serta menjaga saldo kecukupan kas. Tingkat likuiditas mengukur kemampuan Perseroan dalam memenuhi liabilitas jangka pendek dengan menggunakan aset lancar. Dalam menghitung tingkat likuiditas, Perseroan membandingkan aset lancar dengan liabilitas jangka pendek pada periode tertentu untuk mendapatkan indikator kemampuan Perseroan dalam memenuhi semua liabilitas jangka pendek dengan menggunakan aset lancar yang dimiliki.

Rasio Solvabilitas

Rasio solvabilitas mengukur tingkat kemampuan Perseroan untuk memenuhi seluruh liabilitas dengan menggunakan seluruh aset atau ekuitas. Rasio solvabilitas dapat dihitung dengan 2 (dua) pendekatan sebagai berikut:

1. Jumlah liabilitas dibagi dengan jumlah ekuitas (solvabilitas ekuitas)
2. Jumlah liabilitas dibagi dengan jumlah aset (solvabilitas aset)

Imbal Hasil Aset (ROA)

Rasio imbal hasil aset mengukur tingkat kemampuan Perseroan dalam menghasilkan laba dari aset yang dimiliki yang dihitung dari perbandingan antara laba bersih dan jumlah aset.

Imbal Hasil Ekuitas (ROE)

Imbal hasil ekuitas mengukur kemampuan Perseroan dalam menghasilkan laba dari ekuitas yang dimiliki yang dapat dihitung dari perbandingan antara laba bersih dengan jumlah ekuitas.

Liquidity Ratio

The Company consistently manages liquidity risk regularly to maintain financial performance stability. This is done by monitoring and updating the maturity profile of loans and other funding sources, as well as maintaining adequate cash balances. Liquidity levels measure the Company's ability to meet short-term liabilities using current assets. In calculating liquidity levels, the Company compares current assets with short-term liabilities over a specific period to gauge the Company's ability to meet all short-term liabilities using the current assets it possesses.

Solvency Ratio

The solvency ratio measures the Company's ability to meet all liabilities using all assets or equity. The solvency ratio can be calculated using two approaches as follows:

1. Total liabilities divided by total equity (equity solvency)
2. Total liabilities divided by total assets (asset solvency)

Return on Assets (ROA)

The return on assets ratio measures the Company's ability to generate profit from the assets it owns, calculated by comparing net income to total assets.

Return on Equity (ROE)

Return on equity measures the Company's ability to generate profit from the equity it holds, calculated by comparing net income to total equity.

TINGKAT KOLEKTIBILITAS PIUTANG

Accounts Receivable Collection Rate

Pada 2023, Perseroan berhasil mempertahankan tingkat kolektibilitas seluruh piutangnya dengan baik. Perseroan memiliki cadangan kerugian penurunan nilai yang cukup untuk menutup kemungkinan kerugian atas penurunan nilai dari piutang usaha. Perseroan menghitung cadangan kerugian penurunan nilai dengan mempertimbangkan informasi yang berkaitan dengan peristiwa masa lalu, kondisi kini, dan kondisi ekonomi masa depan.

In 2023, the Company successfully maintained a good level of collectibility for all its receivables. The Company has adequate provisions for impairment losses to cover potential losses on the impairment of trade receivables. The Company calculates provisions for impairment losses by considering information related to past events, current conditions, and future economic conditions.

STRUKTUR MODAL

Capital Structure

Perseroan memastikan struktur modal berada pada kondisi ideal untuk menjaga kelangsungan usaha dalam jangka panjang, memaksimalkan tingkat pengembalian dan keuntungan kepada pemegang saham, meningkatkan kesehatan rasio keuangan, serta untuk menekan biaya modal.

The Company ensures that its capital structure remains in an ideal condition to sustain long-term operations, maximize returns and profits for shareholders, improve financial ratio health, and minimize capital costs.

Kebijakan Manajemen atas Struktur Modal

Tujuan utama pengelolaan modal Perseroan adalah memastikan terpeliharanya rasio modal yang sehat untuk mendukung usaha dan memaksimalkan imbalan bagi pemegang saham. Perseroan mengelola struktur permodalan dan melakukan penyesuaian berdasarkan perubahan kondisi ekonomi. Untuk memelihara dan menyesuaikan struktur permodalan, Perseroan dapat menerbitkan saham baru atau mengusahakan pendanaan melalui pinjaman. Kebijakan Perseroan adalah mempertahankan struktur permodalan yang sehat untuk mengamankan akses terhadap pendanaan pada biaya yang wajar.

Management Policy on Capital Structure

The primary objective of the Company's capital management is to maintain a healthy capital ratio to support operations and maximize returns for shareholders. The Company manages its capital structure and makes adjustments based on changes in economic conditions. To maintain and adjust the capital structure, the Company may issue new shares or seek financing through loans. The Company's policy is to preserve a healthy capital structure to secure access to financing at reasonable costs.

PROSPEK USAHA

Business Prospects

Pada Juni 2023, Bank Dunia merevisi pertumbuhan ekonomi global untuk 2024 menjadi 2,4% dari sebelumnya 2,7%. IMF juga menurunkan prediksinya atas pertumbuhan global untuk 2024 menjadi 2,9% dari sebelumnya 3,0%.

Menjelang 2024, pelaku pasar batubara mendapat hembusan angin segar dari Bank Sentral Amerika Serikat (AS) yaitu The Federal Reserve (The Fed). The Fed mulai mengisyaratkan adanya pemangkasan suku bunga untuk 2024. Mengikuti kebijakan ini, sejumlah analis memperkirakan BI mulai memangkas suku bunga pada semester II-2024. Dari sisi permintaan, pemangkasan suku bunga dapat berdampak positif dengan tren permintaan industri yang meningkat. Artinya, kebutuhan listrik yang berpotensi semakin besar turut memperkuat harga komoditas dan harga saham. Indonesia sebagai negara eksportir batubara terbesar di dunia diharapkan dapat memanfaatkan momentum ini dengan maksimal, sehingga dapat menjadi sentimen penguat kinerja keuangan.

Kementerian Energi dan Sumber Daya Mineral (ESDM) menargetkan produksi batubara nasional tahun ini mencapai 710 juta ton, meningkat dari rencana tahun 2023 sebesar 694,50 juta ton. Asosiasi Pertambangan Batubara Indonesia (APBI) juga meramalkan capaian produksi batubara pada 2024 tidak akan jauh berbeda dengan realisasi produksi pada tahun 2023.

In June 2023, the World Bank revised the global economic growth for 2024 to 2.4% from the previous 2.7%. The IMF also lowered its prediction for global growth in 2024 to 2.9% from the previous 3.0%.

As 2024 approaches, coal market players received a breath of fresh air from the United States Federal Reserve (The Fed). The Fed began signaling a reduction in interest rates for 2024. Following this policy, several analysts predict that Bank Indonesia (BI) will begin cutting interest rates in the second half of 2024. From the demand side, interest rate cuts can have a positive impact on the increasing trend of industrial demand. This means that the potential increase in electricity demand will also strengthen commodity prices and stock prices. Indonesia, as the world's largest coal exporter, is expected to seize this momentum to the fullest extent possible, thus becoming a strong sentiment for financial performance improvement.

The Ministry of Energy and Mineral Resources (ESDM) targets national coal production to reach 710 million tons this year, up from the 2023 plan of 694.50 million tons. The Indonesian Coal Mining Association (APBI) also predicts that coal production in 2024 will not be significantly different from the production realization in 2023.

PERBANDINGAN TARGET DAN REALISASI

Comparison of Target and Realization

Uraian Description	Target 2023	Realisasi 2023
Produksi Production	75MT-80MT	77.8MT
- KPC	52MT-55MT	53.5MT
- Arutmin	23MT-25MT	24.3MT
Combined FOB Prices	USD80/t-USD90/t	USD81.3/t
Biaya Produksi Production Expenses	USD55/t-USD60/t	USD51.3/t

Perseroan menargetkan produksi tahun 2023 di angka sekitar 75-80 juta ton. Adapun realisasi total produksi yang dicapai Perseroan adalah sebesar 77,8 juta ton atau berada pada kisaran target yang ditetapkan.

The company targeted a production of around 75-80 million tons in 2023. The actual total production achieved by the company was 77.8 million tons, which aligns with the set target range.

Capaian rata-rata harga batubara sebesar USD81,3 per ton juga berada pada kisaran target harga yang ditetapkan perseroan di angka USD80-USD90 per ton. Biaya produksi yang lebih rendah dari target utamanya disebabkan oleh rata-rata harga aktual bahan bakar yang lebih rendah dari rencana dan efisiensi yang telah dilakukan oleh Perseroan selama tahun 2023.

The average coal price realization of USD81.3 per ton is also within the company's target price range of USD80-USD90 per ton. Lower production costs compared to the target were primarily due to the actual average fuel prices being lower than planned and the efficiency conducted by the Company throughout the year 2023.

TARGET/PROYEKSI 2024

Target/Projection for 2024

Perseroan menargetkan produksi dengan tingkat kenaikan yang konservatif berdasarkan kondisi internal dan eksternal Perseroan, yaitu total produksi mencapai sekitar 78-82 juta ton, yang disumbangkan oleh KPC sekitar 53-55 juta ton, dan Arutmin sekitar 25-27 juta ton. PRINSIP GCG

Perseroan memiliki 5 (lima) prinsip utama yang menjadi landasan dalam menerapkan praktik GCG, yaitu:

GCG PRINCIPLES

The Company has 5 (five) main principles that serve as the basis for implementing GCG practices, namely:

Prinsip GCG GCG Principle	Penerapan Implementation
Transparansi Transparency	Keterbukaan dalam melaksanakan proses pengambilan keputusan dan keterbukaan dalam mengemukakan informasi material dan relevan mengenai Perseroan. Perseroan selalu mematuhi peraturan perundang-undangan yang mengatur masalah keterbukaan informasi yang berlaku. Transparansi juga mencakup hal-hal yang relevan dengan informasi yang dibutuhkan oleh publik berkaitan dengan aktivitas operasional Perusahaan yang secara potensial dapat mempengaruhi perilaku pemangku kepentingan. Transparency in carrying out the decision-making process and transparency in presenting material and relevant information regarding the Company. The Company always complies with applicable regulatory provisions that govern information disclosure issues. Transparency also includes matters relevant to the information required by the public relating to the Company's operational activities, which can potentially influence the behaviour of stakeholders.
Akuntabilitas Accountability	Kejelasan fungsi, pelaksanaan dan pertanggungjawaban Organ Perusahaan sehingga pengelolaan terlaksana secara efektif. Akuntabilitas berkaitan dengan pelaksanaan tugas dan wewenang yang dimiliki seseorang atau satuan kerja dalam melaksanakan tanggung jawab yang dibebankan Perusahaan. Akuntabilitas ini meliputi penjelasan atas pelaksanaan tugas dan wewenang, pelaporan atas pelaksanaan tugas dan wewenang, serta pertanggungjawaban atas aktivitas dalam melaksanakan tugas dan wewenang tersebut. Clarity of functions, implementation, and accountability of Corporate Organs for effective management. Accountability relates to the implementation of duties and authority of a person or work unit in carrying out the responsibilities assigned to the Company. This accountability includes explanations for the implementation of duties and authority, reporting on the implementation of duties and authority, as well as accountability for activities in carrying out these duties and authority.
Tanggung Jawab Responsibility	Kesesuaian dalam pengelolaan Perseroan terhadap peraturan perundangan yang berlaku dan prinsip-prinsip korporasi yang sehat. Perseroan akan memastikan pengelolaan meliputi kepatuhan terhadap peraturan perundang-undangan, serta ketentuan yang berlaku sebagai cerminan tanggung jawab korporasi yang baik. Compliance in the management of the Company with applicable laws and regulations and sound corporate principles. The Company will ensure that management includes compliance with statutory regulations and applicable provisions as a reflection of good corporate responsibility.
Independensi Independence	Pengelolaan Perseroan secara profesional tanpa benturan kepentingan dan pengaruh atau tekanan dari pihak manapun yang tidak sesuai dengan peraturan perundangan yang berlaku dan prinsip-prinsip korporasi yang sehat. Kemandirian merupakan keharusan agar organ Perseroan dapat bertugas dengan baik, serta mampu membuat keputusan yang baik bagi Perseroan. Management of the Company in a professional manner with no conflicts of interest and influence or pressure from any party that is not in accordance with applicable laws and regulations and sound corporate principles. Independence is a necessity to ensure that the Company's organs can function well and able to make good decisions for the Company.
Kewajaran Fairness	Perlakuan yang sama dalam memenuhi hak-hak pemangku kepentingan yang timbul berdasarkan perjanjian dan/atau ketentuan dan/atau peraturan perundangan yang berlaku. Perseroan menjamin perlindungan hak-hak para pemegang saham, termasuk hak-hak pemegang saham minoritas dan pemangku kepentingan, sehingga mendapatkan perlakuan setara tanpa adanya diskriminasi. Implementation of Good Corporate Governance

PRINSIP GOVERNANSI KORPORAT INDONESIA

Pada 2021, Komite Nasional Kebijakan Governansi (KNKG) menerbitkan Pedoman Umum Governansi Korporat Indonesia (PUGKI) 2021 yang bertujuan untuk memperkuat daya saing korporasi di kancah persaingan global dengan tetap berkontribusi secara optimal atas pelestarian lingkungan dan kesejahteraan sosial. Berikut adalah 4 (empat) pilar governansi korporat dan upaya Perseroan dalam mengimplementasikan pilar-pilar tersebut:

PRINCIPLES OF INDONESIAN CORPORATE GOVERNANCE

In 2021, the National Committee for Governance Policy (KNKG) issued the 2021 General Guidelines for Indonesian Corporate Governance (PUGKI), with the objective to strengthen corporate competitiveness in the global competition arena while continuing to contribute optimally to environmental preservation and social welfare. The following are the 4 (four) pillars of corporate governance and the Company's efforts in implementing these pillars:

No.	Pilar Pillar	Penerapan Implementation
1.	Perilaku Beretika Ethical Conduct	Dalam melaksanakan kegiatannya, Perseroan senantiasa mengedepankan kejujuran, memperlakukan semua pihak dengan hormat (<i>respect</i>), memenuhi komitmen, membangun serta menjaga nilai-nilai moral dan kepercayaan secara konsisten. Perseroan memperhatikan kepentingan pemegang saham dan pemangku kepentingan lainnya berdasarkan asas kewajaran dan kesetaraan (<i>fairness</i>) dan dikelola secara independen sehingga masing-masing organ perusahaan tidak saling mendominasi dan tidak dapat diintervensi oleh pihak lain. In carrying out its activities, the Company always prioritizes honesty, treating all parties with respect, fulfilling commitments, and consistently building and maintaining moral values and trust. The Company takes into account the interests of shareholders and other stakeholders based on the principles of fairness and equality and is managed independently to ensure that each company organ does not dominate the other and cannot be intervened by other parties.
2.	Akuntabilitas Accountability	Perseroan dapat mempertanggungjawabkan kinerjanya secara transparan dan wajar. Untuk itu, kegiatan usaha harus dikelola secara benar, terukur, dan sesuai dengan kepentingan Perseroan dengan tetap memperhitungkan kepentingan pemegang saham dan pemangku kepentingan. Akuntabilitas merupakan prasyarat yang diperlukan untuk mencapai kinerja yang berkelanjutan. The Company can be accountable for its performance transparently and fairly. For this reason, business activities must be managed correctly, measurably, and in accordance with the interests of the Company while still considering the interests of shareholders and stakeholders. Accountability is a prerequisite for achieving sustainable performance.
3.	Transparansi Transparency	Untuk menjaga objektivitas dalam menjalankan bisnis, Perseroan menyediakan informasi yang material dan relevan dengan cara yang mudah diakses dan dipahami oleh pemangku kepentingan. Perseroan mengambil inisiatif untuk mengungkapkan tidak hanya masalah yang disyaratkan oleh peraturan perundang-undangan, tetapi juga hal yang penting untuk pengambilan keputusan oleh pemegang saham, kreditur dan pemangku kepentingan lainnya. To maintain objectivity in conducting business, the Company provides material and relevant information in a way that is easily accessible and understood by stakeholders. The Company takes the initiative to disclose not only issues required by statutory regulations, but also matters that are important for decision making by shareholders, creditors, and other stakeholders.
4.	Keberlanjutan Sustainability	Perseroan mematuhi peraturan perundang-undangan serta berkomitmen melaksanakan tanggung jawab terhadap masyarakat dan lingkungan agar berkontribusi pada pembangunan berkelanjutan melalui kerja sama dengan semua pemangku kepentingan terkait untuk meningkatkan kehidupan mereka dengan cara yang selaras dengan kepentingan bisnis dan agenda pembangunan berkelanjutan. The Company complies with statutory regulations and is committed to carrying out its responsibilities towards society and the environment in order to contribute to sustainable development by collaborating with all relevant stakeholders to improve their lives in a way that is in line with business interests and the sustainable development agenda.

STRUKTUR TATA KELOLA

Sesuai dengan Undang-Undang Republik Indonesia Nomor 40 tahun 2007 tentang Perseroan Terbatas (UU PT), organ perusahaan terdiri atas Rapat Umum Pemegang Saham (RUPS), Dewan Komisaris, Direksi, Sekretaris Perusahaan, Komite Audit, Komite Nominasi dan Remunerasi, Komite Manajemen Risiko, Divisi Manajemen Risiko, Divisi Internal Audit, dan Departemen Sustainability (CSR). Sesuai dengan Anggaran Dasar Perseroan dan peraturan perundang-undangan yang berlaku, setiap organ memiliki peran penting dalam penerapan GCG serta melaksanakan fungsi, tugas, dan tanggung jawab masing-masing demi kepentingan Perseroan.

GOVERNANCE STRUCTURE

In accordance with Law of the Republic of Indonesia No. 40 of 2007 on Limited Liability Companies (UU PT), corporate organs consist of the General Meeting of Shareholders (GMS), Board of Commissioners, Board of Directors, Corporate Secretary, Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Risk Management Division, Internal Audit Division, and Sustainability Department (CSR). Pursuant to the Company's Articles of Association and applicable laws and regulations, each organ has a crucial role in implementing GCG and carrying out their respective functions, duties and responsibilities in the interests of the Company.

KEBIJAKAN TATA KELOLA PERUSAHAAN

Kebijakan GCG menjadi dasar bagi Perseroan dalam membuat Pedoman Perilaku, Surat Keputusan Dewan Komisaris dan Direksi, *Board Manual and Supporting Organs* versi 4.1 (Piagam), Piagam Komite Dewan Komisaris maupun Direksi, serta selanjutnya *Standard Operating Procedure* (SOP) operasional Perseroan sebagaimana digambarkan dalam diagram di bawah ini:

CORPORATE GOVERNANCE POLICY

The GCG policy is the basis for the Company in establishing the Code of Conduct, Decree of the Board of Commissioners and Board of Directors, Board Manual and Supporting Organs version 4.1 (Charter), Charter of Committees of the Board of Commissioners and Board of Directors, as well as the Company's operational Standard Operating Procedure (SOP) as illustrated in the following diagram:

IMPLEMENTASI TATA KELOLA PERUSAHAAN YANG BAIK

Implementation of Good Corporate Governance

Struktur kebijakan di BUMI terdiri dari 3 (tiga) tingkat, yaitu:

Agar alur kebijakan tetap konsisten maka di dalam *Company Regulation*, *CoC*, *Board Manual and Supporting Organs* versi 4.1, *Committee Charter*, dan *Standard Operating Procedure* (SOP) harus memuat langsung bagian-bagian yang terkait dengan prinsip tata kelola. Seluruh kebijakan Perseroan dari level 1 sampai level 3 telah dilaksanakan Perseroan secara efektif dan secara kontinyu disesuaikan dengan perkembangan regulasi dan kepentingan bisnis Perseroan.

Berdasarkan Surat Keputusan Dewan Komisaris dan Direksi No 739/BR-BOD/IX/06 tanggal 20 September 2006, Dewan Komisaris dan Direksi menerbitkan Kebijakan GCG BUMI yang berjudul "Cara Kerja yang Diharapkan dari Kita" serta berbagai kebijakan terkait GCG lainnya seperti Board Manual and Supporting Organs versi 4.1, dan Code of Conduct. Kebijakan GCG BUMI yang berjudul "Cara Kerja yang Diharapkan dari Kita" kemudian direvisi pada tahun 2008 dan masih berlaku hingga saat ini.

Melalui kebijakan tersebut, Perseroan mendeskripsikan seluruh prinsip GCG, berbagai ketentuan dan kebijakan yang harus dipatuhi oleh anggota Perseroan. Kebijakan ini juga mencantumkan pedoman umum, tanggung jawab dan fungsi setiap unit dalam organisasi, serta hubungan dengan pihak eksternal.

Isi Kebijakan GCG: Cara Kerja yang Diharapkan dari Kita

1. Pengantar, Referensi, Daftar Peraturan dan Perundang-undangan, dan Standar Praktik Baik;
2. Definisi, Prinsip, dan Tujuan Penerapan Tata Kelola yang Baik;
3. Visi, Misi, Nilai Utama, dan Kode Etik Perusahaan;
4. Rencana Strategis dan Bisnis, Anggaran, dan Pengawasan;
5. Hubungan Perusahaan dan Pemegang Saham;
6. Fungsi serta Peran Dewan Komisaris dan Direksi;
7. Manajemen Risiko, Pengendalian Internal, Komite Audit, Internal Audit, dan Eksternal Audit;
8. Hubungan Perusahaan dengan Pemegang Kepentingan; dan
9. Pencegahan Benturan Kepentingan.

The policy structure at BUMI consists of 3 (three) levels, namely:

To ensure consistent flow of policy, Company Regulations, CoC, Board Manual and Supporting Organs version 4.1, Committee Charter, and Standard Operating Procedure (SOP) must contain sections that are directly related to governance principles. All Company policies from level 1 to level 3 have been implemented by the Company in an effective manner and adapted to regulatory developments and the Company's business interests continuously.

Based on the Decree of the Board of Commissioners and Board of Directors No 739/BR-BOD/IX/06 dated September 20, 2006, the Board of Commissioners and Board of Directors issued BUMI's GCG Policy entitled "How We Expect to Work" as well as various other GCG related policies such as Board Manual and Supporting Organs version 4.1, and Code of Conduct. BUMI's GCG policy entitled "How We Expect to Work" was then revised in 2008 and is still in effect today.

Through this policy, the Company describes all GCG principles, various provisions and policies that must be adhered to by Company members. This policy also includes general guidelines, responsibilities and functions of each unit in the organization, as well as relationships with external parties.

Contents of the GCG Policy: How We Expect to Work

1. Introduction, References, List of Rules and Regulations, and Standards of Good Practice;
2. Definition, Principles, and Objectives of Good Governance Implementation;
3. Vision, Mission, Core Values, and Code of Ethics;
4. Strategic and Business Plans, Budgets, and Monitoring;
5. Company and Shareholder Relations;
6. Functions and Roles of the Board of Commissioners and Board of Directors;
7. Risk Management, Internal Control, Audit Committee, Internal Audit, and External Audit;
8. The Company's Relationship with Stakeholders; and
9. Prevention of Conflicts of Interest.

Perseroan menggabungkan prinsip-prinsip GCG yang terdiri dari keterbukaan, akuntabilitas, tanggung jawab, kemandirian, dan kewajaran, dengan peraturan, pedoman dan kebijakan yang berlaku, sebagai kebijakan dalam praktik GCG. Peraturan, pedoman, dan kebijakan yang berlaku tersebut antara lain:

The Company combines GCG principles consisting of transparency, accountability, responsibility, independence, and fairness, with applicable regulations, guidelines, and policies, as policies in GCG practices. The applicable regulations, guidelines and policies include, among others:

PENILAIAN TATA KELOLA PERUSAHAAN

Corporate Governance Assessment

PROSEDUR PELAKSANAAN

Perseroan melakukan penilaian terhadap kualitas implementasi GCG baik secara mandiri (*self-assessment*) maupun bekerja sama dengan pihak ketiga untuk mendapatkan hasil penilaian yang lebih independen.

IMPLEMENTATION PROCEDURE

The Company assesses the quality of GCG implementation, which can be done either independently (*self-assessment*) or in collaboration with third parties to obtain more independent assessment results.

KRITERIA PENILAIAN DAN PIHAK YANG MELAKUKAN PENILAIAN

Pada tahun 2023, Perseroan melakukan GCG *self-assessment* berdasarkan ketentuan dalam Peraturan Otoritas Jasa Keuangan (POJK) No. 21/POJK.04/2015 tentang Penerapan Pedoman Tata Kelola Perusahaan Terbuka dan Surat Edaran Otoritas Jasa Keuangan (SEOJK) No. 32/SEOJK.04/2015 tentang Pedoman Tata Kelola Perusahaan Terbuka beserta lampirannya. Perseroan juga telah melakukan GCG *self-assessment* berdasarkan ketentuan dalam ASEAN Corporate Governance Scorecard (ACGS) versi 2017. ACGS dirancang oleh ASEAN Capital Market

ASSESSMENT CRITERIA AND THE PARTY CONDUCTING THE ASSESSMENT

In 2023, the Company carried out a GCG *self-assessment* based on the provisions in Financial Services Authority Regulation (POJK) No. 21/POJK.04/2015 on Implementation of Governance Guidelines of Public Companies and Financial Services Authority Circular Letter (SEOJK) No. 32/SEOJK.04/2015 on Governance Guidelines of Public Companies and its attachments. The Company has also carried out a GCG *self-assessment* based on the provisions in the 2017 version of the ASEAN Corporate Governance Scorecard (ACGS). The ACGS was designed by the ASEAN

Forum (ACMF) dan Asian Development Bank (ADB) yang melibatkan 6 (enam) negara, yaitu Indonesia, Malaysia, Filipina, Singapura, Thailand, dan Vietnam. Tujuan utama ACGS adalah meningkatkan standar tata kelola sekaligus memberikan visibilitas internasional yang lebih luas pada perusahaan publik di negara anggota Association of Southeast Asian Nations (ASEAN).

HASIL PENILAIAN DAN TINDAK LANJUT

Hasil penilaian mandiri di tahun 2023 atas penerapan Tata Kelola Perusahaan berdasarkan ketentuan dalam POJK No. 21/POJK.04/2015 dan SEOJK No. 32/SEOJK.04/2015 disajikan secara rinci pada bagian “Pedoman Tata Kelola Perusahaan Terbuka” di dalam Laporan Tahunan ini.

Perseroan melalui tim Internal Auditor juga melakukan penilaian mandiri atas penerapan Tata Kelola Perusahaan berdasarkan ACGS untuk tahun 2023. Hasil penilaian mandiri menunjukkan adanya peningkatan skor di tahun 2023 menjadi 98,4 dari skor di tahun 2022 yaitu 90,5. Peningkatan ini terutama berasal dari perbaikan yang dilakukan secara berkesinambungan pada praktik Tata Kelola Perusahaan terutama pada bagian “Perlakuan yang Sama kepada Pemegang Saham” dan “Tanggung Jawab Direksi dan Dewan Komisaris”. Hasil penilaian mandiri ACGS untuk Perseroan di tahun 2023 pada Tingkat 1 – Persyaratan Minimum yang Disarankan, dengan skor 86,9 adalah lebih baik dari skor rerata pada 5 (lima) dari 6 (enam) negara dalam Laporan Penilaian ADB terakhir di tahun 2019, yaitu Indonesia (skor 68,1), Malaysia (skor 82,3), Filipina (skor 71,8), Singapura (skor 80,9), dan Vietnam (skor 52,7), seperti yang tersaji dalam tabel di bawah ini:

Capital Market Forum (ACMF) and the Asian Development Bank (ADB) involving 6 (six) countries, namely Indonesia, Malaysia, Philippines, Singapore, Thailand, and Vietnam. The main goal of ACGS is to improve governance standards while providing broader international visibility to public companies in member countries of the Association of Southeast Asian Nations (ASEAN).

ASSESSMENT RESULTS AND FOLLOW-UPS

The self-assessment results in 2023 regarding the implementation of Corporate Governance based on the provisions in POJK No. 21/POJK.04/2015 and SEOJK No. 32/SEOJK.04/2015 is presented in detail in the “Governance Guidelines of Public Companies” section in this Annual Report.

The Company, through the Internal Auditor team, also conducted a self-assessment on Corporate Governance implementation based on ACGS for 2023. The self-assessment results indicated an increase in the score in 2023 to 98.4 from 90.5 in 2022. This increase was primarily due to continuous improvements in Corporate Governance practices, especially in the sections “Equal Treatment of Shareholders” and “Responsibilities of the Board of Directors and Board of Commissioners”. The result of the ACGS self-assessment for the Company in 2023 at Level 1 – Recommended Minimum Requirements, with a score of 86.9 is better than the average score in 5 (five) out of 6 (six) countries in the last ADB Assessment Report in 2019, namely Indonesia (score of 68.1), Malaysia (score of 82.3), Philippines (score of 71.8), Singapore (score of 80.9), and Vietnam (score of 52.7), as presented in the following table:

In the event that the composition of the Board of Commissioners consists of 2 (two) members of the Board of Commissioners, 1 (one) of whom is an Independent Commissioner, this is in line with what is regulated in POJK No. 33/POJK.04/2014. In the event that the Board of Commissioners consists of more than 2 (two) members of the Board of Commissioners, the number of Independent Commissioners must be at least 30% (thirty percent) of the total number of members of the Board of Commissioners. In 2023, the number of Independent Commissioners of the Company was 3 (three) people, which amounted to 37.5% of the total members of the Board of Commissioners.

Independent Commissioners must fulfill the following provisions and requirements:

1. Not a person who works or has the authority and responsibility to plan, lead, control, or supervise the activities of the Company in the last 6 (six) months, except in the case of reappointment of Independent Commissioner of the Issuer or Public Company in the following period.
2. Has no shares directly or indirectly in the Issuer or Public Company.
3. Has no affiliation with the Issuer or Public Company, members of the Board of Commissioners, Board of Directors or major shareholders of the Issuer or Public Company.
4. Has no direct or indirect business relationship related to the business activities of the Issuer or Public Company.

INDEPENDENCE STATEMENT OF INDEPENDENT COMMISSIONER

In carrying out its duties and responsibilities, the Board of Commissioners has acted independently throughout 2023. The Independent Commissioner has also met the independence requirements in accordance with the provisions in POJK No. 33/POJK.04/2014 dated December 8, 2014, on Board of Directors and Board of Commissioners of Issuers or Public Companies. Independent Commissioners who have served for 2 (two) consecutive terms of office may be reappointed for the next period as Independent Commissioner in the event that:

1. The meeting of the members of the Board of Commissioners considers that the Independent Commissioner can continue to act independently; and
2. Independent Commissioners declare in the GMS regarding their independence.

KOMITE DEWAN KOMISARIS

Committee of the Board of Commissioners

EVALUASI DAN PENILAIAN KINERJA KOMITE NOMINASI DAN REMUNERASI

Komite Nominasi dan Remunerasi melakukan evaluasi dan penilaian kinerja secara berkala, paling sedikit setahun sekali, termasuk kinerja anggota individu maupun efektivitas dari Komite Nominasi dan Remunerasi secara keseluruhan. Evaluasi dan penilaian kinerja dapat dilakukan dengan mengevaluasi pencapaian dari tugas-tugas sebagaimana disebutkan dalam piagam. Lebih lanjut, hasil evaluasi harus dilaporkan kepada Dewan Komisaris. Pada 2023, Dewan Komisaris menilai bahwa Komite Nominasi dan Remunerasi telah melaksanakan tugas dengan baik.

KEBIJAKAN SUKSESI DIREKSI UNTUK PERSONEL MANAJEMEN UTAMA DAN DIREKSI

Perseroan telah mengembangkan rencana suksesi komprehensif untuk memastikan bahwa apabila terdapat posisi kosong pada personel manajemen kunci dan di atasnya (termasuk Direksi dan Presiden Direktur), terdapat kandidat berdasarkan *talent pool management* dengan kualifikasi yang sesuai, keterampilan dan pengalaman untuk mengisinya. Berkenaan dengan Direksi dan Presiden Direktur, Komite Nominasi dan Remunerasi bertanggung jawab untuk mengidentifikasi dan merekomendasikan kandidat yang sesuai dan menentukan kriteria untuk pemilihan mereka, tetapi keputusan tentang penunjukan seorang Direktur terletak pada RUPST.

Divisi SDM berperan penting dalam proses ini dengan memetakan bakat dengan potensi kepemimpinan di seluruh organisasi, dan memastikan bahwa mereka memiliki akses ke program pengembangan dan/atau akselerasi terintegrasi melalui tugas dan rotasi serta pelatihan, pembinaan, dan pendampingan.

EVALUATION AND PERFORMANCE ASSESSMENT OF THE NOMINATION AND REMUNERATION COMMITTEE

The Nomination and Remuneration Committee evaluates and assesses its performance periodically, at least once a year, including the performance of individual members and the effectiveness of the Nomination and Remuneration Committee as a whole. Evaluation and assessment of performance can be done by evaluating the achievement of the tasks as stated in the charter. Furthermore, the results of the evaluation must be reported to the Board of Commissioners. In 2023, an assessment on the performance of the Nomination and Remuneration Committee was conducted by the Board of Commissioners, and assessed that the Nomination and Remuneration Committee had performed its duties well.

BOARD OF DIRECTORS' SUCCESSION POLICY FOR KEY MANAGEMENT PERSONNEL AND DIRECTORS

The Company has developed a comprehensive succession plan to ensure that in the event of vacant positions in key management personnel and above (including Directors and President Director), there are candidates based on talent pool management with the appropriate qualifications, skills, and experience to fill them. With regard to the Board of Directors and President Director, the Nomination and Remuneration Committee is responsible for identifying and recommending suitable candidates and determining the criteria for their selection, but the decision on the appointment of a Director lies with the AGMS.

The HR Division plays a key role in this process by mapping talent with leadership potential across the organization and ensuring that they have access to integrated development and/or acceleration programs through assignments and rotations as well as training, coaching, and mentoring.

DIVISI AUDIT INTERNAL

Internal Audit Division

PELATIHAN DIVISI AUDIT INTERNAL

Untuk memperkuat praktik audit internal yang ada, Divisi Audit Internal akan meningkatkan pengetahuan dan kemampuan auditor internal secara berkelanjutan dengan cara menghadiri pelatihan, konferensi, seminar, dan sertifikasi audit internal. Peningkatan pengetahuan dan kemampuan ini dilakukan baik pada aspek pengetahuan teknis metode audit, tata kelola, manajemen risiko dan pengendalian, manajemen umum, industri pertambangan batubara, dan pasar modal.

TRAINING OF THE INTERNAL AUDIT DIVISION

To strengthen the existing internal audit practices, the Internal Audit Division will improve the knowledge and skills of internal auditors on an ongoing basis by attending training, conferences, seminars, and internal audit certifications. This knowledge and capability enhancement is carried out both in the aspects of technical knowledge of audit methods, governance, risk management and control, general management, coal mining industry, and capital markets.

SISTEM PENGENDALIAN INTERNAL

Internal Control System

Perseroan memiliki dan menerapkan sistem pengendalian internal yang bertujuan untuk mencapai keandalan dan ketepatan informasi keuangan dan operasi, efektivitas dan efisiensi dalam operasi, perlindungan aset fisik, dan kepatuhan pada semua undang-undang, peraturan dan kontrak yang relevan. Direksi bertanggung jawab atas sistem pengendalian internal BUMI secara keseluruhan.

PENERAPAN SISTEM PENGENDALIAN KEUANGAN DAN OPERASIONAL

Perseroan menerapkan sistem pengendalian internal atas 2 (dua) aspek, yaitu pengendalian operasional dan pengendalian keuangan termasuk di dalamnya kepatuhan terhadap hukum dan peraturan yang berlaku. Dalam hal pengendalian keuangan, Perseroan memiliki kebijakan, prosedur, instruksi berkaitan dengan keuangan yang senantiasa diperbaharui (*update*) secara berkala guna menggambarkan kegiatan operasional yang aktual dan sesuai dengan peraturan serta standar akuntansi yang berlaku.

Dalam hal pengendalian operasional, Perseroan menerapkan pengendalian internal atas berbagai hal yang berkaitan dengan tujuan operasional yang dapat membantu manajemen untuk memahami sejauh mana tujuan operasional Perseroan dapat tercapai. Perseroan juga menerapkan kebijakan dan prosedur yang membantu pencapaian tujuan operasional dan secara wajar memastikan kepatuhan implementasi undang-undang dan peraturan yang berlaku.

PENERAPAN SISTEM PENGENDALIAN INTERNAL

Selama 2023, Perseroan menerapkan sistem pengendalian internal melalui aspek-aspek berikut ini:

Komponen Lingkungan Pengendalian Components of the control environment

Perseroan mengedepankan pentingnya penerapan Pedoman Perilaku secara berkelanjutan di seluruh jenjang organisasi untuk memastikan seluruh karyawan memiliki integritas yang tinggi dan menerapkan etika dalam semua kegiatan. Pedoman Perilaku ini terus ditelaah dan diperbaharui secara rutin.

The Company places importance on the continuous implementation of the Code of Conduct throughout the organization to ensure that its employees have high integrity and apply ethics in all their activities. The Code of Conduct has been regularly reviewed and updated.

Pelatihan dan program pengembangan yang relevan tersedia bagi karyawan Perseroan dan anak perusahaannya agar karyawan memiliki kompetensi, keahlian, dan pengetahuan yang memadai dalam melaksanakan tugas dan tanggung jawab. Direksi dan Dewan Komisaris senantiasa memberikan perhatian dan arahan penuh untuk memastikan lingkungan pengendalian berlaku sebagai suatu landasan yang kuat untuk semua komponen lain dalam pengendalian internal.

Training and related development programs have been provided to employees of the Company and its subsidiaries to ensure that all employees have sufficient competency, expertise, and knowledge in performing their duties and responsibilities. The Board of Directors and Board of Commissioners have given full attention and direction to ensure that the control environment serves as a strong foundation for all other components of internal control.

The Company has and implements an internal control system designed with the objective of achieving reliability and accuracy of financial and operating information, effectiveness and efficiency in operations, protection of physical assets, and compliance with all relevant laws, regulations, and contracts. The Board of Directors is responsible for BUMI's overall internal control system.

IMPLEMENTATION OF FINANSIAL AND OPERATIONAL CONTROL SYSTEM

The Company implements an internal control system on 2 (two) aspects, namely operational control and financial control including compliance with applicable laws and regulations. In terms of financial control, the Company has policies, procedures, instructions related to finance that are updated regularly to describe actual operational activities and in accordance with applicable regulations and accounting standards.

In terms of operational control, the Company implements internal control over various matters related to operational objectives that can help management to understand the extent to which the Company's operational objectives can be achieved. The Company also implements policies and procedures that help achieve operational objectives and reasonably ensure compliance with the implementation of applicable laws and regulations.

IMPLEMENTATION OF INTERNAL CONTROL SYSTEM

During 2023, the Company implemented the internal control system through the following aspects:

Komponen Penilaian Risiko Components of Risk Assessment

Perseroan menunjuk *Risk Officer* di BUMI dan anak perusahaannya untuk membantu *Risk Owner* dalam mengidentifikasi, menganalisis, merencanakan, melaksanakan, dan memantau kegiatan mitigasi risiko. BUMI telah mendokumentasikan dan mengkomunikasikan kepada karyawan terkait, kebijakan dan prosedur Manajemen Risiko Korporat (*Enterprise Risk Management* – ERM). Kebijakan dan prosedur ERM mencakup tujuan, pihak yang bertanggung jawab, struktur organisasi pengelolaan risiko, kerangka kerja manajemen risiko, kebijakan risiko dan proses manajemen risiko (yaitu identifikasi, evaluasi, mitigasi, pemantauan, dan pelaporan risiko).

The Company appoints Risk Officer in BUMI and its subsidiaries to assist the Risk Owner in identifying, analyzing, planning, implementing and monitoring risk mitigation activities. BUMI has documented and communicated Enterprise Risk Management (ERM) policies and procedures to relevant employees. The ERM policies and procedures include objectives, responsible parties, risk management organizational structure, risk management framework, risk policy, and risk management process (namely risk identification, evaluation, mitigation, monitoring, and reporting).

Setiap kali muncul risiko yang signifikan, risiko ini akan segera dianalisis dan rencana mitigasi yang tepat akan dirancang, diimplementasikan dan dimonitor. Selain itu, penilaian risiko secara keseluruhan dan terperinci telah dilakukan secara teratur di BUMI dan anak perusahaan atas proses bisnis kunci.

Whenever significant risks arise, these risks will be immediately analyzed and appropriate mitigation plans will be designed, implemented and monitored. In addition, overall and detailed risk assessments have been conducted regularly at BUMI and subsidiaries on key business processes.

Daftar risiko dan peta risiko (*risk map*) BUMI senantiasa ditinjau ulang dan diperbaharui sebagai komitmen yang tinggi dalam menanggapi situasi saat ini dan perubahan lingkungan di BUMI yang dinamis. Hasil ERM ini telah digunakan sebagai dasar untuk memperbarui rencana *Risk Based Internal Audit* (RBIA) 2023 dan menyusun rencana RBIA 2024. Secara ringkas, proses manajemen risiko telah mencakup proses penentuan tujuan, identifikasi kejadian, penilaian risiko dan tanggapan atas risiko.

BUMI's risk register and risk map have been reviewed and updated as a high commitment in response to the current situation and dynamic changes in BUMI's environment. The ERM results have been used as the basis to update the 2023 Risk Based Internal Audit (RBIA) plan and develop the 2024 RBIA plan. In summary, the risk management process has covered the process of goal setting, event identification, risk assessment and risk response.

Komponen Kegiatan Pengendalian Components of Control Activities

Rencana mitigasi risiko dan kegiatan pengendalian senantiasa ditinjau dan diperbaharui di BUMI, KPC, Arutmin, dan anak perusahaan lainnya. Dokumentasi dan rancangan kegiatan pengendalian terus ditingkatkan sebagai bagian dari penyusunan, pengkinian, dan perbaikan SOP berkelanjutan di BUMI dan anak perusahaannya. SOP ini telah dikomunikasikan dan disosialisasikan kepada karyawan terkait dan implementasinya telah ditinjau dan dipantau secara berkelanjutan untuk memastikan semua kegiatan pengendalian telah diterapkan di BUMI dan anak perusahaannya.

Risk mitigation plans and control activities have been reviewed and updated at BUMI, KPC, Arutmin and other subsidiaries. Documentation and design of control activities have been improved as part of the development, update and continuous improvement of SOPs at BUMI and its subsidiaries. These SOPs have been communicated and socialized to relevant employees and their implementation has been reviewed and monitored on an ongoing basis to ensure all control activities have been implemented at BUMI and its subsidiaries.

Komponen Informasi dan Komunikasi Information and Communication Component

Manajemen operasi memiliki tanggung jawab untuk memastikan bahwa sistem pengendalian internal, baik untuk keuangan maupun operasional, berjalan secara efektif melalui identifikasi, pencatatan dan komunikasi informasi yang relevan dalam bentuk dan jangka waktu yang memadai sehingga mereka dapat menjalankan tanggung jawab mereka dengan baik. Selanjutnya, Perseroan telah menerapkan *Speak-Up System* untuk memastikan bahwa semua pelanggaran signifikan atas Pedoman Perilaku diselidiki dan ditindaklanjuti secara tepat.

Operations management has the responsibility to ensure that the internal control system, both for financial and operational, runs effectively through the identification, recording and communication of relevant information in sufficient form and timeframe, enabling them to properly carry out their responsibilities. Furthermore, the Company has implemented a Speak-Up System to ensure that all significant violations of the Code of Conduct will be appropriately investigated and followed up.

Komponen Pemantauan Components of Monitoring

Kegiatan pemantauan terus dilakukan melalui pengawasan secara mendalam dan berkelanjutan pada semua tingkatan manajemen di semua divisi di bawah Grup BUMI untuk mengidentifikasi potensi penyimpangan yang dapat menghambat pencapaian tujuan Perseroan dan melakukan perbaikan dengan segera.

Monitoring activities have been conducted through in-depth and continuous supervision at all levels of management in all divisions under the BUMI Group to identify potential deviations that may hinder the achievement of the Company's objectives and to rectify them immediately.

Manajemen pada semua tingkatan adalah lini pertama dalam meninjau dan memantau proses dan pengendalian internal untuk area dalam tanggung jawabnya dalam aktivitas operasi keseharian mereka. Manajemen melakukan perbaikan berdasarkan pemantauan tersebut untuk memastikan proses dan pengendalian internal telah berhasil secara efektif dan cukup serta bisa diterapkan dalam mengatasi risiko signifikan. Divisi Audit Internal membantu manajemen dalam bentuk audit atas proses dan praktek pengendalian internal berdasarkan RBIA dan menyediakan solusi perbaikan alternatif sebagaimana disarankan dalam rekomendasi audit internal.

Divisi Audit Internal bekerjasama dengan Divisi Governance, Manajemen Risiko dan Sustainability BUMI, Komite Audit BUMI (dan juga Komite Audit KPC dan Arutmin) dan fungsi-fungsi lain dalam organisasi BUMI untuk membantu dalam memastikan bahwa kegiatan pengendalian telah dirancang dengan baik untuk mengurangi risiko signifikan sebagaimana diidentifikasi oleh proses manajemen risiko dan beroperasi secara efektif dalam proses bisnis utama pada BUMI dan anak perusahaannya.

Selama 2023, hasil audit telah dilaporkan kepada Direksi melalui Presiden Direktur dan Dewan Komisaris Melalui Komite Audit. Pembahasan telah dilakukan secara rutin dengan Komite Audit pada tingkat induk dan anak perusahaan atas masalah terkait audit internal untuk memastikan bahwa Komite Audit memperoleh cukup informasi untuk menjalankan fungsi pengawasannya.

PERNYATAAN DIREKSI DAN DEWAN KOMISARIS ATAS KECUKUPAN SISTEM PENGENDALIAN INTERNAL

Direksi dan Dewan Komisaris menyatakan bahwa Perseroan telah memiliki serta menjalankan sistem pengendalian internal yang efektif dan memadai dalam mengelola risiko-risiko yang dihadapi dan tetap berada dalam batas toleransi yang ditetapkan dalam mendukung pencapaian tujuan Perseroan selama 2023. Hal ini tercermin di antaranya melalui pengendalian keuangan dan operasional yang dijalankan secara efektif dan efisien, penyampaian laporan keuangan yang akurat dan dapat diandalkan, pengamanan dan kepatuhan terhadap hukum dan peraturan yang berlaku.

Management at all levels are the first line in reviewing and monitoring the internal processes and controls for the areas under their responsibility in their day-to-day operations. Management makes improvements based on such monitoring to ensure internal processes and controls are effective and sufficient and workable in addressing significant risks. The Internal Audit Division assists management in auditing internal control processes and practices based on the RBIA and provides alternative improvement solutions as suggested in the internal audit recommendations.

The Internal Audit Division works closely with BUMI's Governance, Risk Management and Sustainability Division, BUMI's Audit Committee (as well as KPC and Arutmin Audit Committee) and other functions within BUMI's organization to assist in ensuring that control activities are well designed to mitigate significant risks as identified by the risk management process and operate effectively in key business processes at BUMI and its subsidiaries.

During 2023, audit results were reported to the Board of Directors through the President Director and the Board of Commissioners through the Audit Committee. Discussions have been held regularly with the Audit Committees at the parent and subsidiary levels on internal audit-related issues to ensure that the Audit Committee has sufficient information to perform its oversight function.

STATEMENT OF THE BOARD OF DIRECTORS AND BOARD OF COMMISSIONERS ON THE ADEQUACY OF THE INTERNAL CONTROL SYSTEM

The Board of Directors and Board of Commissioners state that the Company has an effective and adequate internal control system in managing the risks faced and remains within the tolerance limits set in supporting the achievement of the Company's objectives during 2023. This is reflected, among others, through financial and operational controls that are carried out effectively and efficiently, the submission of accurate and reliable financial reports, security and compliance with applicable laws and regulations.

SISTEM MANAJEMEN RISIKO

Risk Management System

Tahun 2023, perekonomian secara global kembali melanjutkan tren pemulihan pasca pandemi yang telah berlangsung sejak 2021. Namun, di tengah pemulihan yang sedang terjadi, terdapat hambatan berupa meningkatnya tantangan dan tingginya ketidakpastian ekonomi dan terutama geopolitik. Ketidakpastian terjadi akibat perang Rusia-Ukraina, konflik Timur Tengah dan gangguan keamanan di Laut Merah yang mendorong peningkatan risiko ekonomi global dan kenaikan harga komoditas serta dampak dari tekanan inflasi global yang tinggi.

BUMI menyadari bahwa risiko telah menjadi bagian yang tidak terpisahkan dalam setiap proses bisnis yang dijalankan. Dampak dari risiko tersebut secara signifikan dapat memengaruhi kestabilan perusahaan, yang tentu saja melekat pada semua aktivitas dan pengambilan keputusan dalam menjalankan bisnis. Manajemen Risiko merupakan suatu proses dan aktivitas yang terpadu, terstruktur, dan membudaya yang diarahkan untuk merealisasikan peluang potensial dan sekaligus mengelola dampak yang merugikan bagi pencapaian sasaran Perseroan.

BUMI telah menerapkan manajemen risiko secara konsisten sejak tahun 2010 melalui integrasi manajemen risiko pada seluruh proses bisnis Perusahaan dan manajemen risiko menjadi pertimbangan dalam pengambilan keputusan strategis dan operasional perusahaan. Penerapan manajemen risiko yang efektif dan konsisten di perusahaan dapat menciptakan dan memaksimalkan peluang, mengantisipasi perubahan iklim bisnis yang dinamis serta dapat memelihara kepercayaan investor.

Sejak tahun 2020, Divisi Manajemen Risiko di BUMI juga turut serta dalam mengembangkan strategi pengelolaan risiko terkait Lingkungan, Sosial dan Tata Kelola (Environmental, Social, Governance/ "ESG"). Di tengah akselerasi ekonomi dunia yang bertransisi menuju ekonomi rendah karbon, Divisi Manajemen Risiko BUMI berperan penting dalam mengidentifikasi risiko terkait perubahan iklim baik itu risiko fisik maupun risiko transisi. Di tahun 2023 ini, Divisi Manajemen Risiko BUMI ikut berperan secara aktif dalam pelaksanaan proyek penentuan kerangka strategis BUMI untuk penurunan emisi karbon.

Perseroan telah mengadopsi sistem manajemen risiko yakni *Enterprise Risk Management* (ERM) berbasis pada ISO 31000:2018 yang terdiri dari Prinsip, Kerangka Kerja, dan Proses Manajemen Risiko. Perseroan menetapkan sistem manajemen risiko sebagai bagian dari sistem manajemen

In 2023, the global economy continued the post-pandemic recovery trend that has been going on since 2021. However, amidst the ongoing recovery, there were obstacles in the form of increasing challenges and high economic uncertainty, particularly geopolitically. Uncertainty occurred due to the Russian-Ukrainian war, the Middle East conflict, and security disturbances in the Red Sea. which have led to increased global economic risks and rising commodity prices, as well as the impact of high global inflationary pressures.

BUMI is aware that risk has become an integral part of every business process it carries out. The impact of these risks can significantly affect the stability of the Company, which of course is inherent in all activities and decision making in running a business. Risk Management is an integrated, structured, and entrenched process and activity that is directed at realizing potential opportunities and at the same time managing negative impacts on achieving the Company's targets.

BUMI has consistently implemented risk management since 2010 through the integration of risk management in all business processes of the Company and risk management is taken into consideration in making strategic and operational decisions for the Company. Implementing effective and consistent risk management in the Company can create and maximize opportunities, anticipate changes in the dynamic business climate, as well as maintain investor confidence.

Since 2020, the Risk Management Division at BUMI has also participated in developing risk management strategies related to Environmental, Social and Governance (ESG). In the midst of the acceleration of the world economy transitioning towards a low-carbon economy, BUMI's Risk Management Division has a key role in identifying risks related to climate change, both physical risks and transition risks. In 2023, BUMI's Risk Management Division played an active role in implementing the project to determine BUMI's strategic framework for reducing carbon emissions.

The Company has adopted a risk management system, namely Enterprise Risk Management (ERM) based on ISO 31000:2018, which consists of Risk Management Principles, Frameworks, and Processes. The Company has established a risk management system as part of the Company's

SISTEM MANAJEMEN RISIKO

Risk Management System

Perseroan yang dilaksanakan secara sistematis dan mendorong terciptanya budaya sadar risiko di lingkungan kerja. Perseroan juga melaksanakan reviu secara berkala untuk melihat efektivitas pelaksanaan sistem manajemen risiko.

Tujuan dari penerapan sistem manajemen risiko adalah untuk:

1. Menciptakan dan melindungi nilai Perseroan;
2. Menciptakan budaya kesadaran pentingnya manajemen risiko di seluruh elemen dan tingkatan Perseroan;
3. Mengidentifikasi, menilai, dan mengelola risiko utama Perseroan berdasarkan bahasa risiko yang sama;
4. Memberikan laporan dan rencana mitigasi risiko-risiko utama Perseroan secara periodik dan proporsional kepada manajemen senior dan eksekutif;
5. Memastikan bahwa rencana mitigasi risiko dilakukan secara memadai dengan cara yang efektif guna mencapai tujuannya, yakni meminimalisasi dampak dan kemungkinan terjadinya risiko tersebut;
6. Memastikan adanya koordinasi dan komunikasi yang memadai di antara semua fungsi manajemen risiko Perseroan;
7. Memastikan bahwa kinerja manajemen risiko Perseroan dilaksanakan sesuai dengan praktik tata kelola risiko yang baik;
8. Memastikan bahwa risiko yang teridentifikasi adalah benar (valid) dan terus diperbaharui; dan
9. Mempertahankan keseluruhan proses manajemen risiko.

Perseroan menetapkan Kebijakan Manajemen Risiko melalui Surat Keputusan Direksi No. 313/BR-BOD/X/19 tanggal 2 Oktober 2019 yang menggantikan kebijakan sebelumnya yang dikeluarkan melalui Surat Keputusan Direksi No. 036/BR-BOD/II/13 tanggal 6 Februari 2013 telah mengadopsi standar ISO 31000:2018 yang terdiri dari prinsip-prinsip, kerangka kerja dan proses manajemen risiko.

Tujuan utama dari kebijakan dan prosedur sistem manajemen risiko adalah:

1. Sebagai langkah awal bagi Perseroan untuk menyiapkan cakupan dari kegiatan manajemen risiko dan berlaku sebagai ukuran minimum standar untuk semua kegiatan manajemen risiko di seluruh perusahaan.

management system, which is implemented systematically and encourages the creation of a risk awareness culture in the work environment. The Company also carries out regular reviews to observe the effectiveness of the risk management system implementation.

The aim of risk management system implementation is to:

1. Create and protect the value of the Company;
2. Creating a culture of awareness of the importance of risk management at all elements and levels of the Company;
3. Identify, assess and manage the Company's key risks based on a common risk language;
4. Provide periodic and proportional reports and mitigation plans for the Company's key risks to senior management and executives;
5. Ensure that the risk mitigation plan is adequately implemented in an effective manner to achieve its objective of minimizing the impact and likelihood of the risk to occur;
6. Ensure adequate coordination and communication among all risk management functions of the Company;
7. Ensure that the Company's risk management performance is carried out in accordance with good risk governance practices;
8. Ensure that identified risks are valid and kept up to date; and
9. Maintain the overall risk management process.

The Company establishes a Risk Management Policy through the Board of Directors Decree No. 313/BR-BOD/X/19 dated October 2, 2019, which replaced the previous policy issued through the Board of Directors Decree No. 036/BR-BOD/II/13 dated February 6, 2013, has adopted the ISO 31000:2018 standard, which consists of risk management principles, framework, and processes.

The main objectives of the implementation of risk management system policies and procedures are:

1. As an initial step for the Company to prepare the scope of risk management activities and apply as a standard minimum measure for all risk management activities throughout the Company.

2. Memberikan arahan bagaimana karyawan harus bertindak dalam menghadapi suatu risiko yang timbul dalam situasi tertentu. Namun demikian, jika ada situasi khusus yang dihadapi, penggunaan kebijakan ini memerlukan pertimbangan serta pengalaman yang pernah dialami. Dalam hal terdapat ketidakpastian dalam penerapan prinsip-prinsip kebijakan ini, maka bila terdapat kesalahpahaman harus diselesaikan dengan persetujuan manajemen.
3. Sebagai referensi untuk mengembangkan *Standard Operating Procedure* (SOP) dan pedoman terkait lainnya yang harus mengikuti kebijakan dan prosedur manajemen risiko ini.

Pedoman kebijakan ini hanya merupakan salah satu alat untuk menerapkan budaya manajemen risiko di BUMI. Sebagai tambahan atas pedoman ini, proses manajemen risiko diinternalisasikan ke dalam budaya perusahaan seperti dalam pengambilan keputusan/tindakan manajemen, komunikasi antar divisi dan manajemen, *workshop knowledge update*, pertemuan manajemen risiko dengan unit usaha secara teratur maupun pelatihan-pelatihan.

Perseroan juga mengungkapkan secara transparan risiko-risiko yang secara signifikan memengaruhi kegiatan usaha sebagai bagian dari upaya Perseroan memberikan informasi yang dapat digunakan sebagai dasar pertimbangan dalam pengambilan keputusan oleh pihak-pihak yang akan melakukan hubungan bisnis dan kerja sama dengan Perseroan.

Manajemen Risiko di BUMI juga memainkan peran yang strategis dengan terlibat dalam menganalisis risiko terkait perubahan iklim dan juga dekarbonisasi terhadap kelangsungan bisnis Perseroan. Divisi Manajemen Risiko juga menjadi anggota sekaligus menjalankan fungsi kesekretariatan dalam Komite ESG sehingga semakin merekatkan manajemen risiko dalam pengambilan keputusan strategis Perseroan.

STRUKTUR ORGANISASI FUNGSI MANAJEMEN RISIKO

Fungsi Manajemen Risiko Perseroan berada dalam Divisi Risk Management, GCG and Sustainability dan bertanggung jawab kepada Direktur Utama. Adapun struktur organisasi Fungsi Manajemen Risiko Perseroan sebagai berikut:

2. Provides direction on how employees should act in the face of a risk arising in a particular situation. However, if there are specific situations encountered, the use of this policy requires judgment and experience. Where there is uncertainty in the application of the principles of this policy, any misunderstandings should be resolved with management approval.
3. As a reference to the development of Standard Operating Procedure (SOP) and other related guidelines that should follow this risk management policy and procedure.

This policy guideline is only one of the tools to implement risk management culture at BUMI. In addition to this guideline, the risk management process is internalized into the corporate culture, such as in decision making/management actions, communication between divisions and management, knowledge update workshops, risk management meetings with business units on a regular basis, as well as trainings.

The Company also transparently discloses risks that significantly affect business activities as part of the Company's efforts to provide information that can be used as a basis for consideration in decision making by parties who will enter business relationships and cooperation with the Company.

Risk Management at BUMI also plays a strategic role by engaging in analyzing climate change and decarbonization related risks to the Company's business continuity. The Risk Management Division also serves as a member and ESG Committee, further embedding risk management in the Company's strategic decision making.

ORGANIZATIONAL STRUCTURE OF THE RISK MANAGEMENT FUNCTION

The Company's Risk Management function is within the Risk Management, GCG and Sustainability Division and is responsible to the President Director. The Company's risk management structure is as follows:

SISTEM MANAJEMEN RISIKO

Risk Management System

Sejak pembentukannya, Divisi Risk Management, GCG and Sustainability secara konsisten mengintegrasikan fungsi manajemen risiko, tata kelola Perseroan, dan upaya keberlangsungan Perseroan sekaligus tetap memperkuat koordinasi penanganan risiko di seluruh kelompok usaha (unit bisnis). Setelah menerima sosialisasi dan kampanye terkait manajemen risiko, divisi dan unit bisnis mendapatkan pengetahuan dan pengalaman yang mencukupi dalam proses-proses manajemen risiko sekaligus menyadari peran mereka dalam proses tersebut.

TUGAS DAN TANGGUNG JAWAB FUNGSI MANAJEMEN RISIKO

 8. Escalation of critical issues that require immediate attention from executive management to the Risk Management, GCG, and Sustainability Division.

PROSES MANAJEMEN RISIKO

Proses manajemen risiko BUMI dimulai dari penetapan ruang lingkup, konteks, dan kriteria risiko oleh Direksi dan Dewan Komisaris kemudian dilanjutkan dengan pelaksanaan *Risk Assessment* oleh *Risk Owner* pada masing-masing unit kerja dan entitas anak usaha.

RISK MANAGEMENT PROCESS

BUMI's risk management process starts from determining the scope, context, and risk criteria by the Board of Directors and Board of Commissioners, continued by the implementation of Risk Assessment by the Risk Owner in each work unit and subsidiary.

SISTEM MANAJEMEN RISIKO

Risk Management System

Berikut ini proses manajemen risiko yang diterapkan oleh Perseroan antara lain:

- **Ruang Lingkup, Konteks, dan Kriteria (Scope, Context, Criteria)**

Perseroan menjelaskan dengan nyata tentang tujuan sistem manajemen risiko, mendefinisikan parameter internal dan eksternal yang harus dipertimbangkan dalam mengelola risiko serta menentukan ruang lingkup dan kriteria risiko untuk proses selanjutnya. Setelah tujuan strategis dan usaha ditetapkan, kejadian-kejadian yang dapat memengaruhi tujuan strategis harus diidentifikasi. Sebelum proses identifikasi dilakukan, Perseroan menetapkan konteks atas upaya mencapai tujuan tersebut. Pengambil keputusan di setiap jenjang harus mempertimbangkan manajemen risiko sebagai bagian integral dari tugas mereka. Agar hal tersebut terjadi, Perseroan harus mengetahui risiko yang ada di divisi/unit usaha secara keseluruhan.

- **Penilaian Risiko (Risk Assessment)**

Penilaian Risiko merupakan keseluruhan proses atau aktivitas yang meliputi:

1. **Identifikasi Risiko (Risk Identification)**
BUMI mengidentifikasi risiko untuk menemukan, mengenali, dan mendeskripsikan risiko yang mungkin dapat menghambat Perseroan dalam mencapai sasaran dan menilai potensi risiko, termasuk melalui penilaian risiko regular dan analisis skenario.
2. **Analisis Risiko (Risk Analysis)**
BUMI menganalisis risiko untuk menentukan besaran kemungkinan terjadinya risiko dan besaran dampak risiko, dengan memperhatikan sumber dan penyebab risiko serta pengendalian risiko yang sudah ada saat ini dan efektivitasnya.
3. **Evaluasi Risiko (Risk Evaluation)**
BUMI mengevaluasi risiko untuk membandingkan hasil analisis risiko dengan kriteria risiko yang sudah ditetapkan untuk menentukan tindakan yang perlu dilakukan.

Di tahun 2023, *risk assessment* Perseroan dilakukan berbeda dengan tahun sebelumnya dimana pelaksanaannya tidak lagi dilakukan secara virtual tetapi sudah dilakukan *on-site* oleh masing-masing unit kerja dan entitas anak usaha.

The following is the risk management process implemented by the Company, among others:

- **Scope, Context, and Criteria**

The Company clearly explains the objectives of the risk management system, defines the internal and external parameters to be considered in managing risks, and determines the scope and criteria of risks for the next process. Once the strategic and business objectives are set, events that may affect the strategic objectives must be identified. Prior to the identification process, the Company sets the context for achieving the objectives. Decision makers at all levels must consider risk management as an integral part of their duties. For this to happen, the Company must know the risks that exist in the division/business unit as a whole.

- **Risk Assessment**

Risk Assessment is a whole process or activity that includes:

1. **Risk Identification**
BUMI identifies risks to discover, recognize, and describe risks that may hinder the Company from achieving its targets and assess potential risks, including through regular risk assessments and scenario analysis.
2. **Risk Analysis**
BUMI analyzes risk to determine the magnitude of the possibility of risk occurring and the magnitude of risk impact, taking into account the sources and causes of risk as well as existing risk controls and their effectiveness.
3. **Risk Evaluation**
BUMI evaluates risks to compare the results of risk analysis with predetermined risk criteria to determine the actions that need to be taken.

In 2023, the Company's risk assessment was carried out differently from the previous year, in which the implementation will no longer be carried out virtually but will be carried out on-site by each work unit and subsidiary.

- **Penanganan Risiko (*Risk Treatment*)**

BUMI menentukan tindakan yang harus dilakukan untuk menghilangkan, mengurangi, menerima atau mengalihkan risiko yang teridentifikasi sehingga risiko tersebut masih dalam batas yang dapat ditoleransi oleh Perseroan. Pengembangan rencana tindakan dapat membantu identifikasi, pemantauan dan pelaporan status dari kontrol manajemen risiko dan kegiatan penanganana yang terkait dengan setiap risiko. Perumusan rencana tindakan membantu pengarahannya sumber daya kepada risiko-risiko yang kritis dan penting. BUMI melakukan penanganan risiko disesuaikan dengan strategi bisnis Perseroan dengan mempertimbangkan *Risk Appetite*, status risiko, biaya penanganan risiko (*cost of risk*), dan manfaat yang paling optimal bagi Perseroan.

- **Komunikasi dan Konsultasi (*Communication & Consultation*)**

BUMI melakukan komunikasi dan konsultasi dengan pemangku kepentingan untuk saling berbagi dan memperoleh informasi serta melakukan dialog terkait dengan penanganan risiko. Tujuan komunikasi dan konsultasi risiko di Perusahaan adalah untuk membantu pemangku kepentingan terkait di Perusahaan dan entitas anak usaha dalam memahami risiko dan dapat dijadikan dasar dalam pengambilan keputusan mereka dan alasan dalam mengambil suatu tindakan. Proses ini harus dapat memastikan diperolehnya umpan balik dan informasi penting untuk mendukung pengambilan keputusan terkait.

- **Pemantauan dan Kaji Ulang (*Monitoring & Review*)**

BUMI melaksanakan pemantauan berkelanjutan oleh para Pemilik Risiko (*Risk Owner*) dan fungsi terkait untuk memastikan dan meningkatkan mutu dan efektivitas dari proses, rancangan, implementasi dan hasil dari manajemen risiko di Perusahaan dan unit usaha. Manfaat pelaksanaan pemantauan dan kaji ulang adalah untuk mendapatkan pengertian atas sifat dan cakupan dari risiko terkini, mencegah terjadinya kejadian risiko, dan untuk menganalisis kerugian yang pernah terjadi di masa lalu.

- **Risk Treatment**

BUMI determines the actions to be taken to eliminate, reduce, accept, or transfer the identified risks to ensure that the risks are still within the limits that can be tolerated by the Company. The development of an action plan can help the identification, monitoring and reporting on the status of risk management controls and treatment activities associated with each risk. The formulation of action plans helps direct resources to critical and important risks. BUMI handles risks according to the Company's business strategy by considering the Risk Appetite, risk status, cost of risk, and the most optimal benefits for the Company.

- **Communication & Consultation**

BUMI communicates and consults with stakeholders to share and obtain information as well as conduct dialogues related to risk management. The purpose of risk communication and consultation in the Company is to help relevant stakeholders in the Company and its subsidiaries to understand risks and be able to use this as a basis for their decision making and reasons for taking action. This process must ensure that important feedback and information is obtained to support the related decision making.

- **Monitoring & Review**

BUMI carries out continuous monitoring by Risk Owners and related functions to ensure and improve the quality and effectiveness of the process, design, implementation, and results of risk management in the Company and business units. The benefits of monitoring and review are to gain an understanding of the nature and scope of current risks, prevent risk events from occurring, and to analyze losses that have occurred in the past.

SISTEM MANAJEMEN RISIKO

Risk Management System

- **Pencatatan dan Pelaporan (*Recording & Reporting*)**
Tujuan dari pencatatan dan pelaporan risiko adalah untuk mengkomunikasikan kegiatan manajemen risiko dan hasilnya ke lintas organisasi di Perusahaan dan unit usaha; memberikan informasi untuk pengambilan keputusan; meningkatkan kegiatan manajemen risiko; dan membantu interaksi dengan pemangku kepentingan, termasuk pihak yang bertanggung jawab dan berwenang atas risiko.

- **Recording & Reporting**
The objective of risk recording and reporting is to communicate risk management activities and results across organizations in the Company and business units; provide information for decision making; improving risk management activities; and assisting interactions with stakeholders, including those in charge of and authorized for risks.

PENERAPAN MANAJEMEN RISIKO

Perseroan menerapkan konsep tiga lini pertahanan untuk meningkatkan kontrol dan pengelolaan risiko. Konsep tersebut membagi tugas dan tanggung jawab manajemen risiko serta kontrol kepada tiga lini pertahanan. Setiap lini memiliki tugas dan tanggung jawab yang spesifik, namun ketiganya memiliki objektif tunggal untuk mendukung pencapaian tujuan-tujuan usaha Perseroan melalui manajemen risiko yang efektif.

IMPLEMENTATION OF RISK MANAGEMENT

The Company applies the three lines of defense concept to improve risk control and management. This concept divides the duties and responsibilities of risk management and control into three lines of defense. Each line has specific duties and responsibilities, but all three have a single objective, namely, to support the achievement of the Company's business goals through effective risk management.

Konsep Tiga Lini Pertahanan dalam Penerapan Manajemen Risiko Perseroan Three Lines of Defense Concept in the Company's Risk Management Implementation

Pertahanan Lini Pertama adalah pihak yang setiap hari berhadapan langsung dengan risiko dan bertindak sebagai pemilik risiko. Dengan dukungan dari Pengawasan Internal, Manajemen Lini Depan sebagai Pertahanan Lini Pertama bertugas memastikan implementasi dan efektivitas kontrol pencegahan dan mitigasi dan rencana kerja terkait penurunan risiko.

First Line of Defense is the party who deals directly with risk every day and acts as the risk owner. With support from Internal Audit, Front Line Management as the First Line of Defense is tasked with ensuring the implementation and effectiveness of prevention and mitigation controls and work plans related to risk reduction.

Pertahanan Lini Kedua bertugas memberikan dukungan kepada pertahanan lini pertama dalam penerapan manajemen risiko dan menyediakan keahlian teknis untuk mengawasi Pertahanan Lini Pertama dalam mengelola risiko dan kontrolnya. Fungsi yang termasuk Pertahanan Lini Kedua adalah Fungsi Manajemen Risiko.

Pertahanan Lini Ketiga adalah pihak independen di luar administrasi yang berfungsi meyakinkan Pertahanan Lini Pertama dan Kedua bekerja secara konsisten sesuai harapan para pemangku kepentingan Perseroan. Fungsi yang termasuk dalam Pertahanan Lini Ketiga adalah Internal Audit.

PENERAPAN RISK CONTROL SELF ASSESSMENT (RCSA)

Risk Control Self Assessment ("RCSA") adalah proses dimana BUMI dan unit usahanya di setiap tingkatan organisasi melakukan identifikasi dan penilaian risiko dan kendali yang terkait dengannya di wilayah kerja/fungsi masing-masing. RCSA diterapkan dengan menggunakan analisis bow-tie yang merupakan cara penggambaran sederhana dalam menjelaskan alur kejadian risiko dari penyebab ke dampak dan meninjau kembali kendalinya. Alur tersebut digambarkan sebagai berikut:

Langkah-langkah pelaksanaan analisis risiko dan pengujian kendali risiko dijelaskan secara rinci dalam Kebijakan Manajemen Risiko BUMI.

Second Line of Defense is tasked with providing support to the first line of defense in implementing risk management and providing technical expertise to supervise the First Line of Defense in managing risks and controls. The function included in the Second Line of Defense is the Risk Management Function.

Third Line of Defense is an independent party outside the administration whose function is to ensure that the First and Second Line of Defense work consistently according to the expectations of the Company's stakeholders. The function included in the Third Line of Defense is Internal Audit.

IMPLEMENTATION OF RISK CONTROL SELF-ASSESSMENT (RCSA)

Risk Control Self Assessment ("RCSA") is a process in which BUMI and its business units at every level of the organization identify and assess the risks and controls associated with their respective work areas/functions. The RCSA is implemented by using bow-tie analysis, which is a simple way of describing the flow of risk events from cause to impact and reviewing the controls. The flow is illustrated as follows:

The steps for conducting risk analysis and risk control testing are described in detail in BUMI's Risk Management Policy.

SISTEM MANAJEMEN RISIKO

Risk Management System

PENENTUAN TINGKAT RISIKO

Dalam menentukan tingkat risiko yang dihadapi, Perseroan menggunakan 2 (dua) kriteria risiko, yakni kriteria berdasarkan akibat yang ditimbulkan (*consequence*) dan kemungkinan terjadinya (*likelihood*).

DETERMINATION OF RISK LEVEL

In determining the level of risk, the Company uses 2 (two) risk criteria, namely criteria based on the consequences and the possibility of occurrence (*likelihood*).

Akibat yang Ditimbulkan Consequences	Pengukuran Measurement
Keuangan Finance	Nilai uang dari kehilangan secara aktual, kesempatan, maupun potensi The monetary value of actual, opportunity, and potential losses
Tujuan Strategis Strategic Objectives	Persentase deviasi pencapaian tujuan strategis Percentage deviation of strategic goal achievement
Efisiensi Efficiency	Proyeksi <i>operating</i> EBITDA terhadap total penjualan Batubara Projected operating EBITDA to total coal sales
Penghentian Operasi Discontinuation of Operations	Kemungkinan jumlah hari penghentian operasi Possible number of days of shutdown
Kesalahan Penaksiran Geologis Geological Misjudgements	Persentase deviasi dari penaksiran total cadangan (<i>metric ton</i>) menurut ukuran baku JORC Percentage deviation from estimated total reserves (metric tons) by JORC standard measure
Keterlambatan Penyelesaian Proyek Delay in Project Completion	Kemungkinan jumlah hari keterlambatan proyek Possible number of days of project delay
Perputaran Pegawai Employee Turnover	Persentase perputaran Turnover percentage
Hubungan Industrial Industrial Relations	Aksi ketidakpuasan pegawai Employee dissatisfaction action
Kesehatan dan Keselamatan Health and Safety	Kematian dan tingkat keparahan cedera kerja Mortality and severity of work injuries
Lingkungan Environment	Skala kerusakan lingkungan dan pelanggaran ukuran baku lingkungan Scale of environmental destruction and violation of environmental standards
Reputasi Reputation	Skala luasnya pencemaran reputasi Scale of extent of reputational damage
Regulasi Regulation	Peringatan maupun pembatasan kegiatan usaha oleh regulator Warnings or restrictions on business activities by regulators
Legal Legal	Litigasi dan pengaduan Litigation and complaints

Kemungkinan Terjadinya Possible Occurrence	Makna Meaning
Sangat Tinggi Very High	hampir pasti terjadi almost certain to occur
Tinggi High	besar kemungkinan terjadi likely to occur
Menengah Medium	mungkin terjadi may occur
Rendah Low	kecil kemungkinan terjadi less likely to occur
Sangat rendah Very Low	hampir pasti tidak terjadi almost certain to not occur

PEMETAAN RISIKO

Setiap bagian risiko dimasukkan ke dalam peta risiko berdasarkan probabilitas kejadian dengan dampaknya. Nilai risiko yang telah dipetakan digunakan untuk menentukan tingkatan signifikansi risiko terhadap Perseroan serta prioritas untuk penanggulangan dan pengelolaan risiko. Risiko-risiko di setiap tingkatan/kategori perlu untuk dimitigasi untuk menghindari perpindahan/peningkatan mereka ke tingkatan/kategori yang lebih tinggi serta untuk menurunkan tingkatan dari risiko itu sendiri.

RISK MAPPING

Each part of the risk is entered into a risk map based on the probability of occurrence with its impact. The mapped risk scores are used to determine the level of risk significance to the Company as well as the priority for risk mitigation and management. Risks in each level/ category need to be mitigated to avoid their transfer/ escalation to higher levels/ categories as well as to lower the level of the risk itself.

Tingkat Keparahan Severity Level	Uraian Description
Signifikan Significant	Risiko Signifikan dianggap sebagai risiko yang paling diprioritaskan untuk ditanggulangi. Risiko di area ini dimasukkan ke dalam area <i>Management Enhance Priorities</i> di mana perhatian yang cepat dan ketat dari manajemen senior dibutuhkan. Status terkini dan perkembangan aksi penanggulangan risiko tersebut harus dimonitor dalam periode yang relatif pendek. Significant Risks are considered the most prioritized risks to address. Risks in this area are included in the Management Enhance Priorities area where prompt and rigorous attention from senior management is required. The latest status and progress of the risk mitigation actions should be monitored within a relatively short period.
Tinggi High	Risiko Tinggi ditempatkan dalam area <i>Internal Audit Focus/Cautious</i> di mana rencana mitigasi risiko dikembangkan agar risiko dapat berpindah ke tingkat keparahan yang lebih rendah. High Risks are placed in the Internal Audit Focus / Cautious area where risk mitigation plans are developed to move the risk to a lower severity.
Menengah Medium	Risiko Menengah dianggap sebagai risiko yang lebih dapat diserap dampaknya dibandingkan Risiko Tinggi namun mereka tetap ditempatkan dalam area yang sama yaitu area <i>Internal Audit Focus/Cautious</i> . Rencana mitigasi risiko harus dikembangkan dengan memperhatikan agar risiko tidak berpindah ke tingkat keparahan yang lebih tinggi. Medium Risks are considered to be more absorbable than High Risks, but they are still placed in the same Internal Audit Focus / Cautious area. Risk mitigation plans should be developed with an eye on not moving the risk to a higher level of severity.
Rendah Low	Risiko Rendah ditempatkan pada area <i>Monitoring</i> di mana status mereka saat ini dianggap sebagai status ideal bagi bisnis dan operasi Perseroan. Pengawasan secara teratur terhadap risiko ini tetap diperlukan untuk mencegah risiko-risiko tersebut tidak berpindah ke tingkat keparahan yang lebih tinggi. Low Risks are placed in the Monitoring area where their current status is considered the ideal status for the Company's business and operations. Regular monitoring of these risks is still required to prevent them from moving to a higher level of severity.

TUJUAN STRATEGIS BUMI 2023

Tujuan strategis BUMI pada 2023 adalah sebagai berikut:

1. Produksi batubara sebesar 82 juta hingga 84 juta matriks ton;
2. Digitalisasi sistem produksi batubara pit-to-port;
3. Mengirimkan batubara dengan kualitas optimal, tepat waktu, dan tidak ada keluhan dari pelanggan;
4. Mengembangkan Kerangka Strategis Dekarbonisasi;
5. Menyelesaikan rencana pelaksanaan proyek untuk memulai FEED (*Front End Engineering Design*) untuk bisnis baru gasifikasi batubara dan pabrik peleburan aluminium;
6. Menjaga kepatuhan yang ketat terhadap peraturan untuk menghindari pelanggaran kontrak, penalti atau kasus hukum; dan
7. Unggul dalam kinerja Lingkungan, Sosial, dan Tata Kelola ("ESG") untuk mendukung aksi korporasi dan memenuhi harapan pemangku kepentingan.

BUMI STRATEGIC OBJECTIVE IN 2023

BUMI's strategic objectives in 2023 are as follows:

1. Coal production of 82 million to 84 million matrix tons;
2. Digitalization of the pit-to-port coal production system;
3. Coal transport with optimal quality, on time, and without complaints from customers;
4. Developing a Decarbonization Strategic Framework;
5. Completing the project implementation plan to start FEED (*Front End Engineering Design*) for the new coal gasification business and aluminum smelting plant;
6. Maintain strict compliance with regulations to avoid contract violations, penalties, or legal cases; and
7. To excel in Environmental, Social, and Governance ("ESG") performance to support corporate actions and meet stakeholder expectations.

PROFIL DAN PENGELOLAAN RISIKO

Melalui proses manajemen risiko, risiko usaha Perseroan teridentifikasi sebanyak 87 risiko dengan rincian 11 risiko Signifikan, 30 risiko Tinggi, 22 risiko Menengah, dan 24 risiko Rendah. Berdasarkan kategori, risiko-risiko tersebut terdiri dari 6 risiko Strategis, 15 risiko Keuangan, 58 risiko Operasional, dan 8 risiko Kepatuhan. Untuk membantu manajemen dalam mengawasi risiko-risiko utama di Perusahaan, telah diidentifikasi 6 (enam) risiko utama yang disajikan dalam tabel berikut di bawah ini beserta langkah-langkah mitigasinya.

Tabel Profil Risiko dan Pengelolaannya

Table of Risk Profiles and Their Management

No	Jenis Risiko Risk Type	Peristiwa Risiko Risk Event	Penjelasan & Upaya Mitigasi Description & Mitigation Efforts
1	Keuangan Finance	Penurunan volume penjualan di bawah anggaran Decrease in sales volume below the budget	Adanya risiko penurunan volume penjualan yang diakibatkan oleh tidak tercapainya target produksi batubara, inisiatif dekarbonisasi di beberapa negara, pembeli mulai melakukan pembauran batubara sendiri, pelemahan permintaan dari pembangkit listrik dan kondisi cuaca yang mengganggu pengiriman batubara. Risiko ini dimitigasi dengan memaksimalkan kondisi yang ada di kontrak saat ini dan juga perbaikan strategi pemasaran. Risk of a decline in sales volume due to failure to achieve the coal production targets, decarbonization initiatives in several countries, buyers starting to blend their own coal, weakening demand from power plants, and weather conditions that disrupt coal deliveries. This risk is mitigated by maximizing the conditions in the current contract as well as improving marketing strategies.
2	Keuangan Finance	Peningkatan biaya operasional akibat kenaikan harga komoditas Increased operational costs due to rising commodity prices	Harga bahan bakar dunia menunjukkan kecenderungan meningkat dikarenakan adanya gangguan dari rantai pasok dan juga kondisi ketidakpastian keamanan akibat geopolitik dunia yang memanas. Sebagai komponen biaya yang signifikan dalam proses produksi, peningkatan harga bahan bakar akan berdampak langsung terhadap <i>margin</i> keuntungan Perusahaan. Risiko ini dimitigasi dengan melakukan kontrak jangka panjang untuk kepastian harga, efisiensi peralatan dalam penggunaan bahan bakar, diversifikasi bahan bakar dengan biofuel dan penggunaan instrumen lindung nilai (<i>hedging</i>) dalam biaya yang dapat diterima. Selain itu, rencana mitigasi lainnya adalah inisiatif penggunaan/ penghematan biaya menggunakan digitalisasi dan tinjauan berkelanjutan untuk biaya bahan bakar aktual dengan anggaran. Global fuel prices are indicating an upward trend due to disruptions in the supply chain as well as conditions of security uncertainties due to geopolitical circumstances. As a significant cost component in the production process, an increase in fuel prices will have a direct impact on the Company's profit margin. This risk is mitigated by entering into long-term contracts for price certainty, fuel efficiency in equipment uses, fuel diversification with biofuels and the use of hedging instruments at acceptable costs. Additionally, other mitigation plans include usage/cost savings initiatives using digitalization as well as continuous review on actual fuel costs against budgets.
3	Operasional Operational	Peningkatan frekuensi kecelakaan kerja Increased frequency of work accidents	Faktor kelelahan pekerja kontraktor menjadi salah satu faktor utama penyebab terjadinya kecelakaan kerja. Risiko ini dimitigasi dengan adanya penerapan prosedur kerja yang ketat, meningkatkan pengendalian dan pengawasan manajemen, meningkatkan kampanye keselamatan dan pelatihan bagi kontraktor dan subkontraktor, dan meningkatkan pengendalian serta pengawasan manajemen. Contractor worker fatigue is one of the main factors that lead to work accidents. This risk is mitigated by implementing strict work procedures, improving management control and supervision, increasing safety campaigns and training for contractors and subcontractors, and improving management control and supervision.

No	Jenis Risiko Risk Type	Peristiwa Risiko Risk Event	Penjelasan & Upaya Mitigasi Description & Mitigation Efforts
4	Operasional Operational	Tidak tercapainya target produksi Batubara Failure to achieve coal production targets	Produksi batubara di beberapa tempat penambangan unit usaha berisiko untuk tidak memenuhi target produksi yang diakibatkan oleh curah hujan ekstrem di area tambang, kinerja kontraktor yang di bawah target, timbunan stok karena menurunnya penjualan, kesulitan dalam rantai pasok karena terganggunya produksi maupun distribusi akibat masalah pembebasan lahan. Risiko ini dimitigasi dengan pengawasan yang ketat terhadap kinerja kontraktor dan menambah kontraktor bila diperlukan, integrasi koordinasi yang lebih erat mulai dari produksi sampai pengapalan batubara dan meningkatkan hubungan yang lebih baik dengan masyarakat dalam masalah lahan. Coal production in several business unit mining sites is at risk of not meeting production targets due to extreme rainfall in the mining area, contractor performance that are below the target, stockpiles due to a decrease in sales, and difficulties in the supply chain due to disruption of production and distribution due to land acquisition issues. This risk is mitigated by strict monitoring on contractor performance and additional contractors, if necessary, closer integration of coordination from coal production to coal shipments and improving relationships with the community on land issues.
5	Operasional Operational	Risiko fisik terkait perubahan iklim Physical risks related to climate change	Perubahan iklim secara global dapat menimbulkan risiko bagi Perusahaan antara lain dalam bentuk cuaca ekstrem yang menyebabkan curah hujan dengan intensitas ekstrem dan dengan frekuensi yang lebih sering dari data historis sebelumnya. Hal tersebut dapat mengganggu operasional penambangan berupa banjir, longsor maupun gangguan distribusi pasokan. Perusahaan memitigasi risiko ini dengan melakukan <i>monitoring</i> yang baik terhadap prakiraan cuaca dengan berkoordinasi dengan lembaga dan organisasi terkait. KPC dan Arutmin juga memiliki pengalaman yang panjang di wilayah operasional penambangan saat ini sehingga sudah memiliki rekam jejak yang terbukti baik dalam mengelola risiko akibat cuaca ekstrem. Mitigasi lainnya adalah dengan melakukan pengawasan yang lebih sering terhadap jadwal produksi dan pengiriman batubara sehingga pencapaian target dapat lebih terukur dan memungkinkan perubahan secepatnya bila dibutuhkan. Global climate change can pose risks for the Company, among others in the form of extreme weather, which leads to rainfall with extreme intensity and with a frequency that is more frequent than previous historical data. This can disrupt mining operations in the form of floods, landslides, or supply distribution disruptions. The company mitigates this risk by carrying out proper monitoring of weather forecasts in coordination with related institutions and organizations. KPC and Arutmin also have long experience in the current mining operational area, accordingly, they already have a proven track record in managing risks due to extreme weather. Another mitigation is to carry out more frequent monitoring of coal production and delivery schedules to ensure that target achievement can be more measurable and allows for immediate changes if needed.
6	Strategis Strategic	Risiko transisi terkait perubahan iklim Transition risks related to climate change	Pembahasan mengenai dampak perubahan iklim global terus bergulir dan sudah terwujud dalam aksi nyata dari pemerintah, lembaga keuangan dan kalangan dunia usaha. Hal ini menimbulkan risiko bagi Perusahaan dalam bentuk semakin berkurangnya sumber pendanaan karena lembaga keuangan mengurangi atau menghindari pendanaan proyek terkait sumber energi fosil, munculnya peraturan pemerintah di berbagai negara yang dapat memengaruhi jumlah permintaan batubara maupun tekanan dari konsumen untuk membeli produk yang tidak menggunakan sumber energi fosil. Hal-hal tersebut dapat secara strategis memengaruhi model bisnis dan kinerja keuangan Perusahaan. Untuk memitigasi risiko ini, Perusahaan berusaha menerapkan dan mengkomunikasikan inisiatif dan pencapaian Perusahaan di bidang ESG kepada para pemangku kepentingan sehingga memberikan kepercayaan kepada pemerintah dan lembaga keuangan bahwa Perusahaan telah menjalankan operasionalnya secara bertanggung jawab dan mengindahkan aspek keberlanjutan usaha. Perusahaan melalui unit usahanya juga berkontribusi dalam proyek gasifikasi batubara ke <i>methanol</i> sebagai langkah diversifikasi sumber pendapatan Perusahaan. Discussions on the impact of global climate change continue to unfold and have manifested in real action from the government, financial institutions, and the business world. This creates risks for the Company in the form of decreasing funding sources, due to financial institutions that are reducing or avoiding funding projects related to fossil energy sources, the emergence of government regulations in various countries, which can affect the amount of demand for coal, as well as pressure from consumers to buy products that do not use fossil energy sources. These issues can strategically influence the Company's business model and financial performance. To mitigate this risk, the Company strives to implement and communicate the Company's initiatives and achievements in the ESG field to stakeholders to provide confidence to the government and financial institutions that the Company has carried out its operations responsibly and paid attention to aspects of business sustainability. Through its business units, the Company also contributes to the coal-to-methanol gasification project as a step to diversify the Company's income sources.

KEGIATAN PELAKSANAAN MANAJEMEN RISIKO DI 2023

Pada 2023, Perusahaan mengambil serangkaian langkah strategis untuk terus mempromosikan budaya kesadaran risiko di lingkungan kerja Perusahaan dan unit usahanya. Langkah tersebut antara lain dengan melakukan hal-hal berikut ini:

1. Membuat pengungkapan manajemen risiko untuk Laporan Tahunan 2023.
2. Menyelenggarakan *Risk Assessment* secara tatap muka.
3. Ikut serta dalam *Kick-off Cyber Risk Maturity Assessment* secara tatap muka.
4. Melakukan kajian risiko yang menyeluruh atas proyek pengembangan bisnis.
5. Mengkomunikasikan *Risk Profile*, *Risk Map*, dan *Risk that Matter* kepada Direksi, Manajemen, Anak Perusahaan, *Risk Officers*, Komite Manajemen Risiko, dan Komite Audit melalui memorandum setiap kuartal.
6. Melakukan rapat Komite Manajemen Risiko pada tanggal 29 Mei 2023 dan 25 September 2023.
7. Partisipasi dalam webinar terkait manajemen risiko untuk peningkatan kompetensi dan pengetahuan.
8. Partisipasi dalam survei manajemen risiko yang diselenggarakan oleh Bank Indonesia.
9. Terlibat dalam penerapan ESG di BUMI dan unit usaha.

CYBER RESILIENCE MATURITY ASSESSMENT

Sebagai bagian dari komitmen Perseroan dalam meningkatkan kinerja aspek GCG dalam ESG terutama di bidang pengelolaan risiko siber, pada tanggal 9 November 2023, Perseroan menyelenggarakan rapat *kick-off* untuk memulai *Cyber Resilience Maturity Assessment* ("CRMA"). Pengujian dalam CRMA ini bertujuan untuk membantu Perseroan dalam mengidentifikasi dan melindungi fungsi kerja penting Perseroan dari ancaman serangan siber. CRMA ini dilakukan secara independen oleh konsultan internasional ternama. Durasi pengujian CRMA ini akan berlangsung dalam waktu 3 (tiga) bulan.

CRMA menguji 5 (lima) aspek kemampuan Perusahaan terkait ketahanan fungsi dan operasionalnya dalam menghadapi ancaman siber. Kelima aspek yang diuji tersebut adalah:

- Identifikasi: proses dan aset yang memerlukan perlindungan;
- Perlindungan: penerapan sistem keamanan untuk melindungi aset
- Deteksi: penerapan sistem untuk mengidentifikasi insiden keamanan siber.
- Tanggap: pengembangan teknik untuk memitigasi dampak dari insiden keamanan siber.
- Pemulihan: penerapan proses untuk mengembalikan layanan yang terdampak insiden keamanan siber.

ACTIVITIES OF RISK MANAGEMENT IMPLEMENTATION IN 2023

In 2023, the Company took a series of strategic measures to continue to promote a culture of risk awareness within the Company and its business units. These measures include the following:

1. Make risk management disclosures for the 2023 Annual Report.
2. Conduct face-to-face Risk Assessments.
3. Participate in the Cyber Risk Maturity Assessment Kick-off in person.
4. Conduct a comprehensive risk assessment of business development projects.
5. Communicate the Risk Profile, Risk Map, and Risks that Matter to the Board of Directors, Management, Subsidiaries, Risk Officers, Risk Management Committee, and Audit Committee through quarterly memoranda.
6. Conducted Risk Management Committee meetings on May 29, 2023, and September 25, 2023.
7. Participation in risk management related webinars for competency and knowledge improvement.
8. Participation in risk management surveys organized by Bank Indonesia.
9. Involved in ESG implementation at BUMI and business units.

CYBER RESILIENCE MATURITY ASSESSMENT

As part of the Company's commitment to improving the performance of the GCG aspects in ESG, particularly in the field of cyber risk management, on November 9, 2023, the Company held a kick-off meeting to commence the Cyber Resilience Maturity Assessment ("CRMA"). Testing in the CRMA aims to assist the Company in identifying and protecting the Company's important work functions from the threat of cyber attacks. The CRMA was carried out independently by a renowned international consultant. The duration of the CRMA testing will take place within 3 (three) months.

CRMA tests 5 (five) aspects of the Company's capabilities related to the resilience of its functions and operations in facing cyber threats. The five aspects being tested are:

- Identification: processes and assets that require protection;
- Protection: implementation of security systems to protect assets
- Detection: implementation of systems to identify cybersecurity incidents.
- Mitigation: development of techniques to mitigate the impact of a cybersecurity incident.
- Recovery: implementing a process to restore services affected by a cybersecurity incident.

Pengujian CRMA didasarkan pada kerangka yang dikembangkan oleh *National Institute of Standards and Technology* (NIST) dalam meningkatkan *Critical Infrastructure Cybersecurity* dengan memberikan tingkatan dalam maturitas-nya. *Maturity Level* dalam kerangka NIST adalah:

CRMA testing is based on a framework developed by the National Institute of Standards and Technology (NIST) to improve Critical Infrastructure Cybersecurity by providing levels of maturity. Maturity Levels in the NIST framework are:

Skor Kematangan Maturity Score	Tingkat Kematangan Maturity Level	Karakteristik Characteristic
1	Awal Initial	Tidak ada/sedikit kontrol atau rencana yang diterapkan There are no/little controls or plans in place
2	Perkembangan Developing	Praktik-praktik pengendalian pada umumnya dilakukan secara <i>ad hoc</i> , Terdapat kesepakatan umum di dalam organisasi bahwa tindakan-tindakan yang telah diidentifikasi harus dilakukan, dan dilakukan ketika diperlukan Vase practices of the control are generally performed on an ad hoc basis, There is general agreement within the organization that identified actions should be performed, and they are performed when required
3	Penetapan Defined	Kontrol direncanakan, diimplementasikan, dilacak, dan dilaporkan pada praktik dan tata kelola yang telah ditetapkan Controls are planned, implemented, tracked and reported on defined practices and governance
4	Pematangan Matured	Proses pengendalian direncanakan, dilaksanakan, dilacak, dan dilaporkan. Selain itu, praktik-praktiknya dapat diulang, dan proses yang digunakan didokumentasikan secara matang, disetujui, dan diterapkan di seluruh organisasi Control process are planned, implemented, tracked and reported. In addition, practices are repeatable, and the processes used are mature documented, approved, and implemented organization-wide
5	Visioner Visionary	Kontrol diterapkan, prosesnya sangat matang, praktiknya dikuasai selama beberapa tahun, adaptif dan terukur secara kuantitatif (terdepan dalam industri) Controls are implemented, processes are highly matured, practices mastered over several years, adaptive and quantitatively measured (industry leading)

Laporan dan rekomendasi CRMA nantinya akan digunakan oleh Perseroan dalam memformulasikan peta jalan peningkatan kemampuan Perusahaan dalam ketahanan siber. Memastikan keamanan siber dengan tingkat maturitas yang memadai adalah hal yang penting sebagai prasyarat dan bagian tidak terpisahkan dari transformasi digital yang sudah diagendakan dalam rangka peningkatan efisiensi dan kinerja Perusahaan.

The CRMA report and recommendations will be used by the Company in formulating a roadmap for increasing the Company's capabilities in cyber resilience. Ensuring cyber security with an adequate level of maturity is important as a prerequisite and an integral part of the digital transformation that has been on the agenda in order to increase the Company's efficiency and performance.

PENILAIAN DAN EVALUASI EFEKTIVITAS SISTEM MANAJEMEN RISIKO PERUSAHAAN

Perseroan melalui fungsi Manajemen Risiko bersama Komite Manajemen Risiko secara rutin melakukan evaluasi atas efektivitas pelaksanaan manajemen risiko melalui monitoring risiko per kuartal untuk memastikan bahwa rencana mitigasi risiko telah dijalankan. Informasi yang dihasilkan dari hasil evaluasi tersebut sangat penting untuk pertimbangan rencana Perseroan dan proyek-proyek yang dijalankan. Dari hasil *monitoring* risiko selama tahun 2023, tindakan mitigasi yang dilakukan berjalan efektif dan mampu menurunkan level risiko sesuai toleransi risiko yang dapat diterima oleh Perseroan.

ASSESSMENT AND EVALUATION ON THE EFFECTIVENESS OF THE COMPANY'S RISK MANAGEMENT SYSTEM

Through its Risk Management function together with the Risk Management Committee, the Company routinely evaluates the effectiveness of risk management implementation through quarterly risk monitoring to ensure that risk mitigation plans have been implemented. Information resulting from the evaluation results is crucial for considering the Company's plans and the projects being implemented. From the risk monitoring results during 2023, the mitigation actions carried out were effective and able to reduce the risk level according to the risk tolerance acceptable to the Company.

PERNYATAAN DIREKSI DAN/ATAU DEWAN KOMISARIS ATAS KECUKUPAN SISTEM MANAJEMEN RISIKO

Berdasarkan implementasi dan pengawasan yang dilakukan dalam menjalankan proses bisnis Perseroan, Direksi dan Dewan Komisaris menilai bahwa Perseroan telah memiliki dan menerapkan Sistem Manajemen Risiko yang baik untuk mengelola risiko-risiko yang dihadapi Perseroan sesuai dengan *risk criteria* yang telah ditetapkan. Penilaian ini antara lain didasarkan pada hasil monitoring risiko tahun 2023 berjalan efektif dan mampu menurunkan level risiko sesuai toleransi manajemen.

STATEMENT OF THE BOARD OF DIRECTORS AND/OR BOARD OF COMMISSIONERS REGARDING THE ADEQUACY OF THE RISK MANAGEMENT SYSTEM

Based on the implementation and supervision carried out in running the Company's business processes, the Board of Directors and Board of Commissioners assess that the Company has and implemented an appropriate Risk Management System to manage the risks faced by the Company in accordance with the established risk criteria. This assessment is based, among others, on the risk monitoring results in 2023, which was effective and able to reduce the risk level according to management's tolerance.

All employees of the Company are required to maintain the confidentiality of information for business purposes. This obligation to maintain confidentiality must also be carried out after the termination of employment with the Company. Information not available to the public relating to the Company's activities, results, or plans (namely information from internal parties) must be used for authorized purposes.

Such information should be handled and communicated with care and should not be disclosed to parties outside the Company without proper approval. Such information shall not be used for personal gain. This provision regarding confidentiality also applies to contracts with consultants, contractors, and other parties providing services to the Company and shall be in accordance with applicable regulations and laws.

PERLINDUNGAN PELANGGAN

Consumer Protection

Perseroan melakukan penjualan produknya secara langsung kepada pelanggan dan seluruh penjualan didukung dengan kontrak yang memberikan perlindungan atas hak masing-masing pihak. Selain kontrak, pelanggan memiliki akses untuk melaporkan tindakan pelanggaran terhadap Pedoman Perilaku Perseroan melalui *Speak-Up System*.

Perseroan menjamin kualitas produk energi terbarukan yang diproduksi termasuk di dalamnya batubara, yang dijual melalui laboratorium pengujian internal untuk kandungan kkal dan sulfur batubara. Di samping itu, Perseroan juga menggunakan jasa laboratorium eksternal untuk memverifikasi hasil pengujian. Para pelanggan juga dapat menguji kualitas batubara dengan menggunakan penguji independen ataupun menggunakan fasilitas *testing* masing-masing.

The Company sells its products directly to customers and all sales are supported by contracts that provide protection for the rights of each party. In addition to the contract, customers have access to report violations of the Company's Code of Conduct through the *Speak-Up System*.

The Company guarantees the quality of its renewable energy products including coal, which is sold through internal testing laboratories for coal kcal and sulfur content. In addition, the Company also utilizes the services of external laboratories to verify the test results. Customers can also test the quality of coal by using independent testers or using their own testing facilities.

PERLINDUNGAN HAK KREDITUR

Protection of Creditors' Rights

Perseroan memiliki Kebijakan Hak Kreditur yang disahkan melalui Surat Keputusan Dewan Komisaris dan Direksi No. 205/BRBOC/V/18 dan telah menerapkan perlindungan hak kreditur sesuai dengan Kebijakan Hak Kreditur sejak 2022. Kebijakan tersebut memastikan pemenuhan hak-hak kreditur dan menjaga kepercayaan kreditur, dengan mengatur beberapa hal di antaranya:

1. Komitmen untuk menggunakan fasilitas yang diberikan kreditur secara bertanggung jawab, transparan, dan efisien.
2. Komitmen untuk menyampaikan informasi material terkait hubungannya dengan kreditur.
3. Komitmen untuk memenuhi kewajiban kepada kreditur secara tepat waktu.

The Company has a Creditors' Rights Policy which is authorized through the Board of Commissioners and Board of Directors Decree No. 205/BRBOC/V/18 and has implemented the protection of creditors' rights in accordance with the Creditors' Rights Policy since 2022. The policy ensures the fulfillment of creditors' rights and maintains creditors' confidence, by regulating several matters among others:

1. Commitment to use facilities provided by creditors in a responsible, transparent, and efficient manner.

Social Responsibility and Environmental

Sepanjang tahun 2023, BUMI dan unit usaha telah mengambil langkah-langkah transformatif dan konkret untuk mendukung pencapaian agenda Tujuan Pembangunan Berkelanjutan baik dalam bidang ekonomi, lingkungan, dan sosial. Tentu, pencapaian dan dampak positif ini berkat dukungan dan kepercayaan dari para pemangku kepentingan. Untuk mempertahankan kinerja ini, kami telah mengadopsi strategi keberlanjutan yang menjadi panduan dalam menjalankan operasional secara berkelanjutan serta menciptakan nilai bagi para pemangku kepentingan tanpa mengabaikan kebutuhan generasi mendatang.

Saat ini, kita mendekati batas waktu untuk mencapai agenda Tujuan Pembangunan Berkelanjutan (TPB) 2030. Meskipun ada kemajuan, pencapaian agenda keberlanjutan masih jauh dari yang diharapkan. Menurut Sustainable Development Goals Report 2023 oleh PBB, sekitar setengah dari 140 target keberlanjutan tidak mencapai hasil yang diharapkan, sementara 30% tidak menunjukkan perkembangan atau bahkan mengalami

Throughout 2023, BUMI and its business units have undertaken transformative and concrete initiatives to accelerate the agenda of Sustainable Development Goals across economic, environmental, and social pillars. These achievements and positive impact are greatly attributed to the unwavering support and trust of our stakeholders. In order to sustain this momentum, we have adopted a comprehensive sustainability strategy that provides guidance in carrying out operations sustainably and creating value for stakeholders without ignoring the needs of future generations.

We are currently approaching the halfway mark to achieving the 2030 Sustainable Development Goals (SDGs) agenda. Despite some progress, reaching the desired achievement remains significantly off track. According to the United Nations' Sustainable Development Goals Report 2023, approximately half of the 140 targets failed to achieve the anticipated outcomes, with 30% showing no progress or even regressing from the 2015 baseline.

kemunduran dari *baseline* tahun 2015. Jika tidak ada perubahan dan tindakan bersama, diperkirakan sekitar 575 juta orang akan hidup dalam kemiskinan ekstrem, 84 juta anak tidak akan mendapatkan akses pendidikan, dan 300 juta anak yang bersekolah akan kesulitan membaca dan menulis pada tahun 2030. Sebagai perusahaan yang bertanggung jawab, PT Bumi Resources Tbk ikut andil untuk berperan aktif dalam mempercepat pencapaian agenda TPB dengan mengubah komitmen menjadi tindakan konkret yang terukur dan terpantau secara rutin. Dalam laporan keberlanjutan edisi kedelapan ini, kami menyampaikan peran aktif dan kontribusi positif terhadap ekonomi, lingkungan, dan sosial yang perusahaan telah berikan selama tahun 2023. Dengan dukungan penuh dari seluruh pemangku kepentingan, laporan keberlanjutan 2023 berhasil disusun menggunakan panduan *Global Reporting Initiative* (GRI): In Accordance dan Peraturan Otoritas Jasa Keuangan (OJK) Nomor 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik.

Dengan demikian, Laporan Tahunan ini tidak lagi memuat informasi mengenai TJSL. Laporan Keberlanjutan Perseroan untuk tahun buku 2023, tersedia dalam 2 (dua) bahasa dan dapat diunduh secara digital di <https://www.bumiresources.com/id/sustainability>.

Without significant changes and concerted action, it is projected that approximately 575 million people will remain in extreme poverty, 84 million children will lack access to education, and 300 million children attending school will struggle with reading and writing by 2030. As a responsible company, PT Bumi Resources Tbk actively contributes to accelerating the achievement of the SDGs agenda by transforming commitments into tangible and measurable actions that are regularly monitored. In this eighth edition of our sustainability report, we highlight the company's active role and positive contributions to the economy, environment, and society throughout 2023. With the full support of all stakeholders, the 2023 sustainability report was successfully prepared in accordance with the Global Reporting Initiative (GRI) guidelines and Financial Services Authority (OJK) Regulation Number 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies.

Therefore, this Annual Report no longer contains information regarding CSR. The Company's Sustainability Report for the 2023 financial year, is available in 2 (two) languages and can be downloaded digitally at <https://www.bumiresources.com/id/sustainability>.

Laporan Auditor Independen/ Independent Auditor's Report

Pemegang Saham, Dewan Komisaris dan Direksi/
The Shareholders, Board of Commissioners, and Directors

PT Bumi Resources Tbk

Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Bumi Resources Tbk dan entitas anaknya ("Grup") terlampir yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2023, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas, dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2023, serta kinerja keuangan dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Opinion

We have audited the accompanying consolidated financial statements of PT Bumi Resources Tbk and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as of December 31, 2023, and the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year ended, and notes to the consolidated financial statements, including material accounting policies information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2023, and their consolidated financial performance and their cash flows for the year ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Ketidakpastian Material yang Terkait Dengan Kelangsungan Usaha

Laporan keuangan konsolidasian terlampir telah disusun dengan asumsi bahwa Grup akan melanjutkan usahanya secara berkesinambungan. Pada tanggal 31 Desember 2023, total liabilitas jangka pendek konsolidasian telah melebihi total aset lancar konsolidasian. Selain itu, Grup mengalami defisit sebesar USD2.351.238.832, seperti yang dijelaskan dalam Catatan 45 atas laporan keuangan konsolidasian. Kondisi ini mengindikasikan adanya suatu ketidakpastian material yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Rencana manajemen untuk mengatasi kondisi tersebut juga diungkapkan dalam Catatan 45 atas laporan keuangan konsolidasian. Laporan keuangan konsolidasian tidak mencakup penyesuaian yang mungkin harus dilakukan yang berasal dari kondisi ketidakpastian tersebut. Opini kami tidak dimodifikasi sehubungan dengan hal tersebut.

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Properti Pertambangan

Sebagian besar properti pertambangan Grup adalah nilai wajar properti pertambangan saat akuisisi PT Arutmin Indonesia (Arutmin) pada tanggal 31 Desember 2017 yang dicatat dengan menggunakan metode akuisisi. Dalam metode ini, selisih sebesar USD1.094.732.357 antara nilai akuisisi dengan nilai buku pada saat tanggal akuisisi dialokasikan ke nilai wajar aset dan liabilitas yang diperoleh, berdasarkan penilaian yang dibuat oleh penilai independen. Dengan mempertimbangkan nilainya yang signifikan, Grup melakukan asesmen penurunan nilai wajar properti pertambangan secara tahunan. Proses asesmen memerlukan pertimbangan dan kompleks, serta didasarkan pada asumsi-asumsi, khususnya asumsi mengenai tingkat diskonto dan kemampuan Arutmin dalam menghasilkan arus kas masa depan. Grup menggunakan penilai independen untuk melakukan asesmen atas nilai wajar properti pertambangannya. Pengungkapan mengenai properti pertambangan tercantum dalam Catatan 2m, 2q dan 14 laporan keuangan konsolidasian.

Material Uncertainty Related to Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Group will continue as a going concern. As of December 31, 2023, the consolidated total current liabilities have exceeded its consolidated total current asset. In addition, the Group is in a deficit position amounting to USD2,351,238,832, as disclosed in Note 45 to the consolidated financial statements. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 45 to the consolidated financial statements. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Mining Properties

Most of the Group's mining properties consists of the fair value of mining properties of PT Arutmin Indonesia (Arutmin) at the time of its acquisition on December 31, 2017, which was accounted for using the acquisition method. Under this method, the USD1,094,732,357 difference between acquisition cost and book value at the acquisition date was allocated to the fair value of assets acquired and liabilities assumed, based on an assessment made by an independent appraisal. Considering the balance is significant, on an annual basis, the Group assesses the fair value of these mining properties for impairment. The assessment process is judgmental and complex, and is based on assumptions, particularly discount rates and Arutmin's ability to generate future cash flows. The Group's utilizes an independent appraisal to perform the fair value assessment on its mining properties. Disclosures regarding mining properties are described in Notes 2m, 2q and 14 of the consolidated financial statements.

Kami merespon hal audit utama dengan menerapkan prosedur audit:

- Menilai kewajaran dari metode yang digunakan atas model asesmen nilai wajar, data input dan asumsi-asumsi dasar yang digunakan seperti, tingkat operasi dimasa mendatang, tingkat diskonto dan kinerja historis;
- Cek akurasi matematis dari model penurunan nilai wajar;
- Melakukan analisa sensitivitas dan mengevaluasi apakah perubahan asumsi yang mungkin terjadi dapat menyebabkan penurunan nilai properti pertambangan;
- Mengevaluasi kecukupan pengungkapan yang dibuat dalam laporan keuangan konsolidasian.

Goodwill

Sesuai dengan Standar Akuntansi Keuangan di Indonesia, Grup diharuskan menguji penurunan nilai *goodwill* secara tahunan. Pengujian tahunan penurunan nilai ini signifikan terhadap audit kami karena saldo pada 31 Desember 2023 sebesar USD48.412.144 adalah material terhadap laporan keuangan konsolidasian. Disamping itu, proses asesmen manajemen memerlukan pertimbangan dan kompleks, serta didasarkan pada asumsi-asumsi, khususnya asumsi mengenai tingkat diskonto dan arus kas masa depan, yang dipengaruhi ekspektasi kondisi ekonomi dan pasar di masa depan, khususnya di Indonesia. Pengungkapan Grup mengenai *goodwill* tercantum dalam Catatan 2o, 2q dan 17 laporan keuangan konsolidasian.

Kami merespon hal audit utama dengan menerapkan prosedur audit:

- Mengevaluasi asumsi dan metodologi yang digunakan oleh Grup, khususnya terkait dengan tingkat diskonto dan prakiraan arus kas masa depan;
- Melakukan analisa sensitivitas untuk menentukan dampak dari kemungkinan perubahan yang wajar dalam asumsi utama dari proyeksi untuk mengidentifikasi risiko penurunan nilai;
- Mengevaluasi kecukupan pengungkapan yang dibuat dalam laporan keuangan konsolidasian.

Informasi Lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan tetapi tidak termasuk laporan keuangan konsolidasian dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

We addressed the key audit matter by applying the audit procedures:

- *Assess the appropriateness of the methodology used in the fair value assessment model, the input data and underlying assumptions used such as future level of operations, discount rate and historical performance;*
- *Check the mathematical accuracy of the fair value impairment model;*
- *Perform sensitivity analyses and evaluate whether any reasonably possible changes in assumptions could lead to impairment of mining properties;*
- *Evaluate the adequacy of the disclosures made in the consolidated financial statements.*

Goodwill

In accordance with Indonesian Financial Accounting Standards, the Group is required to annually test the amount of goodwill for impairment. This annual impairment test was significant to our audit because the balance of USD48,412,144 as of December 31, 2023 is material to the consolidated financial statements. In addition, management's assessment process is complex and judgmental and is based on assumptions, specifically discount rate and expected future cash flow, which are affected by expected future market or economic conditions, particularly those in Indonesia. The Group's disclosures regarding goodwill are described in Note 2o, 2q and 17 to the consolidated financial statements.

We addressed the key audit matter by applying the audit procedures:

- *Evaluate assumptions and methodologies used by the Group, in particular that are relating to discount rate and estimated future cash flows;*
- *Perform sensitivity analyses to determine the impact of a reasonably possible change in the key assumptions of projections to identify any risk of impairment.*
- *Evaluate the adequacy of the disclosures made in the consolidated financial statements.*

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain dan dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat yang akan dilakukan berdasarkan peraturan perundang-undangan yang berlaku atau Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan Konsolidasian

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian ini sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions based on the applicable laws and regulations or Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memperoleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi, dan pelaksanaan audit grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.*
- *Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*
- *Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.*

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan, jika relevan, pengamanan terkait.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Amir Abadi Jusuf, Aryanto, Mawar & Rekan

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

MATERIAL (Lanjutan)**

Dasar pengukuran dalam penyusunan laporan keuangan konsolidasian ini adalah konsep biaya perolehan, kecuali beberapa akun tertentu yang diukur dengan cara lain sebagaimana yang dijelaskan dalam kebijakan akuntansi pada masing-masing akun yang bersangkutan. Biaya perolehan pada umumnya dihitung berdasarkan nilai wajar imbalan yang diserahkan untuk memperoleh aset tersebut.

Laporan arus kas konsolidasian disajikan dengan metode langsung (*direct method*) dengan mengelompokkan arus kas kedalam aktivitas operasi, investasi dan pendanaan.

2.c. Pernyataan dan amendemen Standar Baru

Berikut amendemen dan standar atas standar yang berlaku efektif untuk periode yang dimulai pada atau setelah 1 Januari 2023, dengan penerapan dini diperkenankan yaitu:

- Amendemen PSAK 201: Penyajian Laporan Keuangan: Pengungkapan Kebijakan Akuntansi;
- Amendemen PSAK 201: Penyajian Laporan Keuangan: Klasifikasi Liabilitas Jangka Pendek atau Panjang;
- Amendemen PSAK 216: Aset Tetap tentang Hasil Sebelum Penggunaan yang Diintensikan;
- Amendemen PSAK 208: Kebijakan Akuntansi, Perubahan Estimasi Akuntansi, dan Kesalahan: Definisi Estimasi Akuntansi; dan
- Amendemen PSAK 212: Pajak Penghasilan: Pajak Tangguhan terkait Aset dan Liabilitas yang timbul dari Transaksi Tunggal.

Implementasi dari standar-standar tersebut tidak memiliki dampak yang signifikan terhadap jumlah yang dilaporkan di tahun berjalan atau tahun sebelumnya.

DSAK-IAI juga mengesahkan perubahan penomoran PSAK dan ISAK yang berlaku efektif 1 Januari 2024, Dimanan perubahan ini tidak memengaruhi substansi pengaturan dalam masing-masing PSAK dan ISAK tersebut.

2.d.Prinsip-prinsip Konsolidasi

Laporan keuangan konsolidasian mencakup laporan keuangan Perusahaan dan entitas-entitas anaknya seperti disebutkan pada catatan 1.c.

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

Basis of measurement in preparation of these consolidated financial statements is the historical costs concept, except for certain accounts which have been prepared based on other measurements as described in their respective policies. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

The consolidated statements of cash flows are prepared using the direct method by classifying cash flows into operating, investing and financing activities.

2.c.New Standard and Interpretation of Standards

The following are amendments to standards which effective for periods beginning on or after January 1, 2023, with early adoption is permitted, are as follows:

- *Amendments PSAK 201: Presentation of Financial Statements: Disclosure of Accounting Policies;*
- *Amendments to PSAK 201: Presentation of Financial Statements: Liabilities Classification as Current or Non-Current;*
- *Amendments PSAK 216: Property, Plant and Equipment regarding Proceeds before Intended Use;*
- *Amendments PSAK 208: Accounting Policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates; and*
- *Amendments PSAK 212: Income Tax: Deferred Tax related to Assets and Liabilities arising from a Single Transaction.*

The implementation of the above standards had no significant effect on the amounts reported for the current year or prior financial year.

DSAK-IAI also ratified change to the numbering of PSAK and ISAK which will be effective on January 1,2024. This changes does not effect the substance of the requirement in each PSAK and ISAK.

2.d.Principles of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries as described in note 1.c.

MATERIAL (Lanjutan)**

Entitas anak adalah entitas yang dikendalikan oleh Grup dimana Grup memiliki pengaruh atau memiliki hak atas hasil dari keterlibatannya dengan entitas itu dan memiliki kemampuan untuk memengaruhi hasil tersebut melalui kemampuannya dalam mengarahkan aktivitas dari entitas yang bersangkutan.

Keberadaan dan dampak dari hak suara potensial yang dimiliki oleh Grup yang menyebabkan Grup memiliki kemampuan untuk mengendalikan entitas lain, dipertimbangkan, dalam menentukan apakah Grup mempunyai pengendalian terhadap entitas itu.

Laporan keuangan Grup mencakup hasil usaha, arus kas, aset dan liabilitas dari Grup dan seluruh entitas anak yang, secara langsung dan tidak langsung, dikendalikan oleh Perusahaan. Entitas anak dikonsolidasikan sejak tanggal efektif akuisisi, yaitu tanggal dimana Grup secara efektif memperoleh pengendalian atas bisnis yang diakuisisi, sampai berakhirnya pengendalian.

Entitas induk menyusun laporan keuangan konsolidasian dengan menggunakan kebijakan akuntansi yang sama untuk transaksi dan peristiwa lainnya yang dalam keadaan serupa. Seluruh transaksi, saldo, penghasilan, beban, dan arus kas antar entitas di dalam Grup seluruhnya dieliminasi.

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian adalah transaksi ekuitas (yaitu transaksi antar pemilik dalam kapasitas mereka sebagai pemilik). Ketika proporsi ekuitas yang dimiliki oleh kepentingan nonpengendali berubah, Grup menyesuaikan jumlah tercatat kepentingan pengendali dan kepentingan nonpengendali untuk mencerminkan perubahan kepemilikan relatifnya dalam entitas anak. Selisih antara jumlah dimana kepentingan nonpengendali disesuaikan dan nilai wajar dari jumlah yang diterima atau dibayarkan diakui langsung dalam ekuitas dan diatribusikan kepada pemilik dari entitas induk.

Jika Grup kehilangan pengendalian, maka Grup:

- (a) Menghentikan pengakuan atas aset (termasuk *goodwill*) dan liabilitas entitas anak pada nilai tercatatnya ketika pengendalian tersebut hilang;

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

A subsidiary is an entity controlled by the Group, i.e the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its current ability to direct the entity's relevant activities.

The existence and effect of substantive potential voting rights that the Group has the practical ability to exercise (i.e substantive rights) are considered when assessing whether the Group controls another entity.

The Group's financial statements incorporate the results, cash flows, assets and liabilities of the Group and all of its directly and indirectly controlled subsidiaries. Subsidiaries are consolidated from the effective date of acquisition, which is the date on which the Group effectively obtains control of the acquired business, until that control ceases.

A parent prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances. All intragroup transactions, balances, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full.

Changes in the parent's ownership interest in a subsidiary that do not result in loss of control are equity transactions (i.e transactions with owners in their capacity as owners). When the proportion of equity held by non-controlling interest changed, the Group adjusted the carrying amounts of the controlling interest and non-controlling interest to reflect the changes in their relative interest in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the parent.

If the Group loses control, the Group:

- (a) *Derecognizes the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;*

**2. INFORMASI KEBIJAKAN AKUNTANSI
MATERIAL (Lanjutan)**

- (b) Menghentikan pengakuan nilai tercatat setiap kepentingan nonpengendali pada entitas anak sebelumnya pada saat pengendalian hilang (termasuk setiap komponen penghasilan komprehensif lain yang diatribusikan kepada kepentingan nonpengendali);
- (c) Mengakui nilai wajar pembayaran yang diterima, jika ada, dari transaksi, peristiwa, atau keadaan yang mengakibatkan hilangnya pengendalian;
- (d) Mereklasifikasi jumlah yang diakui dalam penghasilan komprehensif lain yang berkaitan dengan entitas anak ke laba rugi, atau mengalihkannya langsung ke saldo laba, jika hal itu dipersyaratkan oleh SAK yang lain;
- (e) Mengakui perbedaan yang dihasilkan sebagai keuntungan atau kerugian yang diatribusikan kepada entitas induk.

2.e. Transaksi dan Saldo Dalam Mata Uang selain Dolar Amerika Serikat

Dalam menyiapkan laporan keuangannya, setiap entitas di dalam Grup mencatatnya dengan menggunakan mata uang lingkungan ekonomi utama tempat beroperasinya entitas itu (mata uang fungsional). Mata uang fungsional Perusahaan dan sebagian besar entitas anak adalah mata uang Dolar Amerika Serikat (USD).

Transaksi yang terjadi selama tahun berjalan dalam mata uang selain USD dicatat berdasarkan kurs yang berlaku pada saat terjadinya transaksi. Pada akhir periode pelaporan, akun-akun dalam mata uang selain USD dijabarkan ke dalam USD menggunakan kurs penutup, yaitu kurs tengah Bank Indonesia pada tanggal 31 Desember 2023 dan 2022 adalah sebagai berikut:

	31 Desember/ December 31, 2023

- (b) Derecognizes the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them);
- (c) Recognizes the fair value of the consideration received, if any, from the transaction, event or circumstances that resulted in the loss of control;
- (d) Reclassifies to profit or loss, or transfer directly to retained earnings if required by other FAS, the amount recognized in other comprehensive income in relation to the subsidiary;
- (e) Recognizes any resulting difference as a gain or loss attributable to the parent.

2.e. Non-United States Dollar Currency Transactions and Balances

In preparing financial statements, each of the entities within the Group record by using the currency of the primary economic environment in which the entity operates (the functional currency). The functional currency of the Company and most of the subsidiaries are United States Dollar (USD).

Transactions during the year involving non-USD currencies are recorded at the rates of exchange prevailing at the time the transactions are made. At the end of reporting period, non-USD currency monetary items are translated to USD using the closing rate, i.e middle rate of Bank of Indonesia at December 31, 2023 and 2022, were as follows:

	31 Desember/ December 31, 2022	
	0.64	10,000 Indonesian Rupiah

2.f. Transaksi dan Saldo dengan Pihak Berelasi

Pihak-pihak berelasi adalah orang atau entitas yang terkait dengan Grup (entitas pelapor):

- (a) Orang atau anggota keluarga dekatnya mempunyai relasi dengan entitas pelapor jika orang tersebut:
 - i. memiliki pengendalian atau pengendalian bersama atas entitas pelapor;
 - ii. memiliki pengaruh signifikan atas entitas pelapor; atau
 - iii. merupakan personil manajemen kunci entitas pelapor atau entitas induk dari entitas pelapor.
- (b) Suatu entitas berelasi dengan entitas pelapor jika memenuhi salah satu kondisi berikut ini:
 - i. Entitas dan entitas pelapor adalah anggota dari kelompok usaha yang sama (artinya entitas induk, entitas anak, dan sesama entitas anak saling berelasi dengan entitas lainnya);
 - ii. Satu entitas merupakan entitas asosiasi atau ventura bersama dengan entitas lainnya (atau entitas asosiasi atau ventura bersama yang merupakan anggota suatu kelompok usaha, yang mana entitas lain tersebut adalah anggotanya);
 - iii. Kedua entitas merupakan ventura bersama dari pihak ketiga yang sama;
 - iv. Satu entitas merupakan ventura bersama dari entitas ketiga dan entitas yang lain adalah entitas asosiasi dari entitas ketiga;
 - v. Entitas tersebut adalah suatu program imbalan pascakerja yang memberikan imbalan kepada para karyawan entitas pelapor atau entitas yang terkait dengan entitas pelapor. Jika entitas pelapor adalah entitas yang menyelenggarakan program tersebut, maka yang mensponsori program itu juga merupakan pihak yang berelasi dengan entitas pelapor;

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

Exchange differences arising on the settlement of monetary items or on translating monetary items in non-USD currencies are recognized in profit or loss and other comprehensive income.

2.f. Related Parties Transactions and Balances

A related party is a person or entity that is related to the Group (the reporting entity):

- (a) *A person or a close member of that person's family is related to a reporting entity if that person:*
 - i. has control or joint control over the reporting entity;*
 - ii. has significant influence over the reporting entity; or*
 - iii. is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.*
- (b) *An entity is related to a reporting entity if any of the following conditions applies:*

Seluruh transaksi dan saldo yang signifikan dengan pihak berelasi diungkapkan dalam Catatan yang relevan.

2.g. Instrumen Keuangan

Pengakuan dan Pengukuran Awal

Grup mengakui aset keuangan atau liabilitas keuangan dalam laporan posisi keuangan konsolidasian, jika Grup menjadi salah satu pihak dalam kontrak instrumen keuangan yang bersangkutan. Pada saat pengakuan awal aset keuangan atau liabilitas keuangan, Grup mengukurnya pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diklasifikasikan sebagai Nilai Wajar melalui Laba Rugi (FVTPL), nilai wajar tersebut ditambah atau dikurangi dengan biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan atau penerbitan instrumen keuangan yang bersangkutan.

Biaya transaksi yang dikeluarkan sehubungan dengan perolehan aset keuangan dan penerbitan liabilitas keuangan yang diklasifikasikan pada (FVTPL) dibebankan langsung ke dalam periode.

Pengukuran Selanjutnya Aset Keuangan

Berdasarkan Standar Akuntansi Keuangan (SAK) yang berlaku, aset keuangan diklasifikasikan sebagai berikut: Aset Keuangan yang Diukur pada Biaya Perolehan Diamortisasi, Aset Keuangan yang Diukur pada Nilai Wajar melalui Penghasilan Komprehensif Lain, dan Aset Keuangan yang Diukur pada Nilai Wajar melalui Laba Rugi.

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

- vi. The entity is controlled or jointly controlled by a person identified in 2.f.a;
- vii. A person identified in 2.f.a (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
- viii. The entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

All significant transactions and balances with related parties are disclosed in the relevant Notes.

2.g. Financial Instruments

Initial Recognition and Measurement

The Group recognizes a financial asset or a financial liability in the consolidated statement of financial position if, it becomes a party to the contractual provisions of the instrument. At initial recognition, the Group measures all financial assets and financial liabilities at its fair value. In the case of a financial asset or financial liability not classified as Fair Value Through Profit or Loss (FVTPL) financial instruments, fair value is added or deducted with the transaction costs that are directly attributable to the acquisition or issue of the respective financial instruments.

Transaction costs incurred on acquisition of a financial asset and issue of a financial liability classified as (FVTPL) are expensed immediately in the relevant period.

Subsequent Measurement of Financial Assets

Based on the current Financial Accounting Standards (FAS), financial assets are classified into the following categories: Financial Assets Measured at Amortized Costs, Financial Assets Measured at Fair Value Through Other Comprehensive Income, and Financial Assets Measured at Fair Value Through Profit or Loss.

i. Aset Keuangan yang Diukur pada Biaya Perolehan Diamortisasi

- 1) aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset tersebut dalam rangka memperoleh arus kas secara kontraktual saja; dan
- 2) persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang semata-mata diperoleh dari pembayaran pokok dan bunga atau *Solely Payments of Principal and Interest* (SPPI) dari jumlah pokok yang terutang.

Aset keuangan ini diukur dengan jumlah yang diakui pada awal pengakuan dikurangi dengan pembayaran pokok, kemudian ditambah atau dikurangi dengan jumlah amortisasi kumulatif atas perbedaan jumlah pengakuan awal dengan jumlah pada saat jatuh temponya dan jumlah penurunan nilainya.

Pendapatan keuangan dihitung dengan menggunakan metode suku bunga efektif dan diakui di laba rugi. Perubahan pada nilai wajar diakui di laba rugi ketika aset yang bersangkutan dihentikan pengakuannya atau direklasifikasi.

Aset keuangan yang diklasifikasikan menjadi aset keuangan yang diamortisasi dapat dijual ketika terdapat peningkatan dalam risiko kredit. Penghapusan dengan alasan lain diperbolehkan namun jumlah penghapusan tersebut seharusnya tidak signifikan atau tidak sering terjadi.

ii. Aset Keuangan yang Diukur pada Nilai Wajar Melalui Penghasilan Komprehensif Lain (FVTOCI)

Aset keuangan diukur pada FVTOCI jika kedua kondisi berikut terpenuhi:

- (1) Aset keuangan dikelola dalam model bisnis yang tujuannya akan terpenuhi dengan mendapatkan arus kas kontraktual dan menjual aset keuangan; serta

i. Financial Assets Measured at Amortized Costs

- 1) the financial asset is held within a business model whose objective is to hold the financial asset to collect contractual cash flow (held to collect); and;
- 2) the contractual terms of the financial asset give rise on specified dates to cash flow that are *Solely Payments of Principal and Interest* (SPPI) on the principal amount outstanding.

The financial asset is measured at the amount recognized at initial recognition deducted by the principal repayments, added or deducted the cumulative amortization of any difference between the initial amount and the maturity amount, and any losses allowance.

Interest income is calculated using the effective interest method and is recognized in profit and loss. Changes in fair value are recognized in profit and loss when the asset is derecognized or reclassified.

Financial assets classified to amortized cost may be sold where there is an increase in credit risk. Disposals for other reasons are permitted but such sales should be insignificant in value or infrequent in nature.

ii. Financial Assets Measured at Fair Value Through Other Comprehensive Income (FVTOCI)

The financial assets are measured at FVTOCI if these conditions are met:

- (1) the financial asset held within a business model whose objective is archived by both collecting contractual cash flows and selling financial assets; and

- (2) persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang semata-mata diperoleh dari pembayaran pokok dan bunga (SPPI) dari jumlah pokok terutang.

Aset keuangan tersebut diukur sebesar nilai wajarnya. Perubahan dalam nilai wajar awalnya diakui di penghasilan komprehensif lain, kecuali untuk kerugian akibat dari penurunan nilai dan keuntungan atau kerugian akibat dari adanya perubahan kurs yang diakui dalam laba rugi. Ketika aset keuangan tersebut dihentikan pengakuannya atau direklasifikasi, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam penghasilan komprehensif lain direklasifikasi dari ekuitas ke laba rugi dan disajikan sebagai penyesuaian reklasifikasi.

iii. Aset Keuangan yang Diukur pada Nilai Wajar Melalui Laba Rugi (FVTPL)

Aset keuangan yang diukur pada FVTPL adalah aset keuangan yang tidak memenuhi kriteria untuk diukur pada Biaya Perolehan Diamortisasi atau diukur pada FVTOCI.

Setelah pengakuan awal, aset keuangan yang diukur pada FVTPL diukur pada nilai wajarnya. Keuntungan atau kerugian yang timbul dari perubahan nilai wajar aset keuangan tersebut diakui dalam laba rugi. Keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam penghasilan komprehensif lain direklasifikasi ke saldo laba tidak melalui laba rugi.

Aset keuangan yang berupa derivatif dan investasi pada instrumen ekuitas yang tidak memenuhi kriteria untuk diukur pada biaya perolehan diamortisasi atau kriteria untuk diukur pada FVTOCI, diukur pada FVTPL. Namun, Grup dapat menetapkan pilihan yang tidak dapat dibatalkan pada saat pengakuan awal atas suatu investasi pada instrumen ekuitas yang bukan untuk diperjualbelikan setiap saat dalam waktu dekat, maka aset keuangan tersebut diukur pada FVTOCI.

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

- (2) the contractual terms of the financial asset give rise to payments on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The financial assets are measured at fair value. The changes in fair value are recognized initially in other comprehensive income (OCI), except for impairment gains and loss and a portion of foreign exchange gains and loss are recognized in profit or loss. When the asset is derecognized or reclassified, changes in fair value previously recognized in other comprehensive income and accumulated in equity are reclassified from equity to profit and loss as a reclassification adjustment.

iii. Financial Assets at Fair Value Through Profit or Loss (FVTPL)

Financial assets measured at FVTPL are those which do not meet both criteria for neither amortized costs nor FVTOCI.

After initial recognition, FVTPL financial assets are measured at fair value. The changes in fair value are recognized in profit and loss. Cumulative gains or losses previously recognized in other comprehensive income are reclassified to retained earnings, not to profit or loss.

Financial assets in form of derivatives and investment in equity instruments are not eligible to meet both criteria for amortized costs or FVTOCI, hence, these are measured at FVTPL. Nonetheless, the Group may irrevocably designated an investment in an equity instrument which is not held for trading in any time soon, then it is measured at FVTOCI.

Penetapan pilihan ini menyebabkan semua keuntungan atau kerugian disajikan di penghasilan komprehensif lain, kecuali pendapatan dari dividen yang diperoleh dari investasi yang bersangkutan tetap diakui di laba rugi. Keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam penghasilan komprehensif lain direklasifikasi ke saldo laba, tidak melalui laba rugi.

Penurunan Nilai Aset Keuangan

Grup mengakui kerugian kredit ekspektasian untuk Aset Keuangan yang Diukur pada Biaya Perolehan Diamortisasi.

Pada setiap tanggal pelaporan, Grup menghitung besarnya penyisihan kerugian instrumen-instrumen keuangannya sejumlah kerugian kredit ekspektasian sepanjang umur instrumen keuangan tersebut dengan mempertimbangkan apakah risiko kredit telah meningkat secara signifikan sejak pengakuan awalnya. Namun, jika risiko kredit instrumen keuangan tersebut tidak meningkat secara signifikan sejak pengakuan awalnya, maka Grup mengakui kerugian kredit ekspektasian dalam 12 bulan ke depan.

Grup menganggap aset keuangan adalah gagal bayar ketika pihak ketiga tidak mampu membayar kewajiban kreditnya kepada Grup secara penuh. Periode maksimum yang dipertimbangkan oleh Grup dalam memperkirakan kerugian kredit ekspektasian adalah periode maksimum kontrak dimana Grup terekspos terhadap risiko kredit.

Penyisihan kerugian diakui sebagai pengurang jumlah tercatat aset keuangan kecuali untuk aset keuangan yang diukur pada FVTOCI yang penyisihan kerugiannya diakui dalam penghasilan komprehensif lain. Nilai kerugian kredit ekspektasian (atau pemulihan kerugian kredit) diakui dalam laba rugi, sebagai keuntungan atau kerugian penurunan nilai.

INFORMATION (Continued)**

This designation result in gains and loss to be presented in other comprehensive income, except for dividend income on a qualifying investment which is recognized in profit or loss. Cumulative gain or losses previously recognized in other comprehensive income are reclassified to retain earnings, not to profit or loss.

Impairment of Financial Assets

The Group recognize expected credit loss for its Financial Assets Measured at Amortized Costs.

At the end of each reporting date, the Group calculates any impairment provision in financial instruments based on its lifetime expected credit loss if the credit risk of the financial instruments has increased significantly since its initial recognition. However, if credit risk has not increased significantly since initial recognition, then group a 12-month expected credit loss is recognized.

The Group considers a financial asset to be in default when the counterparty is unlikely to pay its credit obligations to the Group in full. The maximum period considered when estimating expected credit loss is the maximum contractual period over which the Group is exposed to credit risk.

Impairment loss are recognized as a deduction in financial assets carrying amount, except for financial assets measured at FVTOCI where its impairment is recognized in other comprehensive income. The expected credit loss (or recovery of credit loss) is recognized in profit or loss, as gains or loss of financial asset impairment.

MATERIAL (Lanjutan)**

Aset keuangan dapat dianggap tidak mengalami peningkatan risiko kredit secara signifikan sejak pengakuan awal jika aset keuangan tersebut memiliki risiko kredit yang rendah pada tanggal pelaporan.

Risiko kredit pada instrumen keuangan dianggap rendah ketika aset keuangan tersebut memiliki risiko gagal bayar yang rendah, pelanggan memiliki kapasitas yang kuat untuk memenuhi kewajiban arus kas kontraktualnya dalam jangka waktu dekat. Di samping itu, memburuknya kondisi ekonomi dan bisnis pelanggan dalam jangka panjang tidak menurunkan kemampuan pelanggan dalam memenuhi kewajiban arus kas kontraktualnya.

Reklasifikasi

Grup mereklasifikasi suatu aset keuangan ketika Grup mengubah tujuan model bisnis untuk pengelolaan aset keuangan yang bersangkutan sehingga model penilaian yang sebelumnya tidak dapat diterapkan.

Pengukuran Nilai Wajar

Nilai wajar adalah harga yang akan diterima dari penjualan suatu aset atau harga yang dibayar untuk pengalihan suatu liabilitas dalam suatu transaksi normal di antara para pelaku pasar pada tanggal pengukurannya.

Nilai wajar aset dan liabilitas keuangan harus diestimasi untuk keperluan pengakuan dan pengukurannya atau untuk keperluan pengungkapan.

Nilai wajar dikategorikan dalam level yang berbeda menurut hierarkinya yaitu berdasarkan apakah input suatu pengukuran dapat diobservasi atau tidak dan apakah input tersebut adalah signifikan terhadap keseluruhan pengukuran nilai wajar yaitu sebagai berikut:

Hierarki Level 1: Harga instrumen keuangan tersedia di pasar modal aktif, yang identik dengan instrumen keuangan tersebut dan dapat diakses pada tanggal pengukuran.

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

Financial assets may be considered to not having significant increase in credit risk since initial recognition if the financial assets have a low credit risk at the reporting date.

Credit risk on financial instrument may be considered be low if there is a low risk of default, the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

Reclassification

The Group reclassifies a financial asset if and only if the Group's business model objective for its financial assets changes so its previous model assessment would no longer apply.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

Fair values are categorized into different levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety:

Hierarchy Level 1: Quoted prices in active markets for identical financial instruments that can be accessed at the measurement date.

Hierarki *Level* 2: Input lainnya, yang tidak tergolong ke dalam *Level* 1, yaitu yang aset dan liabilitasnya dapat diobservasi, baik secara langsung maupun tidak langsung.

Hierarki *Level* 3: Input yang aset atau liabilitasnya tidak dapat diobservasi.

Pada saat mengukur nilai wajar suatu aset atau suatu liabilitas, Grup sedapat mungkin menggunakan data pasar yang dapat diobservasi. Apabila nilai wajar suatu aset atau suatu liabilitas tidak dapat diobservasi secara langsung, Grup menggunakan teknik penilaian yang sesuai dengan keadaannya dan memaksimalkan penggunaan input yang relevan yang dapat diobservasi dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Pengukuran Selanjutnya Liabilitas Keuangan

Grup mengklasifikasikan seluruh liabilitas keuangan sehingga setelah pengakuan awal liabilitas keuangan diukur pada biaya perolehan diamortisasi, kecuali:

- (a) Liabilitas keuangan pada nilai wajar melalui laba rugi. Liabilitas dimaksud, termasuk derivatif yang merupakan liabilitas, selanjutnya akan diukur pada nilai wajar.
- (b) Liabilitas keuangan yang timbul saat pengalihan aset keuangan yang tidak memenuhi kualifikasi penghentian pengakuan atau ketika pendekatan keterlibatan berkelanjutan diterapkan.
- (c) Kontrak jaminan keuangan dan komitmen untuk menyediakan pinjaman dengan suku bunga di bawah pasar. Setelah pengakuan awal, penerbit kontrak dan penerbit komitmen selanjutnya mengukur kontrak tersebut sebesar jumlah yang lebih tinggi antara:
 - a) jumlah penyisihan kerugian; dan
 - b) jumlah yang pertama kali diakui dikurangi dengan, jika sesuai, jumlah kumulatif dari penghasilan yang diakui sesuai dengan prinsip PSAK 115.

Hierarchy Level 2: Inputs other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly or indirectly.

Hierarchy Level 3: Unobservable inputs for the assets or liabilities.

When measuring the fair value of an asset or a liability, the Group uses market observable data to the extent possible. If the fair value of an asset or a liability is not directly observable, the Group uses valuation techniques that appropriate in the circumstances and maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs.

Subsequent Measurement of Financial Liabilities

The Group shall classify all financial liabilities as subsequently measured at amortised cost, except for:

- (a) Financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.*
- (b) Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies.*
- (c) Financial guarantee contract and commitments to provide a loan at a below-market interest rate. After initial recognition, an issuer of such a contract and an issuer of such a commitment shall subsequently measure it at the higher of:*
 - a) the amount of the loss allowance; and*
 - b) the amount initially recognized in reduced by, where appropriate, the cumulative amount of the income recognized in accordance with the principles of PSAK 115.*

- (d) Imbalan kontijensi yang diakui oleh pihak pengakuisisi dalam kombinasi bisnis ketika PSAK 103 diterapkan. Imbalan kontijensi selanjutnya diukur pada nilai wajar dan selisihnya dalam laba rugi.

Saat pengakuan awal Grup dapat membuat penetapan yang tak terbatalan untuk mengukur liabilitas keuangan pada nilai wajar melalui laba rugi, jika diizinkan oleh standar atau jika penetapan akan menghasilkan informasi yang lebih relevan, karena:

- a) Mengeliminasi atau mengurangi secara signifikan inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai "accounting mismatch") yang dapat timbul dari pengukuran aset atau liabilitas atau pengakuan keuntungan dan kerugian atas aset atau liabilitas dengan dasar yang berbeda beda; atau
- b) Sekelompok liabilitas keuangan atau aset keuangan dan liabilitas keuangan dikelola dan kinerjanya dievaluasi berdasarkan nilai wajar, sesuai manajemen risiko atau strategi investasi yang terdokumentasi, dan informasi dengan dasar nilai wajar dimaksud atas kelompok tersebut disediakan secara internal untuk personil manajemen kunci Grup.

Penghentian Pengakuan Aset dan Liabilitas Keuangan

Aset Keuangan

Grup menghentikan pengakuan aset keuangannya jika hak kontraktual atas arus kas yang berasal dari aset keuangan berakhir atau mengalihkan hak untuk menerima arus kas tersebut kepada pihak lain atau tetap memiliki hak itu tetapi juga harus menanggung kewajiban kontraktual untuk membayar kepada satu atau lebih pihak penerima melalui suatu kesepakatan. Jika Grup secara substansial mengalihkan seluruh risiko dan manfaat atas kepemilikan aset keuangannya, maka Grup menghentikan pengakuan aset keuangan yang bersangkutan dan mengakui secara terpisah

A Group may, at initial recognition, irrevocably designated a financial liability as measured at fair value through profit or loss when permitted by the standard or when doing so results in more relevant information, because either:

- a) It eliminates or significantly reduces measurement or recognition inconsistency (sometimes referred to as "an accounting mismatch") that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different; or*

Derecognition of Financial Assets and Liabilities

Financial Assets

The Group derecognizes a financial asset if the contractual rights to the cash flows from the financial asset expire or the Group transfers the contractual rights to receive the cash flows of the financial asset or retains the contractual rights to receive the cash flows but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement. Jika Grup secara substansial tidak mengalihkan dan tidak memiliki seluruh risiko dan manfaat atas kepemilikan aset keuangan tersebut dan masih memiliki pengendalian, maka Grup mengakui aset keuangan itu sebesar keterlibatan berkelanjutan dalam aset keuangan tersebut.

Jika Grup secara substansial masih memiliki seluruh risiko dan manfaat atas kepemilikan aset keuangan, maka Grup tetap mengakui aset keuangan tersebut.

Liabilitas Keuangan

Grup menghentikan pengakuan liabilitas keuangannya jika liabilitas keuangan tersebut berakhir, yaitu ketika kewajiban yang disebutkan dalam kontrak dilepaskan, dibatalkan atau kedaluwarsa.

Saling Hapus Aset Keuangan dan Liabilitas Keuangan

Aset keuangan dan liabilitas keuangan disalinghapuskan jika Grup secara hukum memiliki hak yang dapat dipaksakan untuk melakukan saling hapus atas jumlah yang telah diakui; dan berniat untuk menyelesaikannya secara neto atau untuk menyelesaikan aset dan liabilitasnya secara bersamaan.

2.h. Kas dan Setara Kas

Kas dan setara kas termasuk uang tunai, kas di bank termasuk *demand deposits*, dan deposito berjangka yang jatuh temponya tiga bulan atau kurang sejak tanggal penempatannya dan tidak digunakan sebagai jaminan atau tidak dibatasi penggunaannya.

2.i. Persediaan

Persediaan dinyatakan berdasarkan nilai terendah antara biaya perolehan dan nilai realisasi neto. Biaya persediaan terdiri dari seluruh biaya produksi, biaya konversi, dan biaya-biaya lainnya yang terjadi sampai persediaan berada dalam kondisi dan lokasi saat ini.

If the Group retains substantially all the risks and rewards of ownership of the financial asset, the Group continues to recognize the financial asset.

Financial Liabilities

The Group removes a financial liability from its statement of financial position when it is extinguished, i.e when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting a Financial Asset and a Financial Liability

A financial asset and financial liability shall be offset if and only if, the Group currently has a legally enforceable right to set off the recognized amount; and intends either to settle on a net basis, or to settle the asset and the liabilities simultaneously.

2.h. Cash and Cash Equivalent

Cash and cash equivalents are cash on hand, cash in banks including demand deposits and time deposits with maturity periods of three months or less at the time of placement that are not used as collateral or are not restricted.

2.i. Inventories

Inventories are carried at the lower of cost and net realizable value. The cost of inventories comprises all costs of production, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Biaya perolehan ditentukan dengan metode rata-rata tertimbang. Nilai realisasi neto merupakan taksiran harga jual dalam kegiatan usaha yang normal dikurangi dengan estimasi biaya penyelesaiannya dan estimasi biaya yang diperlukan untuk menjualnya.

Setiap penurunan nilai persediaan di bawah biaya perolehan menjadi nilai realisasi neto dan seluruh kerugian persediaan diakui sebagai beban pada periode terjadinya penurunan atau kerugian tersebut. Setiap pemulihan kembali penurunan nilai persediaan karena peningkatan kembali nilai realisasi neto, diakui sebagai pengurangan terhadap jumlah beban persediaan pada periode terjadinya pemulihan tersebut.

2.j. Investasi pada Entitas Asosiasi

Entitas asosiasi adalah entitas dimana Grup memiliki kekuasaan untuk berpartisipasi dalam setiap kebijakan keuangan dan operasional *investee*, tetapi tidak mengendalikan atau mengendalikan bersama kebijakan tersebut (pengaruh signifikan).

Investasi pada entitas asosiasi dicatat dengan menggunakan metode ekuitas. Dalam metode ekuitas, pengakuan awal investasi pada awalnya diakui sebesar biaya perolehannya. Nilai tercatat investasi setelah tanggal perolehan disesuaikan dengan: 1) bagian atas laba rugi *investee*; dan 2) penerimaan dividen. Bagian atas laba rugi *investee* tersebut diakui dalam laba rugi. Penyesuaian terhadap jumlah tercatat tersebut dapat berubah sebagai akibat dari adanya perubahan dalam penghasilan komprehensif lain di *investee* yang bersangkutan, termasuk perubahan yang timbul dari revaluasi aset tetap dan selisih penjabaran valuta asing. Bagian investor atas perubahan tersebut diakui dalam penghasilan komprehensif lain.

Grup menghentikan penggunaan metode ekuitas pada saat investasinya berubah menjadi investasi pada entitas asosiasi sebagai berikut:

- (a) jika investasi menjadi entitas anak;
- (b) jika sisa kepentingan dalam entitas asosiasi merupakan aset keuangan, maka Grup mengukur sisa kepentingan tersebut pada nilai wajar;

**2. MATERIAL ACCOUNTING POLICIES
INFORMATION (Continued)**

Cost is determined using the weighted average method. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write-down of inventories to net realizable value and all loss of inventories is recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

2.j. Investment in Associates

Associates are entities in which the Group has the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies (significant influence).

Investment in associates accounted for using the equity method. Under the equity method, the investment in an associate is initially recognized at cost. The carrying amounts of the investments after the acquisition date are adjusted for: 1) share of the investee's profit or loss; and 2) dividend receipts. The investor's share of the profit or loss of the investee is recognized in profit or loss. Adjustments to the carrying amount may also be necessary for changes in the investor's proportionate interest in the investee arising from changes in the investee's other comprehensive income, including those arising from the revaluation of fixed assets and from foreign exchange translation differences. The investor's share of those changes is recognized in other comprehensive income.

The Group discontinues the use of the equity method from the date when its investment ceases to be an associate as follows:

- (a) if the investment becomes a subsidiary;
- (b) if the retained interest in the former associate is a financial asset, the Group measures the retained interest at fair value;

2.k. Pengaturan Bersama

Pengaturan bersama adalah suatu pengaturan yang dilakukan oleh dua pihak atau lebih untuk melakukan pengendalian bersama, yaitu adanya suatu persetujuan kontraktual antara para pihak untuk berbagi pengendalian atas berbagai kebijakan dan aktivitas tertentu yang mempersyaratkan adanya persetujuan dari seluruh pihak yang berbagi pengendalian.

Grup mengklasifikasikan pengaturan bersama ini sebagai Ventura Bersama.

Para pihak yang menjadi bagian dari Ventura Bersama mengakui kepemilikannya dalam Ventura Bersama sebagai investasi dan mencatat investasi tersebut dengan menggunakan metode ekuitas.

2.l. Aset Tetap

Aset tetap pada awalnya diakui sebesar biaya perolehan yang meliputi harga perolehannya dan biaya-biaya yang dapat diatribusikan secara langsung untuk menjadikan aset itu ke kondisi dan membawa ke lokasi yang diperlukan, agar aset tersebut siap digunakan sesuai dengan tujuan Manajemen.

Apabila relevan, biaya perolehan juga dapat mencakup estimasi awal biaya pembongkaran dan pemindahan bagian dari aset tetap serta biaya restorasi dimana aset itu berada.

Setelah pengakuan awal, aset tetap kecuali tanah dinyatakan sebesar biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

Tanah diakui sebesar harga perolehannya dan tidak disusutkan.

INFORMATION (Continued)**

(c) when the Group discontinues the use of the equity method, the Group accounts for all amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the investee had directly disposed of the related assets or liabilities.

2.k. Joint Arrangement

Joint arrangement is an arrangement of which two or more parties have joint control, i.e. the contractually agreed sharing of control of an arrangement, which exist only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group classified joint arrangement as Joint.

A joint venturer recognizes its interest in a joint venture as an investment and account for that investment using the equity method.

2.l. Fixed Assets

Fixed assets are initially recognized at cost, which comprises its purchase price and any cost directly attributable in bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by Management.

When applicable, the cost may also comprise of the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

After initial recognition, fixed assets, except land, are carried at its cost less any accumulated depreciation, and any accumulated impairment loss.

Lands are recognized at its cost and are not depreciated.

Penyusutan aset tetap dimulai pada saat aset tersebut siap untuk digunakan sesuai dengan tujuan penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi masa manfaat ekonomis aset yang bersangkutan sebagai berikut:

Mesin dan Peralatan	3 – 30	<i>Machineries and Equipment</i>
Peralatan dan Perabotan Kantor	2 – 15	<i>Office Furniture and Fixtures</i>

Sarana dan Prasarana	30	<i>Facilities and Infrastructures</i>

Aset tetap yang dikonstruksi sendiri disajikan sebagai bagian dari aset tetap dalam “Aset dalam Konstruksi” yang dinyatakan sebesar biaya perolehannya. Semua biaya, termasuk biaya pinjaman sehubungan dengan konstruksi aset tersebut dikapitalisasi sebagai bagian dari biaya perolehan Aset dalam Konstruksi. Biaya perolehan aset tetap dalam konstruksi tidak mencakup laba internal, jumlah biaya yang tidak normal akibat dari pemborosan yang terjadi dalam pemakaian bahan baku, tenaga kerja atau sumber daya lain.

Self-constructed fixed assets are presented as part of the fixed assets under “Asset in Construction” and are stated at its cost. All costs, including borrowing costs, incurred in relation with the construction of these assets are capitalized as part of the cost of assets in construction. Cost of assets in construction excludes any internal profits, cost of abnormal amounts of wasted material, labour, or other resources incurred.

Pada akhir periode pelaporan, Grup melakukan penelaahan berkala terhadap masa manfaat, nilai residu, metode penyusutan, dan sisa umur pemakaian berdasarkan kondisi teknis.

At the end of each reporting period, the Group made regular review of the useful lives, residual values, depreciation method and residual life based on the technical conditions.

2.m. Properti Pertambangan

Ketika keputusan pengembangan telah diambil, yaitu pada saat cadangan terpulihkan yang secara ekonomis dapat diidentifikasi, jumlah tercatat dalam akun Aset Eksplorasi dan Evaluasi pada *area of interest* tertentu dipindahkan ke akun Properti Pertambangan dan digabungkan dengan pengeluaran pengembangan selanjutnya.

Biaya pengembangan yang dikeluarkan oleh Grup dicatat secara terpisah untuk setiap *area of interest*. Biaya-biaya tersebut terdiri dari biaya-biaya yang dapat diatribusikan secara langsung pada konstruksi tambang dan infrastruktur yang terkait, tetapi tidak termasuk perolehan aset berwujud dan hak atas tanah yang dicatat sebagai Aset Tetap.

2.m. Mining Properties

Once a development decision has been taken, that is, when an economically recoverable reserve can be identified, the carrying amount of the Exploration and Evaluation assets in respect of the area of interest is transferred to Mining Properties and aggregated with the subsequent development expenditure.

Development expenditure incurred by the Group is recorded separately for each area of interest in. Such expenditure comprises costs directly attributable to the construction of a mine and the related infrastructure and excludes physical assets and land rights, which are recorded as Fixed Assets.

Properti pertambangan teridentifikasi yang diperoleh melalui suatu kombinasi bisnis pada awalnya diakui sebagai aset sebesar nilai wajarnya. Pengeluaran pengembangan yang terjadi setelah akuisisi properti pertambangan dicatat berdasarkan kebijakan akuntansi yang dijelaskan di atas.

Properti Pertambangan diuji penurunan nilainya dengan mengacu pada kebijakan akuntansi dalam Catatan 2. q.

2.n. Aset Eksplorasi dan Evaluasi

Kegiatan eksplorasi dan evaluasi mencakup pencarian mineral, batu bara, minyak dan gas bumi serta barang tambang lainnya, penentuan kelayakan teknis dan penilaian kelayakan komersialnya dari sebuah sumber daya yang telah teridentifikasi yang meliputi:

- (i) pengumpulan data eksplorasi melalui studi topografi, geokimia dan geofisika;
- (ii) pengeboran, *trenching* dan pengambilan sampel;
- (iii) penentuan dan pemeriksaan volume dan kualitas sumber daya; serta
- (iv) penelitian kebutuhan transportasi dan infrastruktur yang diperlukan.

Biaya administrasi yang tidak langsung dapat diatribusikan ke suatu area eksplorasi dibebankan pada laba rugi. Biaya lisensi atau izin yang dibayar sehubungan dengan hak untuk mengeksplorasi suatu area dikapitalisasi dan diamortisasi selama jangka waktu lisensi atau izin tersebut.

When further development expenditure is incurred on a mining property after the commencement of production, the expenditure is carried forward as asset and as part of Mining Properties when it is probable that additional future economic benefits associated with the expenditure will flow to the Group. Otherwise, such expenditure is classified as a cost of production.

Identifiable mining properties acquired in a business combination are initially recognized as assets at their fair value. Development expenses incurred subsequent to the acquisition of the mining properties are accounted for in accordance with the policy outlined above.

Mining Properties are tested for impairment in accordance with the accounting policy in Note 2. q.

2.n. Exploration and Evaluation Assets

Exploration and evaluation activities involve the search for mineral, coal, oil and gas and other resources, the determination of technical feasibility and the assessment of commercial viability of an identified resource include:

- (i) gathering exploration data through topographical, geochemical and geophysical studies;*
- (ii) exploratory drilling, trenching and sampling;*
- (iii) determining and examining the volume and grade of the resource; and*
- (iv) surveying transportation and infrastructure requirements.*

Administration costs that are not directly attributable to a specific exploration area are charged to profit or loss. License or permit costs paid in connection with a right to explore in an existing exploration area are capitalized and amortized over the term of the license or permit.

Biaya eksplorasi dan evaluasi, termasuk amortisasi atas biaya lisensi yang dikapitalisasi, dibebankan ke laba rugi pada saat terjadinya, kecuali untuk keadaan yang diuraikan berikut ini, maka biaya-biaya tersebut dapat dikapitalisasikan:

- (i) pengakuisisian suatu konsesi atau izin atas *area of interest* yang berada pada tahap eksplorasi dan evaluasi dari pihak ketiga, yang diukur pada nilai wajarnya pada saat akuisisi; atau
- (ii) ketika keberadaan deposit mineral secara komersial telah dapat ditetapkan.

Kapitalisasi biaya eksplorasi dan evaluasi dicatat dalam akun Aset Eksplorasi dan Evaluasi yang selanjutnya diukur dengan biaya perolehan dikurangi dengan penyisihan penurunan nilainya. Aset ini tidak disusutkan karena belum siap untuk dieksploitasi, namun dimonitor untuk mengetahui adanya indikasi penurunan nilai. Apabila suatu penurunan nilai potensial terindikasi, penilaian dilakukan untuk setiap *area of interest* sehubungan dengan kelompok aset operasi, yang merupakan unit penghasil kas, yang berkaitan dengan eksplorasi yang bersangkutan.

Apabila biaya eksplorasi yang ditangguhkan diperkirakan tidak dapat dipulihkan, biaya tersebut dibebankan pada laba rugi.

Arus kas yang berkaitan dengan kapitalisasi biaya eksplorasi dan evaluasi diklasifikasikan sebagai arus kas aktivitas investasi dalam arus kas konsolidasian, sedangkan arus kas yang berkaitan dengan biaya eksplorasi dan evaluasi yang dibiayai diklasifikasikan sebagai arus kas aktivitas operasi.

2.o. Goodwill

Goodwill timbul dari akuisisi entitas anak dan merupakan selisih imbalan yang ditransfer terhadap kepemilikan dalam nilai wajar neto atas aset, liabilitas, dan liabilitas kontijensi teridentifikasi dan nilai wajar kepentingan non-pengendali pada pihak akuisisi.

Exploration and evaluation costs, including amortization of capitalized license costs are charged to profit or loss as incurred, except in the following circumstances in which case the cost may be capitalized:

- (i) the acquisition of a concession or license area of interest at the exploration and evaluation stage from a third party, which is measured at fair value on acquisition; or*
- (ii) when the existence of a commercially viable mineral deposit has been established.*

Capitalized exploration and evaluation costs are recorded under Exploration and Evaluation Assets and are subsequently measured at cost less any allowance for impairment. Such assets are not depreciated as they are not available for use but monitored for indications of impairment. Where a potential indication of impairment exists, an assessment is performed for each area of interest in conjunction with the group of operating assets, representing a cash generating unit, to which the exploration is attributed.

To the extent that deferred exploration costs are not expected to be recovered, it is charged to profit or loss.

Cash flows associated with capitalized exploration and evaluation costs are classified as investing activities in the consolidated cash flows, while cash flows in respect of exploration and evaluation costs that are expensed are classified as operating cash flows.

2.o. Goodwill

Goodwill arises from the acquisition of subsidiaries and represents the excess of the consideration transferred over the interest in the net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interest in the acquiree.

Setiap unit atau kelompok unit yang memperoleh alokasi *goodwill* menunjukkan tingkat terendah dalam entitas yang *goodwill*-nya dipantau untuk tujuan manajemen internal. *Goodwill* dipantau pada level segmen operasi.

2.p.Biaya Pengupasan

Dalam sebuah operasi pertambangan terbuka, Grup mungkin memandang perlu untuk memindahkan material sisa tambang (*overburden*) untuk mendapatkan akses ke cadangan bijih mineral (*mineral ore*). Aktivitas pemindahan material sisa tersebut dikenal sebagai “pengupasan lapisan tanah”.

Selama tahap pengembangan tambang, yaitu sebelum produksi dimulai, biaya pengupasan lapisan tanah biasanya dikapitalisasi sebagai bagian dari biaya pembangunan, pengembangan dan konstruksi tambang. Biaya kapitalisasi tersebut disusutkan atau diamortisasi dengan menggunakan metode unit produksi, pada saat dimulainya tahap produksinya.

Selama masa produksi, sepanjang manfaat aktivitas pengupasan lapisan tanah dapat menghasilkan persediaan, Grup mencatat biaya aktivitas pengupasan lapisan tanah sesuai dengan prinsip-prinsip yang diatur dalam PSAK 202 mengenai “Persediaan”. Sepanjang manfaatnya adalah meningkatkan akses ke bijih (*ore*), Grup mengakui biaya tersebut sebagai aset tidak lancar yaitu “Aset Aktivitas Pengupasan Tanah”.

Grup mengakui aset aktivitas pengupasan lapisan tanah jika seluruh kriteria berikut ini terpenuhi:

- (i) besar kemungkinan bahwa manfaat ekonomi masa depan, yaitu peningkatan akses menuju badan bijih (*ore body*) yang terkait dengan aktivitas pengupasan lapisan tanah, akan mengalir kepada Grup;
- (ii) Grup dapat mengidentifikasi komponen *ore body* yang aksesnya telah ditingkatkan; dan

For the purposes of impairment testing, *goodwill* acquired in a business combination is allocated to each cash-generating unit, or group of cash-generating unit, which is expected to benefit from the synergies of the combination. Each cash-generating unit or group of cash-generating unit to which the *goodwill* is allocated represents the lowest level within the entity at which *goodwill* is monitored for internal management purposes. *Goodwill* is monitored at the operating segment level.

2.p.Stripping Costs

In surface mining operations, the Group may find it necessary to remove mine waste materials (*overburden*) to gain access to mineral ore deposits. This waste removal activity is known as “stripping”.

During the development phase of the mine, before production begins, stripping costs are usually capitalized as part of the cost of building, developing, and constructing the mine. Those capitalized costs are depreciated or amortized on a systematic basis, usually by using the units of production method, once production begins.

During production phase, to the extent that the benefit from the stripping activity is realized in the form of inventory produced, the Group accounts for the costs of that stripping activity in accordance with the principles of PSAK 202 regarding “Inventories”. To the extent the benefit is improved access to ore, the Group will recognize these costs as a non-current asset i.e. “Stripping Activity Assets”.

The Group recognizes a stripping activity asset if all of the following criteria are met:

- (i) it is probable that the future economic benefit, i.e. improved access to the ore body associated with the stripping activity, will flow to the Group;
- (ii) the Group can identify the component of the ore body for which access has been improved; and

(iii) biaya yang terkait dengan aktivitas pengupasan lapisan tanah dengan komponen tersebut dapat diukur secara andal.

Pada saat pengakuan awal, Grup mengukur aktivitas pengupasan lapisan tanah dengan biaya perolehannya, yaitu yang merupakan akumulasi dari biaya-biaya yang secara langsung terjadi dalam melakukan aktivitas pengupasan lapisan tanah yang meningkatkan akses terhadap komponen ore yang telah teridentifikasi, ditambah dengan alokasi biaya *overhead* yang dapat diatribusikan secara langsung terhadap aktivitas tersebut.

Beberapa operasi yang sifatnya insidental mungkin terjadi pada saat yang bersamaan dengan aktivitas pengupasan lapisan tanah, dan tidak berkaitan dengan aktivitas pengupasan lapisan tanah sebagaimana yang direncanakan. Biaya-biaya yang terkait dengan operasi insidental tersebut tidak dapat dimasukkan sebagai biaya perolehan aset aktivitas pengupasan lapisan tanah.

Setelah pengakuan awal, aset aktivitas pengupasan lapisan tanah dicatat dengan menggunakan biaya perolehan dikurangi amortisasi dan rugi penurunan nilai, dengan cara yang sama seperti aset yang telah ada di mana aset aktivitas pengupasan lapisan tanah tersebut merupakan bagiannya.

Aset pengupasan lapisan tanah diamortisasi secara sistematis selama umur manfaatnya dengan menggunakan metode unit produksi kecuali jika terdapat metode lain yang lebih tepat.

2.q. Penurunan Nilai Aset

Pada setiap akhir periode pelaporan, Grup menilai apakah terdapat indikasi bahwa suatu aset mengalami penurunan nilai. Jika terdapat indikasi itu, Grup mengestimasi jumlah terpulihkan dari aset tersebut. Jumlah yang terpulihkan ditentukan untuk setiap aset secara individual, dan jika hal ini tidak dimungkinkan, Grup akan menentukan jumlah terpulihkan dari unit aset penghasil kas tersebut.

(iii) the costs relating to the stripping activity associated with that component can be measured reliably.

The Group initially measures the stripping activity asset at cost, this being the accumulation of costs directly incurred to perform the stripping activity that improves access to the identified component of ore, plus an allocation of directly attributable overhead costs.

Some incidental operations may take place at the same time as the production stripping activity, but which are not necessary for the production stripping activity to continue as planned. The costs associated with these incidental operations will not be included in the cost of the stripping activity asset.

After initial recognition, the stripping activity asset are carried at its cost less amortization and less impairment loss, in the same way as the existing asset of which it is a part.

The stripping activity assets are amortised on a systematic basis, over the expected useful life using the units of production method unless another method is more appropriate.

2.q. Impairment of Assets

At the end of each reporting period, the Group assess whether there is any indication that an asset may be impaired. If any such indication exists, the Group will estimate the recoverable amount of the asset. Recoverable amount is determined for an individual asset, if it is not possible, the Group determines the recoverable amount of the asset's cash-generating unit.

Jumlah terpulihkan adalah jumlah yang lebih tinggi antara nilai wajar dikurangi biaya pelepasannya dibandingkan dengan nilai pakainya. Nilai pakai adalah nilai kini dari arus kas yang diharapkan akan diterima dari aset atau unit penghasil kas yang bersangkutan.

Jika jumlah terpulihkan suatu aset lebih rendah dari jumlah tercatatnya, maka jumlah tercatat aset tersebut diturunkan menjadi sebesar jumlah terpulihkannya. Penurunan tersebut diakui dalam laba rugi.

Rugi penurunan nilai yang telah diakui dalam periode sebelumnya, selain *goodwill*, akan dipulihkan jika terdapat perubahan estimasi yang digunakan dalam menentukan jumlah terpulihkan aset tersebut, sejak rugi penurunan nilai yang terakhir diakui. Jika hal ini yang terjadi, maka jumlah tercatat aset tersebut dinaikkan ke jumlah terpulihkannya dan kenaikannya merupakan pembalikan dari rugi penurunan nilai sebelumnya.

2.r. Estimasi Liabilitas untuk Restorasi dan Rehabilitasi

Pengelolaan pelestarian lingkungan hidup yang dilakukan oleh entitas anak meliputi, namun tidak terbatas pada, penggantian tanah bagian atas (*topsoil*), pengerukan endapan pada kolam dan bendungan, pengawasan atas kualitas air, pengolahan limbah, penanaman kembali dan pembibitan hutan.

Estimasi liabilitas restorasi dan rehabilitasi lingkungan ditentukan berdasarkan ketentuan dan peraturan yang berlaku. Beban restorasi dan rehabilitasi tersebut dibebankan sebagai beban produksi. Estimasi liabilitas ditelaah secara rutin dan dampak dari perubahannya diakui secara prospektif.

Pengakuan bagian jangka pendek liabilitas didasarkan pada estimasi yang dibuat oleh Manajemen.

The recoverable amount is the higher of fair value less costs to sell and its value in use. Value in use is the present value of the estimated future cash flows of the asset or cash generating unit.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset will be reduced to its recoverable amount. The reduction is recognized in profit and loss.

An impairment loss recognized in prior period for an asset, other than goodwill, is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If this is the case, the carrying amount of the asset will be increased to its recoverable amount. That increase is a reversal of an impairment loss.

2.r. Estimated Liability for Restoration and Rehabilitation

Environmental management of the subsidiaries includes, but is not limited to, topsoil replacement, dredging of sediment ponds and dams, water quality control and waste handling, planting, and seeding.

Estimated liability for restoration and rehabilitation costs are based principally on legal and regulatory requirements. Such estimated costs as a result of production activities are charged as production cost. Estimates are reassessed regularly, and the effects of changes are recognized prospectively.

Recognition of current portion of liability is based on the estimates from the Management.

2.s. Pajak Penghasilan

Manfaat atau beban pajak adalah jumlah keseluruhan pajak penghasilan baik kini maupun tangguhan yang diperhitungkan dalam menentukan laba rugi untuk suatu periode. Pajak kini dan pajak tangguhan diakui dalam laporan laba rugi, kecuali pajak penghasilan yang timbul dari transaksi atau peristiwa yang diakui dalam penghasilan komprehensif lain atau secara langsung di ekuitas. Jika hal ini yang terjadi, pajak tersebut diakui dalam penghasilan komprehensif lain atau ekuitas.

Jumlah pajak kini untuk periode berjalan dan periode sebelumnya yang belum dibayar, diakui sebagai liabilitas. Jika jumlah pajak yang telah dibayar untuk periode berjalan dan periode-periode sebelumnya melebihi jumlah pajak yang terutang, maka kelebihanannya diakui sebagai aset. Liabilitas atau aset pajak kini untuk periode berjalan dan periode sebelumnya diukur dengan jumlah yang diperkirakan akan dibayar kepada atau direstitusi oleh otoritas perpajakan, yang dihitung dengan menggunakan tarif pajak yang berlaku.

Manfaat terkait dengan rugi pajak yang dapat digunakan untuk memulihkan pajak kini dari periode sebelumnya diakui sebagai aset. Aset pajak tangguhan diakui untuk akumulasi rugi pajak yang belum dikompensasikan dan kredit pajak yang belum dimanfaatkan, sepanjang laba kena pajak masa depan kemungkinan besar akan tersedia untuk dimanfaatkan dengan rugi pajak yang belum dikompensasikan dan kredit pajak yang belum dimanfaatkan.

Aset pajak tangguhan diakui untuk seluruh perbedaan temporer yang dapat dikurangkan dari laba kena pajak sepanjang kemungkinan besar akan tersedia untuk dimanfaatkan dan liabilitas pajak tangguhan diakui untuk semua perbedaan temporer kena pajak.

Aset dan liabilitas pajak tangguhan diukur dengan menggunakan tarif pajak yang diharapkan berlaku ketika aset itu dipulihkan atau pada saat liabilitas diselesaikan, berdasarkan tarif pajak yang telah berlaku pada akhir periode pelaporan.

2.s. Income Tax

Tax benefit or expense are the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax. Current tax and deferred tax is recognized in profit and loss, except for income tax arising from transactions or events that are recognized in other comprehensive income or directly in equity. In this case, the tax is recognized in other comprehensive income or equity, respectively.

Current tax for current and prior periods will, to the extent unpaid, be recognized as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess shall be recognized as an asset. Current tax liabilities or assets for the current and prior periods will be measured at the amount expected to be paid to or recovered from the taxation authorities, using the tax rates that have been enacted.

Tax benefits relating to tax loss that can be carried back to recover current tax of a previous periods is recognized as an asset. Deferred tax asset is recognized for the carry forward of unused tax losses and unused tax credit to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilized.

A deferred tax asset will be recognized for all deductible temporary differences to the extent that it is probable that the taxable profit will be available to be utilized and a deferred tax liability will be recognized for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted by the end of the reporting period.

The Group offsets deferred tax assets and liabilities when there is a legally enforceable right to offset current tax assets and liabilities, and when the deferred tax balances relate to the same taxation authority. The Group offsets current tax assets and tax liabilities where the entity has a legally enforceable right to offset, and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2.t. Employee Benefit

Short-term Employee Benefits

Short-term employee benefits are recognized when an employee has rendered service during accounting period. The amount of employee benefits is measured at the nominal amount without calculating the cash value.

Short term employee benefits include such as wages, salaries, bonus and incentive.

Post-employment Benefits

Post-employment benefits such as retirement, severance and service payments are calculated based on Omnibus Law on Job Creation No. 11 Year 2020 and Labor Law No. 13/2003.

The Group has defined post-employment benefits and defined contribution plans. The Group recognizes the amount of the net defined benefit liability at the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets which calculated by independent actuaries using the Projected Unit Credit method. Present value benefit obligation determines by discounting the benefit.

2.z. Sewa

Sewa digolongkan sebagai sewa pembiayaan dan dicatat sebagai Aset Hak Guna kecuali jika sewa itu berjangka pendek dan/atau bernilai rendah.

2.z. Lease

Leases are categorized as finance lease and recognized as Right of Use Assets, except for short-term and/or low value asset.

Grup mengakui aset hak-guna dan liabilitas sewa pada tanggal berlakunya sewa. Aset hak-guna awalnya diukur pada biaya perolehannya, yang terdiri dari jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal awal, ditambah dengan biaya langsung awal dan estimasi biaya untuk membongkar, merestorasi dan memindahkan aset yang bersangkutan ke lokasinya, dikurangi dengan insentif sewa yang diterima.

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle, restore and remove the underlying asset to its located, less any lease incentives received.

Setelah tanggal permulaan, Grup mengukur aset hak guna dengan model biaya, yaitu biaya perolehan dikurangi akumulasi. Penyusutan dan akumulasi penurunan nilai, serta disesuaikan dengan pengukuran kembali liabilitas sewa. Aset hak guna disusutkan dengan menggunakan metode garis lurus.

Penyusutan atas Aset Hak Guna

Jika suatu sewa mengandung hak opsi bagi Grup untuk memiliki aset yang bersangkutan maka aset hak guna akan disusutkan mulai dari awal perjanjian sewa hingga berakhirnya masa manfaat aset itu. Kebijakan mengenai periode penyusutan aset hak guna yang mengandung hak opsi adalah sama dengan kebijakan aset tetap yang serupa.

Pengukuran atas Liabilitas Sewa

Liabilitas sewa awalnya diukur pada nilai kini atas pembayaran sewa yang belum dibayar pada tanggal awal sewa, yang didiskontokan dengan menggunakan suku bunga implisit sewa yang bersangkutan. Jika suku bunga tersebut tidak dapat ditentukan, maka digunakan suku bunga inkremental pinjaman Grup. Pada umumnya, Grup menggunakan suku bunga inkremental pinjaman sebagai tingkat diskonto.

Setelah tanggal permulaan, Grup mengukur liabilitas sewa dengan:

1. Meningkatkan jumlah tercatat untuk merefleksikan bunga atas liabilitas sewa;
2. Mengurangi jumlah tercatat untuk merefleksikan sewa yang telah dibayar;
3. Mengukur kembali jumlah tercatat untuk merefleksikan penilaian kembali atau modifikasi sewa atau untuk merefleksikan pembayaran sewa tetap secara substansi revisian.

Liabilitas sewa diukur kembali:

1. Jika ada perubahan dalam pembayaran sewa masa depan yang timbul dari perubahan indeks atau suku bunga.

INFORMATION (Continued)**

After the lease commencement date, the Group measures a right-of use asset at cost, which comprises the initial amount less accumulated depreciation and accumulated impairment, and adjusted for any remeasurement of lease liability. The right-of use asset is depreciated using straight-line method.

Depreciation of Right to Use Assets

If a lease has an option for the Group to own the related asset, the right of use asset will be depreciated from the inception of the lease agreement until the end of the asset's useful life. The policy regarding the depreciation period for the right of use assets with option rights is same with the similar fixed asset policy.

Measurement of Lease Liabilities

The lease liability is initially measured at the present value of the lease payments that are not yet paid at the commencement date, discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Group incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

After the commencement date, the Group shall measure the lease liability by:

1. Increasing the carrying amount to reflect interest on the lease liability;
2. Reducing the carrying amount to reflect the lease payments made; and
3. Remeasuring the carrying amount to reflect any reassessment or lease modifications, or to reflect revised in-substance fixed lease payments.

Lease liabilities remeasured when:

1. If there is a change in future lease payments arising from a change in an index or interest rate.
2. If there is a change in the Group estimate of the amount expected to be payable under a residual value guarantee, or

Perlakuan Akuntansi atas Sewa yang Berjangka Pendek dan Aset yang Bernilai Rendah

Sewa jangka pendek adalah sewa dengan masa sewa kurang dari atau sama dengan 12 bulan. Sewa aset bernilai rendah adalah sewa aset yang harga barunya tidak lebih dari plafon nilai rendah yang ditetapkan oleh Grup.

Sewa aset berjangka pendek dan yang bernilai rendah dicatat sebagai sewa dibayar dimuka dan diamortisasi dengan menggunakan metode garis lurus.

2.aa. Provisi

Provisi diakui bila Grup memiliki kewajiban kini, baik bersifat hukum maupun konstruktif, sebagai akibat peristiwa masa lalu dan kemungkinan besar penyelesaian kewajiban tersebut menyebabkan arus keluar sumber daya serta nilai kewajibannya dapat diestimasi secara andal.

Jumlah yang diakui sebagai provisi merupakan estimasi terbaik pengeluaran yang diperlukan untuk menyelesaikan kewajiban kini pada akhir periode pelaporan, dengan mempertimbangkan berbagai risiko dan ketidakpastian. Apabila suatu provisi diukur menggunakan arus kas yang diperkirakan untuk menyelesaikan kewajiban kini, maka nilai tercatatnya adalah nilai kini dari arus kas itu.

Jika sebagian atau seluruh pengeluaran untuk menyelesaikan provisi diganti oleh pihak ketiga, maka penggantian itu diakui hanya pada saat timbul keyakinan bahwa penggantian pasti akan diterima jika Grup menyelesaikan kewajiban. Penggantian tersebut diakui sebagai aset yang terpisah. Jumlah yang diakui sebagai penggantian tidak boleh melebihi provisi.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Accounting Treatment for Short-Term and Low-Value Assets

Short-term leases are leases with a lease term of 12 months or less. Low-value assets are the value of lease assets less than the maximum amount of low value set in The Group's policy.

Short-term leases and low-value assets were recognized as a prepaid expense and amortized using straight-line method.

2.aa.Provision

A provision is recognized when Group has a present obligation, legal or constructive, as a result of past event and it is probable that an outflow of resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

The amount recognized as a provision will be the best estimate of the expenditure required to settle the present obligation at the end of the reporting period, by taking into account the risks and uncertainties. Where a provision is measured using the estimated cash flows to settle the present obligation, its carrying amount is the present value of those cash flows.

Where some or all of the expenditure to settle a provision is expected to be reimbursed by another party, the reimbursement will be recognized when, it is virtually certain that reimbursement will be received when the Group settles the obligation. The reimbursement shall be treated as a separate asset. The amount recognized for the reimbursement will not exceed the amount of the provisions.

PERTIMBANGAN AKUNTANSI YANG
PENTING**

Penyusunan laporan keuangan konsolidasian Grup mengharuskan Manajemen untuk membuat berbagai estimasi, asumsi dan pertimbangan yang dapat mempengaruhi jumlah yang dilaporkan pada laporan keuangan konsolidasian. Adanya ketidakpastian dalam estimasi, asumsi, dan pertimbangan tersebut dapat mengakibatkan penyesuaian material atas jumlah tercatat aset dan liabilitas yang terdampak dalam pelaporan yang akan datang.

Estimasi dan Asumsi Akuntansi

Grup membuat estimasi dan asumsinya berdasarkan parameter yang tersedia pada tanggal penyusunan laporan keuangan konsolidasian. Estimasi dan asumsi dapat berubah sebagai akibat dari perubahan pasar atau keadaan yang di luar kendali Grup. Hasil operasi di masa depan dapat dipengaruhi secara material oleh perubahan estimasi yang timbul dari perubahan parameter. Berikut adalah berbagai estimasi dan asumsi yang dapat mempengaruhi angka-angka dalam laporan keuangan konsolidasian Grup:

Masa Manfaat Aset Tetap

Grup melakukan penelaahan berkala atas masa manfaat ekonomis aset tetap berdasarkan faktor-faktor seperti spesifikasi teknis dan perkembangan teknologi di masa depan, serta estimasi masa ekonomis cadangan mineral yang mengandung ketidakpastian.

**3. SOURCE OF ESTIMATION UNCERTAINTY
AND CRITICAL ACCOUNTING JUDGMENTS**

The preparation of the Group's consolidated financial statements requires Management to make estimates, assumptions, and judgments that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. Uncertainty about these estimates assumptions and judgements could result in outcomes that require a material adjustment to the carrying amount of the asset and liability affected in future periods.

Accounting Estimates and Assumptions

The Group makes its estimates and assumptions based on the parameters available at the date of the consolidated financial statements are prepared. Assumptions and circumstances regarding the future may change as a result of market changes or circumstances that are beyond the control of the Group. The results of future operations can be materially influenced by changes in estimates arising from changes in parameters. The following are various estimates and assumptions that can affect the figures in the Group's consolidated financial statements:

Useful Lives of Fixed Assets

The Group periodically reviews the economic useful lives of fixed assets based on factors such as technical specifications and future technological developments, as well as estimation of the economic life of mineral reserves containing uncertainty.

Post-Employment Benefits

The present value of the post-employment benefits obligation depends on several factors determined based on various assumptions, which consist of among others, discount rate, salary growth rate, mortality rate, disability rate, and resignation rate. Changes in assumptions can affect the carrying amount of post-employment benefits.

Nilai Wajar Instrumen Keuangan

Bila nilai wajar aset keuangan dan liabilitas keuangan yang tercatat pada laporan posisi keuangan tidak tersedia di pasar aktif, maka nilai wajarnya ditentukan dengan menggunakan berbagai teknik penilaian termasuk penggunaan model matematika tertentu. Input untuk model ini berasal dari data pasar yang bisa diamati sepanjang data tersebut tersedia. Bila data pasar yang bisa diamati tersebut tidak tersedia, maka pertimbangan Manajemen diperlukan untuk menentukan nilai wajarnya.

Pertimbangan tersebut mencakup pertimbangan likuiditas dan model input seperti model volatilitas untuk transaksi derivatif yang berjangka waktu panjang dan tingkat diskontonya, tingkat pelunasan dipercepat, dan asumsi tingkat gagal bayar.

Realisasi dari Aset Pajak Tangguhan

Aset pajak tangguhan diakui atas seluruh rugi fiskal yang belum digunakan sepanjang besar kemungkinannya bahwa penghasilan kena pajak akan tersedia di masa yang akan datang sehingga rugi fiskal tersebut dapat digunakan. Manajemen harus melakukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, berdasarkan saat penggunaan dan tingkat penghasilan kena pajak serta strategi perencanaan pajak masa depan.

Menentukan Perkiraan Cadangan Mineral

Sumber mineral adalah suatu konsentrasi atau keberadaan mineral di dalam atau di atas kerak bumi yang memiliki nilai ekonomi, dalam bentuk dan kuantitas yang memiliki prospek ekonomis yang layak untuk ditambang. Lokasi, kuantitas, kualitas, karakteristik geologi dan keberlanjutan dari sumber mineral itu dapat diketahui, diperkirakan atau ditafsirkan melalui bukti geologi dan sains yang spesifik. Sumber daya mineral digolongkan berdasarkan urutan tingkat kepercayaan geologisnya menjadi tiga kategori: "tereka" (*inferred*), "terindikasi" (*indicated*) dan "terukur" (*measured*).

Fair Value of Financial Instruments

Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, management's judgment is required to establish fair values.

The judgments include considerations of liquidity and model inputs such as volatility for long term derivatives and discount rates, prepayment rates, and default rate assumptions.

Realization of Deferred Tax Assets

Deferred tax assets are recognized for all unused tax loss to the extent that it is probable that taxable profit will be available against which the loss can be utilized. Management estimates are required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Determining Mineral Reserve Estimates

Mineral resources refers to a concentration or occurrence of mineral of intrinsic economic interest in or on the earth's crust in such form and quantity that there are reasonable prospects for eventual economic extraction. The location, quantity, grade, geological characteristics, and continuity of a mineral resource are known, estimated or interpreted from specific geological evidence and science. Mineral resources are subdivided, in order of increasing its geological confidence, into "inferred", "indicated" and "measured" categories.

Istilah cadangan mineral didefinisikan sebagai bagian dari sumber daya mineral yang *measured* dan *indicated*, yang secara ekonomi dapat ditambang. Cadangan mineral dibagi berdasarkan tingkatan keyakinannya “cadangan terestimasi” dan “cadangan terbukti”.

Jumlah cadangan mineral digunakan sebagai basis perhitungan: penyusutan, amortisasi dan penurunan nilai, perhitungan rasio pengupasan tanah selama masa penambangan dan prakiraan saat pembayaran untuk penutupan tambang serta prakiraan biaya restorasi dan pembersihan.

Dalam menentukan umur tambang untuk tujuan akuntansi, sumber daya mineral hanya akan diperhitungkan apabila terdapat tingkat keyakinan yang tinggi akan diperoleh hasil tambang yang ekonomis.

Terdapat berbagai ketidakpastian inheren dalam pengestimasian cadangan dan penentuan asumsi yang digunakan pada saat estimasi dilakukan, yang dapat berubah secara signifikan ketika tersedia informasi yang baru. Perubahan perkiraan harga komoditas, nilai tukar uang, biaya produksi atau tingkat pemulihan dapat mengubah status keekonomian dari cadangan yang, pada akhirnya, dapat mengakibatkan perubahan terhadap perkiraan cadangan.

Menentukan Kapitalisasi Biaya Eksplorasi dan Evaluasi

Kebijakan akuntansi yang diterapkan oleh Grup untuk aset eksplorasi dan evaluasi memerlukan pertimbangan dalam menentukan apakah manfaat ekonomis masa mendatang akan terjadi dari hasil eksploitasi di masa mendatang atau dari penjualannya ataukah aktivitas eksplorasi itu dinilai tidak mencapai tahap keberadaan cadangan yang layak.

Menurut *Joint Ore Reserves Committee (JORC)*, cadangan adalah suatu proses pengestimasian yang mengandung tingkat ketidakpastian yang beragam tergantung dari sub-klasifikasinya. Estimasi ini berdampak secara langsung pada penentuan biaya eksplorasi tangguhan.

Mineral reserve is the economically mineable part of a measured and indicated mineral resource. Mineral reserves are subdivided in order of its increasing confidence into “probable mineral reserves” and “proven mineral reserves”.

Mineral reserves are used in the calculation of depreciation, amortization and impairment charges, the assessment of life of mine stripping ratios and for forecasting the timing of the payment of close-down and restoration costs and clean up costs.

In assessing the life of a mine for accounting purposes, mineral resources are only taken into account where there is a high degree of confidence of economic extraction.

There are numerous uncertainties inherent in estimating reserves and assumptions that are valid at the time of estimation but may change significantly when new information becomes available. Changes in the forecast prices of commodities, exchange rates, production costs or recovery rates may change the economic status of reserves and may, ultimately, result in changes to reserve estimates.

Determining Capitalization of Exploration and Evaluation Costs

The application of the Group’s accounting policy for exploration and evaluation assets requires judgment in determining whether future economic benefits are likely to occur either from future exploitation or sale or where activities have not reached a stage that permits a reasonable assessment of the existence of reserves.

The determination of a Joint Ore Reserves Committee (JORC), resource is an estimation process that requires varying degrees of uncertainty depending on sub-classification and these estimates directly impact on the point of deferred exploration costs.

Sehubungan dengan biaya tangguhan ini, manajemen diharuskan untuk membuat estimasi dan asumsi atas peristiwa atau keadaan di masa mendatang, khususnya tentang apakah keberlanjutan operasi penambangan yang ekonomis dapat dilaksanakan. Estimasi dan asumsi tersebut dapat berubah jika di kemudian hari tersedia informasi-informasi lainnya. Apabila biaya eksplorasi dan evaluasi telah dikapitalisasi menjadi aset eksplorasi dan evaluasi, namun pemulihan atas biaya-biaya ini tidak dimungkinkan, maka biaya-biaya tersebut akan dihapuskan (Catatan 15).

Estimasi untuk Restorasi dan Rehabilitasi

Grup mengestimasi secara berkala biaya untuk merestorasi dan merehabilitasi berdasarkan aktivitas yang telah dilakukan dan terdapat dasar yang beralasan untuk menghitung jumlah kewajiban.

Penurunan Nilai Aset Non-Kuangan

Sesuai dengan kebijakan akuntansi Grup, aset atau unit penghasil kas dievaluasi pada setiap tahun pelaporan untuk menentukan ada tidaknya indikasi penurunan nilai aset. Jika terdapat indikasi tersebut, akan dilakukan perkiraan atas nilai aset yang dapat dipulihkan kembali dan kerugian akibat penurunan nilai akan diakui sebesar selisih antara nilai tercatat aset dengan nilai yang dapat dipulihkan kembali dari aset tersebut. Jumlah nilai yang dapat dipulihkan kembali dari sebuah aset atau kelompok aset penghasil kas diukur berdasarkan nilai yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakai aset.

Penentuan nilai wajar dan nilai pakai membutuhkan manajemen untuk membuat estimasi dan asumsi atas produksi yang diharapkan dan volume penjualan, harga komoditas (mempertimbangkan harga saat ini dan masa lalu, tren harga dan faktor-faktor terkait), cadangan (lihat 'Menentukan Perkiraan Cadangan Mineral' di atas), biaya operasi, biaya untuk merestorasi dan merehabilitasi lingkungan serta belanja modal di masa depan. Under the deferral policy, management is required to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions may vary as further information becomes available. If, after the capitalized exploration and evaluation cost (i.e., exploration and evaluation assets) is recorded, further information suggests that recovery of such cost is not possible (Note 15).

Estimated for Restoration and Rehabilitation

The Group reviews periodically the estimated for restoration and rehabilitation based on activities which have already performed and there is reasonable basis to calculate the amount of the obligation.

Impairment of Non-Financial Assets

In accordance with the Group's accounting policy, an asset or a cash generating unit is evaluated at every reporting year to determine whether there any indications of impairment. If any such indication exists, a formal estimate of the recoverable amount is performed and an impairment loss is recognised to the extent that the carrying amount exceeds the recoverable amount. The recoverable amount of an asset or cash generating group of assets is measured at the higher of fair value less costs of disposal and value in use.

The determination of fair value and value in use requires management to make estimates and assumptions about expected production and sales volumes, commodity prices (considering current and historical prices, price trends and related factors), reserve (see 'Determining Mineral Reserve Estimates' above), operating cost, environmental restoration and rehabilitation costs, and future capital expenditure. These estimates and assumptions are subject to risk and uncertainty; hence there is a possibility that changes in circumstances will alter these projections, which may impact the recoverable amount of the assets. Pertimbangan dalam Penerapan Kebijakan Akuntansi

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Grup yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Klasifikasi Aset dan Liabilitas Keuangan

Grup menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan memperhatikan definisi yang ditetapkan oleh PSAK 109.

Dengan demikian, kebijakan akuntansi Grup tentang aset keuangan dan liabilitas keuangan di dasarkan pada PSAK yang disebutkan di atas.

Menentukan Tanggal Mulai Produksi

Grup menelaah tahap pengembangan setiap proyek pengembangan pertambangan untuk menentukan kapan sebuah pertambangan memasuki tahap produksi. Kriteria yang digunakan untuk menelaah tanggal dimulainya tahap produksi pertambangan ditentukan berdasarkan keunikan dari setiap proyek pengembangan tersebut.

Grup mempertimbangkan berbagai kriteria yang relevan dalam menelaah kapan suatu pertambangan secara substansi siap untuk digunakan sesuai dengan tujuannya dan telah memasuki tahap produksi. Kriteria-kriteria yang dimaksudkan adalah, tetapi tidak terbatas pada, sebagai berikut:

- tingkat belanja modal dibandingkan dengan estimasi biaya konstruksi;
- penyelesaian periode pengujian aset tetap pertambangan yang masuk akal;
- kemampuan untuk memproduksi mineral dalam bentuk yang dapat dijual; dan
- kemampuan untuk mempertahankan produksi mineral secara berkelanjutan.

circumstances, some or all of the carrying value of the assets may be impaired, or the impairment charge reduced, with the impact recorded in profit or loss.

Judgments in Applying the Accounting Policies

The following judgments are made by management in the process of applying the Group's accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements:

Classification of Financial Assets and Liabilities

The Group determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK 109.

Accordingly, the Group financial assets and financial liabilities policies are accounted for in accordance with the above mentioned PSAK.

Determining of the Production Start Date

The Group assesses the stage of each mine development project to determine when a mine moves into the production stage. The criteria used to assess the start date of a mine are determined based on the unique nature of each mine development project.

The Group considers various relevant criteria to assess when the mine is substantially complete, ready for its intended use and moves into the production phase. Some of the criteria include, but are not limited to, the following:

- *the level of capital expenditure compared to construction cost estimates;*
- *completion of a reasonable period of testing of the mine fixed assets;*
- *ability to produce minerals in saleable form; and*
- *ability to sustain ongoing production of minerals.*

PT Linge Mineral Resources

PT Linge Mineral Resources merupakan perusahaan yang mempunyai izin konsesi penambangan emas yang berlokasi di Linge, Aceh. Pada tahun 2021, Perusahaan ini diakuisisi oleh BRMS melalui anak usahanya BSS.

Gallo Oil (Jersey) Ltd.

Sejak Januari 2011, Gallo Oil (Jersey) Ltd, entitas anak, telah menunda kegiatan operasinya di Blok R2 dan Blok 13 sehubungan dengan ketidaktersediaan jasa yang diperlukan untuk melakukan aktivitas eksplorasinya. Pemulihan nilai tercatat aset tersebut tergantung dari penyelesaian situasi di Yaman dan hasil aktivitas eksplorasi di masa yang akan datang.

Pada tahun 2020 dan 2022, Gallo tidak memperpanjang izin masing-masing untuk Blok R2 dan Blok 13.

PT MBH Minera Resources

Entitas anak ini memiliki konsensi batubara yang berada di Sumatera Selatan yang masih dalam tahap eksplorasi pada tanggal pelaporan. Sejak 2020 entitas anak tersebut telah menunda kegiatan operasinya sehubungan dengan kondisi pandemik Covid 19 dan kondisi ekonomi pada saat ini. Pemulihan nilai tercatat aset tersebut tergantung pada kondisi yang disebutkan di atas di masa mendatang.

PT Linge Mineral Resources

PT Linge Mineral Resources is the company that owns the gold mining license located in Linge, Aceh. In 2021, this Company was acquired by BRMS through its subsidiary BSS.

Gallo Oil (Jersey) Ltd.

Since January 2011, Gallo Oil (Jersey) Ltd, a subsidiary, has suspended its operations for Block R2 and Block 13 due to current unavailability of most of the services required for its exploration activities. The recoverability of the carrying value of such assets is dependent on the outcome of the situation in Yemen and the results of the exploratory works to be carried out in the future.

In 2020 and 2022, Gallo did not extend the permit of Block R2 and Block 13, respectively.

PT MBH Minera Resources

This Subsidiary owns coal concessions are located in South Sumatra are still under exploration stage as of reporting date. Since 2020, the Subsidiary has suspended its operations due to Covid 19 and the current economic conditions. Program imbalan pasti menyebabkan Grup terpapar risiko tingkat bunga dan risiko gaji, sebagai berikut:

Defined benefit plan exposes the Group to interest rate risk and salaries risk, as follows:

a. Risiko Tingkat Bunga

Nilai kini kewajiban pensiun imbalan pasti dihitung menggunakan tingkat diskonto yang ditetapkan dengan mengacu pada imbal hasil obligasi korporasi berkualitas tinggi. Penurunan suku bunga obligasi akan meningkatkan liabilitas program.

a. Interest Rate Risk

The present value of the defined benefit pension obligation is calculated using a discount rate determined by reference to yields on high quality corporate bonds. Lower interest rates would increase the liability bond program.

b. Risiko Gaji

Nilai kini kewajiban imbalan pasti dihitung dengan mengacu pada gaji masa depan peserta program. Dengan demikian, kenaikan gaji peserta program akan meningkatkan liabilitas program itu.

b. Salaries Risk

The present value of the defined benefit obligation is calculated by reference to the salary of the future program participants. Thus, the salary increase program participants will increase the program's liabilities.

Analisis Sensitivitas

Analisa sensitivitas kuantitatif kewajiban imbalan pasti terhadap perubahan asumsi utama tertimbang pada tanggal 31 Desember 2023 dan 2022 adalah sebagai berikut:

SKPKB 2017

Perusahaan telah mengajukan surat keberatan terhadap SKPKB 2017 yang disebutkan di atas. Pada tanggal 6 April 2023 Perusahaan mengajukan permohonan pencabutan surat Keberatan tersebut dan telah disetujui oleh kantor pajak pada tanggal 10 Mei 2023. Alasan pencabutan surat keberatan terhadap SKPKB tersebut karena Perusahaan melakukan upaya hukum lain berupa permohonan penghapusan sanksi administrasi yang diajukan pada tanggal 26 Mei 2023. Pada tanggal 23 Agustus 2023, kantor pajak menyetujui surat permohonan penghapusan sanksi administrasi yang diajukan oleh Perusahaan.

SKPKB 2017

The Company already submitted the objection letter related to SKPKB 2017 as mentioned in above. On April 6, 2023, the Company revoked the objection letter regarding SKPKB and has been approved by tax office on May 10, 2023. The reason to revoke the objection letter is because the Company is taking another legal action to get the waiver of administrative sanction which was submitted on May 26, 2023. On August 23, 2023, the tax office approved the application for the waiver of administrative sanctions submitted by the Company.

SKPN 2018

Perusahaan mengajukan keberatan SKPN PPh Pasal 29 (PPh Badan) atas koreksi fiskal positif yang menyebabkan rugi fiskal USD156.092.513 juta yang dapat dikompensasikan menjadi nihil.

SKPKN 2018

The Company submitted the objection letter of Income Tax Article 29 (Corporate Income Tax) for a fiscal correction which resulted in a tax loss of USD156,092,513 million which could be compensated for becomes nil.

SKPKB 2018

Perusahaan telah mengajukan surat keberatan terhadap SKPKB PPh Pasal 26 dan SKPN PPh Badan tersebut pada tanggal 20 Juni 2023. Sampai dengan tanggal penyelesaian laporan keuangan, Perusahaan belum menerima tanggapan dari kantor pajak.

SKPKB 2018

The Company already submitted the objection letter related to SKPKB and SKPN on June 20, 2023. As of the completion reporting date, the company is still not received response from tax office.

40. MANAJEMEN RISIKO KEUANGAN

a. Kebijakan Manajemen Risiko

Dalam menjalankan aktivitas operasi, investasi dan pendanaan, Grup menghadapi risiko keuangan yaitu risiko kredit, risiko likuiditas dan risiko pasar dan mendefinisikan risiko-risiko sebagai berikut:

- Risiko kredit adalah: risiko yang dihadapi Grup sebagai akibat dari penjualan yang dilakukan secara kredit. Risiko yang timbul adalah seluruh atau sebagian dari piutangnya tidak dibayar atau dibayar tidak tepat waktu yang dapat menimbulkan kerugian kepada Grup.
- Risiko likuiditas adalah: risiko yang dihadapi Grup sebagai akibat dari kolektibilitas piutang usaha yang tidak memadai atau tidak tepat waktu sehingga Grup mengalami kesulitan dalam memenuhi liabilitasnya.
- Risiko pasar terdiri dari dua risiko yaitu risiko mata uang dan risiko suku bunga:
 - Risiko mata uang adalah risiko yang timbul dari fluktuasi nilai instrumen keuangan yang disebabkan oleh perubahan nilai tukar mata uang asing.
 - Risiko suku bunga adalah risiko yang timbul dari perubahan suku bunga pasar. Fluktuasi arus kas di masa datang dipengaruhi oleh perubahan suku bunga pasar.

Dalam rangka mengelola risiko tersebut secara efektif, Direksi menetapkan berbagai strategi berikut ini:

- Untuk meminimalkan risiko mata uang untuk semua jenis transaksi dilakukan dengan cara memaksimalkan penggunaan "lindung nilai alamiah" sehingga terjadi saling meng-off-set secara alami antara penjualan dan biaya, antara utang dan piutang, dalam mata uang yang sama. Strategi yang sama juga dilakukan untuk mengatasi risiko tingkat suku bunga.

40. FINANCIAL RISKS MANAGEMENT

a. Risk Management Policy

In its operating, investing and financing activities, the Group is exposed to the following financial risks: credit risk, liquidity risk and market risk and defines those risks as follows:

- *Credit risk: the possibility that a debtor will not repay all or a portion of a loan or will not repay in a timely manner and therefore will cause a loss the Group.*
- *Liquidity risk: the Group defines this risk as the collectability of the trade receivables therefore the Group may encounter difficulty in meeting obligations associated with financial liabilities.*
- *Market risk consist of:*
 - *Currency risk represents the fluctuation risk in the value of financial instruments that caused the changes foreign exchange currency notes.*
 - *Interest rate risk consist of interest rate risk at fair value, which is the fluctuation risk of the financial instruments value that caused of the interest market rates and interest rate risk on cash flows, the cash flows risk in the future that will fluctuated because of interest market rate changes.*

In order to effectively manage those risks, the Directors have approved some strategies as of follows:

- *Minimize interest rate, currency and market risk for all kinds of transactions. Maximize the use of "natural hedge" favouring as much as possible the natural off-setting of sales and costs and payables and receivables denominated in the same currency. The same strategy is taken related to interest rate risk.*

- Untuk pelaksanaan strategi diatas manajemen menetapkan langkah-langkah sebagai berikut:
 - a. Seluruh kegiatan manajemen risiko keuangan dilakukan di tingkat pusat, demikian juga pemantauan profil risiko yang bersangkutan.
 - b. Seluruh kegiatan manajemen risiko keuangan dilakukan secara hati-hati dan konsisten dan mengikuti praktik pasar terbaik.
- Untuk Investasi dalam saham atau instrumen yang serupa hanya dapat dilakukan Grup dalam hal terdapat kelebihan likuiditas yang bersifat sementara, dan transaksi tersebut harus mendapat persetujuan Direksi.

Risiko Kredit

Risiko kredit Grup yang utama berasal dari risiko tidak tertagihnya seluruh atau sebahagian piutang usaha. Risiko ini diatasi dengan cara memilih pelanggan baik pihak ketiga maupun pihak berelasi yang terpercaya.

Kualitas Kredit Aset Keuangan

Grup mengelola risiko kredit yang terkait dengan simpanan di bank dan piutang dengan memonitor reputasi, peringkat kredit, dan membatasi risiko agregat dari masing-masing pihak dalam kontrak. Untuk bank, hanya pihak-pihak independen dengan predikat baik yang diterima.

Kualitas Kredit Kas dan Bank

Grup menempatkan kas pada bank yang memiliki kualitas kredit yang baik. Oleh karena itu, Grup berkeyakinan bahwa risiko kredit atas aset keuangan ini adalah minimal.

Pada tanggal pelaporan, eksposur maksimum Grup terhadap risiko kredit adalah sebesar nilai tercatat masing-masing kategori aset keuangan yang disajikan pada laporan keuangan konsolidasian sebagai berikut:

**40. FINANCIAL RISKS MANAGEMENT
(Continued)**

- To perform the strategic are mentioned in above the management has decided steps as of follows:
 - a. All financial risk management activities are carried out and monitored at central level. As well as monitoring the risk profile concerned.
 - b. All financial risk management activities are carried out on a prudent and consistent basis and following the best market practices.
- The Group may invest in shares or similar instruments only in the case of temporary excess of liquidity, and such transactions have to be authorised by the Board of Directors.

Credit Risk

The main Group credit risk come from uncollectible trade receivables are carried out by trusted third and related parties.

Credit Quality of Financial Assets

The Group manages credit risk exposed from its deposits with banks and receivables by monitoring reputation, credit ratings and limiting the aggregate risk to any individual counterparty. For banks, only independent parties with a good rating are accepted.

Credit Qualities of Cash and Bank

The Group places its cash with reputable counterparties that have good credit rating or bank standing. Consequently, the Group believes the credit risk of such financial assets is minimal.

At the reporting date, the Group's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets presented in the consolidated statements of financial position as follows:

Pada tanggal 12 Desember 2018, GM telah mendapatkan Izin Lingkungan Kegiatan Penambangan dan Pengolahan Tembaga dan Mineral pengikutnya seluas 1.794 hektar di Blok I Komplek Sungai Mak Kabupaten Bone Bolango Provinsi Gorontalo sesuai Keputusan Kepala Dinas Penanaman Modal, ESDM, dan Transmigrasi Provinsi Gorontalo.

Selanjutnya pada tanggal 24 Juli 2019, GM telah memperoleh Izin Pinjam Pakai Kawasan Hutan (IPPKH) untuk kegiatan Operasi Produksi Emas dan Sarana Penunjangnya dengan luas area 992,2 hektar pada kawasan Hutan Produksi Terbatas di Kabupaten Bone Bolango, Provinsi Gorontalo melalui Keputusan Menteri Lingkungan Hidup dan Kehutanan Republik Indonesia yang berlaku sampai dengan 26 Februari 2049.

b. Kontrak Karya - PT Pendopo Energi Batubara (PEB)

Pada tanggal 20 November 1997, PT Pendopo Energi Batubara (PEB), Entitas Anak, menandatangani Kontrak Karya dengan Pemerintah Indonesia dimana PEB ditunjuk sebagai kontraktor tunggal untuk melaksanakan aktivitas penambangan batubara selama tiga puluh (30) tahun sejak dimulainya periode operasi pada area pertambangan tertentu di Sumatera Selatan yang pada awalnya meliputi area seluas 97.330 hektar.

PT Gorontalo Minerals (GM)

GM's CoW is currently in the Production Operation Stage. GM has obtained an Approval of Enhancement into Production Operation Stage based on the Decision Letter of the Ministry of Energy and Mineral Resources No. 139.K/30/DJB/2019 dated February 27, 2019. This permit is valid up to December 31, 2052 (Note 1.e).

On December 12, 2018, GM has obtained an Environmental Permit for Mining and Processing of Mining and Mineral Processing Activities for 1,794 hectares in Block I of the Sungai Mak in Bone Bolango Regency, Gorontalo Province according to the Head of the Gorontalo Province Investment, ESDM, and Transmigration.

Furthermore, on July 24, 2019, GM has secured Borrow and Use of Area Permit (IPPKH) area of Gold Production Operations and Support Facilities with total area of 992.2 hectares in Limited Production Forest in Bone Bolango District, Gorontalo Province based on the Decision Letter Ministry of Environment and Forestry of the Republic Indonesia, valid up to February 26, 2049.

b. Contract of Work - PT Pendopo Energi Batubara (PEB)

On November 20, 1997, PT Pendopo Energi Batubara (PEB), a Subsidiary, entered into a Contract of Work (CoW) with the Government of Indonesia whereby PEB was appointed as sole contractor for coal operations for thirty (30) years from the start of operations with respect to specific mining areas in South Sumatera, initially covering 97,330 hectares.

PEB memulai aktivitas operasinya pada tanggal 5 Mei 2009. Kontrak Karya memberikan hak kepada PEB sebesar 86,5% dari jumlah batubara yang diproduksi dari proses produksi akhir, dan sisanya sebesar 13,5% merupakan milik Pemerintah Indonesia.

PEB commenced its operations on May 5, 2009. The CoW gives the right to PEB to take 86.5% of the coal produced from the final production process with the balance of 13.5% being retained by the GOI.

PEB memiliki tanggung jawab tunggal dalam hal membiayai operasi penambangan batubara di area konsesi dan diharuskan untuk memelihara kecukupan modal untuk melaksanakan kewajibannya sesuai dengan Kontrak Karya. PEB juga memiliki kewajiban untuk membayar sewa wilayah pertambangan kepada Pemerintah Indonesia.

PEB has the sole responsibility for the financing of its coal operations in the concession areas and must maintain sufficient capital to carry out its obligations under the CoW. PEB is also obligated to pay rent on the mining area to the GOI.

Selanjutnya disebutkan dalam Kontrak Karya bahwa apabila pada suatu wilayah yang dieksplorasi tidak ditemukan cadangan batubara yang secara komersial dapat ditambang, PEB diperbolehkan untuk menyerahkan kembali wilayah pertambangan tersebut kepada Pemerintah Indonesia. Sesuai dengan itu, pada tanggal 20 November 1998, PEB telah menyerahkan 24.330 hektar atau 25% dari area konsesi awal kepada Pemerintah Indonesia.

As further stipulated in the CoW, if any part of the area to be explored does not contain any commercially viable coal deposits, PEB may relinquish such area to the GOI. Accordingly, on November 20, 1998, PEB relinquished 24,330 hectares or 25% of the initial concession area, to the GOI.

Pada tahun 2004, PEB menyerahkan lagi 55.160 hektar kepada Pemerintah Indonesia. Pada tanggal 31 Desember 2023, luas wilayah pertambangan PEB meliputi 17.840 hektar.

In 2004, PEB relinquished a further 55,160 hectares to the GOI. As of December 31, 2023, the mining area consists of 17,840 hectares.

c. Izin Usaha Pertambangan - PT MBH Minera Resources

Pada tanggal 20 Juli 2011, PT MBH Minera Resources (MBH Minera) memperoleh Izin Usaha Pertambangan Operasi Produksi berdasarkan Surat Keputusan Bupati Ogan Komering Ulu Selatan No. 239/KPTS/TAMBEN/2011 untuk lokasi pertambangan di Kecamatan Muaradua dan Buay Sandang Aji, Kabupaten Ogan Komering Ulu Selatan, Provinsi Sumatera Selatan dengan luas area konsesi 9.393 hektar. Izin usaha pertambangan tersebut berlaku selama lima belas (15) tahun sampai dengan 20 Juli 2025.

c. Mining Permit - PT MBH Minera Resources

On July 20, 2011, PT MBH Minera Resources (MBH Minera) obtained Production Operation Permit based on the Decision Letter from the Regent of South Ogan Komering Ulu No. 239/KPTS/TAMBEN/2011 for mining location in Muaradua dan Buay Sandang Aji Subdistrict, South Ogan Komering Ulu District, South Sumatera Province, with a concession area of 9,393 hectares. Pada tanggal 12 Februari 1986, International Minerals Company LLC (IMC) (dahulu bernama Utah Sulawesi Inc.), entitas anak dari BRMS, menandatangani *Joint Venture Agreement* (Sulawesi JVA) dengan PT Aneka Tambang (Persero) Tbk. (Antam) dan Placer Development Indonesia Limited (Placer) dengan tujuan kerjasama eksplorasi dan eksploitasi mineral di Sulawesi.

Berdasarkan Sulawesi JVA, IMC memiliki tanggung jawab kepada Antam yang meliputi:

- a. penyediaan dana dalam bentuk utang atau modal untuk biaya eksplorasi dengan ketentuan bahwa sejumlah USD1.000.000 akan dianggap sebagai kontribusi modal dan setiap kontribusi dalam bentuk utang tidak akan dikenakan bunga sebelum berakhirnya masa studi kelayakan;
- b. penyediaan dana yang diperlukan oleh setiap perusahaan yang akan dibentuk dalam rangka pengembangan wilayah pertambangan;
- c. pembebasan Antam dari setiap kewajiban untuk berkontribusi dalam persiapan eksploitasi dan pengembangan sehubungan dengan kepemilikan sebesar 20%, sampai fasilitas penambangan mineral telah terbangun; dan
- d. menanggung setiap biaya yang dikeluarkan dalam rangka untuk mendapatkan dan mempertahankan izin eksplorasi, namun, dengan ketentuan bahwa untuk wilayah yang telah ditentukan sebagai wilayah Kontrak Karya, biaya tersebut akan ditanggung oleh perusahaan yang menandatangani Kontrak Karya yang bersangkutan.

d. Sulawesi Joint Venture Agreement

On February 12, 1986, International Minerals Company LLC (IMC) (formerly Utah Sulawesi Inc.), a subsidiary of BRMS, signed a *Joint Venture Agreement* (Sulawesi JVA) with PT Aneka Tambang (Persero) Tbk. (Antam) and Placer Development Indonesia Limited (Placer) for the purpose of cooperation in the exploration and exploitation of minerals in Sulawesi.

Pursuant to the Sulawesi JVA, IMC shall be responsible to Antam such as:

- a. advancing funds in the form of loan or capital allocated for exploration costs on the condition that an amount of USD1,000,000 will be deemed as capital contribution and every contribution in the form of loan shall not be charged with interest prior to the expiry of the feasibility study period;
- b. advancing funds needed by each and every company that will be set up for the development of the mining area;
- c. releasing and discharging Antam from each and every obligation to contribute to the preparation of exploitation and development in connection with its 20% ownership until mineral mining facilities have been constructed; and
- d. bearing all costs incurred in obtaining and maintaining the exploration license provided, however, that on any exploitation or area determined as the CoW area, such costs will be borne by the Company holding the CoW.

Berdasarkan Sulawesi JVA, Antam memiliki hak-hak sebagai berikut:

- memasuki wilayah eksplorasi;
- menunjuk wakilnya untuk menginspeksi;
- memperoleh data eksplorasi apabila perjanjian ini dihentikan; dan
- menunjuk calon untuk menduduki suatu posisi yang diperlukan dalam operasi.

Based on the Sulawesi JVA, Antam has certain rights as follows:

- to enter the exploration area;*
- to designate its representative to conduct inspection;*
- to obtain exploration data in the event of termination of the agreement; and*
- to designate its candidate to hold a position as required in operations.*

Para pihak sepakat untuk membentuk GM untuk menjadi pihak dalam Kontrak Karya. Seluruh hasil eksplorasi yang telah dilakukan, akan dialihkan kepada GM. Setelah GM terbentuk, 80% saham akan diambil oleh IMC dan 20% oleh Antam. Direksi dan Dewan Komisaris GM tersebut berjumlah lima (5) orang dan Antam, setiap saat dapat menunjuk masing-masing minimal satu (1) orang sebagai anggota Direksi dan anggota Dewan Komisaris. Pembiayaan sampai dengan tanggal dimulainya periode operasi produksi akan disediakan oleh IMC.

The parties agreed to establish GM to become a party to the CoW. The results of exploration will be transferred to GM. After GM is formed, 80% of shares will be taken by IMC and 20% of shares by Antam. Board of Directors and Board of Commissioners of GM shall consist of five (5) persons and Antam, from time to time, may appoint a minimum of one (1) person to serve on the Board of Directors and Board of Commissioners, respectively. The funding for operations up to the date of commencement of the period of production will be provided by IMC.

Apabila memungkinkan, seluruh emas dan perak yang diproduksi akan dimurnikan oleh Antam. Mineral lainnya akan dimurnikan oleh GM dan apabila GM tidak melakukan pemurnian tersebut, maka Antam dapat dipilih untuk melakukan pemurnian mineral itu.

If possible, all gold and silver produced shall be refined by Antam. Other minerals shall be refined by GM and if it does not carry out such refining process then Antam may opt to do so.

Apabila kepemilikan atas 50% hak suara pada IMC dipegang oleh *juridical entity*, maka induk IMC harus menyampaikan jaminan secara tertulis kepada Antam.

If 50% of the voting rights in IMC are held by a juridical entity, the parent company of IMC must submit a written guarantee to Antam.

e. Perjanjian Bagi Hasil Produksi (PBH) antara Gallo Oil (Jersey) Ltd. dan Kementerian Sumber Daya Minyak dan Mineral Republik Yaman

Pada tanggal 25 Februari 1999, Gallo Oil (Jersey) Ltd. (Gallo), entitas anak, menandatangani perjanjian dengan Minarak Labuan Company Ltd. dari Malaysia, di mana Gallo mengambil alih kuasa penambangan (*participating interest*) atas Perjanjian Bagi Hasil Produksi (PBH) dengan Kementerian Sumber Daya Minyak dan Mineral Republik Yaman.

Ketentuan-ketentuan utama untuk tiap-tiap blok dalam PBH adalah sebagai berikut:

1. Ruang Lingkup

Gallo (sebagai kontraktor) bersedia mengambil alih kewajiban-kewajiban yang diatur dalam PBH sebagai kontraktor untuk kegiatan eksplorasi, pengembangan, produksi, penyimpanan dan pengangkutan minyak mentah dalam wilayah PBH, dan memiliki sumber dana serta kemampuan teknis dan profesional yang diperlukan untuk melakukan usaha perminyakan sesuai dengan PBH.

AGREEMENTS (Continued)**

Furthermore, on July 1, 1992, the Sulawesi JVA was amended in order to:

- a. make IMC the sole mining party to the Sulawesi JVA;
- b. add certain CoW areas in Regency of Gorontalo and Regency of Bolaang Mongondow Regency as Sulawesi JVA areas; and
- c. make IMC wholly responsible for the areas of Kotamobagu and Kwandang-Buroko.

e. Production Sharing Agreement (PSA) between Gallo Oil (Jersey) Ltd. and Ministry of Oil and Mineral Resources of the Republic of Yemen

On February 25, 1999, Gallo Oil (Jersey) Ltd. (Gallo), a subsidiary, entered into an assignment agreement with Minarak Labuan Company Ltd. of Malaysia under which Gallo took over the participating interest in the Production Sharing Agreement (PSA) with the Ministry of Oil and Mineral Resources (MOMR) of the Republic of Yemen.

The major provisions of each PSA of the related blocks were as follows:

1. Scope

Gallo (as contractor) is willing to undertake the obligations provided under this PSA as a contractor with respect to the exploration, development, production, storage and transportation of crude oil in the PSA area, and possesses all the necessary financial resources together with the technical and professional competence to carry out the petroleum operations according to the PSA.

2. Royalti

Pemerintah Yaman berhak mendapatkan royalti dari jumlah minyak mentah yang diproduksi dan disimpan dari wilayah PBH dan tidak digunakan dalam operasi perminyakan, sebelum dikurangi biaya minyak, jumlah yang tidak dapat diperoleh kembali dari minyak mentah setara dengan 10% dari minyak mentah tersebut dimulai sejak produksi dan penyimpanan barel pertama dari wilayah PBH dan tidak digunakan dalam operasi perminyakan.

3. Jangka Waktu

Jangka waktu (periode) PBH terdiri atas periode eksplorasi pertama dan kedua dan satu periode pengembangan. Jangka waktu eksplorasi bervariasi dari 21 bulan sampai 42 yang berbeda-beda di setiap blok penambangan dari sejak efektif PBH. Sementara jangka waktu periode pengembangan adalah 20 tahun dan dapat diperpanjang sampai dengan 5 tahun sejak tanggal ditemukannya minyak pertama kali secara komersial.

4. Penyerahan Wilayah

Pada akhir masa eksplorasi pertama, kontraktor harus melepaskan 25% dari wilayah awal yang dikembangkan. Jika kontraktor memilih untuk tidak masuk ke dalam masa eksplorasi kedua, kontraktor akan menyerahkan seluruh wilayah PBH, kecuali wilayah pengembangan.

2. Royalties

The Government of Yemen shall own and be entitled to take royalty from the total crude oil produced and saved from the PSA area and not used in petroleum operations, prior to the deduction of cost of oil, a non-recoverable amount of crude oil equal to 10% of such crude oil commencing from the first barrel produced and saved from the PSA area(s) and not used in petroleum operations.

3. Term

The term of PSAs consists of first and second exploration periods and a development period. The first exploration period varies from 21 months to 42 months scattered in various blocks since the effective date of the PSAs. While the development period is 20 years and can be extended for 5 years since the date of the first commercial discovery of oil.

4. Relinquishments of Areas

At the end of the first exploration period, the contractor shall relinquish a total of 25% of the original development area. If it does not elect to enter the second exploration period, the contractor shall relinquish the whole of the PSA area, except those areas categorized as in the development stage.

- 3) Mountain Netherlands akan memegang 19% saham masing-masing di KPC, IndoCoal Kaltim, dan IndoCoal KPC.

Meskipun Perusahaan, baik secara langsung maupun tidak langsung, memiliki lebih dari 50% saham dari Perusahaan Batubara KPC, tetapi kendali untuk keputusan operasional dan keuangan kunci menurut perjanjian yang disepakati, dikendalikan bersama oleh dua pihak yaitu Perusahaan dan Bhira.

On July 2, 2014, the Shareholders' Agreement as mentioned above has been amended by the shareholders of Coal Company KPC ie, the Company, Bhira Investment Limited (Bhira-formerly Tata Power) and Mountain Netherlands Investment B.V., an affiliate of Country Forest Limited (CFL). CFL is the one of the Company lenders. The parties have agreed subject to the terms of agreements and to maintain their respective shareholdings in the Coal Company KPC in the following proportions:

- 1) The Company shall hold 51% of the shares of KPC (25% through the Company itself and 26% through PT Sitrade Coal), 51% of the shares of IndoCoal Kaltim and 51% of the shares of IndoCoal KPC, and 70% of the shares of ICRL (all through Forerunner) and 70% of the shares of IndoCoal Kalsel;*
- 2) Bhira shall continue to hold 30% of the shares in each of the Coal Company KPC, whereas*
- 3) Mountain Netherlands shall hold 19% of the shares in each of KPC, IndoCoal Kaltim, and IndoCoal KPC.*

Although the Company, directly or indirectly, holds more than 50% ownership interest in the Coal Company KPC, control over the key operational and key financial decisions regarding the Coal Companies are jointly exercised by the Company and Bhira.

Berdasarkan PPBB, jumlah setiap pengiriman yang dianggap berasal dari masing-masing pihak akan ditentukan berdasarkan suatu formula khusus seperti yang diatur dalam PPBB. PPBB memberikan hak kepada Arutmin untuk mengambil 86,5% dari hasil penjualan batubara, sedangkan bagian yang 13,5% akan menjadi hak Pemerintah Indonesia. Pemerintah Indonesia menunjuk Arutmin sebagai agen tunggal untuk menjual batubara yang menjadi Hak Pemerintah sesuai dengan yang diatur dalam PPBB, untuk itu Pemerintah Indonesia akan membayar biaya administrasi penjualan sebesar 2,5% dari harga FOB untuk setiap pengapalan batubara yang merupakan Hak Pemerintah Indonesia.

Sebagaimana yang diatur dalam PPBB, Arutmin bertanggung jawab untuk memasarkan dan menandatangani kontrak-kontrak penjualan batubara, serta mengelola dan melaksanakan kontrak-kontrak itu. Semua penjualan yang berkaitan dengan pengiriman batubara harus ditagih dan semua biaya-biaya yang berkaitan dengan pengiriman harus dibayar oleh Arutmin. Namun, Kementerian Energi dan Sumber Daya Mineral menanggung bagian atas biaya, sebagaimana yang diatur dalam PPBB, dalam rasio yang berlaku untuk setiap pengapalan tersebut.

**41. COMMITMENTS AND SIGNIFICANT
AGREEMENTS (Continued)**

Pursuant to the JCSA, the amount of each shipment deemed to be from each party shall be determined based on a specific formula set forth in the JCSA. The JCSA entitles the Arutmin to take 86.5% of coal sales proceeds, while the portion of 13.5% owned by the GOI. The GOI appointed Arutmin as its sole agent to sell its coal entitlement pursuant to the JCSA, and the GOI is required to pay a sales administration fee of 2.5% of FOB price for the portion of each shipment to which the GOI is entitled.

As provided in the JCSA, Arutmin is responsible for marketing and entering into contracts for the sale of all coal and administering and performing all contracts entered into by Arutmin for the sale of coal. All sales with respect to shipments must be collected and all costs with respect to shipments must be paid by Arutmin. However, the Ministry of Energy and Mineral Resources shall bear its share of the apportionable expenses, as defined in the JCSA, of each shipment in the ratio applicable to such shipments.

42. KONTINJENSI

Grup mempunyai liabilitas kontinjensi berupa berbagai tuntutan dari pihak ketiga yang timbul dari transaksi bisnis yang normal, termasuk pemeriksaan perpajakan, yang hasilnya masih tertunda atau masih dalam proses di pengadilan atau otoritas pajak, yang hasil akhirnya dapat berjumlah substantial, tetapi belum dapat ditentukan pada saat ini.

Selain itu, Grup memiliki tuntutan kepada pihak ketiga yang, pada saat ini, hasilnya belum dapat ditentukan dan menunggu putusan pengadilan. Berikut adalah kontingensi pada tanggal pelaporan:

a. Penambangan Tanpa Izin (PETI) di Area Penambangan GM dan CPM.

Beberapa kelompok masyarakat telah melakukan kegiatan penambangan secara tradisional tanpa izin (PETI) di wilayah Kontrak Karya GM dan CPM. Wilayah Kontrak Karya GM yang terdampak adalah di Blok I Tombulilato sedangkan wilayah Kontrak Karya CPM adalah di Blok I Poboya dan Blok IV Toli-Toli.

Kegiatan PETI mengakibatkan gangguan pada kegiatan penambangan di GM dan CPM dan menimbulkan kerusakan lingkungan karena adanya penggunaan bahan beracun (merkuri dan sianida) dalam pengolahan bijih yang dapat mengakibatkan kerugian finansial yang berupa pengeluaran-pengeluaran biaya untuk memperbaiki kerusakan yang diakibatkan oleh PETI, biaya-biaya untuk menangani masalah hukum, dan kehilangan peluang untuk memperoleh hasil di wilayah yang dikuasai oleh PETI. Untuk mendapatkan informasi yang lengkap mengenai kegiatan PETI di wilayah Kontrak Karya GM dan CPM, GM dan CPM telah melakukan *baseline study* di wilayah Kontrak Karya

42. CONTINGENCIES

The Group is contingently liable for various claims from third parties arising from the ordinary conduct of business, including tax assessments, the results of which are either pending or being processed by the courts or tax authorities, and while those outcomes may be substantial, but they are not presently determinable.

In addition, the Group has various claims to third parties, the outcomes of which are not presently determinable pending decision by the courts. The following are the contingencies as of the reporting date:

a. Illegal Mining (PETI) in GM and CPM mining area.

There were groups of community who have carried out illegal mining activities, in conventional manner, in CoW areas of GM and CPM. The areas that were adversely affected were the Blok I Tombulilato in the CoW area of GM, and the Block I Poboya and Block IV Toli-Toli in the CoW area of CPM.

The illegal mining activities have caused disturbance to the mining activities of GM and CPM and, will have given rise to environmental damages caused by the use of toxic substances (mercury and cyanide) during the processing of the extracted ores which can result in financial loss in the form of expenses to repair damage caused by PETI, costs to deal with legal issues, and loss of requests to obtain results in areas controlled by PETI. In order to obtain comprehensive information related to the impact of illegal mining activities in GM and CPM's CoW areas, GM and CPM conducted a baseline study of the CoW areas that also encompasses a study on the impacts of illegal mining activities. In

tersebut yang meliputi juga kajian terhadap dampak kegiatan PETI. Selain itu, saat ini GM dan CPM tengah melakukan kajian atas dampak sosial, kesehatan dan lingkungan sebagai akibat dari kegiatan PETI tersebut.

addition, GM and CPM are presently carrying out a study on the social, health and environmental impacts caused by such illegal mining activities.

Upaya persuasif maupun tindakan hukum telah dilakukan oleh kepolisian dan pejabat yang berwenang untuk menghentikan kegiatan PETI itu.

Persuasive measures as well as legal actions have been taken by the police and the competent authority to put a halt to the illegal mining activities.

b. Undang-undang Mineral dan Batubara

Pada tanggal 10 Juni 2020, telah diundangkan Undang-Undang No. 3 Tahun 2020 tentang Perubahan atas Undang-Undang No. 4 Tahun 2009 tentang Pertambangan Mineral dan Batubara ("UU No. 3/2020"). UU No. 3/2020 mengatur perolehan Izin Usaha Pertambangan Khusus sebagai Kelanjutan Operasi Kontrak/Perjanjian bagi pemegang PKP2B.

b. Law on Mineral and Coal Mining

On 10 June 2020, Law No. 3 of 2020 on Amendment to Law No. 4 of 2009 on Mineral and Coal Mining ("Law No. 3/2020") was promulgated. Law No. 3/2020 governs obtaining Special Mining Business License for the Continuation of Contract/Agreement Operation for the holder of CcoW.

c. Penambangan Tanpa Izin (PETI) di Area Penambangan Arutmin dan penerbitan izin pertambangan lainnya yang tumpang tindih dengan izin Arutmin

PETI dan aktivitas izin pertambangan lainnya yang tumpang tindih dengan izin Arutmin (Izin Usaha Pertambangan Tumpang Tindih) saat ini terjadi di wilayah pertambangan Arutmin. PETI dan Izin Usaha Pertambangan Tumpang Tindih menyebabkan meningkatnya biaya produksi penambangan batubara di wilayah tersebut dalam tiga hal. Pertama, penambang PETI dan penambang Izin Usaha Pertambangan Tumpang Tindih mengganggu area Arutmin tanpa memperhatikan tindakan yang diperlukan untuk mereklamasi dan merehabilitasi area tersebut dengan semestinya setelah aktivitas penambangan selesai. Kedua, penambang PETI dan penambang Izin Usaha Pertambangan Tumpang Tindih mengambil batubara yang paling mudah diakses dari permukaan tanah dengan rasio pengupasan yang paling rendah, sehingga menyisakan area yang dapat diekstrak oleh Arutmin dengan biaya yang lebih tinggi. Ketiga, PETI dan penambang Izin Usaha Pertambangan Tumpang Tindih mengharuskan Arutmin untuk mengubah rencana penambangan di area yang terdampak dan menimbulkan biaya tambahan yang terkait dengan

c. Illegal Mining (PETI) in Arutmin mining area and the issuance of other mining licences that overlap with that of Arutmin

PETI and activities of other mining licenses that overlap with Arutmin license (Overlapping Mining Licenses) are currently occurring in the Arutmin's mining area. PETI and Overlapping Mining Licenses have increased the production costs of mining coal in the area in three ways. Firstly, PETI and Overlapping Mining Licenses miners disturb areas without regard to the measures necessary to properly reclaim and rehabilitate the area after mining is completed. Secondly, PETI and Overlapping Mining Licenses miners extract the coal that is most accessible to the land surface with the lowest stripping ratio, leaving the area that can be extracted at a higher cost. Thirdly, PETI and Overlapping Mining Licenses miners require Arutmin to alter its mine plans for the area affected and incur additional incidental costs related to damage caused by illegal miners and Overlapping Mining Licenses miners, such as road maintenance and rehabilitation costs.

42. KONTINJENSI (Lanjutan)

42. CONTINGENCIES (Continued)

Kerusakan yang disebabkan oleh PETI dan penambang Izin Usaha Pertambangan Tumpang Tindih, seperti biaya perawatan jalan dan rehabilitasi.

Pada tahun 2004, Arutmin membuat perikatan dengan Pusat Penelitian dan Pengembangan Teknologi Mineral dan Batubara (PPPTMB) di Indonesia, sebuah lembaga penelitian independen dalam industri pertambangan batubara, untuk memverifikasi perhitungan biaya tambahan sebagai akibat dari aktivitas PETI dan penambang Izin Usaha Pertambangan Tumpang Tindih di daerah-daerah terdampak. PPPTMB telah menyampaikan hasil penelitian mereka kepada Arutmin.

Arutmin telah menyampaikan *copy* laporan ini kepada Pemerintah Indonesia sebagai bukti tentang adanya kenaikan biaya yang diakibatkan oleh aktivitas penambangan ilegal.

Karena Arutmin memiliki hak untuk menambang di seluruh area yang dicakup oleh Perjanjian Karya Pengusahaan Pertambangan Batubara (PKP2B) nya, Arutmin yakin bahwa biaya tambahan yang timbul di wilayah pertambangan yang ditambang secara ilegal harus ditanggung oleh Pemerintah Indonesia. Pada tanggal 30 September 2004, Arutmin meminta Pemerintah Indonesia untuk mengkompensasi biaya tambahan tersebut dan dikompensasikan dengan pembayaran yang terutang kepada Pemerintah Indonesia. Permintaan ini ditolak oleh Direktorat Jenderal Geologi dan Sumber Daya Mineral, Kementerian Energi dan Sumber Daya Mineral dalam suratnya tertanggal 23 Juli 2004.

Sejak itu, Arutmin telah melakukan sejumlah pertemuan dengan perwakilan dari Kementerian Energi dan Sumber Daya Mineral dan instansi Pemerintah lainnya untuk menyelesaikan masalah PETI ini. Pada tanggal 8 Januari 2016, Arutmin mengirimkan surat kepada Menteri Koordinator Politik, Hukum dan Keamanan yang menginformasikan masalah PETI yang terbaru.

In 2004, Arutmin commissioned Center of Research and Development of Mineral and Coal Technology (PPPTMB) in Indonesia, an independent research institute involved in the coal mining industry, to verify its calculation of the incremental cost of mining in illegally mined areas. PPPTMB has provided the result of their study to Arutmin.

Arutmin has submitted a copy of this report to the GOI as evidence of the increase in cost due to illegal mining.

Because Arutmin has the right to mine the entire area covered by its Coal Contract of Work (CCoW), it believes that the incremental costs arising from mining areas illegally mined should be borne by the GOI. On September 30, 2004, Arutmin requested the GOI to compensate Arutmin for the incremental cost from Arutmin payments due to GOI. This request was rejected by Directorate General of Geology and Mineral Resources, Ministry of Energy and Mineral Resources in its letter dated July 23, 2004.

Since then, Arutmin has held numerous meetings with representatives of the Ministry of Energy and Mineral Resources and other Government agencies to resolve the PETI issue. On January 8, 2016, Arutmin sent a letter to the coordinating minister for Politics, Legal, and Security Affairs notifying them of the latest PETI issues.

42. KONTINJENSI (Lanjutan)

42. CONTINGENCIES (Continued)

Berkenaan dengan keberadaan Izin Usaha Pertambangan Tumpang Tindih, Arutmin secara aktif selalu memberikan klarifikasi kepada pihak terkait tentang batas area pertambangan Arutmin dan melakukan berbagai tindakan hukum yang diperlukan untuk melindungi wilayah penambangannya. Sampai dengan tanggal penyelesaian laporan keuangan, upaya hukum terhadap beberapa Izin Usaha Pertambangan Tumpang Tindih masih berlangsung.

Regarding the existence of Overlapping Mining Licenses, Arutmin has always been active in providing clarification to the relevant parties concerning the boundaries of Arutmin's mining area and taking necessary legal action to protect its mining area. As of the completion date of the financial statements, legal actions against several Overlapping Mining Licenses are still on going.

45. KELANGSUNGAN USAHA

45. GOING CONCERN

Per tanggal 31 Desember 2023, total liabilitas jangka pendek konsolidasian Grup melebihi aset lancar konsolidasiannya. Selain itu, Grup juga mengalami defisit sebesar USD2.351.238.832 Kondisi ini mengindikasikan adanya ketidakpastian yang signifikan dalam kemampuan Grup untuk mempertahankan kelangsungan usahanya.

As of December 31, 2023, the consolidated total current liabilities exceeded its consolidated total current assets. In addition, the Group is in a deficit position amounting to USD2,351,238,832. These conditions, may cast significant doubt about the Group's ability to continue as a going concern.

Namun, Grup terus berusaha untuk meningkatkan keunggulan operasionalnya melalui peningkatan volume produksi, penekanan biaya-biaya dan peningkatan efisiensi.

However, Group focuses to raise its operational excellence through increasing production volumes, lowering costs and enhancing efficiencies.

Rencana strategis lainnya yang sedang dilakukan Grup adalah mempercepat pengembangan BRMS, Arutmin dan anak-anak usaha lainnya dengan memanfaatkan harga komoditas yang semakin membaik.

Other strategic plan that the Group implements is to accelerate the development of BRMS, Arutmin and other subsidiaries as the commodities prices improve.
