## Diversifikasi dan Pencapaian 2023

## Chandra Asri Group Diversification and Achievements 2023

### Diversifikasi | Diversification

Mengawali tahun 2023, Chandra Asri Group menandatangani perjanjian *Shareholders Agreement* (SHA) dengan PT Krakatau Sarana Infrastruktur (KSI), anak usaha PT Krakatau Steel Tbk (Persero). Perjanjian tersebut merupakan bagian penting dalam proses akuisisi 2 (dua) entitas anak usaha KSI, yakni PT Krakatau Daya Listrik, kini berubah nama menjadi PT Krakatau Chandra Energi (KCE) dan PT Krakatau Tirta Industri (KTI).

Chandra Asri Group entered into a Shareholders Agreement (SHA) with PT Krakatau Sarana Infrastruktur (KSI), a subsidiary of PT Krakatau Steel Tbk (Persero), effective in 2023. This agreement is an important part of the acquisition of 2 (two) KSI subsidiary entities: PT Krakatau Daya Listrik, which is now known as PT Krakatau Chandra Energi (KCE), and PT Krakatau Tirta Industri.

Aksi korporasi terus berlanjut. Pertengahan tahun 2023, Perseroan melalui KCE, meningkatkan kepemilikan sahamnya di PT Krakatau Posco Energy (KPE) yang adalah *joint venture* dengan POSCO Energy, produsen energi terkemuka dunia menjadi 45% melalui penambahan modal investasi sebesar US\$200 juta. Dengan demikian, melalui KCE, Chandra Asri Group memiliki PT Krakatau Sarana Energi (KSE) dan KPE.

Setelah mengonsolidasikan bisnis infrastruktur energi kelistrikan dan air, Chandra Asri Group beranjak membenahi sektor kepelabuhanan. Sektor bisnis ini akan fokus dikembangkan di tahun 2024.

Selaras dengan perluasan lini bisnis serta menjadi bagian dalam proses transformasi, Perseroan melakukan perubahan nama entitas, dari PT Chandra Asri Petrochemical Tbk menjadi PT Chandra Asri Pacific Tbk yang selanjutnya disebut dengan "Chandra Asri Group" atau "Perseroan". Perubahan nama ini mempertegas seluruh langkah bisnis Perseroan untuk memberikan dampak positif yang signifikan bagi para pemangku kepentingan.

Seiring dengan perubahan arah bisnis, Chandra Asri Group mengganti visi misinya sebagai berikut:

Visi: Perusahaan Solusi Kimia dan Infrastruktur Terkemuka di Indonesia.

Misi: Di Chandra Asri, kami berdedikasi untuk meningkatkan kehidupan, masyarakat dan lingkungan. Misi kami dibangun di atas pilar solusi inovatif dan kemitraan yang kuat dengan komitmen kokoh terhadap keberlanjutan, keselamatan dan praktik terbaik.

Corporate actions continue. In mid-2023, the Company through KCE increased its share ownership in PT Krakatau Posco Energy (KPE), a joint venture with POSCO Energy, the world's leading energy producer, to 45% through an additional \$200 million in investment capital. Thus, through KCE, PT Krakatau Sarana Energi (KSE) and KPE are owned by the Chandra Asri Group.

After consolidating its electricity and water energy infrastructure business, Chandra Asri Group focused on improving the port sector. This business sector will be developed further in 2024.

As part of the business line expansion and transformation process, the Company changed its entity name from PT Chandra Asri Petrochemical Tbk to PT Chandra Asri Pacific Tbk, hereinafter referred to as the "Chandra Asri Group" or "the Company". This name change emphasizes all of the Company's business phases, resulting in a significant positive impact for stakeholders.

In response to changes in business orientation, Chandra Asri Group updated its vision and mission as follows:

Vision: Indonesia's leading chemical and infrastructure solutions company.

Mission: At Chandra Asri, we are dedicated to improving people's lives, communities, and the environment. Our mission is based on innovative solutions and strong partnerships, with a commitment to sustainability, safety, and best practices.

## Diversifikasi: Lini Bisnis Makin Beragam

### Diversification: Business Lines are Becoming More Diverse

Pengembangan bisnis melalui diversifikasi dilakukan oleh Chandra Asri Group setelah melihat cerah nya peluang bisnis di sektor solusi infrastruktur, terutama di bidang listrik, air, dan kepelabuhanan. Sektor-sektor tersebut akan mendukung bisnis utama Perseroan di bidang kimia, termasuk yang sudah berjalan selama ini: industri petrokimia terintegrasi.

Dari sisi keuangan, diversifikasi akan mendukung pendapatan Chandra Asri Group sebelum memperhitungkan bunga, pajak, depresiasi, dan amortisasi (EBITDA) sehingga lebih stabil. Mengingat di sektor energi listrik kepemilikan saham Perseroan adalah mayoritas, maka kinerja keuangannya yang positif akan dikonsolidasikan.

Kondisi tersebut menjadi penyeimbang bagi dinamika bisnis Perseroan di bidang petrokimia yang sangat elastis. Sektor ini sangat rentan terhadap perubahan eksternal yang terjadi, baik karena dinamika harga minyak mentah yang menjadi bahan baku, maupun kondisi pasar yang selama ini dikuasai oleh Tiongkok sebagai produsen utama.

Chandra Asri Group pursued business development through diversification after seeing prospective possibilities in the infrastructure solutions sector, especially in the fields of electricity, water, and ports. These sectors will support the Company's main business in the field of chemical, including the integrated petrochemical industry, which has been operational until now.

From a financial perspective, diversification will support Chandra Asri Group's earnings before interest, taxes, depreciation, and amortization (EBITDA), making it more stable. Given that the Company owns the majority of the shares in the electrical energy sector, its strong financial performance will be consolidated.

This condition provides balance to the Company's highly elastic business dynamics in the petrochemical sector. This sector is very vulnerable to external changes, both due to fluctuations in the price of crude oil, which is the raw material, and the market conditions, which have been dominated by China as the main producer.

### Lini Bisnis Kimia Chemical Business Line

Walaupun lini bisnis Chandra Asri Group telah terdiversifikasi semakin beragam, sektor kimia tetap menjadi bisnis inti (*core business*). Selain bisnis petrokimia, Chandra Asri Group melalui PT Chandra Asri Perkasa (CAP2) dengan anak perusahaan PT Chandra Asri Alkali (CAA) sedang menyiapkan Pabrik Chlor-Alkali dan Ethylene Dichloride (CA-EDC) berskala dunia, sebagai bagian dari rekonfigurasi CAP2. Pabrik tersebut akan memproduksi kaustik soda lebih dari 400 ribu metrik ton per tahun dan Ethylene Dichloride sebanyak 500 ribu metrik ton per tahun.

Sebagai bagian dari akselerasi pembangunan pabrik, Perseroan telah menandatangani perjanjian *basic engineering and licensing* dengan Asahi Kasei Corporation (AKC) dari Jepang. AKC merupakan pemegang lisensi terkemuka kelas dunia dengan kekayaan intelektual canggih untuk pembangunan Pabrik Chlor-Alkali berskala dunia.

Produk EDC yang dihasilkan dapat membantu kekurangan bahan baku di Asia Tenggara akibat meningkatnya permintaan pada rantai produk vinyl. Ethylene Dichloride umumnya digunakan sebagai bahan kimia perantara pembuatan PVC (Polyvinyl Chloride), yaitu plastik yang umum digunakan pada pipa di sektor konstruksi. Dengan pembangunan pabrik EDC ini, Perseroan turut berkontribusi pada pendapatan negara dan pertumbuhan ekonomi melalui ekspor dengan secara berkelanjutan menangkap peluang bisnis yang ada.

Dari sisi internal Chandra Asri Group, kehadiran pabrik CA-EDC akan ikut mendorong kinerja dalam ekosistem Perseroan, baik di lini bisnis solusi infrastruktur maupun petrokimia. Pemanfaatan listrik dan air berpotensi meningkat. Bahkan, proyek pabrik tersebut selaras dengan rencana Perseroan yang sedang mengembangkan kompleks petrokimia skala dunia kedua, yakni CAP2.

Even though Chandra Asri Group's business lines have expanded to become more diverse, the chemical sector remains as its core business. Apart from the petrochemical business, the Chandra Asri Group, through PT Chandra Asri Perkasa (CAP2) and its subsidiary company PT Chandra Asri Alkali (CAA), is constructing a world-scale Chlor-Alkali and Ethylene Dichloride (CA-EDC) as part of CAP2 reconfiguration. The plant will generate over 400 thousand metric tons of caustic soda per year and 500 thousand metric tons of Ethylene Dichloride per year.

As part of its efforts to accelerate plant construction, the Company has signed a basic engineering and licensing agreement with Japan's Asahi Kasei Corporation. AKC is a leading global licensee with cutting-edge intellectual property for the construction of world-scale Chlor-Alkali plant.

The EDC products produced can help solve the raw material shortage in Southeast Asia as demand for vinyl products increases. Ethylene Dichloride is typically used as an intermediate chemical in the production of PVC (Polyvinyl Chloride), a plastic commonly used in construction pipes. By building this EDC plant, the Company contributes to state income and economic growth through exports while also sustainably taking advantage of existing business opportunities.

Internally, the presence of the CA-EDC plant will help boost performance in the Company's ecosystem, including in infrastructure solutions and petrochemical business lines. In fact, the plant project is consistent with the Company's plans to build the second world-scale petrochemical complex, CAP2.

## Lini Bisnis Infrastruktur Infrastructure Business Line

Lini bisnis infrastruktur dikonsolidasikan di bawah PT Chandra Daya Investasi (CDI). Pada tahun 2023, Perseroan bermitra dengan Electric Generating Public Company Limited atau EGCO Group (EGCO), produsen energi independen dari Thailand. Melalui suntikan investasi senilai US\$194 juta, EGCO memiliki 30% saham di CDI. Dengan demikian, kepemilikan saham Chandra Asri Group dipertahankan sebesar 70%.

Sebagai entitas induk, CDI memiliki 4 (empat) entitas anak: PT Krakatau Chandra Energi (KCE) dengan kepemilikan saham 70%; PT Krakatau Tirta Industri (KTI) dengan saham 49%; PT Redeco Petrolin Utama (RPU) dengan saham 50,75%; dan PT Chandra Samudera Port dengan saham 99,99%.

Lini bisnis infrastruktur ini akan memperkuat bisnis utama Perseroan, yaitu sektor kimia. Proyek pembangunan kompleks petrokimia berskala global kedua yang dilakukan oleh CAP2 akan mendapatkan dukungan penuh dari lini bisnis infrastruktur.

### PENGEMBANGAN LISTRIK

Kegiatan usaha di bidang listrik dikelola oleh PT Krakatau Chandra Energi (KCE) (sebelumnya dikenal dengan nama

The infrastructure business line was consolidated under PT Chandra Daya Investasi (CDI). In 2023, the Company collaborated with Electric Generating Public Company Limited, also known as the EGCO Group (EGCO), a Thai independent energy producer. Through an investment injection of US\$194 million, EGCO owns 30% of shares in CDI. Hence, the Chandra Asri Group maintains a 70% share ownership.

As a parent entity, CDI has four subsidiaries: PT Krakatau Chandra Energi (KCE), with 70% ownership; PT Krakatau Tirta Industri (KTI), with 49% ownership; PT Redeco Petrolin Utama (RPU), with 50.75% ownership; and PT Chandra Samudera Port, with 99.99% ownership.

This infrastructure business line will strengthen the Company's core business, the chemical sector and support the development of second world-scale petrochemical complex project, CAP2.

### THE DEVELOPMENT OF ELECTRICITY

PT Krakatau Chandra Energi (KCE) (formerly known as PT Krakatau Daya Listrik) manages electricity-related business

PT Krakatau Daya Listrik) yang membawahi 2 (dua) entitas: PT Krakatau Posco Energy (KPE) dan PT Krakatau Sarana Energi.

Perusahaan-perusahaan yang mengembangkan listrik di bawah Chandra Asri Group, selama ini telah memiliki pasar tetap (*captive*) untuk memasok energi listrik hasil produksinya. Dengan demikian, kinerjanya di bidang operasional dapat mendukung kinerja keuangan Perseroan secara konsolidasi.

Ke depan, Chandra Asri Group akan mengembangkan pembangkit listrik dengan bahan baku energi baru terbarukan. Perseroan melihat adanya peluang untuk masuk ke sektor Pembangkit Listrik Tenaga Air (PLTA), sebagai bagian dari pengembangan energi masa depan. Energi listrik yang dihasilkan tidak hanya dijual ke konsumen di luar grup, tetapi juga untuk menunjang fasilitas produksi kimia Perseroan.

Pada tahun 2023, Chandra Asri Group telah memasang panel surya di berbagai proyek dengan kapasitas energi listrik terbarukan sebesar 958 kWp. Produk listrik yang disalurkan ke pelanggan dan untuk pemakaian Perseroan sendiri itu diperkirakan menghemat pemanfaatan listrik sebesar 40% per tahun. Bahkan, ikut melestarikan lingkungan karena dapat mengurangi emisi karbon hingga 561 ton CO<sub>2</sub> per tahun.

Selain itu, Perseroan juga telah mendukung Proyek Strategis Nasional PLTS Terapung Cirata dengan menyediakan material bahan bagi pelampung (*floaters*) sistem panel surya. Dengan memanfaatkan resin HD Blow UB5206H milik Chandra Asri Group, pelampung pada proyek PLTS Terapung Cirata dirancang khusus untuk menahan beban panel surya, komponen listrik, dan peralatan terkait lainnya guna memastikan operasional yang aman dan andal.

### PEMANFAATAN AIR

Di sektor infrastruktur air, bisnis Chandra Asri Group dikelola oleh perusahaan asosiasi yaitu PT Krakatau Tirta Industri (KTI), yang 49% sahamnya dimiliki oleh CDI. Ke depan, bisnis energi listrik Perseroan akan bekerja sama dengan KTI untuk membangun pembangkit listrik tenaga surya di Bendungan Cipasauran, Kabupaten Serang, Banten.

Air yang dikelola oleh KTI ini juga akan mendukung bisnis Chandra Asri Group, mengingat setiap perluasan usaha, seperti yang dilakukan pada bisnis kimia Perseroan, membutuhkan air. Saat ini, Perseroan sedang mengembangkan kompleks petrokimia kedua berskala global dan Pabrik Chlor-Alkali dan Ethylene Dichloride (CA-EDC). Dengan demikian, produksi KTI akan bermanfaat besar bagi Perseroan karena masuk dalam ekosistem bisnis kimia Chandra Asri Group.

activities and oversees two entities: PT Krakatau Posco Energy (KPE) and PT Krakatau Sarana Energi.

Companies that develop electricity under the Chandra Asri Group have so far had a captive market to supply the electrical energy they produce. Hence, its operational performance can contribute to the Company's overall financial performance.

In the future, Chandra Asri Group will develop power plants using new and renewable energy raw materials. The Company sees an opportunity to enter the Hydroelectric Power Plant (PLTA) sector, as part of future energy development. The electrical energy produced is not only sold to consumers outside the group but also to support the Company's chemical production facilities.

Pada tahun 2023, Chandra Asri Group telah memasang panel surya di berbagai proyek dengan kapasitas energi listrik terbarukan sebesar 958 kWp. Electrical products that are distributed to customers and for the Company's own use are estimated to reduce the use of electricity by 40% per year. It even helps preserve the environment because it can reduce carbon emissions by up to 561 tons of CO<sub>2</sub> per year.

Apart from that, the Company has supported the Cirata Floating Solar Power Plant (PLTS) National Strategic Project by supplying materials for solar panel system floaters. The floats on the Cirata Floating PLTS project utilize Chandra Asri Group's HD Blow UB5206H resin and are specifically designed to withstand the weight of solar panels, electrical components, and other related equipment, ensuring safe and reliable operation.

### WATER UTILIZATION

In the water infrastructure sector, the Chandra Asri Group business is managed by associated company PT Krakatau Tirta Industri, whose 49% shares are owned by CDI. In the future, the Company's electrical energy business will collaborate with KTI to build a solar power plant in Cipasauran Dam, Serang Regency, Banten.

The water managed by KTI will also support the Chandra Asri Group's business, as every business expansion, including that carried out in the Company's chemical business, requires water. The Company is currently developing the second world-scale petrochemical complex as well as a Chlor-Alkali and Ethylene Dichloride (CA-EDC) plant. Thus, KTI production will be extremely beneficial to the Company because it is part of the Chandra Asri Group chemical business ecosystem.

## Report from the Board of Commissioners

### DJOKO SUYANTO

Presiden Komisaris  
President Commissioner

Pemegang saham dan pemangku kepentingan yang terhormat,

Sebagai bagian dari pelaksanaan tugas dan fungsi Dewan Komisaris, kami menyampaikan hasil pengawasan dan pemberian nasihat kepada Direksi terkait dengan pengelolaan PT Chandra Asri Pacific Tbk ("Chandra Asri Group", "Perseroan") untuk tahun buku 2023. Pada tahun tersebut, Dewan Komisaris menyadari bahwa situasi yang dihadapi oleh manajemen atau Direksi tidak mudah.

Dear shareholders and stakeholders,

As part of the Board of Commissioners' duties and functions, herewith we present the results of supervision and advisory task to the Board of Directors on the management of PT Chandra Asri Pacific Tbk ('Chandra Asri Group', 'Company') for the fiscal year 2023. During that time, the Board of Commissioners became aware that the situation that was encountered by the management or the Board of Directors was not easy.

Mengutip laporan Dana Moneter Internasional (International Monetary Fund/IMF) bertajuk "World Economic Outlook" edisi Oktober 2023, kondisi perekonomian global mengalami perlambatan mulai kuartal kedua. Pemulihan akibat pandemi COVID-19 cenderung belum stabil, ditambah lagi dengan gejolak geopolitik yang belum ada tanda-tanda mereda sehingga berpengaruh pada dinamika perekonomian global.

Kelesuan ekonomi di tingkat global tentu berdampak pada kinerja Chandra Asri Group. Pasokan produk petrokimia melimpah di pasar, sehingga ikut menekan harga. Dinamika ini berpengaruh negatif bagi Perseroan, khususnya pendapatan akibat turunnya harga produk, walaupun tetap terserap oleh pasar.

Di tengah situasi yang penuh tantangan tersebut, Perseroan tetap berhasil merealisasikan sejumlah aksi korporasi yang sangat penting bagi pengembangan Chandra Asri Group ke depan. Karena itu, Dewan Komisaris memberikan apresiasi yang tinggi kepada jajaran Direksi dan organisasi di bawahnya yang cepat beradaptasi dan menavigasi bisnis Perseroan untuk tetap menghasilkan kinerja yang kuat.

Perubahan penting tersebut, terutama terjadi pada lini bisnis Perseroan, dapat menjadi titik balik positif di masa mendatang. Kini, Chandra Asri Group tak hanya sebagai perusahaan di bidang petrokimia terintegrasi seperti yang telah dijalani selama 31 tahun, tapi berkembang menjadi perusahaan solusi kimia dan infrastruktur.

Dewan Komisaris memberikan dukungan penuh terhadap kejelian Direksi dalam melihat peluang bisnis tersebut. Dengan melakukan ekspansi tidak hanya di sektor petrokimia dan meluaskan ke kimia, maka bisnis inti Perseroan tidak lagi bergantung pada bahan baku Naphtha yang ketersediaan dan harganya sangat bergantung pada kondisi global.

Sedangkan, dari hadirnya lini bisnis infrastruktur, setidaknya ada 2 (dua) manfaat positif yang bisa langsung diperoleh. Manfaat pertama, bisnis infrastruktur Perseroan mencakup 3 (tiga) sektor: energi listrik, air, dan pelabuhan yang berpotensi memperkuat bisnis solusi kimia yang menjadi usaha utama (*core business*) Chandra Asri Group.

Manfaat kedua, dari sisi keuangan, lantaran bisnis infrastruktur Perseroan telah memiliki pasar yang pasti (*captive market*), maka kinerja keuangannya akan positif. Hal ini akan mendukung EBITDA Chandra Asri Group.

According to the International Monetary Fund's (IMF) 'World Economic Outlook' report October 2023 edition, global economic conditions started to slow in the second quarter. The recovery from the COVID-19 pandemic was unstable, and it was followed by geopolitical turmoil that showed no signs of slowing down, affecting global economic dynamics.

The economic downturn at the global level certainly had an impact on the performance of the Chandra Asri Group. The market was oversupplied with petrochemical products, which was also lowering prices. This dynamic had a negative impact on the Company, especially revenue, due to the drop in product prices, although it was still absorbed by the market.

In the midst of this challenging situation, the Company continued to succeed in carrying out a number of corporate actions that were critical to the Chandra Asri Group's future development. As a result, the Board of Commissioners expresses its appreciation to the Board of Directors and the organizations that report to them for rapidly adapting and navigating the Company's business to maintain strong performance.

These significant changes, especially in the Company's business lines, could represent a positive turning point in the future. Chandra Asri Group is no longer just an integrated petrochemical company, as it was for 31 years, but has also expanded into a chemical and infrastructure solutions provider.

The Board of Commissioners fully supports the Board of Directors' foresight in identifying these business opportunities. By expanding not only in the petrochemical sector but also into chemicals, the Company's core business will no longer depend on Naphtha raw materials, which availability and price are highly dependent on global market conditions.

Meanwhile, the presence of the infrastructure business line provides at least 2 (two) immediate positive benefits. The first advantage is that the Company's infrastructure business covers 3 (three) sectors: electrical energy, water, and ports, which have the potential to strengthen the chemical solutions business, which is the core business of Chandra Asri Group.

The second advantage, from a financial perspective, is that the Company's infrastructure business has a defined market (*captive market*), which will result in positive financial performance. This will improve Chandra Asri Group's EBITDA.

## PENILAIAN KINERJA DIREKSI

Fungsi yang dijalankan oleh Dewan Komisaris dalam memberikan penilaian terhadap Direksi atas pengelolaan Perseroan, merupakan mandat dari peraturan perundang-undangan seperti tertuang dalam Undang-Undang Nomor 40 Tahun 2007 tentang Perseroan Terbatas dan Peraturan Otoritas Jasa Keuangan (POJK) No. 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik.

Dua regulasi tersebut menegaskan fungsi Dewan Komisaris untuk melakukan pengawasan terhadap kebijakan pengurusan maupun jalannya pengurusan Perseroan. Pada kesempatan yang sama, Dewan Komisaris juga memberikan nasihat kepada Direksi terhadap jalannya Perseroan.

Sebagai implementasi dari pelaksanaan fungsi tersebut, Dewan Komisaris dan Direksi membuat rencana kerja tahunan berupa *Scorecard*. Rencana tersebut menjadi acuan bagi pengelolaan usaha Perseroan pada tahun buku.

Dewan Komisaris berpandangan, rencana strategis yang tertuang dalam *Scorecard* tersebut, sejak dari proses serta implementasinya, menjadi indikator yang kuat untuk menilai kinerja Direksi. Indikator atau dasar penilaian juga mencakup pelaksanaan dari nasihat yang diberikan Dewan Komisaris kepada Direksi dalam perjalanan usaha tahun buku, serta inisiatif strategis Direksi sebagai respons terhadap situasi yang berkembang.

Pada tahun buku 2023, Dewan Komisaris berpandangan bahwa perkembangan transformasi bisnis Perseroan telah berjalan begitu cepat dan sangat baik. Direksi mampu melaksanakannya sejalan dengan rencana yang telah ditetapkan, tanpa mengabaikan penerapan prinsip tata kelola perusahaan yang baik.

Beberapa indikator yang terlihat, antara lain konsolidasi di bidang usaha, yang diawali oleh diakuisisinya secara resmi anak usaha PT Krakatau Sarana Infrastruktur (KSI) yaitu PT Krakatau Chandra Energi (KCE) yang dulunya bernama PT Krakatau Daya Listrik sebesar 70% dan PT Krakatau Tirta Industri (KTI) sebesar 49%. Kedua entitas tersebut berada secara struktur di bawah anak usaha Perseroan yaitu PT Chandra Daya Investasi (CDI), yang dibentuk untuk menjadi induk usaha lini bisnis solusi infrastruktur.

Perusahaan induk tersebut membawahi KCE di bidang energi listrik, KTI di sektor air, serta PT Redeco Petrolin Utama yang mengurus bisnis tanki dan dermaga.

## PERFORMANCE ASSESSMENT OF THE BOARD OF DIRECTORS

The Board of Commissioners' function of providing assessments to the Board of Directors regarding the Company's management is mandated by statutory regulations as stated in Law Number 40 of 2007 regarding Limited Liability Companies, and Financial Services Authority Regulation (POJK) No. 33/POJK.04/2014 regarding Directors and Boards of Commissioners of Issuers or Public Companies.

These two regulations emphasize the role of the Board of Commissioners in supervising management policies and the management of the Company. On the same occasion, the Board of Commissioners advises the Board of Directors on the Company's operations.

As an implementation of these functions, the Board of Commissioners and Directors sets up an annual work plan in the form of a Scorecard. This plan serves as a reference for the Company's business management throughout the fiscal year.

The Board of Commissioners believes that the Scorecard's strategic plan, in terms of process and implementation, is a strong indicator for assessing the Board of Directors' performance. Indicators or bases for assessment include the implementation of the Board of Commissioners' advice to the Board of Directors during the fiscal year, as well as the Board of Directors' strategic initiatives in response to emerging situations.

In the fiscal year 2023, the Board of Commissioners believes that the Company's business transformation has progressed rapidly and successfully. The Board of Directors was capable of carrying out the plans that had been established while adhering to the principles of good corporate governance.

A number of visible indicators include business sector consolidation, which began with the official acquisition of PT Krakatau Sarana Infrastruktur (KSI) subsidiaries, i.e., PT Krakatau Chandra Energi (KCE), which was previously known as PT Krakatau Daya Listrik by 70%, and PT Krakatau Tirta Industri (KTI) by 49%. Both entities are structured under PT Chandra Daya Investasi (CDI), which was established to serve as the holding company for the infrastructure solutions business line.

The holding company oversees KCE in the electrical energy sector, KTI in the water sector, and PT Redeco Petrolin Utama in the tanks and jetty businesses.

Tak kalah pentingnya, manajemen berhasil menggandeng mitra strategis, yaitu Electric Generating Public Company Limited atau EGCO Group (EGCO), produsen energi independen di Thailand. Dalam kerja sama itu, EGCO telah mengucurkan dana investasi sebesar US\$194 juta ke CDI untuk kepemilikan saham 30%. Dengan demikian, Chandra Asri Group masih menguasai 70%.

Dalam pandangan Dewan Komisaris, kepemilikan saham mayoritas tersebut membuat Chandra Asri Group masih tetap menjadi pengendali perusahaan tersebut. Namun pada saat bersamaan, aksi korporasi tersebut semakin memperkuat reputasi Perseroan sebagai "Mitra Pertumbuhan" bagi pengembangan sektor-sektor strategis di Tanah Air.

Perseroan tetap berkomitmen untuk membangun kompleks petrokimia berskala global kedua (CAP2) dalam upayanya berkontribusi pada pengurangan beban impor. Beradaptasi dengan kondisi global serta tren industri petrokimia yang fluktuatif, Chandra Asri Group kemudian melakukan rekonfigurasi produk yang dihasilkan dari CAP2.

Rekonfigurasi yang dilakukan seiring dengan fokus untuk melakukan perluasan CAP2 di bidang pertumbuhan organik; induk usaha (*holding*) melalui PT Chandra Asri Perkasa (CAP2) juga tengah membangun Pabrik Chlor-Alkali dan Ethylene Dichloride (CA-EDC). Pabrik ini beroperasi di bawah PT Chandra Asri Alkali (CAA), anak usaha dari CAP2 dan nantinya akan menghasilkan kaustik soda dan EDC untuk mendukung pengembangan industri hulu aluminium dan nikel guna mewujudkan percepatan ekosistem *Electric Vehicle* (EV) dalam negeri serta mendukung sektor konstruksi di Tanah Air.

Dari sisi keuangan, Chandra Asri Group juga berhasil membukukan Laba Sebelum Bunga, Pajak, Depresiasi, dan Amortisasi (EBITDA) yang sangat baik, yaitu US\$130,0 juta. Dibandingkan tahun sebelumnya yang US\$5,3 juta, terjadi kenaikan 2.352,8%.

Sementara pada aspek keberlanjutan, Chandra Asri Group berhasil mendapatkan PROPER EMAS untuk pabrik petrokimia di Ciwandan yang diberikan langsung oleh Wakil Presiden RI K.H. Ma'ruf Amin dan PROPER HIJAU bagi pabrik petrokimia di Pulo Ampel. Seluruh penghargaan termasuk pencapaian penting bagi Chandra Asri Group, karena merupakan apresiasi dari pihak eksternal, dalam hal ini pemerintah melalui Kementerian Lingkungan Hidup dan Kehutanan.

Significantly, management was successful in collaborating with strategic partners, including Electric Generating Public Company Limited, also known as EGCO Group (EGCO), a Thai independent energy producer. EGCO provided CDI with investment funds totaling \$194 million for a 30% share ownership in the Company. Thus, the Chandra Asri Group remains in control of 70% of the shares.

In the view of the Board of Commissioners, the Chandra Asri Group remains in control of the company due to its majority share ownership. However, at the same time, this corporate action strengthens the Company's reputation as a 'Growth Partner' for the development of strategic sectors in the country.

The Company remains committed to developing a second world-scale petrochemical complex (CAP2) to help reduce the import burden. Adapting to global conditions and fluctuating petrochemical industry trends, Chandra Asri Group reconfigured the products produced from CAP2.

The reconfiguration is carried out in line with the focus on expanding CAP2 in the field of organic growth; the holding Company, through PT Chandra Asri Perkasa (CAP2), is also building a Chlor-Alkali and Ethylene Dichloride (CA-EDC) plant. This plant is operated by PT Chandra Asri Alkali (CAA), a CAP2 subsidiary, and will eventually produce caustic soda and EDC to support the development of upstream aluminum and nickel industries, thereby accelerating the domestic Electric Vehicle (EV) ecosystem and supporting the Indonesian construction sector.

From a financial perspective, Chandra Asri Group achieved excellent Earnings Before Interest, Tax, Depreciation, and Amortization (EBITDA), totaling US\$130.0 million. There was a 2,352.8% increase compared to the previous year, which was US\$5.3 million.

Meanwhile, in terms of sustainability, Chandra Asri Group was successful in obtaining GOLD PROPER for the petrochemical plant in Ciwandan, which was granted directly by the Vice President of the Republic of Indonesia, K.H. Ma'ruf Amin, and GREEN PROPER for the petrochemical plant in Pulo Ampel. All awards are significant achievements for the Chandra Asri Group because they represent external recognition, in this case from the government through the Ministry of Environment and Forestry.

Chandra Asri Group juga berhasil menyelesaikan targetnya untuk mengimplementasikan aspal plastik di berbagai daerah berkolaborasi dengan berbagai pihak. Pada akhir tahun 2023, total gelaran aspal plastik telah mencapai 120,83 km menggunakan 144,8 juta plastik kresek. Dengan inisiatif ini, Perseroan berhasil mengelola 1.086 ton sampah plastik agar tidak terbuang ke Tempat Pembuangan Akhir (TPA).

Atas berbagai pencapaian kinerja, baik di bidang operasional, keuangan, serta aspek keberlanjutan yang dicapai oleh manajemen, Dewan Komisaris menilai bahwa kinerja Direksi pada tahun buku 2023 sangat baik. Dewan Komisaris memberikan apresiasi yang tinggi, karena kinerja tahun ini akan sangat penting dalam menentukan arah perjalanan usaha Chandra Asri Group ke depan.

## PENGAWASAN TERHADAP PERUMUSAN DAN IMPLEMENTASI STRATEGI

Pelaksanaan fungsi pengawasan Dewan Komisaris merupakan mandat dari peraturan perundang-undangan. Di antaranya, Peraturan Otoritas Jasa Keuangan No. 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik.

Dalam ketentuan tersebut, ditegaskan bahwa Dewan Komisaris bertanggung jawab atas pengawasan terhadap kebijakan pengurusan Perseroan oleh Direksi. Karena itu, Dewan Komisaris memiliki kewajiban rapat bersama Direksi, setidaknya 1 (satu) kali dalam 4 (empat) bulan, walaupun pelaksanaannya lebih dari ketentuan.

Melalui rapat gabungan itu maupun pertemuan formal dan informal lainnya, Dewan Komisaris memiliki kesempatan untuk menyampaikan hasil pengawasan kepada Direksi. Dalam menjalankan kegiatan pengawasan tersebut, Dewan Komisaris dibantu oleh komite yang berada di bawahnya.

Dari hasil pengawasan terhadap kegiatan usaha sepanjang tahun 2023, Dewan Komisaris berpandangan bahwa terealisasinya rencana strategis sepanjang tahun buku, menunjukkan bahwa Direksi telah merumuskan strategi dengan baik. Direksi telah memperhitungkan berbagai pertimbangan internal maupun eksternal dalam merumuskan strategi dan kebijakan strategis, termasuk menimbang dampaknya terhadap Perseroan dalam jangka pendek, menengah, maupun panjang.

Pencapaian tersebut tidak terlepas dari kemampuan Direksi dalam menerapkan strategi yang tepat, termasuk merespons perkembangan situasi eksternal. Penetapan kebijakan strategis yang direalisasikan sepanjang tahun buku telah terbukti menghasilkan kinerja usaha yang positif bagi Perseroan.

Chandra Asri Group also achieved its goal of implementing plastic asphalt in various regions through collaboration with multiple parties. By the end of 2023, the total plastic asphalt coverage had reached 120.83 km, utilizing 144.8 million plastic bags. With this initiative, the Company was able to manage 1,086 tons of plastic waste from being thrown into final disposal sites (TPA).

The Board of Commissioners believes that the Board of Directors' performance in the 2023 fiscal year was excellent as a result of various performance achievements by management in the operational, financial, and sustainability aspects. The Board of Commissioners expresses its high appreciation, as the 2023 performance will be critical in determining the orientation of Chandra Asri Group's business in the future.

## OVERSIGHT OF STRATEGY FORMULATION AND IMPLEMENTATION

The implementation of the supervisory function of the Board of Commissioners is mandated by statutory regulations. One of them is Financial Services Authority Regulation No. 33/POJK.04/2014, concerning the Board of Directors and Boards of Commissioners of Issuers or Public Companies.

This provision emphasizes that the Board of Commissioners is responsible for supervising the Company's management policies as determined by the Board of Directors. As a consequence, the Board of Commissioners is required to meet with the Board of Directors at least once every four months, even if the implementation exceeds the provisions.

Through these joint meetings and other formal and informal meetings, the Board of Commissioners has the opportunity to convey the results of supervision to the Board of Directors. The Board of Commissioners is assisted by committees under them in carrying out these supervisory activities.

Based on the results of monitoring business activities throughout 2023, the Board of Commissioners believes that the implementation of the strategic plan throughout the fiscal year demonstrates that the Board of Directors has set up an effective strategy. The Board of Directors has considered various types of internal and external factors when developing strategic plans and policies, including the impact on the Company in the short, medium, and long term.

This achievement cannot be separated from the Board of Directors' ability to implement appropriate strategies, including responding to changes in external circumstances. The strategic policies implemented throughout the fiscal year have proven to produce positive business performance for the Company.

Dalam proses perumusan strategi tersebut, Dewan Komisaris juga sudah menjadi bagian dalam pelaksanaan tugas pengawasan. Termasuk memberikan nasihat bilamana diperlukan. Untuk itulah, Dewan Komisaris berpandangan bahwa Direksi telah merumuskan strategi dengan baik dan tepat pada tahun buku, begitu juga dengan pelaksanaannya.

Kendati demikian, Dewan Komisaris senantiasa mengingatkan kepada Direksi untuk selalu memperkuat *Emergency Respons Procedure* (ERP), sekaligus meningkatkan perawatan (*maintenance*) untuk keandalan operasional pabrik. Upaya mitigasi risiko ini sangat penting untuk mendukung *operational excellence* yang telah ditetapkan oleh Perseroan.

Berkenaan dengan adanya gangguan pada alat yang terkait dengan pipa air pendingin milik Perseroan di akhir Januari 2024, Dewan Komisaris mendukung kebijakan manajemen yang memberikan prioritas perhatian kepada masyarakat serta keselamatan dan kesehatan karyawan, termasuk melakukan *shutdown* sementara pada pabrik. Hal ini sejalan dengan prosedur standar operasional yang ada.

Dewan Komisaris berharap kebijakan dalam memitigasi potensi risiko yang sudah baik tersebut terus disesuaikan agar dapat mengantisipasi perkembangan yang mungkin terjadi. Untuk mewujudkan hal itu, demi merawat kebaikan Perseroan dan para pemangku kepentingan khususnya masyarakat sekitar wilayah operasi, Dewan Komisaris akan memantau prosesnya, sebagai bagian dari pelaksanaan fungsi pengawasan.

## PANDANGAN TERHADAP PROSPEK USAHA

Dewan Komisaris meyakini bahwa prospek usaha Chandra Asri Group ke depan akan semakin baik, seiring dengan adanya diversifikasi usaha. Melalui ekspansi tersebut, ekosistem bisnis solusi kimia Perseroan akan semakin kuat, begitu juga fundamental keuangan dengan adanya sumber pendanaan yang positif dari lini bisnis solusi infrastruktur.

Potensi tersebut telah disampaikan oleh Direksi, seperti disusun dalam rencana kegiatan usaha Chandra Asri Group pada tahun depan. Dewan Komisaris telah melakukan penelaahan terhadap dokumen tersebut dan akan memberikan dukungan sepenuhnya terhadap rencana strategis yang telah disiapkan oleh Direksi.

Dalam penyusunan prospek usaha itu misalnya, untuk bisnis petrokimia, Perseroan memandang bahwa kebutuhan di dalam negeri masih sangat besar. Apalagi posisi Indonesia saat ini masih sebagai importir bersih (*net importer*), sehingga produk Perseroan tetap dapat terserap walaupun ada pasokan yang berlebihan.

In the process of formulating this strategy, the Board of Commissioners has also been involved in implementing its supervisory duties. This includes providing advice when necessary. As a result, the Board of Commissioners believes that the Board of Directors has developed an effective and appropriate strategy for the fiscal year, as well as its implementation.

However, the Board of Commissioners always reminds the Board of Directors to strengthen the Emergency Response Procedure (ERP) and improve maintenance to ensure the plants operational reliability. This risk mitigation effort is critical to achieving the Company's operational excellence goals.

In terms of the disruption to the Company's equipment, which is related to the cooling water pipes, at the end of January 2024, the Board of Commissioners supports management policies that prioritize community service and employee safety and health, including a temporary shutdown of the plant. This is in line with existing standard operating procedures.

The Board of Commissioners expects that existing policies for mitigating potential risks will continue to be updated so that they can anticipate future developments. To achieve this, the Board of Commissioners will monitor the process as part of its supervisory function to ensure the well-being of the Company and its stakeholders, particularly the community surrounding the operational area.

## VIEWS ON BUSINESS PROSPECTS

The Board of Commissioners believes that Chandra Asri Group's business prospects will improve further as a result of business diversification. This expansion will strengthen the Company's chemical solutions business ecosystem as well as its financial fundamentals, with positive funding sources from the infrastructure solutions business line.

The opportunity has been conveyed by the Board of Directors, as detailed in the Chandra Asri Group's business activity plan for the coming year. The Board of Commissioners has analyzed the document and will fully support the strategic plan developed by the Board of Directors.

In preparing business prospects, such as for the petrochemical industry, the Company considers that domestic needs remain very large. Furthermore, Indonesia's current position as a net importer indicates the Company's products can still be absorbed even when there is an excess supply.

Kemudian dari lini bisnis solusi infrastruktur. Pada tahun 2023, seluruhnya telah terkonsolidasi dengan baik, sehingga untuk tahun depan, Chandra Asri Group dapat menjalankannya sesuai dengan rencana strategis yang telah ditetapkan.

Perubahan penting yang terjadi pada Chandra Asri Group pada tahun buku 2023 akan menjadi landasan bagi Perseroan untuk berkembang secara berkelanjutan. Ekosistem bisnis solusi kimia semakin kuat dengan adanya lini bisnis solusi infrastruktur, kinerja keuangan juga bakal semakin baik.

Karena itu, Dewan Komisaris memberikan dukungan penuh pada prospek usaha yang telah disusun oleh Direksi. Dalam pelaksanaannya, Dewan Komisaris bersama Direksi akan mengevaluasi secara berkala sambil menyesuaikan dengan segala perkembangan yang terjadi pada tahun buku 2024.

Dewan Komisaris menyampaikan apresiasi dan terima kasih kepada pemegang saham yang telah memberikan dukungan terhadap inisiatif diversifikasi bisnis yang dijalankan oleh Perseroan. Dukungan tersebut akan memperkuat upaya Perseroan untuk terus tumbuh dan berkembang secara berkelanjutan.

## PENERAPAN TATA KELOLA PERUSAHAAN

Chandra Asri Group senantiasa memutakhirkan penerapan prinsip-prinsip Tata Kelola Perusahaan yang Baik atau *Good Corporate Governance* (GCG) selaras dengan perkembangan peraturan perundang-undangan serta praktik terbaik di industri. Penyesuaian tersebut dilakukan secara berkesinambungan, karena Perseroan meyakini bahwa GCG menjadi bagian tak terpisahkan dari upaya agar kinerja Perseroan dapat tumbuh secara berkelanjutan. Melalui penerapan GCG, Perseroan berupaya menjadi entitas bisnis yang adaptif, berkesinambungan, serta berkembang dengan memiliki daya saing yang baik.

Untuk mendukung penerapan GCG, Chandra Asri Group telah memiliki struktur tata kelola perusahaan, yang terutama mengacu pada Undang-Undang Nomor 40 Tahun 2007 tentang Perseroan Terbatas. Organ tata kelola tertinggi berada di tangan Rapat Umum Pemegang Saham (RUPS), diikuti Dewan Komisaris sebagai organ pengawas dan Direksi sebagai organ pelaksana.

Sistem tersebut merupakan kerangka kerja yang mengatur pola hubungan penerapan GCG di lingkungan Chandra Asri Group. Masing-masing organ memiliki batasan tugas, tanggung jawab, serta wewenang dan dijalankan secara independen, sesuai dengan mekanisme yang diatur dalam

From the infrastructure solutions business line, everything has been well consolidated in 2023, allowing Chandra Asri Group to carry out operations in accordance with the set-up strategic plan for the following year.

The significant changes that occurred at Chandra Asri Group during the fiscal year 2023 will become the foundation for the Company's sustainability growth. The infrastructure solutions business line will strengthen the chemical solutions business ecosystem while also improving financial performance.

Therefore, the Board of Commissioners fully supports the business prospects that have been set up by the Board of Directors. In its implementation, the Board of Commissioners and the Board of Directors will conduct periodic evaluations while adapting to all developments that occur during the fiscal year 2024.

The Board of Commissioners expresses appreciation and gratitude to shareholders who have supported the Company's business diversification initiatives. This support will strengthen the Company's effort to continue to grow and develop sustainably.

## IMPLEMENTATION OF CORPORATE GOVERNANCE

Chandra Asri Group always updates its implementation of Good Corporate Governance (GCG) principles in line with changes in laws and regulations as well as industry best practices. These changes are carried out on a continuous basis because the Company believes that GCG is an essential component of efforts to ensure the Company's long-term performance growth. Through the implementation of GCG, the Company strives to become an adaptive, sustainable, and growing business entity with high competitiveness.

To support the implementation of GCG, Chandra Asri Group has a corporate governance structure, which mainly refers to Law Number 40 of 2007 on Limited Liability Companies. The General Meeting of Shareholders (GMS) is the highest level of governance, followed by the Board of Commissioners serving as the supervisory organ and the Board of Directors as the implementing organ.

The system is a framework that governs the GCG implementation pattern within the Chandra Asri Group. Each organ has specific duties, responsibilities, and authorities and is carried out independently, in accordance with the mechanisms established by law, other regulatory regulations,

undang-undang, peraturan regulator lainnya, anggaran dasar Perseroan, nilai-nilai perusahaan, kode etik, serta peraturan dan kebijakan perusahaan lainnya.

Dengan melihat perkembangan tersebut, Dewan Komisaris menilai bahwa penerapan GCG di lingkungan Perseroan telah berjalan dengan baik. Apalagi, sebagai bagian dari penerapannya, Perseroan juga telah memiliki mekanisme dalam pengelolaan risiko.

Manajemen Risiko Perseroan merupakan upaya untuk mengidentifikasi seluruh risiko dan mengelola posisi risiko sesuai kebijakan dan *risk appetite*. Perseroan juga meninjau sistem dan kebijakan manajemen risiko secara berkala untuk disesuaikan dengan keadaan di pasar usaha.

Dalam menjalankan operasi, risiko-risiko diatur secara hati-hati guna menghindari potensi kerugian bagi Perseroan. Chandra Asri Group juga melibatkan karyawan untuk turut berkontribusi dalam penerapan manajemen risiko serta memberikan masukan yang penting dalam pengambilan keputusan. Dengan demikian, manajemen beserta seluruh karyawan berkomitmen untuk mengimplementasikan manajemen risiko.

## KEBIJAKAN HAK ASASI MANUSIA DAN PENANGANAN PENGADUAN

Pada tahun 2023, Perseroan menerbitkan 2 (dua) kebijakan, yaitu Kebijakan Hak Asasi Manusia dan Kebijakan Penanganan Pengaduan. Pada tahun 2023, Chandra Asri Group telah memutakhirkan penerapan prinsip GCG melalui Kebijakan Hak Asasi Manusia yang disahkan oleh Keputusan Presiden Direktur Chandra Asri No. 002/LGC-CAP/BOD RES/X/2023 tanggal 13 Oktober 2023. Kebijakan ini akan ditinjau dan direvisi secara berkala untuk telah memenuhi etika dan standar tertinggi yang berlaku di masyarakat.

Kebijakan Hak Asasi Manusia dibuat sejalan dengan Deklarasi Universal Hak Asasi Manusia Perserikatan Bangsa-Bangsa dan prinsip-prinsip Deklarasi Organisasi Perburuhan Internasional tahun 1998 tentang Prinsip dan Hak Mendasar di Tempat Kerja. Kebijakan ini juga dikembangkan berdasarkan peraturan perundang-undangan yang berlaku di Indonesia serta mengadopsi budaya dan adat istiadat setempat.

Kebijakan Hak Asasi Manusia ini merupakan bentuk komitmen lebih lanjut Chandra Asri Group dalam mengimplementasikan Kode Etik Chandra Asri, terutama terkait dengan penghormatan terhadap hak-hak dasar manusia. Karena itu, Perseroan menerapkan kebijakan tersebut di semua area operasi bisnis.

the Company's Articles of Association, corporate values, a code of conduct, and other Company regulations and policies.

Based on these developments, the Board of Commissioners concludes that the implementation of GCG within the Company was successful. Moreover, as part of its implementation, the Company also has a mechanism for managing risk.

Company risk management is the process of identifying all risks and managing them in accordance with policy and risk appetite. The Company also conducts periodic reviews of its risk management systems and policies to ensure that they are up-to-date with market conditions.

In carrying out operations, risks are carefully managed to protect the Company from potential losses. Employees at Chandra Asri Group are also involved in the implementation of risk management and provide valuable input in decision-making. Thus, management and all employees are committed to implementing risk management.

## HUMAN RIGHTS AND WHISTLEBLOWING MANAGEMENT POLICY

In 2023, the Company issued two policies: the Human Rights Policy the Whistleblowing Management Policy. In 2023, Chandra Asri Group updated its implementation of GCG principles through the Human Rights Policy, which was ratified by President Director Chandra Asri Decree No. 002/LGC-CAP/BOD RES/X/2023 dated 13 October 2023. This policy will be reviewed and revised on a regular basis to ensure it meets the highest ethical and societal standards.

The Human Rights Policy was developed in accordance with the United Nations Universal Declaration of Human Rights and the principles of the 1998 Declaration of the International Labour Organization on Fundamental Principles and Rights at Work. This policy was also developed in accordance with applicable Indonesian laws and regulations, as well as local culture and customs.

This Human Rights Policy reflects Chandra Asri Group's further commitment to implementing the Chandra Asri Code of Ethics, especially in terms of respect for basic human rights. As a result, the Company implements this policy throughout all aspects of its business operations.

Kebijakan Penanganan Pengaduan merupakan salah satu upaya Perseroan dalam memberikan kesempatan kepada seluruh karyawan, anak perusahaan, dan mitra bisnis untuk mengonsultasikan suatu kondisi tertentu yang dihadapi atau membuat laporan dugaan pelanggaran kepada manajemen Perseroan. Perseroan juga telah membentuk Komite Whistleblower yang bertugas untuk mengelola semua laporan/pengaduan yang diterima, melakukan investigasi, memberikan rekomendasi solusi atas kasus, dan mengambil keputusan akhir. Komite ini dikepalai oleh Manajemen Perseroan dan memiliki Tim Investigasi yaitu Divisi Legal serta Divisi Human Resources Employee ditambah divisi terkait yang diperlukan untuk menangani kasus tertentu.

Dalam pandangan Dewan Komisaris, lahirnya 2 (dua) kebijakan baru tersebut merupakan inisiatif penting dari upaya Chandra Asri Group menerapkan prinsip GCG serta menjaga integritas Perseroan. Karena itu, Dewan Komisaris memberikan apresiasi yang tinggi kepada Direksi atas inisiatif-inisiatif baru tersebut.

## PERUBAHAN KOMPOSISI DEWAN KOMISARIS DAN ALASANNYA

Pada tahun 2023 telah terjadi perubahan komposisi Dewan Komisaris. Rapat Umum Pemegang Saham (RUPS) Tahunan tanggal 17 Mei 2023 telah menyetujui pengunduran diri Kulachet Dharachandra dari jabatannya selaku Komisaris Perseroan terhitung efektif sejak tanggal 1 Juli 2023. Chandra Asri Group mengucapkan terima kasih atas jasa-jasa yang telah diberikan kepada Perseroan selama masa jabatannya.

RUPS juga telah menyetujui pengangkatan Chatri Eamsobhana sebagai Komisaris yang baru terhitung efektif sejak tanggal 1 Juli 2023 sampai dengan ditutupnya Rapat Umum Pemegang Saham Tahunan Perseroan yang akan diadakan pada tahun 2024.

## APRESIASI

Dewan Komisaris menyampaikan rasa syukur atas pencapaian usaha Chandra Asri Group sepanjang tahun buku 2023. Banyak pencapaian penting yang telah tercapai, terutama fundamental Perseroan yang semakin kuat.

Karena itu, Dewan Komisaris menyampaikan terima kasih kepada Direksi dan jajaran organisasi di bawahnya atas beragam pencapaian di tahun 2023. Para karyawan juga telah menunjukkan dedikasinya serta kerja keras yang sangat baik, sehingga mendukung kinerja Perseroan yang positif.

The Whistleblowing Management Policy is one of the Company's efforts to allow all employees, subsidiaries, and business partners to consult on certain conditions or report potential breaches to the Company's management. The Company has also established a Whistleblower Committee, whose responsibilities include managing all reports/complaints received, conducting investigations, recommending solutions to cases, and making final decisions. This committee is led by Company Management and involves an Investigation Team, which consists of the Legal Division and the Human Resources Employee Division, as well as any other divisions required to handle specific cases.

The Board of Commissioners believes that the establishment of these 2 (two) new policies is an important initiative in Chandra Asri Group's efforts to implement GCG principles and maintain the Company's integrity. As a result, the Board of Commissioners expresses its high appreciation to the Board of Directors for these new initiatives.

## CHANGES IN THE COMPOSITION OF THE BOARD OF COMMISSIONERS AND THE REASONS

## Report from the Board of Directors

### ERWIN CIPUTRA

Presiden Direktur  
President Director

Pemegang saham dan pemangku kepentingan yang terhormat,

Tahun buku 2023 begitu bermakna bagi PT Chandra Asri Pacific Tbk ("Chandra Asri Group", "Perseroan") di mana kami melaksanakan strategi pertumbuhan yang tangkas dan tangguh. Tahun ini menjadi momen titik balik bagi Perseroan dalam melakukan berbagai inisiatif strategis untuk menguatkan posisi Chandra Asri Group. Strategi tersebut bertujuan untuk memberikan manfaat maksimal kepada para pemegang saham serta pemangku kepentingan lain, termasuk menjadi mitra pertumbuhan bagi Indonesia.

Dear shareholders and stakeholders,

The 2023 fiscal year is an important one for PT Chandra Asri Pacific Tbk ("Chandra Asri Group", "the Company"), as we implement an agile and resilient growth strategy. This year is a turning point for the Company in implementing a number of strategic initiatives to strengthen the Chandra Asri Group's position. This strategy aims to provide maximum benefits for shareholders and other stakeholders, including becoming a growth partner for Indonesia.

Karena itu, Chandra Asri Group memandang tahun 2023 sebagai perjalanan transformasional untuk penguatan bisnis di industri kimia sekaligus membuat langkah yang berani dalam melakukan diversifikasi bisnis ke sektor infrastruktur. Inisiatif ini akan mendukung stabilitas dan pertumbuhan bagi kinerja Perseroan.

Apalagi selama periode 2 (dua) tahun terakhir, industri petrokimia dipenuhi oleh tantangan dalam bisnis global serta volatilitas pasar. Perseroan merespons kondisi tersebut secara proaktif dan tangkas dengan membuat pengambilan keputusan yang strategis. Perseroan terus beradaptasi dengan mengeksekusi fokus ganda, yaitu pada pertumbuhan organik di sektor kimia dan program merger dan akuisisi di sektor infrastruktur. Seiring dengan pengembangan tersebut, terjadi beberapa perubahan penting pada Perseroan.

## PERUBAHAN PENTING PERSEROAN

### Pengembangan Lini Bisnis Melalui Diversifikasi

Setelah 31 tahun fokus di sektor petrokimia hingga menjadi perusahaan petrokimia terintegrasi yang terbesar di Indonesia, mulai tahun 2023 Chandra Asri Group melakukan diversifikasi ke sektor usaha yang relevan: solusi infrastruktur. Lini bisnis ini diawali dengan resmi diakuisisinya anak usaha PT Krakatau Sarana Infrastruktur (KSI) yaitu PT Krakatau Chandra Energi (KCE) yang dulunya bernama PT Krakatau Daya Listrik sebesar 70% dan PT Krakatau Tirta Industri (KTI) sebesar 49%. Pembelian kedua entitas ini dilakukan melalui PT Chandra Daya Investasi, yaitu anak usaha Chandra Asri Group yang didedikasikan untuk bisnis solusi infrastruktur.

Pengembangan bisnis Perseroan tidak terbatas pada infrastruktur kelistrikan dan air. Chandra Asri Group juga mulai menjajaki peluang pengembangan bisnis di bidang kepelabuhanan (*ports*) yang saat ini infrastrukturnya sudah dimiliki oleh Perseroan.

Kendati demikian, sektor kimia tetap menjadi bisnis inti (*core business*) Chandra Asri Group. Perseroan tetap berkomitmen untuk membangun kompleks petrokimia kedua berskala global (CAP2) dalam upayanya berkontribusi pada pengurangan beban impor. Beradaptasi dengan kondisi global serta tren industri petrokimia yang fluktuatif, Chandra Asri Group kemudian melakukan rekonfigurasi produk yang dihasilkan dari CAP2. Rekonfigurasi tersebut seiring dengan fokus untuk melakukan perluasan CAP2 di bidang pertumbuhan organik. Induk usaha (*holding company*) melalui PT Chandra Asri Perkasa (CAP2) juga akan membangun pabrik Chlor-Alkali dan Ethylene dichloride (CA-EDC). Pabrik ini beroperasi di bawah PT Chandra Asri Alkali (CAA), anak usaha dari CAP2.

Pabrik tersebut akan menghasilkan kaustik soda dan EDC yang dapat digunakan untuk beragam produk akhir. Di antaranya, mendukung pengembangan industri hulu aluminium dan nikel guna mewujudkan percepatan ekosistem *Electric*

Therefore, Chandra Asri Group considers 2023 a transformative journey for strengthening its business in the chemical industry while also taking big steps to diversify into the infrastructure sector. This initiative will help stabilize and grow the Company's performance.

Furthermore, over the last two years, the petrochemical industry has faced challenges in global business and market volatility. The Company proactively and agilely responded the situation by making strategic decisions. The Company continues to adapt by executing a dual strategy, namely organic growth in the chemical sector and a merger and acquisition program in the infrastructure sector. Along with this development, several significant changes occurred within the Company.

## IMPORTANT CHANGES TO THE COMPANY

### Business Line Development Through Diversification

After 31 years of focusing on the petrochemical sector to become Indonesia's largest integrated petrochemical company, Chandra Asri Group diversified into a relevant business sector: infrastructure solutions, starting in 2023. This business line began with the official acquisition of subsidiaries of PT Krakatau Sarana Infrastruktur (KSI), which was PT Krakatau Chandra Energi (KCE), formerly known as PT Krakatau Daya Listrik, for 70% and PT Krakatau Tirta Industri (KTI) for 49%. The purchase of these two entities was carried out by PT Chandra Daya Investasi, a Chandra Asri Group's subsidiary dedicated to infrastructure solutions business.

The Company's business development is not limited to electricity infrastructure and water. Chandra Asri Group is also exploring business development opportunities in the field of ports, for which the Company currently owns its own infrastructure.

However, the chemical sector remains as Chandra Asri Group's core business. The Company remains committed to building the second world-scale petrochemical complex (CAP2) to help reduce import burden. Adapting to global conditions and fluctuating petrochemical industry trends, Chandra Asri Group then reconfigured the products produced from CAP2. The reconfiguration is in line with the focus on expanding CAP2 in the field of organic growth. The holding company, through PT Chandra Asri Perkasa (CAP2), will also build a Chlor-Alkali and Ethylene Dichloride (CA-EDC) plant. This plant is operated by PT Chandra Asri Alkali (CAA), a subsidiary of CAP2.

The plant will produce caustic soda and EDC, which can be used in a variety of final products. Among other things, it will support the development of upstream aluminum and nickel industries in order to accelerate the domestic *Electric*

Vehicle (EV) dalam negeri serta mendukung sektor konstruksi di Tanah Air. Selain itu, pabrik ini dapat mendukung industri hilir untuk produk rumah tangga sehari-hari seperti sabun dan detergen.

Produk keluaran pabrik CA-EDC sekaligus mendukung proses pemurnian nikel dan alumina serta industri pemurnian air. Manfaatnya juga akan diterima oleh pabrik *polyvinyl chloride* (PVC) untuk produksi plastik, yang biasanya dipakai pada sektor konstruksi dan kemasan.

Saat ini, perkembangan pabrik CA-EDC telah mencapai kemajuan besar dan bergerak sesuai perencanaan untuk mengambil Keputusan Investasi Akhir (FID) pada tahun 2024. Pabrik ditargetkan mulai beroperasi pada awal tahun 2027.

Untuk lini bisnis solusi infrastruktur, Chandra Asri Group bergerak melalui CDI yang melingkupi sektor listrik yang dikelola oleh KCE dan sektor air yang dikelola oleh KTI. Lini bisnis infrastruktur ini akan memperkuat bisnis utama Perseroan, yaitu sektor kimia. Selain itu, Perseroan melihat peluang untuk dapat meluaskan usaha infrastruktur ini dalam melayani sektor industri lain serta masyarakat di Cilegon.

Ke depan, bisnis energi listrik Chandra Asri Group mengarah pada penyediaan energi baru dan terbarukan (EBT). Saat ini, kapasitas pembangkit listrik KCE mencapai 120 megawatt.

## PERGANTIAN NAMA PERSEROAN SERTA VISI DAN MISI

Proses diversifikasi sepanjang tahun 2023 telah berjalan dengan baik. Chandra Asri Group tak lagi sekadar menjadi perusahaan di bidang kimia, tetapi juga infrastruktur. Seiring dengan perubahan tersebut, Rapat Umum Pemegang Saham Luar Biasa (RUPSLB) yang digelar pada 29 Desember 2023 pun menyetujui pergantian nama Perseroan, dari PT Chandra Asri Petrochemical Tbk menjadi PT Chandra Asri Pacific Tbk. Perubahan nama ini menjadi keniscayaan, selaras dengan adanya diversifikasi yang telah berjalan.

Perubahan nama tersebut sekaligus mengubah Anggaran Dasar Perseroan tentang nama. Materi ini termasuk yang disetujui dalam RUPSLB.

Bersamaan dengan perubahan nama perusahaan, Chandra Asri Group memperbarui visi dan misi Perseroan, sehingga menjadi:

Vehicle (EV) ecosystem and the country's construction sector. In addition, the plant can support downstream industries for daily household products like soap and detergent.

The products manufactured by the CA-EDC plant also benefit the nickel and alumina refining processes, as well as the water purification industry. Polyvinyl chloride (PVC) plants will also benefit from the products, i.e., for the production of plastic, which is commonly used in the construction and packaging industries.

Currently, the development of the CA-EDC plant has made significant progress and is on track to take a Final Investment Decision (FID) in 2024. The plant is expected to start operations in early 2027.

Chandra Asri Group operates through CDI for the infrastructure solutions business line, which includes the electricity sector managed by KCE and the water sector managed by KTI. This infrastructure business line will strengthen the Company's primary business, the chemical sector. In addition, the Company looks at opportunities to expand its infrastructure business to serve other industrial sectors as well as the Cilegon community.

In the future, Chandra Asri Group's electrical energy business will focus on providing new and renewable energy (EBT). Currently, KCE produces 120 megawatts of power generation capacity.

## CHANGE OF COMPANY NAME, VISION, AND MISSION

The diversification process in 2023 has gone well. Chandra Asri Group is more than just a chemical company; but also an infrastructure one. Following these changes, the Extraordinary General Meeting of Shareholders (EGMS), held on 29 December 2023, approved the Company's name change from PT Chandra Asri Petrochemical Tbk to PT Chandra Asri Pacific Tbk. This name change is inevitable, in line with the ongoing diversification.

The Company's Articles of Association regarding names were also changed as a result of the name change. This material was among those approved at the EGMS.

Simultaneously with the name change, Chandra Asri Group updated its vision and mission to become:

## VISI

"Perusahaan solusi kimia dan infrastruktur terkemuka di Indonesia."

## MISI

"Di Chandra Asri, kami berdedikasi untuk meningkatkan kehidupan, masyarakat, dan lingkungan. Misi kami dibangun di atas pilar solusi inovatif dan kemitraan yang kuat, dengan komitmen kokoh terhadap keberlanjutan, keselamatan, dan praktik terbaik."

## STRATEGI DAN KEBIJAKAN STRATEGIS

### Kendala dan Tantangan

Sektor petrokimia tergolong bisnis yang sangat fluktuatif dan sensitif terhadap dinamika ekonomi dan politik di tingkat global. Sebab sektor tersebut sangat bergantung pada harga minyak di pasar internasional, mengingat bahan bakunya adalah komoditas energi fosil tersebut. Selain itu, pasarnya dikuasai Tiongkok, negara besar yang sangat berpengaruh terhadap pasokan produk dan harga.

Seperti saat ini, kondisi perekonomian negara tersebut belum sepenuhnya pulih pasca pandemi COVID-19 ditambah dengan ketegangan geopolitik global. Kondisi tersebut membuat dunia usaha belum sepenuhnya membaik seperti sebelum pandemi, sehingga permintaan terhadap produk petrokimia secara global cenderung lemah walaupun pasokannya tetap besar. Akibatnya, harga produk tertekan lantaran terjadi kelebihan pasokan (*over supply*).

Pasokan yang berlebihan di pasar global, khususnya kawasan Asia itu, paling memungkinkan dikirim ke Indonesia. Selain pasarnya sangat besar, tidak ada hambatan pula di bidang tarif. Banjirnya produk asal Tiongkok berdampak pada penurunan harga jual produk, sehingga menekan pendapatan Perseroan. Kendati demikian, mengingat tingkat permintaan produk petrokimia di Indonesia masih sangat besar, produk Perseroan masih terserap walaupun harganya melemah dan mengakibatkan marjinya semakin kecil.

Selain menghadapi tantangan di pasar, menjelang akhir Januari 2024, sempat terjadi gangguan pada *operational excellence*, yakni terkait dengan fasilitas produksi Perseroan yang terletak di Ciwandan, Banten. Gangguan terjadi pada sebuah alat yang terkait dengan pipa air pendingin, bukan karena kebocoran gas seperti informasi yang beredar, sehingga mengharuskan Perseroan melakukan aktivitas pembakaran di cerobong atau *flaring*.

Chandra Asri Group telah memiliki prosedur standar di bidang operasional dalam memitigasi kondisi seperti itu. Karena itu, gangguan cepat teratasi. Kendati demikian, bagi Perseroan, keselamatan dan kesehatan karyawan serta

## VISION

"The leading chemical and infrastructure solutions company in Indonesia."

## MISSION

"At Chandra Asri, we are committed to improving lives, communities, and the environment. Our mission is built on the pillars of innovative solutions and strong partnerships, as well as a strong commitment to sustainability, safety, and best practices."

## STRATEGIES AND STRATEGIC POLICIES

### Obstacles and Challenges

The petrochemical sector is a highly fluctuating business and sensitive towards global economic and political dynamics. This sector is very dependent on oil prices on the international market, considering that its raw material is a fossil energy commodity. In addition, the market is dominated by China, a large country with significant influence over product supply and prices.

Currently, the country's economy has yet to fully recover from the COVID-19 pandemic, and has been worsened by global geopolitical tensions. The business world has not fully recovered back to the one before the pandemic due to that condition, so that global demand for petrochemical products tends to be weak, despite the fact that supply remains high. As a result, product prices have dropped due to excess supply (*over supply*).

Excess supply in the global market, particularly in the Asian region, will almost certainly be sent to Indonesia. Apart from being an extremely large market, there are no tariff barriers. The excess supply of Chinese products has resulted in lower product selling prices, putting pressure on the Company's income. However, considering the high demand for petrochemical products in Indonesia, the Company's products are still being absorbed, even though prices are dropping and margins are decreasing.

Apart from market challenges, there was a disruption to operational excellence towards the end of January 2024, specifically at the Company's production facilities in Ciwandan, Banten. The disruption occurred in an equipment related to the cooling water pipe, rather than a gas leak as previously reported, requiring the Company's to conduct flaring activities in the chimney.

Chandra Asri Group has standard operational procedures in place to mitigate such situations, which resulted in the issue being resolved quickly. However, the Company continues to prioritize the safety and health of its employees and the

masyarakat sekitar tetap menjadi prioritas dan Perseroan akan terus menguatkan *emergency response procedure* kedepannya.

Tantangan lain yang harus dihadapi Perseroan, yakni berkenaan dengan kebijakan diversifikasi usaha serta masuknya entitas anak yang mengelola sektor non-kimia dalam bisnis Chandra Asri Group sejak tahun 2023. Perkembangan tersebut membuat Perseroan perlu melakukan penyesuaian di bidang Sumber Daya Manusia (SDM). Terutama berkenaan dengan nilai-nilai perusahaan entitas anak yang dianut, kini harus sejalan dengan yang telah menjadi nilai-nilai Perseroan.

## PENERAPAN STRATEGI DAN KEBIJAKAN STRATEGIS

Menghadapi beragam tantangan tahun 2023, baik dari eksternal maupun internal, Chandra Asri Group telah merealisasikan sejumlah strategi dan kebijakan strategis. Di bidang operasional produksi, Perseroan terus menjaga *operational excellence*, yang di antaranya, dilakukan melalui perawatan mesin pabrik dan fokus pada keselamatan dan kesehatan kerja. Sejalan dengan penguatan *operational excellence*, Perseroan juga terus memperkuat *Emergency Response Procedure* (ERP) untuk memitigasi situasi darurat yang mungkin timbul.

Chandra Asri Group selalu menjaga ketahanan finansial sehingga siap mendukung kelancaran jalannya Perseroan dan juga kebutuhan pengembangan usaha sehingga dapat dilaksanakan dengan baik. Dalam melaksanakan berbagai inisiatif penting untuk melakukan pengembangan usaha, Chandra Asri Group selalu mendapatkan dukungan dari pemegang saham utama, yakni Barito Pacific Group, perusahaan yang bergerak di sektor sumber daya alam terdiversifikasi dan terintegrasi.

Selain itu, Chandra Asri Group bermitra dengan perusahaan yang tidak hanya kuat secara permodalan, tetapi juga teruji dan memiliki reputasi baik. Misalnya, Perseroan bermitra dengan Thai Oil Public Company Limited (Thaioil), perusahaan kilang minyak terbesar di Thailand dan SCG Chemical Public Co. Ltd., salah satu perusahaan petrokimia terbesar di Asia. Untuk infrastruktur energi listrik dan air, Perseroan bermitra dengan PT Krakatau Steel Tbk yang menjadi produsen baja terintegrasi terbesar di Indonesia serta Posco, produsen baja terbesar ke-7 di dunia versi World Steel Association.

Sedangkan di perusahaan induk solusi infrastruktur, yakni PT Chandra Daya Investasi (CDI), Perseroan bermitra dengan Electric Generating Public Company Limited atau EGCO Group (EGCO), produsen energi independen dari Thailand.

surrounding community and the Company will continue to strengthen its emergency response procedures in the future.

Other challenges that must be addressed include the business diversification policy and the inclusion of subsidiaries that manage the non-chemical sector in Chandra Asri Group's business since 2023. As a result of this development, the Company must conduct an alignment in the field of Human Resources (HR). Especially with regard to the subsidiaries' company values, they now must be in line with the Company's values.

## IMPLEMENTATION OF STRATEGY AND STRATEGIC POLICY

Facing various challenges in 2023, both external and internal, Chandra Asri Group has implemented a number of strategies and strategic policies. In the field of production operations, the Company continues to maintain operational excellence, which, among other things, is done through maintenance of plant equipments and focus on safety and occupational health. In line with efforts in strengthening operational excellence, the Company also continues to strengthen Emergency Response Procedures (ERP) to mitigate emergency situations that may arise.

Chandra Asri Group also maintains its financial resilience to be ready to support the Company's business continuity as well as its business development needs so that it can be implemented well. In carrying out various important initiatives for business development, Chandra Asri Group has always received support from its main shareholder, the Barito Pacific Group, which operates in the diversified and integrated natural resources sector.

In addition, Chandra Asri Group collaborates with companies that are not only strong in terms of capital but also proven and have a good reputation. For instance, the Company collaborates with Thai Oil Public Company Limited (Thaioil), the largest oil refinery company in Thailand, and SCG Chemical Public Co. Ltd., one of the largest petrochemical companies in Asia. For electricity and water energy infrastructure, the Company collaborates with PT Krakatau Steel Tbk, Indonesia's largest integrated steel producer, and Posco, the world's seventh largest steel producer according to the World Steel Association.

Meanwhile, the infrastructure solutions holding company, PT Chandra Daya Investasi (CDI), collaborates with Electric Generating Public Company Limited, or EGCO Group (EGCO), a Thai independent energy producer. With an

Dengan suntikan investasi senilai US\$194 juta, EGCO memiliki 30% saham di CDI.

Untuk mendukung strategi di bidang operasional, Perseroan juga senantiasa mendukung peningkatan kompetensi SDM, karena keberadaannya sangat penting. Terkait dengan SDM, mengingat lini bisnis Chandra Asri Group telah terdiversifikasi dengan berkembangnya Entitas Anak, Perseroan menyiapkan regenerasi melalui strategi kecukupan *successor*. Strategi ini juga untuk merespons karyawan yang memasuki usia pensiun lantaran telah bergabung lebih dari dua dekade lamanya, mengingat Perseroan telah beroperasi selama 31 tahun.

Dari sisi kultur atau budaya perusahaan, Chandra Asri Group sebagai induk telah mengintegrasikannya dengan yang berlaku di Entitas Anak maupun Entitas Asosiasi yang baru bergabung pada tahun 2023. Seluruh prosesnya telah berjalan dan dilaksanakan secara berkesinambungan, karena tidak selesai hanya di tahun 2023.

## PERAN DIREKSI DALAM PERUMUSAN STRATEGI SERTA UPAYA MEMASTIKAN IMPLEMENTASI STRATEGI

Direksi Chandra Asri Group memiliki peran sentral dalam perumusan strategi dan kebijakan strategis Perseroan. Setiap tahun, rencana induk strategi pengelolaan Perseroan dituangkan dalam Rencana Kerja dan Anggaran Perusahaan (RKAP). Hal ini sejalan dengan Peraturan Otoritas Jasa Keuangan (OJK) No. 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik yang antara lain menyatakan bahwa Direksi menjalankan pengurusan sesuai dengan kebijakan yang dipandang tepat.

Dalam perumusan strategi tersebut, seluruh direktorat di organisasi Perseroan ikut terlibat, yakni sejak dalam perencanaan yang dilaksanakan bersama dengan organisasi di bawah Direksi. Selanjutnya, Direksi bersama Dewan Komisaris memutuskan strategi induk dalam RKAP untuk menjadi panduan dalam kegiatan usaha di tahun buku.

Di tingkat operasional, strategi tersebut diimplementasikan oleh Direksi dan organisasi di bawahnya. Direksi juga terlibat memberikan masukan dan persetujuan. Selain itu, Direksi melakukan evaluasi terhadap implementasi strategi. Proses ini menunjukkan bahwa Direksi memiliki keterlibatan secara langsung dalam perumusan strategi perusahaan.

investment injection of US\$194 million, EGCO owns a 30% stake in CDI.

To support operational strategies, the Company continues to support HR competency development, as their existence is essential. In terms of Human Resources, the Chandra Asri Group prepares the regeneration through a successor adequacy strategy, considering the diversification of its business lines as a result of the development of its subsidiaries. This strategy is also intended to respond to employees who are approaching retirement age after working for more than two decades, since the Company has been in operation for 31 years.

In terms of corporate culture, the parent company, Chandra Asri Group, has integrated it with that of its Subsidiaries and Associated Entities, which only joined in 2023. The entire process has been ongoing and will continue to be implemented continuously because it will not be completed in 2023.

## THE BOARD OF DIRECTORS' ROLE IN STRATEGY FORMULATION AND EFFORTS TO ENSURE STRATEGY IMPLEMENTATION

The Board of Directors of the Chandra Asri Group has an important role in setting the Company's strategy and strategic policies. Every year, the Company's Work Plan and Budget (RKAP) outline the Company's strategic management master plan. This is in line with Financial Services Authority (OJK) Regulation No. 33/POJK.04/2014 regarding the Board of Directors and Board of Commissioners of Issuers or Public Companies, which states, among other things, that the Board of Directors carries out management functions in accordance with policies that are deemed appropriate.

All directorates in the Company's organization are involved in developing this strategy, starts from planning, which was carried out in collaboration with organizations reporting to the Board of Directors. Further, the Board of Directors and the Board of Commissioners decide a general strategy in the RKAP to serve as a guide for business activities during the financial year.

This strategy is implemented at the operational level by the Board of Directors and organizations reporting to the Board of Directors. The Board of Directors is also involved in providing input and approval. Furthermore, the Board of Directors evaluates strategy implementation. This procedure shows that the Board of Directors has a direct involvement in the setting up of company strategy.

Untuk memastikan implementasi strategi sesuai dengan yang telah ditetapkan, Direksi melakukan rapat koordinasi secara berkala dengan organisasi pelaksana di bawahnya. Selain untuk mendapatkan informasi perkembangan pelaksanaannya, Direksi melakukan evaluasi dan rencana tindak lanjut, sehingga seluruh strategi dapat diimplementasikan dengan baik serta mencapai target yang telah ditetapkan.

## PENCAPAIAN KINERJA USAHA

Di tengah kondisi perekonomian yang masih bergerak dinamis, Chandra Asri Group terus menjaga *liquidity pool* yang kuat. Pada tahun 2023, realisasinya mencapai US\$2,67 miliar, yang terdiri dari US\$1.440 juta berupa kas dan setara kas, US\$1.029 juta dalam bentuk surat berharga, kemudian US\$201 juta berupa fasilitas *committed revolving credit*.

Dari sisi pendapatan, pada tahun buku 2023, yang dibukukan Perseroan mencapai US\$2.160 juta, turun 9,42% dibandingkan tahun 2022 yang sebesar US\$2.385 juta. Kondisi ini terjadi sebagai dampak dari gangguan pasokan yang melimpah dan penurunan permintaan.

Beban pokok pendapatan Perseroan juga menurun, turun sebesar 13,25% menjadi US\$2.078 juta dibandingkan tahun sebelumnya yang sebesar US\$2.396 juta.

Sementara EBITDA di tahun 2023 mencapai US\$130 juta, meningkat 2.352% dibandingkan tahun 2022 yang sebesar US\$5,3 juta, seiring dengan terjadinya penurunan ketidakpastian global dan pelonggaran *lockdown* COVID-19 di Tiongkok.

Sementara untuk kinerja di bidang operasional, rata-rata tingkat operasi pabrik Perseroan mencapai 81%, naik dibandingkan tahun sebelumnya yang sebesar 77%. Perkembangan ini dipengaruhi oleh adanya penambahan volume produksi.

## PROSPEK USAHA PERUSAHAAN

Kondisi perekonomian global yang dinamis diperkirakan masih akan berlanjut pada tahun 2024. Bahkan International Monetary Fund (IMF) dalam laporan "World Economic Outlook" edisi Oktober 2023, memperkirakan pertumbuhan ekonomi global hanya 2,9%, lebih rendah dari tahun 2022 yang 3,5% dan perkiraan tahun 2023 yang sebesar 3,0%.

Situasi tersebut berpotensi membuat kegiatan dunia usaha masih mengalami kelesuan, sehingga berdampak pada daya serap pasar terhadap produk petrokimia. Bahkan situasi geopolitik seperti konflik Rusia dan Ukraina serta Israel dan Palestina yang belum stabil dapat memengaruhi harga minyak mentah, bahan baku petrokimia.

The Board of Directors holds regular coordination meetings with the implementing organizations under it to ensure that the strategy is being carried out as planned. On this occasion, in addition to gathering information on implementation progress, the Board of Directors conducts evaluations and follow-up plans to ensure that all strategies are properly implemented and targets are achieved as planned.

## BUSINESS PERFORMANCE ACHIEVEMENT

Chandra Asri Group maintains a strong liquidity pool despite the fact that economic conditions remain dynamic. In 2023, the realization reached US\$2.67 billion, which consisted of US\$1,440 million in cash and cash equivalents, US\$1,029 million in securities, and US\$201 million in committed revolving credit facilities.

In terms of revenue, the Company recorded US\$2,160 million in the financial year 2023, a decrease of 9.42% from US\$2,385 million in 2022. This condition occurred as a result of over supply disruptions and lower demand.

The Company's cost of revenue also dropped to US\$2,078 million, a 13,25% decrease from the previous year's figure of US\$2,396 million.

Meanwhile, EBITDA in 2023 reached US\$130 million, an increase of 2,352% from US\$5.3 million in 2022, in line with the reduction in global uncertainty and the easing of the COVID-19 lockdown in China.

Further, for operational performance, the average level of operation of the Company's plants reached 81%, an increase from the previous year's figure of 77%. This development was influenced by an increase in production volume.

## COMPANY'S BUSINESS PROSPECTS

Dynamic global economic conditions are expected to continue into 2024. Even the International Monetary Fund (IMF), in its "World Economic Outlook" report in the October 2023 edition, predicted global economic growth would only be 2.9%, which is lower than the 3.5% estimation for 2022 and the 3.0% estimation for 2023.

This situation has the potential to slow business activity, affected market's ability to absorb petrochemical products. Even geopolitical situations such as the conflict between Russia and Ukraine, as well as the instability in Israel and Palestine, can have an impact on the price of crude oil, a petrochemical raw material.

Meskipun demikian, Chandra Asri Group tetap optimistis, prospek usahanya masih tetap baik. Permintaan produk petrokimia di dalam negeri masih sangat besar, mengingat Indonesia berstatus *net importer* untuk produk tersebut.

Selain itu, bisnis Chandra Asri Group juga telah terdiversifikasi. Tak hanya di sektor kimia, tetapi juga solusi infrastruktur yang akan ikut menopang kinerja Perseroan. Kebijakan strategis yang telah berjalan sejak tahun 2023 itu akan mendukung kondisi keuangan Perseroan. Sehingga, dalam jangka panjang, prospek usaha Perseroan semakin cerah.

Pada prinsipnya, diversifikasi telah berjalan dengan baik selama tahun 2023 dengan menghadirkan bisnis solusi infrastruktur: listrik dan air, serta ke depan di bidang kepelabuhanan, dalam rangka memperkuat bisnis utama Perseroan, yaitu sektor kimia sebagai prioritas. Kendati demikian, produk dan jasa yang dihasilkan dari solusi infrastruktur tersebut juga dapat disediakan untuk pihak eksternal, sebagai nilai tambah dari sisi keuangan.

Sebagai upaya mendukung prospek usaha, Chandra Asri Group terus menerapkan strategi merger dan akuisisi programatik dan integrasi aset infrastruktur, sesuai dengan penerapan visi yang baru. Perseroan juga akan tetap ekspansi dengan fokus pada lini bisnis yang telah ditetapkan, sambil memperkuat rantai nilai industri Indonesia.

Pada prinsipnya, kebijakan akuisisi dan merger programatik yang diterapkan oleh Chandra Asri Group bertujuan mendukung pengembangan Perseroan sebagai perusahaan petrokimia terkemuka dan terpilih di Indonesia dengan rekam jejak pertumbuhan. Karena itu, Perseroan menjajaki berbagai lini bisnis yang relevan dengan kompetensi inti Perseroan.

Strategi pengembangan ini sangat penting mengingat posisi Chandra Asri Group yang sangat kuat sebagai pemimpin di pasar petrokimia Indonesia dan Asia Tenggara yang sangat atraktif. Apalagi saat ini, Perseroan sedang mengembangkan kompleks petrokimia CAP2, selain telah memiliki kompleks petrokimia terintegrasi yang terbesar di Indonesia.

Diversifikasi usaha yang tercipta dari hasil akuisisi dan merger tersebut, dari sisi keuangan juga diharapkan menjadi sumber pendapatan Chandra Asri Group yang lebih bervariasi. Termasuk, dapat menghindari Perseroan dari ketergantungan pada dinamika pasar tunggal, yakni di bidang petrokimia.

## PENERAPAN TATA KELOLA PERUSAHAAN

Chandra Asri Group berkomitmen untuk senantiasa meningkatkan penerapan prinsip-prinsip tata kelola

Despite this, Chandra Asri Group remains optimistic; its business prospects are still promising. Domestic demand for petrochemical products remains high, considering that Indonesia is a net importer of these products.

Aside from that, Chandra Asri Group's business has also diversified. Not only in the chemical sector but also in infrastructure solutions that will benefit the Company's performance. This strategic policy, which has been running since 2023, will support the Company's financial condition. Hence, in the long term, the Company's business prospects will be brighter.

In principle, the diversification has been going well in 2023 by introducing the infrastructure solutions business: electricity and water, as well as in the future is the ports sector, in order to strengthen the Company's main business, which is the chemical sector, as a priority. Nevertheless, the products and services generated through these infrastructure solutions can also be provided to external parties as an added value from a financial perspective.

In order to support business prospects, Chandra Asri Group continues to implement programmatic merger and acquisition strategy, as well as the integration of infrastructure assets, in line with the implementation of the new vision. The Company will also continue expanding by focusing on existing business lines while strengthening the Indonesian industrial value chain.

In principle, the Chandra Asri Group's programmatic acquisition and merger policy seeks to support the Company's development as a leading and preferred petrochemical company in Indonesia with a proven track record of growth. As a result, the Company is exploring various business lines that are relevant to its core competencies.

This development strategy is critical considering Chandra Asri Group's leading position in the highly attractive petrochemical markets of Indonesia and Southeast Asia. In addition to having Indonesia's largest integrated petrochemical complex, the Company is currently developing the CAP2 petrochemical complex.

From a financial perspective, the business diversification resulting from these acquisitions and mergers is expected to provide the Chandra Asri Group with a more diverse source of income. It may also prevent the Company from being dependent on the dynamics of a single market, specifically the petrochemical sector.

## IMPLEMENTATION OF CORPORATE GOVERNANCE

In carrying out its business activities, Chandra Asri Group is committed to continuously improving the implementation of

perusahaan yang baik (*Good Corporate Governance/GCG*) dalam menjalankan kegiatan usaha. Perseroan meyakini, penerapan GCG akan meningkatkan kepercayaan para pemangku kepentingan terhadap Chandra Asri Group serta mendukung kinerja usaha secara berkesinambungan.

Penerapan prinsip GCG di lingkungan Chandra Asri Group tidak hanya mengacu pada regulasi yang relevan, tetapi juga praktik terbaik di industri. Di antaranya, Perseroan telah menerapkan pedoman tata kelola perusahaan terbuka, seperti diatur dalam Surat Edaran OJK Nomor 32 Tahun 2015.

Selain itu, Chandra Asri Group juga telah memiliki tata kelola di bidang Teknologi Informasi (TI). Terkait GCG di bidang TI ini misalnya, Perseroan telah mengantisipasi potensi terjadinya potensi bencana dengan memiliki *disaster recovery management*.

Upaya antisipasi tersebut, antara lain dengan menempatkan server di *cloud*. Dengan sistem ini, pemulihan ketika harus menghadapi bencana akan lebih mudah. Seluruh kegiatan operasional yang dapat diakses melalui sistem digital akan tetap berjalan dengan baik.

Selain itu, seluruh dokumen Perseroan juga telah terdigitalisasi. Dengan begitu, setiap dokumen dapat diakses di mana pun dan kapan pun. Terutama dokumen yang bersifat pengetahuan umum atau *general knowledge*. Semua ini dilakukan dalam rangka memitigasi potensi risiko yang dapat terjadi; dari bencana alam hingga kebakaran.

## KOMITMEN KEBERLANJUTAN

Pada tahun 2023, Chandra Asri Group terus mewujudkan komitmennya di bidang keberlanjutan yang telah diintegrasikan dalam kegiatan usaha Perseroan. Integrasi itu tertuang dalam tata kelola keberlanjutan di bidang pengawasan, strategi terintegrasi dengan bisnis Perseroan, *masterplan*, dan berbagai pilar bisnis.

Upaya keberlanjutan Perseroan telah mendapatkan apresiasi tertinggi dari Kementerian Lingkungan Hidup dan Kehutanan (KLHK). Tahun 2023, pabrik petrokimia Chandra Asri Group yang berlokasi di Ciwandan telah mendapatkan predikat EMAS dalam Program Penilaian Peringkat Kinerja Perusahaan dalam Pengelolaan Lingkungan Hidup (PROPER) 2023. Perseroan juga mendapatkan HIIAU bagi pabrik petrokimia di Pulo Ampel. PROPER EMAS yang dianugerahkan merupakan berkat capaian eco-inovasi serta eco-sosial dalam pengembangan solusi kreatif dan berkelanjutan. Sedangkan predikat PROPER HIIAU dari hasil upaya Perseroan karena telah melampaui persyaratan peraturan yang diharuskan

Di bidang usaha, Chandra Asri Group melalui anak usahanya KCE juga telah berhasil memasang panel surya di berbagai

the principles of good corporate governance (GCG). With such commitment, the Company believes that implementing GCG will increase stakeholders' trust in Chandra Asri Group and support sustainable business performance.

The application of GCG principles within the Chandra Asri Group does not only refer to relevant regulations but also best practices in the industry. Among other things, the Company has implemented the public company governance guidelines outlined in OJK Circular Letter Number 32 of 2015.

In addition, the Chandra Asri Group has governance in the field of information technology. In the IT sector, for example, the Company has anticipated potential disasters by having disaster recovery management.

These anticipated efforts include placing servers in the cloud. With this system, recovery from a disaster will be easier. All operations that can be accessed through the digital system will continue to function normally.

Apart from that, all Company documents have been digitized. This allows every document to be accessed at any time and from any location. Especially documents containing general knowledge. All of this is carried out to reduce the potential risks that may arise, from natural disasters to fires.

## SUSTAINABILITY COMMITMENT

In 2023, Chandra Asri Group continued to realize its commitment to sustainability, which has been integrated into the Company's business activities. This integration is reflected in sustainability governance in the field of supervision, an integrated strategy with the Company's business, a master plan, and several business pillars.

The Company's sustainability efforts received the highest appreciation from the Ministry of Environment and Forestry (KLHK). In 2023, the Chandra Asri Group petrochemical plant in Ciwandan received the GOLD award in the 2023 Company Performance Rating Assessment Program in Environmental Management (PROPER). The Company also received GREEN for its petrochemical plant in Pulo Ampel. The GOLD PROPER award was given to recognize achievements in eco-innovation and the eco-social in the development of creative and sustainable solutions. Meanwhile, the Company's efforts have resulted in the GREEN PROPER predicate, since the Company has exceeded the required regulatory requirements.

In the business sector, Chandra Asri Group, through its subsidiary KCE, has also succeeded in installing solar panels

proyek, termasuk industri dan ritel, dengan total kapasitas listrik Energi Baru dan Terbarukan (EBT) mencapai 958 kWp (Kilowatt Peak). Perseroan menargetkan proyek Pembangkit Listrik Tenaga Surya (PLTS) yang dikerjakan dapat mencapai kapasitas 3 MWp (Megawatt Peak).

Keberhasilan pembangunan panel surya ini, baik untuk pelanggan maupun di wilayah usaha sendiri, dapat menghemat pemakaian listrik hingga 40% per tahun serta mengurangi emisi karbon mencapai 561 ton CO<sub>2</sub> per tahun. Inovasi ini merupakan salah satu upaya KCE memberikan kontribusi terhadap usaha pemerintah dalam mencapai target energi baru terbarukan sesuai dengan Peraturan Presiden Nomor 112 Tahun 2022 tentang Percepatan Pengembangan Energi Terbarukan untuk Penyediaan Tenaga Listrik.

## PERUBAHAN KOMPOSISI DIREKSI DAN ALASAN PERUBAHAN

Sepanjang tahun 2023, telah terjadi 2 (dua) kali perubahan komposisi Direksi. Pertama, melalui keputusan Rapat Umum Pemegang Saham Tahunan (RUPST) tanggal 17 Mei 2023. Pada kesempatan itu, Pemegang Saham menyetujui pengunduran diri Krit Bunnag dari jabatannya selaku Wakil Presiden Direktur dan Pholavit Thiebpattama dari jabatannya selaku Direktur. Keputusan itu mulai berlaku sejak tanggal 1 Juni 2023.

Pada saat bersamaan, RUPST menyetujui pengangkatan Pholavit Thiebpattama sebagai Wakil Presiden Direktur dan Sarayuth Vorapruengkjaru sebagai Direktur yang baru. Pengangkatan mulai berlaku efektif sejak tanggal 1 Juni 2023 hingga ditutupnya RUPST Perseroan yang akan diadakan pada tahun 2024.

# RIWAYAT SINGKAT PERUSAHAAN

## Brief History of The Company

Perjalanan bisnis PT Chandra Asri Pacific Tbk ("Chandra Asri Group", "Perseroan") sebagai perusahaan solusi kimia dan infrastruktur berawal pada 1 Januari 2011 dengan adanya penggabungan usaha (merger) PT Tri Polyta Indonesia Tbk (TPI) dengan PT Chandra Asri (CA). TPI, yang merupakan *surviving company* adalah penghasil Polypropylene terbesar di Indonesia yang didirikan pada tahun 1984 dan mulai beroperasi secara komersial sejak tahun 1992. Sedangkan CA merupakan produsen Olefins dan Polyethylene yang didirikan pada tahun 1989. Sejak itu, Perseroan menjalankan bisnis sebagai produsen domestik tunggal di Indonesia untuk Ethylene, Styrene Monomer, dan Butadiene.

Saat ini, Chandra Asri Group mengoperasikan pabrik Polypropylene dengan kapasitas paling besar di Indonesia, yaitu 590 kilo ton per tahun (KTA) dengan margin yang stabil serta pabrik Polyethylene terbesar dengan kapasitas 736 KTA. Kemampuan ini menjadikan Perseroan sebagai produsen Polypropylene serta Polyethylene terbesar di Indonesia. Pabrik petrokimia itu dibangun di lokasi yang strategis di Ciwandan, Cilegon, Provinsi Banten, serta dilengkapi teknologi mutakhir dan fasilitas penunjang lengkap.

Kompleks pabrik dilengkapi jaringan pipa sepanjang 45 kilometer yang memungkinkan Perseroan untuk secara efisien berhubungan langsung dengan beberapa pelanggan utama. Sementara pabrik yang memproduksi Styrene Monomer berlokasi di Desa Mangunreja, Pulo Ampel, Serang terdiri atas dua *train* yang dapat memproduksi Styrene Monomer. Fasilitas lain yang dimiliki Perseroan adalah tiga *train* yang dapat memproduksi Linear Low Density Polyethylene dan High Density Polyethylene, serta tiga *train* untuk memproduksi beragam Polypropylene.

Perseroan juga memiliki pembangkit listrik untuk kompleks pabrik dengan kapasitas yang melebihi kebutuhan produksi normal. Dengan demikian, energi tersebut menjadi sumber cadangan listrik untuk menyokong sumber listrik utama dari PT Perusahaan Listrik Negara (PLN). Hal ini bertujuan untuk menjaga kelancaran dan efisiensi produksi.

Sistem kerja Perseroan juga dilengkapi dengan fasilitas utama yang berkualitas prima, khususnya tangki penyimpanan dan *jetty*. Fasilitas infrastruktur yang terintegrasi dengan kompleks pabrik juga telah tersedia seperti fasilitas desalinasi dan pengolahan air murni yang diperlukan dalam sirkulasi sistem pendinginan, serta pergudangan dan perangkat penanggulangan kebakaran.

The business journey of PT Chandra Asri Pacific Tbk ("Chandra Asri Group", "Company") as a chemical and infrastructure solutions company began on 1 January 2011 marked by the merger of PT Tri Polyta Indonesia Tbk (TPI) with PT Chandra Asri (CA). TPI, which is a surviving company, is the largest Polypropylene manufacturer in Indonesia that was established in 1984 and commenced commercial operations in 1992, while CA was the Olefins and Polyethylene manufacturer that was founded in 1989. Since then, the Company has been running the business as the sole domestic manufacturer in Indonesia for Ethylene, Styrene Monomer, and Butadiene.

Chandra Asri Group currently operates Indonesia's largest Polypropylene plant, with a capacity of 590 kilo ton per annum (KTA) and a stable margin, as well as the largest Polyethylene plant, with a capacity of 736 KTA. This puts the Company as the largest producer of Polypropylene as well as Polyethylene in Indonesia. The Company's petrochemical plant was built in a strategic location in Ciwandan, Cilegon, Banten Province, and is equipped with state-of-the-art technology and complete supporting facilities.

The plant is equipped with a vast network of 45 kilometer long pipeline that enables the Company to connect directly with some key customers. Meanwhile, the plant that produces Styrene Monomer is located in Mangunreja Village, Pulo Ampel, Serang, consisting of two trains that produce Styrene Monomer. Other facilities owned by the Company are three trains that produce Linear Low Density Polyethylene and High Density Polyethylene, as well as three trains to produce a variety Polypropylene.

The Company also has a power plant for the plant complex with a capacity that exceeds normal production requirements. In this case, this energy serves as a backup source of electricity to support the main source from the State Electricity Company (PLN). This aims to ensure that production runs smoothly and efficiently.

The Company's work system is also equipped with well-qualified main facilities, especially storage tanks and jetties. There are also other infrastructural facilities that are integrated with the plant complex, such as desalination and pure water treatment facilities used for cooling system circulation as well as warehouses and firefighting appliances.

Seluruh pabrik Perseroan dan fasilitas pendukungnya dikelola dengan baik, disertai dengan pengembangan kapasitas dan mutu produk. Pengembangan kapasitas terutama dilakukan dengan meningkatkan kapasitas fasilitas Naphtha Cracker hingga mencapai 4 juta ton pada tahun 2019. Peningkatan ini menjadikan fasilitas Naphtha Cracker Perseroan setara dengan ukuran skala dunia.

Selain itu, peningkatan kapasitas juga dilakukan pada pabrik Butadiene, dari 100 KTA menjadi 137 KTA pada tahun 2018. Sedangkan pabrik Polyethylene baru dengan kapasitas 400 KTA menambah total kapasitas Polyethylene menjadi 736 KTA dan telah selesai dibangun di tahun 2019.

Pada 2007, Perseroan memiliki Entitas Anak pertama, yaitu PT Styrindo Mono Indonesia (SMI) melalui proses akuisisi saham. SMI adalah satu-satunya produsen Styrene Monomer di Indonesia yang melayani pasar domestik dan pasar ekspor regional. SMI memiliki Entitas Anak, yaitu PT Redeco Petrolin Utama (RPU) yang menyediakan layanan penyewaan tangki perantara dan jasa manajemen *jetty* untuk produk-produk kimia. RPU juga menangani produk minyak olahan untuk perusahaan-perusahaan minyak lokal dan internasional.

Pada tahun 2009, Perseroan mendirikan Entitas Anak lainnya, yaitu Chandra Asri Trading Company Pte. Ltd., (dahulu bernama Altus Capital Pte. Ltd.) untuk memenuhi kebutuhan pendanaan. Selanjutnya, pada tahun 2011 Perseroan mendirikan PT Petrokimia Butadiene Indonesia (PBI) yang mengoperasikan satu-satunya pabrik Butadiene di Indonesia.

Agar terus berkembang dan beradaptasi memenuhi kebutuhan pasar nasional dan global, Perseroan bertransformasi menjadi entitas yang lebih besar. Salah satu upayanya melalui penggabungan usaha (merger) Entitas Anak dengan Perseroan. Pada 1 Januari 2020, PBI resmi merger dengan Perseroan, diikuti oleh SMI pada 1 Januari 2021. Merger ini mengintegrasikan proses produksi secara keseluruhan, membuat pemetaan produk yang lebih baik, serta meningkatkan sinergi pengadaan dan akuntansi. Hal ini diharapkan dapat meningkatkan kinerja operasional yang akan menciptakan perusahaan yang lebih sinergis, kuat, dan lebih efisien.

Melanjutkan ekspansinya, pada tahun 2013 Perseroan bersinergi dengan produsen ban multinasional Compagnie Michelin Financiere SA dan mendirikan PT Synthetic Rubber Indonesia (SRI) yang memproduksi bahan baku untuk ban kendaraan ramah lingkungan. SRI mulai beroperasi secara efektif sejak Agustus 2018, setelah selesai membangun pabrik karet sintetis.

All of the Company's plants and supporting facilities are well managed, accompanied by capacity and product quality development. Capacity development was mainly carried out by increasing the capacity of the Naphtha Cracker facility to reach 4 million tons in 2019. This increase puts the Company's Naphtha Cracker facility on a global scale.

In addition, a capacity increase was also carried out at the Butadiene plant, from 100 KTA to 137 KTA in 2018. Meanwhile, the new Polyethylene plant with a capacity of 400 KTA increased the total capacity of Polyethylene to 736 KTA and it was completed in 2019.

In 2007, the Company established its first subsidiary, i.e., PT Styrindo Mono Indonesia (SMI) through shares acquisition. SMI was the sole manufacturer of Styrene Monomer in Indonesia that serves the domestic and regional export markets. SMI had a subsidiary, i.e., PT Redeco Petrolin Utama (RPU), which provides intermediary tank rental and jetty management services for chemical products. RPU also handles refined petroleum products for local and international oil companies.

In 2009, the Company established other subsidiary, i.e., Chandra Asri Trading Company Pte. Ltd., (previously named Altus Capital Pte. Ltd.) to fulfill the Company's financing purposes. Subsequently, in 2011, the Company established PT Petrokimia Butadiene Indonesia (PBI), which operated the only Butadiene plant in Indonesia.

In order to continue to advance and adapt to fulfill the needs of the national and global markets, the Company transformed into a larger entity. One of which was by incorporating the subsidiaries with the Company. On 1 January 2020, PBI officially merged with the Company, followed by SMI on 1 January 2021. The merger integrated the overall production process, created better product mapping, and enhanced the synergy between procurement and accounting. Subsequently improving the Company's operational performance towards becoming a more synergistic, stronger, and more efficient Company.

Continuing its expansion, in 2013, the Company established a joint venture with a multinational tire manufacturer, Compagnie Michelin Financiere SA, and established PT Synthetic Rubber Indonesia (SRI), which manufactures raw materials for environmentally friendly tires. SRI has been effectively operating since August 2018, after the construction of the synthetic rubber plant was completed.

Pada tahun 2020, Perseroan mulai mengoperasikan Pabrik Methyl Tert-butyl Ether dan Butene-1 yang pertama kali hadir di Indonesia. Kedua pabrik ini juga merupakan pabrik pertama di Indonesia yang menggunakan *Lummus Technology*, salah satu teknologi pengolahan pabrik petrokimia paling mutakhir di dunia. Selain itu Perseroan juga memulai pengoperasian *Enclosed Ground Flare* (EGF), teknologi suar tanpa asap dengan total investasi US\$14 juta. EGF ini mampu membakar 220 ton hidrokarbon per jam tanpa menyebabkan panas dan kebisingan.

Perseroan berkomitmen untuk melayani permintaan produk petrokimia dalam negeri dengan lebih baik serta berupaya meringankan beban impor negara dengan membangun kompleks petrokimia kedua, PT Chandra Asri Perkasa (CAP2). Dengan terus melakukan ekspansi, Chandra Asri Group tidak hanya bertekad untuk berkembang sebagai perusahaan petrokimia yang terintegrasi di Indonesia, tetapi juga sebagai perusahaan kimia.

Pada tahun 2022, Perseroan melakukan proses akuisisi atas 2 (dua) anak usaha milik PT Krakatau Sarana Infrastruktur ("PT KSI"), yaitu PT Krakatau Daya Listrik ("PT KDL") (kini telah berganti nama menjadi PT Krakatau Chandra Energi, "PT KCE") dan PT Krakatau Tirta Industri ("PT KTI"). Proses akuisisi tersebut tuntas dilakukan pada tahun 2023, dengan ditandatanganinya penutupan transaksi atas Conditional Shares and Purchase Agreement (CSPA) pada 27 Februari 2023.

Akuisisi ini dilakukan karena Perseroan melihat adanya peluang sinergis dengan kedua perusahaan baru tersebut serta untuk meningkatkan pendapatan dan mengoptimalkan pemanfaatan aset maupun operasionalnya. Akuisisi juga sejalan dengan rencana jangka panjang Perseroan untuk mengembangkan CAP2.

Aksi korporasi tersebut menandai ekspansi Perseroan ke bisnis infrastruktur, khususnya di bidang energi listrik, air, dan kepelabuhanan. Dengan demikian, sejak tahun 2023, Chandra Asri Group berkembang menjadi perusahaan kimia dan infrastruktur. Upaya ini diharapkan dapat memperkuat fondasi Perseroan dalam mempertahankan kepemimpinan di peta persaingan serta lebih penting lagi, berkontribusi pada pertumbuhan ekonomi Indonesia.

In 2020, the Company commenced the operation of Methyl Tert-butyl Ether and Butene-1 plants, first of their kind in Indonesia. Both plants are using Lummus Technology, one of the most advanced petrochemical processing technology in the world. In addition, the Company also commenced the operation of Enclosed Ground Flare (EGF), a smokeless flare technology with a total investment of US\$14 million. EGF is capable of burning 220 tons of hydrocarbons per hour without causing heat and noise.

The Company is committed to better serving domestic demand for petrochemical products while reducing government imports and therefore build a second petrochemical complex, PT Chandra Asri Perkasa (CAP2). By continuously expanding, Chandra Asri Group aims to develop not only as an integrated petrochemical Company in Indonesia but also as a chemical Company.

In 2022, the Company acquitted two subsidiaries of PT Krakatau Sarana Infrastruktur (PT KSI); PT Krakatau Daya Listrik (PT KDL), which has now changed its name to PT Krakatau Chandra Energi (PT KCE), and PT Krakatau Tirta Industri (PT KTI). The acquisition process was completed in 2023, with the signing of the closing transaction for the Conditional Shares and Purchase Agreement (CSPA) on 27 February 2023.

The acquisition was done due to synergistic opportunities to collaborate with these two new companies, increase revenue, and optimize asset and operational utilization, hence, they decided to acquire them. The acquisition also aligns with the Company's long-term plans to develop CAP2.

This corporate action indicates the Company's expansion into infrastructure business, particularly in electrical energy, water, and ports. As a result, since 2023, Chandra Asri Group has expanded into a chemical and infrastructure company. It is hoped that this effort will strengthen the Company's foundation, allowing it to maintain its leadership while also contributing to Indonesia's economic growth.

# KRONOLOGI PENCATATAN SAHAM

## Share Listing Chronology

Pada tanggal 25 Juli 1994, PT Tri Polyta Indonesia Tbk (TPI) melakukan penawaran umum atas 6.500.000 American Depositary Shares (ADS) yang mewakili 65.000.000 saham TPI kepada pemodal asing dan dilaksanakan di luar Indonesia. Satu ADS mewakili 10 lembar saham biasa dengan nilai nominal sebesar Rp1.000 per lembar saham dan ditawarkan dengan harga US\$21 per ADS. Sehubungan dengan penawaran umum ADS tersebut, TPI memberikan hak opsi kepada para penjamin emisi, yang sepenuhnya telah digunakan, sehingga seluruh jumlah ADS menjadi 7.475.000 (setara dengan 74.750.000 lembar saham). ADS tersebut tercatat di National Association of Securities Dealers Automated Quotation (NASDAQ).

Pada tanggal 14 Maret 1996, pencatatan ADS TPI dipindahkan dari NASDAQ ke New York Stock Exchange (NYSE). Namun, sejak tanggal 23 Maret 2000, perdagangan saham TPI di NYSE telah dihentikan.

Pada tanggal 6 Mei 1996, para pemegang saham pendiri TPI menjual sebagian sahamnya dengan harga Rp2.840 per lembar saham kepada 400 karyawan. Penjualan saham dilakukan berdasarkan harga ADS TPI di NYSE pada tanggal 3 Mei 1996 sebesar US\$12,125 (US\$1 = Rp2.343). Setiap karyawan membeli paling sedikit 500 lembar saham, dengan jumlah seluruhnya adalah 200.000 lembar saham.

Selanjutnya, TPI memperoleh pernyataan efektif dari Ketua Bapepam (sekarang Otoritas Jasa Keuangan) dengan surat No. S-977/PM/1996 tanggal 14 Juni 1996 sebagai perusahaan publik. TPI melakukan pencatatan pada Bursa Efek Jakarta (sekarang Bursa Efek Indonesia) atas seluruh saham yang telah ditempatkan dan disetor penuh, yakni sejumlah 257.500.000 lembar saham dengan nilai nominal Rp1.000 per lembar saham. Namun, perdagangan saham di Bursa Efek Jakarta ini dihentikan mulai tanggal 3 Februari 2003.

Pada tanggal 22 Mei 2008, TPI melakukan pencatatan kembali (*relisting*) atas seluruh saham yang telah ditempatkan dan disetor penuh sejumlah 728.401.000 lembar dengan nilai nominal Rp1.000 per lembar di Bursa Efek Indonesia.

Dalam rangka mengintegrasikan dan memperkuat usahanya, TPI dan PT Chandra Asri (CA) melakukan penggabungan

On 25 July 1994, PT Tri Polyta Indonesia Tbk (TPI) conducted a public offering of 6,500,000 American Depositary Shares (ADS), representing 65,000,000 TPI shares, to foreign investors and carried it out outside Indonesia. One ADS represents 10 common shares with a nominal value of Rp1,000 per share and was offered at a price of US\$21 per ADS. TPI granted the underwriters option rights in connection with the ADS public offering, which were fully exercised; thus, the total number of ADS was 7,475,000 (equivalent to 74,750,000 shares). The ADS was listed at the National Association of Securities Dealers Automated Quotation (NASDAQ).

On 14 March 1996, the ADS listing of TPI was transferred from the NASDAQ to the New York Stock Exchange (NYSE). However, TPI's shares trading on the NYSE has been suspended since 23 March 2000.

On 6 May 1996, the shareholders of TPI founders sold a portion of their shares at a price of Rp2,840 per share to 400 employees. Share sales were made based on the price of ADS TPI on the NYSE on 3 May 1996, at US\$12,125 (US\$1 = Rp2,343). Each employee purchased at least 500 shares, totaling 200,000 shares.

Next, TPI obtained an effective statement from the Chairman of Bapepam (now the Financial Services Authority) with a letter No. S-977/PM/1996 dated 14 June 1996 as a public company. TPI listed its shares on the Jakarta Stock Exchange (now the Indonesia Stock Exchange) for all issued and fully paid shares, with a total of 257,500,000 shares with a nominal value of Rp1,000 per share. However, share trading on the Jakarta Stock Exchange was suspended on 3 February 2003.

On 22 May 2008, TPI relisted all of its 728,401,000 issued and fully paid shares with a nominal value of Rp1,000 per share on the Indonesia Stock Exchange.

In order to integrate and strengthen their businesses, TPI and PT Chandra Asri (CA) merged their businesses to become

usaha (merger) menjadi PT Chandra Asri Petrochemical Tbk yang efektif pada tanggal 1 Januari 2011, yang kini namanya menjadi PT Chandra Asri Pacific Tbk (Perseroan). # TINJAUAN EKONOMI DAN INDUSTRI

## Economic and Industry Overview

Kondisi perekonomian global pada tahun 2023 masih belum stabil akibat dampak dari pandemi COVID-19 dan perang Rusia-Ukraina. Menurut Dana Moneter Internasional (IMF), hal ini terutama ditunjukkan oleh ketimpangan pertumbuhan antarnegara dan wilayah.

Dalam laporan "World Economic Outlook" edisi Oktober 2023, IMF menyatakan bahwa pertumbuhan ekonomi global di awal tahun 2023 cukup solid. Namun, setelah itu mulai menurun.

Dengan mempertimbangkan berbagai kondisi tersebut, IMF memperkirakan pertumbuhan ekonomi global pada tahun 2023 hanya sebesar 3,0%, menurun dibandingkan tahun 2022 sebesar 3,5%. Bahkan pada tahun 2024, diperkirakan hanya sebesar 2,9%.

Tekanan perekonomian tidak hanya dialami oleh negara-negara maju tetapi juga oleh negara-negara berkembang, yang diperkirakan sedikit melambat karena adanya tantangan tambahan, yakni krisis properti di Tiongkok. Jika pada tahun 2022 tumbuh 4,1%, di tahun 2023 diperkirakan tumbuh 4,0%.

Di tengah kondisi perekonomian global yang dinamis, perekonomian Indonesia masih memiliki ketahanan yang tinggi. Pada tahun 2023, Badan Pusat Statistik (BPS) mengungkapkan perekonomian Indonesia tumbuh sebesar 5,05%, sedikit melambat dari tahun 2022 yang sebesar 5,31%.

Jika dilihat dari sisi sektor usaha, sektor yang tumbuh paling tinggi pada tahun 2023 adalah sektor transportasi dan pergudangan yang mencapai 13,96% (yoy). Sementara sektor pengolahan, yang mencakup industri petrokimia tumbuh 4,64% (yoy). Sektor pengolahan merupakan lapangan usaha yang memberikan kontribusi sebesar 18,67% terhadap perekonomian nasional pada tahun 2023.

Namun, industri petrokimia tidak bisa dipisahkan dari perekonomian global, terutama melihat kondisi di Tiongkok. Menurut Statista (2022), penyedia data statistik global, pangsa pasar Tiongkok dalam penjualan petrokimia global adalah sekitar 45,3%, yang menunjukkan pengaruh yang signifikan.

Oleh karena itu, ketika kondisi perekonomian di negara tersebut melemah, pasokan produk petrokimia di pasar global akan berlimpah sehingga menyebabkan harga produk tertekan. Selain itu, produksi Tiongkok yang melimpah juga akan berdampak pada banyak negara sehingga mengurangi

Global economic conditions remained unstable in 2023 due to the COVID-19 pandemic and the Russia-Ukraine war. According to the International Monetary Fund (IMF), this is primarily reflected in the inequality of growth among countries and regions.

In the October 2023 edition of the 'World Economic Outlook' report, the IMF stated that global economic growth was indeed strong at the beginning of 2023. However, it begins to slope after that.

Taking into account the various conditions, the IMF estimated that global economic growth would only be 3.0% in 2023, a decrease from 3.5% in 2022. Even in 2024, it was projected to be only 2.9%.

Economic pressure is experienced not only by developed countries but also by developing countries, which are estimated to slow down slightly due to additional challenges, particularly the property crisis in China. If it grows 4.1% in 2022, it is expected to grow 4.0% in 2023.

Despite dynamic global economic conditions, the Indonesian economy remains highly resilient. The Central Statistics Agency (BPS) stated that the Indonesian economy grew by 5.05% in 2023, a slight decrease from the 5.31% growth in 2022.

From the business sector perspective, the sector that grew the most in 2023 were the transportation and warehousing sectors, at 13.96% (yoy). While the processing sector, which includes the petrochemical industry, grew 4.64% (yoy). The processing sector is a business sector that contributed 18.67% of the national economy in 2023.

However, the petrochemical industry cannot be separated from the global economy, especially given the conditions in China. According to Statista (2022), a global statistical data provider, China's market share in global petrochemical sales was approximately 45.3%, which shows a significant influence.

As a consequence, when the country's economic conditions decline, the global market will be oversupplied with petrochemical products, causing product prices to fall. In addition, China's ample production will have an impact on many countries, reducing the share of players from other

porsi pemain dari negara lain seperti Indonesia yang menurut data statistik tahun 2022 hanya memiliki tingkat penetrasi pasar sebesar 1,9%.

Kondisi perekonomian Tiongkok memang belum kembali normal, setidaknya seperti pada kondisi sebelum adanya pandemi COVID-19, yang tumbuh sebesar 5,95% pada tahun 2019. Setelah mengalami kontraksi pada tahun 2020, pertumbuhan meningkat menjadi 8,45% pada tahun 2021 sebelum melambat menjadi 2,99% pada tahun 2022. Untuk tahun 2023, IMF memperkirakan pertumbuhan sebesar 5,4%, masih lebih rendah dibandingkan tahun 2019.

countries such as Indonesia, which, according to statistical data in 2022, has a market penetration rate of 1.9%.

China's economic conditions have not yet returned to normal, at least not before the COVID-19 pandemic, when they grew by 5.95% in 2019. Following a contraction in 2020, growth accelerated to 8.45% in 2021 before slowing to 2.99% in 2022. The IMF estimated 5.4% growth in 2023, which was still lower than in 2019.

Pada tanggal 4 Maret 2024, Perseroan melakukan penerbitan atas Obligasi Berkelanjutan IV Chandra Asri Pacific Tahap IV Tahun 2024 sejumlah Rp1,5 triliun (setara dengan US\$96,1 juta).

### PROSPEK USAHA 2024

Dalam laporan "World Economic Outlook" edisi Oktober 2023, Dana Moneter Internasional (IMF) memperkirakan pertumbuhan ekonomi global pada tahun 2024 sebesar 2,9%, lebih rendah sekitar 3,0% dari tahun 2023. Hal ini terutama disebabkan oleh tekanan geopolitik, seperti perang Rusia dan Ukraina, yang terus menghambat pemulihan ekonomi.

Pemerintah Indonesia menguraikan sejumlah faktor yang mempengaruhi perlambatan perekonomian global dalam "Catatan Keuangan dan Rancangan Anggaran Pendapatan dan Belanja Negara Tahun Anggaran 2024". Hal tersebut antara lain tekanan sektor keuangan, kesulitan membayar utang (*debt distress*), dampak eskalasi perang di Ukraina, tingkat inflasi, dan tingginya suku bunga dalam jangka panjang.

Perekonomian Indonesia diperkirakan tumbuh 5,2% pada tahun 2024 dengan mempertimbangkan proyeksi perekonomian global, fundamental perekonomian yang kuat, serta kebijakan fiskal yang cermat, responsif, dan prudent. Kinerja tersebut akan didukung oleh stabilnya inflasi dan nilai tukar rupiah terhadap dolar AS.

Selain itu, sejumlah asumsi yang dibuat pemerintah antara lain: harga minyak US\$80 per barel, nilai tukar rupiah Rp15.000, dan inflasi 2,8%.

Di tengah situasi yang dinamis tersebut, Chandra Asri Group meyakini industri petrokimia yang tetap menjadi bisnis inti Perseroan memiliki prospek yang baik, terutama untuk kebutuhan dalam negeri yang masih sangat tinggi.

Indonesia juga masih tergolong net importir. Sementara itu, Perseroan merupakan pemain industri terintegrasi terbesar di Indonesia, sehingga peluang untuk menembus pasar dalam negeri sangatlah penting. Oleh karena itu, peluang pertumbuhan bagi prospek usaha Perseroan pada tahun mendatang tetap terbuka.

Selain itu, lini bisnis Chandra Asri Group semakin berkembang. Tidak hanya fokus pada industri kimia tetapi juga pada solusi infrastruktur, khususnya di bidang energi dan air, serta

## MATERIAL FACTS AND INFORMATION OCCURRING AFTER THE DATE OF THE ACCOUNTANT REPORT

On 4 March 2024, the Company issued Shelf Registration Bonds IV Chandra Asri Pacific Phase IV Year 2024, amounting to Rp1.5 trillion (equivalent to US\$96.1 million).

### BUSINESS PROSPECTS 2024

The International Monetary Fund (IMF) estimated global economic growth in 2024 at 2.9% in its October 2023 edition of the "World Economic Outlook" report, lower from around 3.0% in 2023. This was primarily due to geopolitical pressures, such as the Russian and Ukrainian wars, which continue to impede economic recovery.

The Indonesian government outlines a number of factors influencing the global economic slowdown in the "Financial Note and Draft State Revenue and Expenditure Budget for Fiscal Year 2024." These include financial sector pressures, difficulties in repaying debts (*debt distress*), the impact of the escalation of the war in Ukraine, inflation rates, and long-term high interest rates.

The Indonesian economy is expected to grow 5.2% in 2024, taking into account global economic projections, strong economic fundamentals, and careful, responsive, and prudent fiscal policy. This performance will be supported by stable inflation and the rupiah's exchange rate against the US dollar.

Aside from that, the government has made a number of assumptions, including the following: the oil price is US\$80 per barrel, the rupiah exchange rate is Rp15,000, and inflation is 2.8%.

In the midst of this dynamic situation, Chandra Asri Group believes that the petrochemical industry, which remains the Company's core business, has good prospects, particularly for domestic demand, which is still very high.

Furthermore, Indonesia is still classified as a net importer. Meanwhile, the Company is Indonesia's largest integrated industrial player, so the opportunity to penetrate the domestic market is essential. As a result, the Company's business prospects for the coming year remain open to growth opportunities.

In addition, Chandra Asri Group's business line is expanding. Not only focusing on the chemical industry but also on infrastructure solutions, especially in the areas of energy and

penyewaan *jetty* dan tangki. Pengembangan lini bisnis ini memperluas peluang pengembangan Perseroan, karena solusi infrastruktur memiliki pasar yang spesifik.

However, the realization of dividend payments will be subject to the Company's cash flow and investment plans, as well as requirements imposed based on loan agreements, regulatory restrictions, and other requirements.

Mengacu pada peraturan perundangan-undangan di Indonesia, keputusan mengenai dividen ditetapkan oleh pemegang saham melalui Rapat Umum Pemegang Saham Tahunan. Rekomendasinya berasal dari Dewan Komisaris dan Direksi. Perseroan dapat membagikan dividen apabila Perseroan mencatatkan saldo laba positif dan setelah dilakukan alokasi untuk dana cadangan.

Rekomendasi, penetapan besaran dan pembayaran dividen oleh Direksi serta persetujuan pembagian dividen oleh Dewan Komisaris merupakan kebijaksanaan mereka sendiri. Penerapan tersebut akan bergantung pada sejumlah faktor, termasuk laba bersih Perusahaan, ketersediaan cadangan wajib, kebutuhan belanja modal, hasil usaha, dan arus kas.

Hal tersebut selanjutnya tergantung pada berbagai faktor termasuk keberhasilan penerapan strategi bisnis Perseroan, pertimbangan keuangan, persaingan, peraturan yang berlaku, dan kondisi perekonomian secara umum. Selain itu, faktor-faktor lain yang spesifik terkait Perseroan dan industrinya. Banyak dari faktor-faktor tersebut berada di luar kendali Perseroan.

Sebelum berakhirnya tahun buku, dividen interim dapat dibagikan sepanjang diizinkan berdasarkan Anggaran Dasar Perseroan. Ketentuannya, dividen interim tidak mengakibatkan aset kekayaan bersih Perseroan menjadi kurang dari jumlah total modal ditempatkan dan disetor penuh dan cadangan wajib.

Pembagian tersebut ditentukan Direksi setelah terlebih dahulu disetujui Dewan Komisaris. Jika, setelah berakhirnya tahun buku yang dimaksud, Perseroan mengalami kerugian, dividen interim yang sudah dibagikan harus dikembalikan. Dewan Direksi dan Dewan Komisaris akan bertanggung jawab secara tanggung renteng dalam hal dividen interim tidak dikembalikan kepada Perseroan.

Apabila keputusan dibuat untuk membagikan dividen, dividen akan dibayarkan dalam Rupiah Indonesia. Pemegang saham pada tanggal pencatatan yang berlaku akan berhak atas jumlah penuh dividen yang disetujui, yang dapat dikenai pajak penghasilan (*withholding tax*) yang berlaku di Indonesia. Dividen yang diterima pemegang saham asing akan dikenai pajak penghasilan Indonesia maksimum sebesar 20% atau sebesar ketentuan peraturan perpajakan yang berlaku.

Referring to the statutory regulations in Indonesia, the decision regarding dividends is determined by shareholders through the Annual General Meeting of Shareholders. The recommendation comes from the Board of Commissioners and the Board of Directors. The Company may declare dividends if the Company has positive retained earnings after deducting the reserves fund.

The recommendation, determination of the amount and payment of dividends by the Board of Directors and approval of the distribution of dividends by the Board of Commissioners are at their own discretion. Such implementation will depend on a number of factors, including the Company's net income, availability of mandatory reserves, capital expenditure requirements, results of operations, and cash flows.

These, in turn, depend on various factors, including the successful implementation of the Company's business strategy, financial considerations, competition, regulatory considerations, and general economic conditions. In addition, there are other factors that may be specific to the Company and its industry. Many of these factors are beyond the Company's control.

Prior to the end of the financial year, interim dividends may be distributed as long as permitted by the Company's Articles of Association. The provision is that the interim dividend does not result in the Company's net assets becoming less than the total amount of issued and paid-up capital and the compulsory reserves.

The distribution is determined by the Board of Directors after first being approved by the Board of Commissioners. If, after the end of the relevant financial year, the Company suffers losses, the distributed interim dividend must be returned. The Board of Directors and Board of Commissioners will be jointly and severally responsible in the event that the interim dividend is not returned to the Company.

To the extent a decision was made to distribute dividends, dividends will be paid in Indonesian Rupiah. Shareholders on the applicable recording date will be entitled to the full amount of the dividends approved, which is subject to the applicable withholding tax in Indonesia. Dividends received by non-Indonesian shareholders will be subject to a maximum of 20% Indonesian income tax or as stipulated by the prevailing tax regulations.

## BOARD OF COMMISSIONERS MEETINGS

### Policy

The Board of Commissioners meeting-related policy set by the Company, among others, refers to Financial Services Authority Regulation No. 33/POJK.04/2014 on the Board of Directors and Board of Commissioners of Issuers or Public Companies. The Board of Commissioners is required to hold a meeting at least once every two months. The meeting can be held if it is attended by a majority of all members of the Board of Commissioners.

The Board of Commissioners is also required to hold regular meetings with the Board of Directors, at least once every four months. The annual report must include all attendance at the Board of Commissioners meeting.

The decision-making process for these two meetings is based on deliberation to reach a consensus, with the provision that the quorum for all Board of Commissioners meetings is more than half of the total number of members present. In the event that deliberation to reach consensus cannot be reached, the decision can be made by a majority vote of those present at the meeting.

## NOMINASI DAN REMUNERASI DEWAN KOMISARIS DAN DIREKSI

### Nomination and Remuneration of the Board of Commissioners and the Board of Directors

#### NOMINASI DEWAN KOMISARIS DAN DIREKSI

##### Kebijakan

Kebijakan Chandra Asri Group dalam nominasi Dewan Komisaris dan Direksi mengacu pada Peraturan OJK No. 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik. Regulasi tersebut menegaskan bahwa Dewan Komisaris dan Direksi diangkat dan diberhentikan oleh Rapat Umum Pemegang Saham (RUPS).

Pihak yang diangkat sebagai Dewan Komisaris dan Direksi adalah orang perseorangan yang memenuhi syarat saat diangkat dan selama menjabat. Kendati demikian, Dewan Komisaris dan Direksi dapat mengajukan pengunduran diri sebelum masa jabatannya berakhir yang kemudian diputuskan oleh RUPS.

#### NOMINATION OF THE BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS

##### Policy

The Chandra Asri Group's policy for nominating the Board of Commissioners and Board of Directors is based on OJK Regulation No. 33/POJK.04/2014 on the Boards of Directors and Commissioners of Issuers or Public Companies. The regulation states that the Board of Commissioners and Board of Directors are appointed and dismissed by the General Meeting of Shareholders (GMS).

Individuals appointed to the Board of Commissioners and the Board of Directors must meet the requirements both upon appointment and during their term of office. However, the Board of Commissioners and the Board of Directors may resign before the end of their terms, which will be decided by the GMS.

### Prosedur Nominasi

Prosedur nominasi untuk calon Dewan Komisaris dan Direksi diawali oleh usulan pemegang saham dengan kepemilikan 10% atau lebih. Usulan tersebut disampaikan ke Direksi. Selanjutnya, Direksi meminta rekomendasi dari Fungsi Nominasi yang saat ini dijalankan oleh Dewan Komisaris. Kemudian Dewan Komisaris mengeluarkan rekomendasi tertulis untuk diajukan ke RUPS.

Proses nominasi yang berlaku di Perseroan ini telah sejalan dengan Peraturan OJK No. 33/POJK.04/2014 yang menyebutkan: Usulan pengangkatan, pemberhentian, dan/atau penggantian anggota Direksi kepada RUPS harus memperhatikan rekomendasi dari Dewan Komisaris atau komite yang menjalankan fungsi nominasi.

## REMUNERASI DEWAN KOMISARIS DAN DIREKSI

### Kebijakan

Kebijakan pemberian remunerasi bagi Dewan Komisaris dan Direksi di lingkungan Perseroan mengacu pada Undang-Undang No. 40 Tahun 2007 mengenai Perseroan Terbatas, yang penetapannya mempertimbangkan sejumlah aspek, antara lain:

1. Kinerja keuangan dan pencapaian *Corporate Scorecard* Perseroan;
2. Prestasi kerja individu;
3. Kewajaran dengan *peer* perusahaan lainnya dalam industri sejenis; dan
4. Pertimbangan sasaran dan strategi jangka panjang Perseroan.

Remunerasi Dewan Komisaris dan Direksi ditentukan oleh RUPS atau melalui pelimpahan wewenang RUPS kepada Dewan Komisaris. Dalam mengambil keputusan terkait struktur dan besaran remunerasi, RUPS mempertimbangkan masukan dari Komite Remunerasi yang disampaikan oleh Dewan Komisaris.

Dasar pertimbangan Komite Remunerasi dalam memberikan masukan terkait remunerasi Dewan Komisaris dan Direksi adalah:

1. Remunerasi yang berlaku pada industri yang sesuai dengan kegiatan usaha Perseroan serta usaha sejenis yang sama skalanya dalam industrinya;
2. Tugas, tanggung jawab, dan wewenang anggota Dewan Komisaris dan Direksi yang dikaitkan dengan pencapaian tujuan dan kinerja Perseroan;

### Nomination Procedure

The nomination process for candidates for the Board of Commissioners and Board of Directors begins with a proposal from shareholders who own 10% or more of the shares. The proposal is submitted to the Board of Directors. Furthermore, the Board of Directors requests recommendations from the Nomination Function, which is currently overseen by the Board of Commissioners. Subsequently, the Board of Commissioners issues a written recommendation to the GMS.

The nomination process that applies to the Company is in line with OJK Regulation No. 33/POJK.04/2014, which states: Proposals for the appointment, dismissal, and/or replacement of members of the Board of Directors to the GMS must take into account the recommendations of the Board of Commissioners or committees conducting the nomination function.

## REMUNERATION OF THE BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS

### Policy

The remuneration policy for the Board of Commissioners and Board of Directors within the Company refers to Law No. 40/2007 on Limited Liability Companies, the stipulation of which takes into account a number of aspects, including:

1. The Company's financial performance and Corporate Scorecard achievement;
2. Individual work accomplishment;
3. Fairness with other peer companies in similar industries; and
4. Consideration on the Company's long-term goals and strategies.

The remuneration for the Board of Commissioners and the Board of Directors is determined by the GMS or by delegating the authority of the GMS to the Board of Commissioners. In making decisions on remuneration structure and amount, the GMS considers the recommendation from the Remuneration Committee that has been submitted by the Board of Commissioners.

The basis of the consideration by the Remuneration Committee in providing a recommendation for the remuneration of the Board of Commissioners and Board of Directors is as follows:

1. The current remuneration in the industry which is relevant to the Company's business activities as well as similar businesses with the same scale in the industry;

| 1.  | <p><b>Siklus Industri Petrokimia yang Dinamis</b></p> <p>Siklus industri petrokimia dan volatilitas harga produk dapat mempengaruhi profitabilitas Perseroan secara material dan negatif. Tingkat dan margin utilisasi kapasitas dalam industri petrokimia secara historis telah mengalami tingkat fluktuasi musiman yang tinggi. Harga produk-produk petrokimia sensitif terhadap perubahan pada penawaran dan permintaan, baik secara regional maupun internasional.</p> <p>Permintaan akan produk-produk petrokimia secara umum berkorelasi positif dengan tingkat aktivitas ekonomi dan pertumbuhan PDB serta sangat bergantung pada permintaan dan kinerja negara-negara di kawasan Asia Pasifik, khususnya di Tiongkok, dimana kondisi ekonomi negara-negara tersebut cenderung melemah sehingga cenderung mengurangi permintaan. Di sisi lain, pasokan dipengaruhi oleh penambahan kapasitas yang signifikan. Jika penambahan tersebut tidak sesuai dengan pertumbuhan permintaan yang sesuai, maka tingkat dan margin operasi industri rata-rata akan mengalami tekanan. Pasokan merupakan komponen yang sangat penting bagi harga produk petrokimia Perseroan, yang pada akhirnya akan mempengaruhi margin kotor Perseroan.</p> <p>Secara historis, siklus industri petrokimia telah beberapa kali mengalami periode defisit pasokan sehingga menyebabkan tingkat dan margin operasi yang tinggi. Hal ini kemudian diikuti oleh periode surplus pasokan, terutama karena penambahan kapasitas yang signifikan, yang menyebabkan berkurangnya tingkat dan margin operasi.</p> <p>Waktu, tingkatan, atau durasi siklus turun (<i>downcycle</i>) industri petrokimia yang tidak sepenuhnya dapat diprediksi secara akurat oleh Perseroan atau industri secara keseluruhan dapat memberikan dampak material dan merugikan terhadap profitabilitas Perseroan.</p> <p><b>Dynamic Petrochemical Industry Cycle</b></p> <p>The petrochemical industry cycle and product price volatility can materially and negatively affect the Company's profitability. Capacity utilization rates and margins in the petrochemical industry have historically experienced high seasonal fluctuation. Prices of petrochemical products are sensitive to changes in supply and demand, both regionally and internationally.</p> <p>The demand for petrochemical products is generally positively correlated with the level of economic activity and GDP growth and is highly dependent on the demand and performance of countries in the Asia Pacific region, especially in China, where the economic conditions of these countries tend to weaken so that it tends to reduce demand. On the other hand, supply is affected by significant capacity additions. If these additions are not matched by appropriate demand growth, the average industrial operating level and margin will be under pressure. Supply is a very important component for the price of the Company's petrochemical products, which in turn will affect the Company's gross margin.</p> <p>Historically, the petrochemical industry cycle has experienced several periods of supply deficits resulting in high operating rates and margins. This was followed by a period of supply surplus, mainly due to significant capacity additions, which resulted in reduced operating levels and margins.</p> <p>The timing, level or duration of the petrochemical industry downcycle which cannot be not fully and accurately predicted by the Company or the overall industry could have a material and adverse impact on the Company's profitability.</p> | <ol style="list-style-type: none"> <li>Mengintegrasikan turunan produk dan mendiversifikasikan produk yang ditawarkan, termasuk produk dengan nilai tambah tinggi;</li> <li>Melakukan diversifikasi portofolio investasi yang dapat menstabilkan kinerja Perusahaan;</li> <li>Mempertahankan tingkat produksi yang optimal sebagai respon terhadap keadaan pasar dan kondisi perekonomian melalui penerapan metode produksi yang aman dan efisien;</li> <li>Secara berkesinambungan menerapkan program efisiensi untuk meningkatkan produksi, pengurangan pemakaian energi, dan pengurangan biaya operasi per unit;</li> <li>Meningkatkan pangsa pasar domestik dan ekspor melalui pengembangan pelanggan baru;</li> <li>Meningkatkan penjualan domestik dan ekspor dengan sistem kontrak;</li> <li>Menurunkan biaya bahan baku utama dengan mencari sumber alternatif bahan baku, jika memungkinkan, dan mengusahakan memperbanyak sumber pemasok bahan baku.</li> </ol> <ol style="list-style-type: none"> <li>Integrating product derivatives and diversifying the products offered, including products with high added value;</li> <li>Diversifying the investment portfolio which can stabilize the Company's performance;</li> <li>Maintaining optimal production levels in response to market and economic conditions through the application of safe and efficient production methods;</li> <li>Continuously implementing efficiency programs to increase production, reduce energy use, and reduce operating costs per unit;</li> <li>Increasing domestic and export market share through new customers development;</li> <li>Increasing domestic and export sales with contract system;</li> <li>Reducing the cost of main raw materials by seeking alternative sources, if possible, and seeking to increase number of raw material suppliers.</li> </ol> |

| 2.  | <p><b>Kompetisi yang Semakin Meningkat</b></p> <p>Perseroan menjual produk di pasar yang sangat kompetitif. Karena sifat komoditas produk-produk utama Perseroan, persaingan di pasar-pasar ini sebagian besar didasari oleh harga, keamanan dan keandalan pasokan, kedekatan, dan layanan pelanggan. Kehilangan daya kompetitif dan pangsa pasar di Indonesia atau peningkatan kompetisi global yang berdampak pada pertumbuhan, profitabilitas, dan hasil usaha di masa yang akan datang.</p> <p>Pasar Indonesia untuk Ethylene, Propylene, Polyethylene, Polypropylene, Styrene Monomer dan Butadiene sangat kompetitif. Tidak terdapat jaminan bahwa pesaing tambahan atau pesaing yang ada saat ini tidak akan memulai atau memperluas produksi produk-produk yang dihasilkan oleh Perseroan atau menggantikan produk-produk tersebut atau mengintensifkan persaingan harga, khususnya oleh para produsen yang memiliki akses ke bahan baku yang lebih murah, atau mengenalkan teknologi yang lebih maju atau pabrik produksi yang lebih terpadu, sehingga dapat meningkatkan persaingan dan dapat memberikan dampak negatif dan material terhadap hasil operasional Perseroan.</p> <p>Perseroan juga memiliki pesaing utama dengan produsen petrokimia lainnya di kawasan Timur Tengah dan sepanjang Asia Tenggara. Para produsen petrokimia ini, yang banyak di antaranya lebih besar dari Perseroan dan mungkin memiliki sumber pendanaan yang lebih besar daripada Perseroan, mendapat keuntungan dari skala ekonomi dan efisiensi operasi yang lebih besar.</p> <p>Perseroan yakin bahwa Naphtha Cracker Perseroan tergolong kompetitif dibandingkan dengan Naphtha Cracker lainnya. Namun demikian, <i>ethane cracker</i> di Timur Tengah dan <i>shale gas</i> Amerika Serikat biasanya menghasilkan Ethylene dengan biaya terendah, terutama karena ketersediaan bahan baku dengan biaya rendah. Kenaikan pasokan produk berbiaya rendah ke pasar Indonesia dari pesaing Perseroan di Timur Tengah atau Amerika Serikat dapat menyebabkan tekanan pada harga produk di pasar global untuk produk-produk Perseroan secara umum dan penurunan margin bagi Perseroan.</p> <p><b>Increased Competition</b></p> <p>The Company sells products in a very competitive market. Due to the commodity nature of the Company's main products, competition in these markets is largely based on price, security and reliability of supply, proximity, and customer service. Loss of competitive power and market share in Indonesia or increased global competition impact future growth, profitability, and results of operations.</p> <p>The Indonesian market for Ethylene, Propylene, Polyethylene, Polypropylene, Styrene Monomer and Butadiene is very competitive. There is no guarantee that additional competitors or existing competitors will not start or expand production of products produced by the Company or replace these products or intensify price competition, especially by producers who have access to cheaper raw materials, or introduce more advanced technology or more integrated production plants, which could increase competition and could have a material and negative impact on the Company's operating results.</p> <p>The Company also has major competitors with other petrochemical producers in the Middle East region and throughout Southeast Asia. These petrochemical producers, many of which are larger than the Company and may have larger sources of funding than the Company, benefit from greater economies of scale and operating efficiencies.</p> <p>The Company believes that the Company's Naphtha Cracker is classified as competitive compared to other naphtha crackers. However, ethane crackers in the Middle East and shale gas in the United States typically produce Ethylene at the lowest cost, mainly due to the availability of the low cost feedstock. An increase in the supply of low-cost products to the Indonesian market from the Company's competitors in the Middle East or the United States could lead to pressure on product prices in the global market for Company's products in general and decrease margins for the Company.</p> | <ol style="list-style-type: none"> <li>Mempertahankan hubungan yang kuat antara Perseroan dengan basis pelanggan yang luas dan setia;</li> <li>Meningkatkan kualitas pelayanan <i>technical service assistance</i> kepada pelanggan guna memelihara tingkat kepuasan pelanggan yang baik;</li> <li>Memanfaatkan keunggulan Perseroan dalam menjual, serta mengirimkan produk Olefins Perseroan kepada sebagian pelanggan melalui jalur pipa yang tersambung langsung dengan pelanggan utama Olefins;</li> <li>Fokus terhadap peningkatan efisiensi operasional dan pengendalian biaya konversi;</li> <li>Mengoptimalkan implementasi <i>Enterprise Resources Planning</i> (ERP).</li> </ol> <ol style="list-style-type: none"> <li>Maintaining a strong relationship between the Company and a broad and loyal customer base;</li> <li>Improving the quality of technical service assistance to customers in order to maintain a good level of customer satisfaction;</li> <li>Utilizing the Company's advantages in selling and delivering the Company's Olefins products to several customers through pipelines that are directly connected to the main Olefins customers;</li> <li>Focusing on increasing operational efficiency and controlling conversion costs;</li> <li>Optimizing the implementation of Enterprise Resources Planning (ERP).</li> </ol> |

| 3.  | <p><b>Fluktuasi Biaya Bahan Baku</b></p> <p>Fluktuasi ini mengakibatkan peningkatan biaya operasional dan berakibat sebagian terhadap kinerja operasional, arus kas, dan margin. Bahan baku yang digunakan untuk memproduksi produk-produk Perseroan merupakan komoditas yang bergantung pada dorongan pasar internasional dan sebagian. Hasil operasional dan margin Perseroan di masa lampau telah dipengaruhi oleh fluktuasi biaya bahan baku. Fluktuasi biaya bahan baku ini diperkirakan masih akan terus mempengaruhi operasi dan margin Perseroan. Biaya Naphtha, yang merupakan bahan baku utama yang digunakan untuk menghasilkan produk-produk Perseroan dan sebagian besar dibeli dari pihak ketiga yang sebagian besar mewakili biaya pendapatan Perseroan. Selain itu, Perseroan juga mengeluarkan biaya bahan baku lainnya, yaitu untuk Propylene yang digunakan dalam memproduksi Polypropylene dan Benzene yang digunakan dalam memproduksi Styrene Monomer.</p> <p>Harga Naphtha umumnya mengikuti tren harga minyak mentah dan bervariasi, tergantung pada kondisi pasar minyak mentah yang belakangan ini sangat bergejolak. Kenaikan harga Naphtha tidak selalu sejalan dengan perubahan harga untuk produk-produk Perseroan. Akibatnya, kenaikan harga Naphtha dapat memberi dampak material dan merugikan terhadap margin dan arus kas Perseroan, sejauh Perseroan tidak dapat meneruskan kenaikan tersebut ke harga jual produk. Fluktuasi biaya Naphtha yang signifikan juga dapat menekan margin Perseroan karena kenaikan harga penjualan tidak sebesar kenaikan harga Naphtha.</p> <p><b>Raw Material Cost Fluctuations</b></p> <p>These fluctuations resulted in increased operating costs and had a partial impact on operating performance, cash flow, and margins. The raw materials used to produce the Company's products are commodities that depend on international market forces. The Company's operating results and margins have in the past been affected by fluctuations in raw material costs. It is estimated that fluctuations in raw material costs will continue to affect the Company's operations and margins. The cost of Naphtha, which is the main raw material used to produce the Company's products, is mostly purchased from third parties and most of which represent the Company's cost of revenue. In addition, the Company also incurs other raw material costs, namely for Propylene which is used in producing Polypropylene and Benzene which is used in producing Styrene Monomer.</p> <p>Naphtha price in general follows the trend of crude oil prices and vary, depending on the crude oil market conditions which have been very volatile lately. Increases in Naphtha price are not always in line with price changes for the Company's products. As a result, an increase in Naphtha prices could have a material and adverse effect on the Company's margins and cash flow, to the extent that the Company is unable to carry the increase into product selling prices. Significant fluctuations in Naphtha costs can also reduce the Company's margins because the increase in selling price is not as big as the increase in Naphtha price.</p> | <ol style="list-style-type: none"> <li>Menjaga fleksibilitas dengan pengadaan LPG dan kondensat, ketika secara ekonomis dapat menjadi bahan baku alternatif untuk mengurangi biaya bahan baku;</li> <li>Melanjutkan mencari pasokan bahan baku (hulu) yang terintegrasi;</li> <li>Bekerja sama dengan penyedia bahan baku dengan harga dan skema kompetitif;</li> <li>Memanfaatkan sinergi dengan mitra strategis, SCG Chemicals &amp; Thailoil, untuk pengadaan bahan baku.</li> </ol> <ol style="list-style-type: none"> <li>Maintaining flexibility through the procurement of LPG and condensate, when economically it can be an alternative raw material to reduce raw material costs;</li> <li>Continuing to seek integrated (upstream) raw material supply;</li> <li>Cooperate with raw material providers with competitive prices and schemes;</li> <li>Utilizing synergies with strategic partners, SCG Chemicals &amp; Thailoil, for the procurement of raw materials.</li> </ol> |
| 4.  | <p><b>Nilai Tukar Mata Uang Asing dan Tingkat Suku Bunga</b></p> <p>Pendapatan, biaya, dan utang Perseroan sebagian besar didenominasi dalam dolar Amerika Serikat karena Perseroan memiliki sistem pelaporan dalam mata uang asing, yakni dalam dolar Amerika Serikat. Namun demikian, Perseroan beroperasi di Indonesia sehingga fluktuasi dari rupiah terhadap dolar Amerika Serikat akan mempengaruhi kinerja keuangan Perseroan, terutama terhadap pajak, beban gaji, dan pembelian produk dan servis lokal. Untuk itu, Perseroan senantiasa menjaga nilai saldo rupiah dengan tujuan untuk memberikan perlindungan nilai ekonomi terhadap pengeluaran yang didenominasi dalam rupiah.</p> <p><b>Foreign Currency Exchange Rates and Interest Rates</b></p> <p>Most of the Company's revenues, expenses, and debts are denominated in United States dollars because the Company has a reporting system in foreign currency, namely in United States dollars. However, the Company operates in Indonesia so that fluctuations from the rupiah against the United States dollar will affect the Company's financial performance, especially on taxes, salary expenses, and purchases of local products and services. For this reason, the Company always maintains the value of the rupiah balance with the aim of providing economic value protection for expenditures denominated in rupiah.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | <ol style="list-style-type: none"> <li><i>Interest rate swap</i> untuk memitigasi risiko meningkatnya suku bunga;</li> <li><i>Forward foreign exchange</i> untuk memitigasi eksposur terhadap fluktuasi nilai tukar mata uang asing; dan</li> <li><i>Cross currency interest rate swaps</i> untuk memitigasi risiko dari tingkat suku bunga dan nilai Obligasi Rupiah Perusahaan terhadap dolar AS yang merupakan mata uang fungsional Perseroan.</li> </ol> <ol style="list-style-type: none"> <li>Interest rate swaps to mitigate the risk of rising interest rates;</li> <li>Forward foreign exchange to mitigate exposure to fluctuations in foreign exchange rates; and</li> <li>Cross currency interest rate swaps to mitigate risks from interest rates and the value of the Company's Rupiah Bonds against the US dollar which is the Company's functional currency.</li> </ol>                                                                                                     |

| 5.  | <p><b>Faktor Eksternal pada Kegiatan Operasional</b></p> <p>Kegiatan operasional Perseroan tergantung pada produksi dan faktor-faktor lain di luar kendali Perseroan, seperti pasokan listrik, pemadaman yang tidak terjadwal, pasokan bahan baku, gangguan akibat kecelakaan, atau bencana alam.</p> <p>Seluruh fasilitas produksi pabrik petrokimia Perseroan di Cilegon dan Serang di Provinsi Banten membutuhkan 70MW tenaga listrik selama operasi normal. Pabrik-pabrik tersebut membutuhkan pasokan listrik yang terus menerus untuk mempertahankan operasi yang stabil, sehingga pemadaman listrik yang signifikan dapat memberikan dampak material dan merugikan terhadap kegiatan usaha, hasil operasional, dan kondisi keuangan Perseroan. Untuk Naphtha Cracker dan Polyethylene, Perseroan mendapatkan sekitar separuh kebutuhan dayanya dari PT Perusahaan Listrik Negara Persero (PLN) sedangkan selebihnya diperoleh dari Gas Turbine Generator (GTG) berkapasitas 33MW dan Steam Turbine Generator (STG) berkapasitas 20MW yang dimiliki Perseroan dimana salah satunya digunakan sebagai sumber listrik cadangan jika terjadi kehilangan daya dari grid. Bahan bakar yang digunakan untuk pembangkitan listrik dari GTG didapatkan dari kelebihan methane yang merupakan produk samping dari Naphtha Cracker.</p> <p>Perseroan melakukan kesepakatan dengan PT Perusahaan Gas Negara (Persero) Tbk dan PT Banten Inti Gasindo dalam penyediaan bahan bakar gas untuk menghasilkan uap/steam dan menggunakan sebagian uap yang dihasilkan oleh Naphtha Cracking Furnaces dan tiga boiler untuk mengoperasikan STG. Sedangkan, pabrik Polypropylene, New Polyethylene, Butadiene dan Styrene Monomer Perseroan mendapatkan seluruh kebutuhan listrik dari PLN. Jika pasokan listrik, gas, atau uap tersebut tidak tersedia karena berbagai alasan, maka Perseroan harus mengandalkan <i>emergency generator</i>, yang tidak dapat memenuhi kebutuhan operasional semua pabrik secara normal.</p> <p>Di samping itu, terdapat risiko hambatan produksi, seperti keterbatasan kapasitas, kegagalan mekanis dan sistem, keterlambatan konstruksi/pengembangan kualitas, dan penundaan pengiriman peralatan mesin yang menyebabkan tertahannya produksi dan berkurangnya <i>output</i>. Pengiriman Naphtha tepat waktu merupakan hal paling penting untuk kelangsungan produksi yang beroperasi secara kontinyu sepanjang tahun. Keterlambatan pasokan bahan baku Naphtha akan berdampak pada potensi kerugian produksi dan biaya produksi yang lebih tinggi. Lebih lanjut, Perseroan memiliki jaringan pipa sepanjang 45 kilometer dari kompleks pabrik Perseroan ke sejumlah pelanggan di kawasan Cilegon dan Serang untuk distribusi produk Ethylene yang dihasilkan Perseroan. Jaringan pipa tersebut tidak seluruhnya berada pada lahan milik Perseroan. Oleh karena itu, terdapat risiko atas gangguan keberlangsungan jaringan pipa Ethylene yang diakibatkan aktivitas warga yang berada di sekitar lokasi pipa.</p> <p>Operasi produksi Perseroan juga dapat terganggu akibat dari bencana alam. Kepulauan Indonesia merupakan salah satu daerah dengan kondisi gunung berapi yang paling aktif di dunia. Komplek pabrik Perseroan yang berlokasi di Cilegon dan Serang di Provinsi Banten hanya memiliki jarak sekitar 50 kilometer dari Gunung Anak Krakatau yang dikenal dengan aktivitas vulkanik dan seismiknya sehingga berpotensi menyebabkan letusan gunung, gempa bumi, tsunami, atau gelombang pasang.</p> <p>Pabrik-pabrik Perseroan bergantung pada pengoperasian berkelanjutan dari fasilitas dermaga, utilitas, dan fasilitas pendukung lainnya, serta jaringan pipa dan infrastruktur yang terkait lainnya. Gangguan terhadap pengoperasian salah satu bagian fasilitas ini dapat berdampak signifikan terhadap kemampuan Perseroan untuk terus mengoperasikan fasilitas lainnya dan secara signifikan dapat mempengaruhi kemampuan Perseroan untuk menjalankan kegiatan usaha Perseroan dalam keadaan normal.</p> | <ol style="list-style-type: none"> <li>Untuk memastikan keandalan pasokan listrik pada pabrik Naphtha Cracker dan Polyethylene, Perseroan memasang trafo yang tersambung langsung dengan jaringan 150KV milik PLN untuk menunjang keandalan operasional pabrik Polypropylene, Butadiene, dan New Polyethylene;</li> <li>Dalam hal terjadinya ketiadaan pasokan listrik secara mendadak dari PLN (<i>black out</i>) terutama untuk Naphtha Cracker dan Polyethylene, Perseroan mempunyai <i>power load shedding system</i> yang akan menghentikan suplai listrik secara otomatis ke pabrik Polyethylene, namun tidak mengganggu operasional Naphtha Cracker. Hal ini dikarenakan pasokan listrik untuk Naphtha Cracker didapat dari GTG dan STG. Dengan demikian, kerugian akibat ketiadaan pasokan listrik dari PLN dapat diminimalisir;</li> <li>Guna mengurangi risiko terganggunya pengadaan bahan baku Naphtha, Perseroan menjaga ketersediaan Naphtha dalam jumlah tertentu di tangki cadangan untuk menjamin kelangsungan produksi;</li> <li>Perseroan melakukan pemeliharaan jaringan pipa Ethylene secara terjadwal dengan melakukan patroli yang juga melibatkan aparat setempat. Selain itu, Perseroan juga secara aktif mengadakan sosialisasi (<i>community awareness</i>) mengenai pengamanan lokasi jalur pipa kepada warga yang bermukim di dekat lokasi jalur pipa;</li> <li>Dalam memastikan keandalan pabrik, filosofi pemeliharaan Perseroan didasarkan pada teknik pencegahan dan terjadwal. Departemen Inspeksi Perseroan menggunakan <i>Shell Risk Based Inspection System</i> (RBI) dan Perseroan menggunakan SAP untuk merencanakan pemeliharaan. Selain program pemeliharaan rutin, Perseroan menjalankan <i>Turn Around Maintenance</i> pabrik-pabriknya secara berkala guna melakukan perbaikan besar dan pemeliharaan terjadwal atas mesin utama, pembaharuan terjadwal untuk memenuhi atau melampaui persyaratan ketentuan. Hal ini dilaksanakan setiap 4-5 tahun untuk pabrik Naphtha Cracker, 2 tahun untuk Styrene Monomer, dan setiap tahun untuk pabrik Polypropylene. Baru-baru ini pada tahun 2019, Perseroan melakukan <i>Turn Around Maintenance</i> yang berlangsung selama 51 hari;</li> <li>Perseroan memiliki program perlindungan asuransi yang komprehensif, termasuk di dalamnya perlindungan terhadap bencana alam, serta mengimplementasikan <i>business continuity management</i> dan <i>disaster recovery system</i> untuk mempersiapkan kelangsungan usaha jika terjadi bencana yang tidak direncanakan.</li> </ol> |

|     | <p><b>External Factors in Operational Activities</b></p> <p>The Company's operational activities depend on production and other factors beyond the Company's control, such as power supply, unscheduled outages, supply of raw materials, interruptions due to accidents or natural disasters.</p> <p>All of the Company's production facilities in Cilegon and Serang in Banten Province require 70MW of electricity during normal operation. These plants require a continuous supply of electricity to maintain stable operations, so a significant power outage could have a material and adverse effect on the Company's business activities, results of operations, and financial condition. For Naphtha Cracker and Polyethylene, the Company obtains about half of its power needs from PT Perusahaan Listrik Negara Persero (PLN), while the rest is obtained from a Gas Turbine Generator (GTG) with a capacity of 33MW and a Steam Turbine Generator (STG) with a capacity of 20MW owned by the Company, one of which is used as a backup power source in case of loss of power from the grid. The fuel used to generate electricity from GTG is obtained from excess methane which is a by-product of the Naphtha Cracker.</p> <p>The Company entered into an agreement with PT Perusahaan Gas Negara (Persero) Tbk and PT Banten Inti Gasindo in supplying gas fuel to produce steam and using part of the steam produced by the Naphtha Cracking Furnaces and three boilers to operate the STG. Meanwhile, the Company's Polypropylene, New Polyethylene, Butadiene, and Styrene Monomer plants obtain all of their electricity needs from PLN. If the supply of electricity, gas, or steam is not available for various reasons, the Company must rely on emergency generators, which cannot meet the normal operational needs of all plants.</p> <p>In addition, there is a risk of production constraints, such as limited capacity, mechanical and system failures, delays in quality construction/development, and delays in the delivery of machine tools which cause production delays and reduced output. On-time Naphtha delivery is the most important thing for the continuity of production which operates continuously throughout the year. Delays in the supply of Naphtha raw materials will have an impact on potential production losses and higher production costs. Furthermore, the Company has a pipeline network of 45 kilometers from the Company's factory complex to a number of customers in the Cilegon and Serang areas for the distribution of Ethylene products produced by the Company. The pipeline network is not entirely located on the Company's land. Therefore, there is a risk of disruption to the sustainability of the Ethylene pipeline network due to the activities of residents around the pipe location.</p> <p>The Company's production operations can also be disrupted due to natural disasters. The Indonesian archipelago is one of the most active volcanic areas in the world. The Company's plant complexes located in Cilegon and Serang in Banten Province are only about 50 kilometers from Mount Anak Krakatau which is known for its volcanic and seismic activity that has the potential to cause volcanic eruption, earthquake, tsunami, or tidal waves.</p> <p>The Company's plants depend on the ongoing operation of its jetties, utilities, and other support facilities, as well as pipelines and other related infrastructure. Disruption to the operation of one part of this facilities can have a significant impact on the Company's ability to continue operating other facilities and can significantly affect the Company's ability to carry out the Company's business activities under normal circumstances.</p> | <ol style="list-style-type: none"> <li>To ensure the reliability supply of electricity to the Naphtha Cracker and Polyethylene plants, the Company installed transformers that are directly connected to PLN's 150KV network to support operational reliability for the Polypropylene, Butadiene, and New Polyethylene plants;</li> <li>In the event of a sudden absence of electricity supply from PLN (black out), especially for Naphtha Cracker and Polyethylene, the Company has a power load shedding system that will automatically stop supplying electricity to the Polyethylene plant, but not to disrupt Naphtha Cracker operations. This is due to electricity supply for Naphtha Cracker is obtained from Gas turbine generator (GTG) and Steam turbine Generator (STG). Thus, losses due to the absence of electricity supply from PLN can be minimized;</li> <li>In order to reduce the risk of disruption in the supply of Naphtha raw materials, the Company maintains the availability of certain amount of Naphtha in reserve tanks to ensure continuity of production;</li> <li>The Company carries out scheduled maintenance of the Ethylene pipeline network by conducting patrols which also involve local officials. In addition, the Company also actively conducts socialization (community awareness) regarding the security of the pipeline to residents who live near the pipeline location;</li> <li>In ensuring plant reliability, the Company's maintenance philosophy is based on preventive and scheduled techniques. The Company's Inspection Department uses the Shell Risk Based Inspection System (RBI) and the Company uses SAP to plan maintenance. In addition to routine maintenance programs, the Company carries out regular Turn Around Maintenance of its plants to carry out major repairs and scheduled maintenance of main engines, scheduled renewals to meet or exceed regulatory requirements. This is done every 4-5 years for Naphtha Cracker plant, 2 years for Styrene Monomer, and every year for Polypropylene plant. Recently in 2019, the Company carried out a Turn Around Maintenance which lasted for 51 days;</li> <li>The Company has a comprehensive insurance protection program, including protection against natural disasters, as well as implementing a business continuity management and disaster recovery system to prepare for business continuity in the event of an unplanned disaster.</li> </ol> |

## MANAJEMEN KINERJA SUMBER DAYA MANUSIA

### Human Resources Performance Management

Sebagai upaya untuk memastikan bahwa setiap SDM melaksanakan pekerjaannya secara konsisten serta sesuai tugas dan fungsi utamanya, Perseroan memiliki alat ukur yaitu Manajemen Kinerja SDM. Manajemen Kinerja tersebut berbasis pada pencapaian *Key Performance Indicator* (KPI) dan nilai iSTAR.

Penetapan KPI dilakukan secara terstruktur, yang diturunkan mulai dari KPI Korporat, Direktorat, Divisi, Departemen, dan Seksi, serta mulai dari individu di tingkat manajer hingga staf. Perseroan juga telah menyusun "KPI Library" berdasarkan proses kerja di masing-masing area untuk memastikan kualitas dan standar kinerja yang lebih tepat sasaran.

Selain itu, Perseroan menggunakan iSTAR yang merupakan "Nilai Perseroan" untuk menjadi acuan perilaku karyawan dalam bekerja. Penilaian pada iSTAR dilakukan dengan metode 360 derajat, bukan hanya dari atasan, juga dari rekan kerja dan bawahan (jika ada).

Hasil penilaian terhadap pencapaian KPI dan nilai iSTAR menjadi dasar pemberian umpan balik dan pembinaan rutin karyawan untuk meningkatkan produktivitas. Hasil penilaian tersebut juga digunakan sebagai salah satu dasar pemberian penghargaan dan kompensasi serta pengembangan karier.

As an effort to ensure that each HR carries out work consistently and according to their main duties and functions, the Company has a measurement tool, which is the HR Performance Management. This Performance Management is based on the achievement of Key Performance Indicators (KPI) and iSTAR value.

KPI setting is determined in a structured manner, cascaded from Corporate KPIs, Directorates, Divisions, Departments, to Sections, and applied to individuals from the managerial level to staff. The Company has also developed a KPI library based on work processes in each area to ensure a better targeted quality and performance standards.

Furthermore, the Company uses iSTAR, which is the "Company Values," as a reference for employees' behavior at work. The iSTAR assessment is conducted using a 360-degree method, which includes feedback from superiors, colleagues, and subordinates (if any).

The result from the evaluation of KPIs and iSTAR value achievement becomes the basis for providing regular feedback and coaching to employees in order to increase productivity. The assessment results are also used to determine awarding and compensation, as well as career development.

# PENGHARGAAN DAN KOMPENSASI

## Rewards and Recognition

Chandra Asri Group telah memiliki mekanisme dalam memberikan penghargaan dan kompensasi kepada karyawan berdasarkan hasil penilaian yang adil dan transparan. Inisiatif tersebut bertujuan untuk meningkatkan motivasi dan loyalitas karyawan. Program tersebut terbagi menjadi *reward monetary* dan *non-monetary*, serta kombinasi dari keduanya. Sementara kompensasi diberikan dalam bentuk kenaikan gaji atau bonus kinerja.

Perseroan menjaga agar tingkat kesesuaian penghargaan dan kompensasi tetap menarik dengan cara melakukan perbandingan (*benchmarking*) secara berkala di lingkungan industri kimia dan infrastruktur. Beberapa unsur yang menjadi pertimbangan dalam perbandingan tersebut, antara lain persyaratan, jenis, dan besaran kompensasi yang diberikan.

Hasil perbandingan tersebut ditindaklanjuti oleh analisis di internal Perseroan untuk dilakukan penyesuaian bila dibutuhkan. Sementara itu, evaluasi remunerasi dilaksanakan melalui Survei Total Remunerasi Tahunan (*Annual Total Remuneration Survey/TRS*) yang dilaksanakan oleh konsultan SDM Mercer. Hingga saat ini, Perseroan berhasil mempertahankan daya saing besaran penghargaan dan kompensasi yang menarik bagi karyawan, jika dibandingkan dengan perusahaan sejenis di tingkat nasional.

## Hal-Hal Audit Utama

Hal-hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

### Penyisihan penurunan nilai persediaan

Pada tanggal 31 Desember 2023, persediaan Grup sebesar US\$ 401.254 ribu, yang merupakan 7,1% dari jumlah aset Grup. Persediaan ini sebagian besar terdiri dari barang jadi dan bahan baku masing-masing sebesar US\$ 119.962 ribu dan US\$ 198.226 ribu, yang mana telah ditelaah manajemen pada biaya yang lebih rendah atau nilai realisasi bersih.

Selama tahun berjalan, Grup telah menurunkan barang jadi ke nilai realisasi bersih sebesar US\$ 3.068 ribu, yang merupakan 9,7% rugi tahun berjalan Grup, dikarenakan dengan volatilitas harga bahan baku. Manajemen membuat estimasi harga jual berdasarkan harga jual masa lalu dan harga bahan baku terkini, dan mempertimbangkan fluktuasi harga atau biaya setelah akhir tahun.

Seiring dengan kondisi pasar yang tidak stabil dan penuh tantangan, meskipun persediaan memiliki perputaran yang cepat, terdapat resiko bahwa nilai realisasi bersih atas persediaan Grup kemungkinan dicatat dibawah nilai perolehan. Oleh karena itu, penyisihan penurunan nilai persediaan ditentukan sebagai hal audit utama.

Pengungkapan atas penyisihan penurunan penilaian persediaan Grup dijelaskan pada Catatan 4 dan 8 pada laporan keuangan konsolidasian.

### *Bagaimana hal ini ditangani dalam audit*

Kami telah melakukan prosedur audit berikut berkaitan dengan penyisihan penurunan nilai persediaan:

- Memeroleh pemahaman atas proses dan pengendalian yang relevan berkaitan dengan penyisihan penurunan nilai persediaan serta mengevaluasi rancangan dan implementasi pengendalian yang relevan.
- Memeroleh penilaian manajemen atas nilai realisasi bersih persediaan dan memilih serta membandingkan biaya dengan harga jual aktual persediaan untuk menentukan apakah persediaan dicatat pada biaya yang lebih rendah atau nilai realisasi bersih.
- Menelaah kesesuaian pengungkapan terkait di dalam laporan keuangan konsolidasian.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Allowance for decline in value of inventories

As of December 31, 2023, the Group's inventories amounted to US\$ 401,254 thousand, which accounted for approximately 7.1% of the Group's total assets. These inventories consists mainly of finished goods and raw materials amounting to US\$ 119,962 thousand and US\$ 198,226 thousand, respectively, which management has assessed at lower of cost or net realizable value.

During the financial year, the Group has written down its finished goods to the net realizable value by an amount of US\$ 3,068 thousand, which accounted for approximately 9.7% of the Group's loss for the year, due to the volatility of the raw material prices. Management makes estimates of the selling prices based on the historical selling prices and current raw material prices and taking into account the fluctuations of price or cost after the end of the year.

As the market conditions continue to be volatile and challenging, although the inventories are considered to have high turnover, there is a risk that the net realizable value of the Group's inventories may be below cost. As such, the allowance for decline in value of inventories has been determined as a key audit matter.

The Group's disclosures on the allowance for decline in value of inventories are set out in Notes 4 and 8 to the consolidated financial statements.

### *How the matter was addressed in the audit*

We performed the following audit procedures in relation to the allowance for decline in value of inventories:

- Obtained an understanding of processes and relevant controls of determination of allowance for decline in value of inventories and evaluated the design and implementation of relevant controls.
- Obtained management's assessment of the net realizable value of inventories and made a selection of inventories and compared the costs to the actual selling prices to determine whether the inventories are stated at the lower of cost and net realizable value.
- Assessed the appropriateness of the related disclosures in the consolidated financial statements.

## Akuisisi PT Krakatau Chandra Energi ("KCE") dan PT Krakatau Tirta Industri ("KTI")

Selama tahun yang berakhir 31 Desember 2023, Grup melakukan akuisisi atas 70% saham KCE, dan 49% saham KTI, dengan nilai pembelian masing-masing sebesar US\$ 147.637 ribu dan US\$ 64.813 ribu serta mencatatkan *goodwill* masing-masing sebesar US\$ 2.828 ribu dan US\$ 931 ribu. Grup telah melibatkan tenaga ahli valuasi eksternal untuk membantu mereka dalam pelaksanaan Alokasi Harga Beli ("PPA") atas akuisisi KCE dan KTI. Pada 31 Desember 2023, *goodwill* yang timbul dari akuisisi dan nilai tercatat aset dan liabilitas terkait telah disesuaikan secara retrospektif.

Kami fokus pada bidang ini karena materialitas kuantitatif dari akuisisi tersebut dan bahwa pelaksanaan Alokasi Harga Pembelian ("PPA"), yang melibatkan identifikasi aset dan liabilitas yang diakuisisi serta nilai wajarnya, memerlukan penggunaan pertimbangan manajemen dan estimasi yang signifikan. Pertimbangan dan estimasi signifikan yang terlibat dalam pelaksanaan PPA terutama terkait dengan identifikasi dan penilaian aset tidak berwujud serta penilaian wajar atas aset yang diakuisisi. Oleh karena itu, akuisisi bisnis KCE dan KTI telah ditetapkan sebagai hal audit utama.

Pengungkapan Grup mengenai akuisisi kombinasi bisnis KCE dan KTI disajikan dalam Catatan 4, 11 dan 38 atas laporan keuangan konsolidasian.

Bagaimana hal ini ditangani dalam audit

Kami telah melakukan prosedur audit berikut berkaitan dengan akuisisi KCE dan KTI:

- Memeroleh perjanjian kontraktual berkaitan dengan akuisisi KCE dan KTI dan mengevaluasi kesesuaian perlakuan akuntansi atas akuisisi tersebut.
- Melakukan diskusi dengan manajemen dan dewan direksi untuk memahami bisnis dari perusahaan yang diakuisisi dan alasan akuisisi.
- Memeroleh informasi keuangan KCE dan KTI dan PPA yang disusun oleh tenaga ahli manajemen dan menguji identifikasi dan penentuan nilai wajar atas aset yang diperoleh, termasuk aset tak berwujud, dan liabilitas yang diambil alih.
- Melibatkan tenaga ahli internal untuk membantu kami dalam mengevaluasi metodologi dan asumsi utama penilaian tenaga ahli manajemen serta input yang digunakan dalam mengukur nilai wajar atas aset yang diperoleh dan liabilitas yang diambil alih.
- Mengevaluasi kompetensi, kapabilitas dan objektivitas dari tenaga ahli manajemen dan tenaga ahli internal.
- Menelaah kesesuaian pengungkapan terkait di dalam laporan keuangan konsolidasian.

## Acquisition of PT Krakatau Chandra Energi ("KCE") and PT Krakatau Tirta Industri ("KTI")

During the year ended December 31, 2023, the Group acquired 70% of KCE shares, and 49% of KTI shares, for a total purchase price of US\$ 147,637 thousand and US\$ 64,813 thousand, respectively, and recognized goodwill of US\$ 2,828 thousand and US\$ 931 thousand, respectively. The Group has engaged external valuation experts to assist them with the Purchase Price Allocation ("PPA") exercise for the acquisition of KCE and KTI. As of December 31, 2023, goodwill arising from the acquisition and the relating carrying amount of the assets and liabilities has been adjusted accordingly on a retrospective basis.

We focused on this area because of the quantitative materiality of the acquisitions and that the Purchase Price Allocation ("PPA") exercise, which involved the identification of the acquired assets and liabilities and their respective fair values, requires the use of significant management judgement and estimate. The significant judgement and estimate involved in the PPA exercise mainly related to the identification and valuation of intangible assets as well as fair valuation of the acquired assets. As such, the business acquisition of KCE and KTI has been determined as a key audit matter.

The Group's disclosures on the business combinations acquisition of KCE and KTI are set out in Notes 4, 11 and 38 to the consolidated financial statements.

*How the matter was addressed in the audit*

We performed the following audit procedures in relation to acquisition of KCE and KTI:

- Obtained the contractual agreements related to the acquisitions of KCE and KTI and evaluated the appropriateness of the accounting treatment of the acquisitions.
- Discussed with management and board of directors to understand the business of the acquired companies and rationale of the acquisition.
- Obtained the financial information of KCE and KTI and the PPA prepared by the management's experts and assessed the identification and determination of fair value of the assets acquired, including the intangible assets, and liabilities assumed.
- Involved our internal expert in assisting us to evaluate the management's experts' valuation methodologies and key assumptions and inputs used in measuring the fair value of the assets acquired, including the intangible assets, and liabilities assumed.
- Evaluated the competence, capabilities and objectivity of the management experts and our internal expert.
- Assessed the appropriateness of the related disclosures in the consolidated financial statements.

## Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.

## Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL**

#### **a. Pernyataan Kepatuhan**

Laporan keuangan konsolidasian Grup disusun sesuai dengan Standar Akuntansi Keuangan di Indonesia.

#### **b. Dasar Penyusunan**

Dasar penyusunan laporan keuangan konsolidasian adalah biaya historis, kecuali instrumen keuangan tertentu yang diukur pada jumlah revaluasi atau nilai wajar pada setiap akhir periode pelaporan, yang dijelaskan dalam kebijakan akuntansi di bawah ini.

Biaya historis umumnya didasarkan pada nilai wajar dari imbalan yang diberikan dalam pertukaran barang dan jasa.

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam suatu transaksi teratur antara pelaku pasar pada tanggal pengukuran, terlepas dari apakah harga tersebut dapat diamati secara langsung atau diestimasi menggunakan teknik penilaian lain. Dalam mengestimasi nilai wajar dari suatu aset atau liabilitas, Grup memperhitungkan karakteristik aset atau liabilitas jika pelaku pasar akan memperhitungkan karakteristik tersebut ketika menentukan harga aset atau liabilitas pada tanggal pengukuran. Nilai wajar untuk tujuan pengukuran dan/atau pengungkapan pada laporan keuangan konsolidasian ditentukan atas dasar tersebut, kecuali transaksi sewa yang merupakan ruang lingkup PSAK 73, dan pengukuran yang memiliki kemiripan dengan nilai wajar namun bukan merupakan nilai wajar, seperti nilai realisasi bersih dalam PSAK 14 *Persediaan* (PSAK 14) atau nilai pakai dalam PSAK 48 *Penurunan Nilai Aset* (PSAK 48).

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan.

Direksi memiliki, pada saat persetujuan laporan keuangan konsolidasian, suatu ekspektasi yang memadai bahwa Grup memiliki sumber daya yang cukup untuk melanjutkan keberadaan operasinya untuk di masa yang akan datang. Sehingga, mereka melanjutkan penerapan dasar akuntansi kelangsungan usaha dalam penyusunan laporan keuangan konsolidasian.

### **3. MATERIAL ACCOUNTING POLICY INFORMATION**

#### **a. Statement of Compliance**

The consolidated financial statements of the Group have been prepared in accordance with Indonesian Financial Accounting Standards.

#### **b. Basis of Preparation**

The consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of PSAK 73, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in PSAK 14 *Inventories* (PSAK 14) or value in use in PSAK 48 *Impairment of Assets* (PSAK 48).

The consolidated statements of cash flows are prepared using the direct method with classifications of cash flows into operating, investing and financing activities.

The directors have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

**c. Dasar Konsolidasian**

Laporan keuangan konsolidasian menggabungkan laporan keuangan Perusahaan dan entitas yang dikendalikan oleh Perusahaan dan entitas anak. Pengendalian tercapai jika Perusahaan memiliki kekuasaan atas *investee*; eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan *investee*; dan kemampuan untuk menggunakan kekuasaannya atas *investee* untuk mempengaruhi jumlah imbal hasil investor.

Perusahaan menilai kembali apakah Perusahaan mengendalikan *investee* jika fakta dan keadaan mengindikasikan adanya perubahan terhadap satu atau lebih dari tiga elemen pengendalian yang disebutkan di atas.

Ketika Perusahaan memiliki hak suara kurang dari mayoritas dari *investee*, ia memiliki kekuasaan atas *investee* ketika hak suara cukup untuk memberinya kemampuan praktis untuk mengarahkan aktivitas relevan secara sepihak. Perusahaan mempertimbangkan seluruh fakta dan keadaan yang relevan dalam menilai apakah hak suara Perusahaan cukup untuk memberikan Perusahaan kekuasaan, termasuk (i) ukuran kepemilikan hak suara Perusahaan relatif terhadap ukuran dan penyebaran kepemilikan pemilik hak suara lain; (ii) hak suara potensial yang dimiliki oleh Perusahaan, pemegang suara lain atau pihak lain; (iii) hak yang timbul dari pengaturan kontraktual lain; dan (iv) setiap fakta dan keadaan tambahan apapun yang mengindikasikan bahwa Perusahaan memiliki, atau tidak memiliki, kemampuan kini untuk mengarahkan aktivitas yang relevan pada saat keputusan perlu dibuat, termasuk pola pemilikan suara dalam RUPS sebelumnya.

Konsolidasi entitas anak dimulai ketika Perusahaan memperoleh pengendalian atas entitas anak dan akan dihentikan ketika Perusahaan kehilangan pengendalian pada entitas anak. Secara khusus, pendapatan dan beban entitas anak yang diakuisisi atau dijual selama tahun berjalan termasuk dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian dari tanggal diperolehnya pengendalian Perusahaan sampai tanggal ketika Perusahaan berhenti untuk mengendalikan entitas anak.

Jika diperlukan, penyesuaian dapat dilakukan terhadap laporan keuangan entitas anak agar kebijakan akuntansi sesuai dengan kebijakan akuntansi Grup.

Seluruh aset dan liabilitas dalam intra Grup, ekuitas, pendapatan, beban dan arus kas yang berkaitan dengan transaksi dalam Grup dieliminasi secara penuh pada saat konsolidasian.

**c. Basis of Consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved where the Company has the power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including (i) the size of the Company's holding of voting rights relative to the size and dispersion of holding of the other vote holders; (ii) potential voting rights held by the Company, other vote holders or other parties; (iii) rights arising from other contractual arrangements; and (iv) any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expense of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Kepentingan nonpengendali di entitas anak diidentifikasi secara terpisah dari ekuitas Grup yang ada. Kepentingan pemegang saham nonpengendali yang merupakan kepentingan kepemilikan yang memberikan pemiliknya hak terhadap bagian proporsional aset bersih pada saat likuidasi pada awalnya dapat diukur sebesar nilai wajar atau bagian proporsional kepentingan nonpengendali atas nilai wajar aset bersih teridentifikasi pihak yang diakuisisi. Pilihan pengukuran dibuat untuk masing-masing akuisisi. Kepentingan nonpengendali lain awalnya diukur sebesar nilai wajar. Setelah akuisisi, jumlah tercatat kepentingan nonpengendali adalah jumlah kepentingan tersebut pada pengakuan awal ditambah bagian kepentingan nonpengendali dari perubahan selanjutnya di ekuitas.

Laba atau rugi dan setiap komponen penghasilan komprehensif lain diatribusikan kepada pemilik entitas induk dan kepada kepentingan nonpengendali. Jumlah penghasilan komprehensif entitas anak diatribusikan kepada pemilik entitas induk dan kepentingan nonpengendali meskipun hal tersebut mengakibatkan kepentingan nonpengendali memiliki saldo defisit.

Perubahan kepemilikan Grup pada entitas anak yang tidak mengakibatkan kehilangan pengendalian Grup atas entitas anak dicatat sebagai transaksi ekuitas. Jumlah tercatat dari kepemilikan Grup dan kepentingan nonpengendali disesuaikan untuk mencerminkan perubahan kepentingan relatifnya dalam entitas anak. Selisih antara jumlah tercatat kepentingan nonpengendali yang disesuaikan dan nilai wajar imbalan yang dibayar atau diterima diakui secara langsung dalam ekuitas dan diatribusikan kepada pemilik entitas induk.

#### **d. Kombinasi Bisnis**

Akuisisi bisnis dicatat dengan menggunakan metode akuisisi. Imbalan yang dialihkan dalam suatu kombinasi bisnis diukur pada nilai wajar, yang dihitung sebagai hasil penjumlahan dari nilai wajar tanggal akuisisi atas seluruh aset yang dialihkan oleh Grup, liabilitas yang diakui oleh Grup kepada pemilik sebelumnya dari pihak yang diakuisisi dan kepentingan ekuitas yang diterbitkan oleh Grup dalam pertukaran pengendalian dari pihak yang diakuisisi. Biaya-biaya terkait akuisisi diakui di dalam laba rugi pada saat terjadinya.

Pada tanggal akuisisi, aset teridentifikasi yang diperoleh dan liabilitas yang diambilalih diakui pada nilai wajar, kecuali untuk aset atau liabilitas pajak tangguhan yang berkaitan dengan pengaturan imbalan kerja diakui dan diukur masing-masing berdasarkan PSAK 46 *Pajak Penghasilan* (PSAK 46) dan PSAK 24 *Imbalan Kerja* (PSAK 24).

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of non-controlling stockholders that are present ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interest in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interest and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

#### **d. Business Combinations**

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree, and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognized in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their fair value, except for deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognized and measured in accordance with PSAK 46 *Income Taxes* (PSAK 46) and PSAK 24 *Employee Benefits*, (PSAK 24) respectively.

*Goodwill* diukur sebagai selisih lebih dari nilai gabungan dari imbalan yang dialihkan, jumlah setiap kepentingan nonpengendali pada pihak diakuisisi dan nilai wajar pada tanggal akuisisi kepentingan ekuitas yang sebelumnya dimiliki oleh pihak pengakuisisi pada pihak diakuisisi (jika ada) atas jumlah neto dari aset teridentifikasi yang diperoleh dan liabilitas yang diambilalih pada tanggal akuisisi. Jika, setelah penilaian kembali, jumlah neto dari aset teridentifikasi yang diperoleh dan liabilitas yang diambilalih pada tanggal akuisisi melebihi jumlah imbalan yang dialihkan, jumlah dari setiap kepentingan nonpengendali pada pihak diakuisisi dan nilai wajar pada tanggal akuisisi kepentingan ekuitas yang sebelumnya dimiliki oleh pihak pengakuisisi pada pihak diakuisisi (jika ada), selisih lebih tersebut diakui segera dalam laba rugi sebagai keuntungan pembelian dengan diskon.

Bila imbalan yang dialihkan oleh Grup dalam suatu kombinasi bisnis termasuk aset atau liabilitas yang berasal dari pengaturan imbalan kontingen (*contingent consideration arrangement*), imbalan kontingen tersebut diukur pada nilai wajar pada tanggal akuisisi dan termasuk sebagai bagian dari imbalan yang dialihkan dalam suatu kombinasi bisnis.

Perubahan dalam nilai wajar atas imbalan kontingen yang memenuhi syarat sebagai penyesuaian periode pengukuran disesuaikan secara retrospektif, dengan penyesuaian terkait terhadap *goodwill*. Penyesuaian periode pengukuran adalah penyesuaian yang berasal dari informasi tambahan yang diperoleh selama periode pengukuran (yang tidak melebihi satu tahun sejak tanggal akuisisi) tentang fakta-fakta dan kondisi yang ada pada tanggal akuisisi.

Perlakuan akuntansi selanjutnya untuk perubahan nilai wajar dari imbalan kontinjensi yang tidak memenuhi syarat sebagai penyesuaian periode pengukuran tergantung pada bagaimana imbalan kontinjensi diklasifikasikan. Imbalan kontinjensi yang diklasifikasikan sebagai ekuitas tidak diukur kembali pada setiap tanggal pelaporan dan penyelesaian selanjutnya diperhitungkan dalam ekuitas. Imbalan kontinjensi lain diukur ulang ke nilai wajar pada tanggal pelaporan selanjutnya dengan perubahan nilai wajar diakui di laba rugi.

Bila suatu kombinasi bisnis dilakukan secara bertahap, kepemilikan terdahulu Grup atas pihak diakuisisi diukur kembali ke nilai wajar pada tanggal akuisisi dan keuntungan atau kerugian dihasilkan, jika ada, diakui dalam laba rugi. Jumlah yang berasal dari kepemilikan sebelum tanggal akuisisi yang sebelumnya telah diakui dalam penghasilan komprehensif lain direklasifikasi ke laba rugi dimana perlakuan tersebut seperti jika kepemilikan tersebut dilepas/dijual.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquire (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after the reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognized immediately in profit or loss as a gain from bargain purchase.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination.

Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the measurement period (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognized in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date and the resulting gain or loss, if any, is recognized in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognized in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interests were disposed of.

Jika akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, Grup melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangannya. Selama periode pengukuran (lihat di atas), pihak pengakuisisi menyesuaikan, aset atau liabilitas tambahan yang diakui, untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, akan berdampak pada jumlah yang diakui pada tanggal tersebut.

#### Goodwill

*Goodwill* timbul atas akuisisi dari suatu bisnis yang dicatat pada biaya perolehan yang ditetapkan pada tanggal akuisisi dari bisnis tersebut dikurangi akumulasi penurunan nilai, jika ada.

Untuk tujuan pengujian penurunan nilai, *goodwill* yang diperoleh dalam kombinasi bisnis, dialokasikan sejak tanggal akuisisi ke masing-masing unit penghasil kas milik Grup yang diharapkan dapat memperoleh manfaat dari sinergi kombinasi bisnis, terlepas dari apakah aset atau liabilitas lain dari pihak yang diakuisisi ditempatkan ke unit-unit tersebut.

Unit penghasil kas yang *goodwill*-nya telah dialokasikan diuji untuk penurunan nilai setiap tahun dan bila ada indikasi bahwa unit penghasil kas mengalami penurunan nilai. Penurunan nilai ditentukan untuk *goodwill* dengan menilai jumlah yang dapat dipulihkan dari masing-masing unit penghasil kas dimana *goodwill* dilekatkan. Apabila jumlah yang dapat dipulihkan dari unit penghasil kas kurang dari nilai tercatat, kerugian penurunan nilai diakui pada laba rugi. Kerugian penurunan nilai yang diakui untuk *goodwill* tidak dibalik pada periode berikutnya.

Apabila *goodwill* merupakan bagian dari unit penghasil kas dan bagian dari operasi di dalam unit penghasil kas tersebut dihentikan, *goodwill* dengan operasi yang dihentikan dimasukkan dalam jumlah tercatat operasi saat menentukan keuntungan atau kerugian dari penghentian operasi. *Goodwill* yang dihentikan dalam keadaan ini diukur berdasarkan nilai wajar relatif dari operasi yang dihentikan dan porsi unit penghasil kas yang dipertahankan.

#### **e. Transaksi dan Penjabaran Laporan Keuangan Dalam Mata Uang Asing**

Laporan keuangan individu masing-masing entitas Grup diukur dan disajikan dalam mata uang dari lingkungan ekonomi utama dimana entitas beroperasi (mata uang fungsional). Laporan keuangan konsolidasian dari Grup disajikan dalam mata uang Dolar Amerika Serikat (US\$) yang merupakan mata uang fungsional dan mata uang penyajian untuk laporan keuangan konsolidasian.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amount recognized as of that date.

#### Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill from business combination, is allocated to each of the Group's cash-generating unit expected to benefit from the synergies of the combination, excluded if the other assets or liabilities from acquiree placed in those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually and if there is an indication that the unit may be impaired. Impairment determined for goodwill by assess recoverable amounts from each of cash generating unit where the goodwill is pledged. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is recognized in profit and loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

If the goodwill is part of cash generating unit and part of discontinued operation inside those cash generating unit, the goodwill with discontinued operation recorded under operation book value when determine gain or loss from discontinued operation. Disposal goodwill in this situation measured at fair value from discontinued operation and operating cash generating unit portion.

#### **e. Foreign Currency Transactions and Translation**

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group are presented in United States Dollar (US\$), which is the functional currency of the Company and the presentation currency for the consolidated financial statements.

Dalam penyusunan laporan keuangan entitas Grup, transaksi dalam mata uang selain mata uang fungsional entitas (mata uang asing) diakui pada kurs yang berlaku pada tanggal transaksi. Pada setiap akhir periode pelaporan, pos moneter dalam valuta asing dijabarkan kembali pada kurs yang berlaku pada tanggal tersebut. Pos nonmoneter yang diukur dalam biaya historis dalam valuta asing tidak dijabarkan kembali.

Selisih kurs diakui dalam laba rugi pada periode saat terjadinya kecuali untuk:

- Selisih kurs atas transaksi yang ditetapkan untuk tujuan lindung nilai risiko valuta asing tertentu (lihat Catatan 3v untuk kebijakan akuntansi lindung nilai); dan
- Selisih kurs atas pos moneter piutang atau utang dari kegiatan usaha luar negeri yang penyelesaiannya tidak direncanakan atau tidak mungkin terjadi (karenanya membentuk bagian dari investasi bersih dalam kegiatan usaha luar negeri), yang pada awalnya diakui pada penghasilan komprehensif lain dan direklasifikasi dari ekuitas ke laba rugi pada pelepasan atau pelepasan sebagian investasi neto.

Pembukuan RPU dan KSE diselenggarakan dalam Rupiah, mata uang fungsionalnya. Untuk tujuan penyajian laporan keuangan konsolidasian, aset dan liabilitas RPU dan KSE dijabarkan ke dalam Dolar Amerika Serikat dengan menggunakan kurs yang berlaku pada akhir tahun pelaporan. Pos penghasilan dan beban dijabarkan menggunakan kurs rata-rata untuk periode tersebut, kecuali kurs berfluktuasi secara signifikan selama periode tersebut, dalam hal ini kurs yang berlaku pada tanggal transaksi yang digunakan. Selisih kurs yang timbul diakui dalam penghasilan komprehensif lain dan diakumulasi dalam ekuitas (dan diatribusikan pada kepentingan nonpengendali).

Pada konsolidasi, selisih kurs yang berasal dari penjabaran atas investasi bersih entitas luar negeri (termasuk pos-pos moneter yang secara substansi membentuk bagian investasi bersih entitas luar negeri), dan atas pinjaman dan instrumen mata uang lainnya yang ditetapkan sebagai lindung nilai atas investasi tersebut, diakui dalam penghasilan komprehensif lain dan diakumulasikan dalam komponen ekuitas yang terpisah di bawah judul "cadangan selisih kurs penjabaran laporan keuangan".

In preparing the financial statements of each Group entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognized in profit or loss in the period in which they arise except for:

- Exchange differences on transaction entered into in order to hedge certain foreign currency risks (see Note 3v for hedge accounting policies); and
- Exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal or partial disposal of the net investment.

The books of accounts of RPU and KSE are maintained in Indonesian Rupiah, its functional currency. For the purposes of presenting these consolidated financial statements, the assets and liabilities of RPU and KSE are translated into United States Dollar using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognized in other comprehensive income and accumulated in equity (and attributed to non-controlling interests as appropriate).

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are recognized in other comprehensive income and accumulated in a separate component of equity under the header of "foreign currency translation reserve".

*Goodwill* dan penyesuaian nilai wajar yang timbul dari akuisisi dari kegiatan usaha luar negeri diperlakukan sebagai aset dan liabilitas dari kegiatan usaha luar negeri dan dijabarkan pada kurs tutup buku. Selisih kurs yang timbul diakui pada penghasilan komprehensif lain.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate. Exchange differences arising are recognized in other comprehensive income.

#### **g. Instrumen Keuangan**

Aset keuangan dan liabilitas keuangan diakui pada laporan posisi keuangan konsolidasian pada saat Grup menjadi salah satu pihak dalam ketentuan kontraktual instrumen tersebut.

Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajar. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan atau penerbitan aset keuangan dan liabilitas keuangan ditambahkan atau dikurangkan dari nilai wajar aset keuangan dan liabilitas keuangan, jika diperlukan, pada pengakuan awal. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan aset keuangan dan liabilitas keuangan pada nilai wajar melalui laba rugi diakui langsung pada laba rugi.

Semua pembelian atau penjualan reguler aset keuangan diakui dan dihentikan pengakuannya berdasarkan tanggal perdagangan. Pembelian atau penjualan reguler adalah pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam jangka waktu yang ditetapkan oleh peraturan atau konvensi di pasar.

Semua aset keuangan yang diakui selanjutnya diukur secara keseluruhan pada biaya perolehan yang diamortisasi atau nilai wajar, tergantung pada klasifikasi aset keuangan tersebut.

vi. The entity is controlled or jointly controlled by a person identified in (a).

vii. A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or a parent of the entity).

viii. The entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

Significant transactions with related parties are disclosed in the consolidated financial statements.

#### **g. Financial Instruments**

Financial assets and financial liabilities are recognized on the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets and financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognized financial assets are measured subsequently in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

Klasifikasi aset keuangan

Instrumen utang yang memenuhi persyaratan berikut selanjutnya diukur pada biaya perolehan diamortisasi:

- aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual; dan
- persyaratan kontraktual dari aset keuangan menghasilkan arus kas pada tanggal tertentu yang semata dari pembayaran pokok dan bunga ("SPPI") dari jumlah pokok terutang.

Instrumen utang selanjutnya diukur pada nilai wajar melalui penghasilan komprehensif lain ("FVTOCI"), jika memenuhi kedua kondisi berikut ini:

- aset keuangan dikelola dalam model bisnis yang tujuannya akan tercapai dengan mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- persyaratan kontraktual dari aset keuangan menghasilkan arus kas pada tanggal tertentu yang semata-mata dari pembayaran pokok dan bunga dari jumlah pokok terutang.

Seluruh aset keuangan lain selanjutnya diukur pada nilai wajar melalui laba rugi ("FVTPL").

Meskipun telah disebutkan sebelumnya, Grup dapat menetapkan pilihan tak terbatalan pada saat pengakuan awal aset keuangan sebagai berikut:

- menyajikan perubahan selanjutnya nilai wajar investasi pada instrumen ekuitas dalam penghasilan komprehensif lain jika kriteria tertentu dipenuhi (lihat di bawah); dan
- menetapkan aset keuangan yang memenuhi kriteria biaya perolehan diamortisasi atau FVTOCI sebagai diukur pada FVTPL, jika penetapan itu mengeliminasi atau mengurangi secara signifikan inkonsistensi pengukuran dan pengakuan (inkonsistensi akutansi) (lihat di bawah).

Biaya perolehan diamortisasi dan metode suku bunga efektif

Metode suku bunga efektif adalah metode menghitung biaya perolehan diamortisasi dari instrumen utang dan mengalokasikan pendapatan bunga selama periode yang relevan.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortized cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at fair value through profit or loss ("FVTPL").

Despite the foregoing, the Group may make the following irrevocable election/designation at initial recognition of a financial asset:

- irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met (see below); and
- irrevocably designate a debt investment that meets the amortized cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch (see below).

Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period.

Untuk instrumen keuangan selain yang dibeli atau berasal dari aset keuangan memburuk, suku bunga efektif adalah tingkat suku bunga yang secara tepat mendiskontokan penerimaan kas masa depan (termasuk semua biaya dan poin yang dibayarkan atau diterima yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif, biaya transaksi dan premi atau diskon lainnya) tidak termasuk kerugian kredit ekspektasian, melalui umur ekspektasian dari instrumen utang, atau, jika tepat, periode yang lebih pendek, ke jumlah tercatat bruto instrumen utang pada saat pengakuan awal. Untuk aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk, suku bunga efektif yang disesuaikan dengan risiko kredit dihitung dengan mendiskontokan estimasi arus kas masa depan, termasuk estimasi kerugian kredit, ke biaya perolehan diamortisasi instrumen utang pada pengakuan awal.

Biaya perolehan diamortisasi dari aset keuangan adalah nilai aset keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok, ditambah amortisasi kumulatif menggunakan metode suku bunga efektif dari selisih antara nilai awal dan nilai jatuh temponya, disesuaikan dengan penyisihan kerugiannya. Di sisi lain, jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi dari aset keuangan, sebelum disesuaikan dengan penyisihan kerugian.

Bunga diakui dengan menggunakan metode suku bunga efektif untuk instrumen utang yang diukur selanjutnya pada biaya perolehan diamortisasi dan pada FVTOCI. Untuk instrumen keuangan lain, kecuali aset keuangan yang dibeli atau berasal dari aset keuangan memburuk, pendapatan bunga dihitung dengan menerapkan suku bunga efektif terhadap jumlah tercatat bruto aset keuangan, kecuali aset keuangan yang kemudian mengalami penurunan nilai kredit. Untuk aset keuangan yang berasal dari aset keuangan memburuk, pendapatan bunga diakui dengan menerapkan suku bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika pada tahun pelaporan keuangan selanjutnya, risiko kredit aset keuangan tersebut membaik sehingga aset keuangan tidak lagi mengalami penurunan nilai kredit, maka pendapatan bunga diakui dengan menerapkan suku bunga efektif terhadap jumlah tercatat bruto aset keuangan.

Untuk aset keuangan yang dibeli atau berasal dari aset keuangan memburuk, Grup mengakui pendapatan bunga dengan menerapkan suku bunga efektif yang disesuaikan dengan risiko kredit atas biaya perolehan diamortisasi dari aset keuangan sejak pengakuan awal. Perhitungan tidak kembali ke basis bruto bahkan jika risiko kredit dari aset keuangan selanjutnya membaik sehingga aset keuangan tidak lagi mengalami penurunan kredit.

Pendapatan bunga diakui dalam laba rugi dan dimasukkan dalam pos "keuntungan (kerugian) lain-lain".

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortized cost of the debt instrument on initial recognition.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest income is recognized using the effective interest method for debt instruments measured subsequently at amortized cost and at FVTOCI. For financial instruments other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognized by applying the effective interest rate to the amortized cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognized by applying the effective interest rate to the gross carrying amount of the financial asset.

For purchased or originated credit-impaired financial assets, the Group recognizes interest income by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Interest income is recognized in profit or loss and is included in the "other gains (losses)" line item.

Instrumen utang diklasifikasikan pada FVTOCI

Efek utang yang tercatat di bursa yang dimiliki oleh Grup diklasifikasikan sebagai FVTOCI. Nilai wajar ditentukan dengan cara yang dijelaskan dalam Catatan 46. Efek utang yang tercatat di bursa pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi. Selanjutnya, perubahan nilai tercatat pada efek utang yang tercatat di bursa tersebut sebagai akibat dari keuntungan dan kerugian selisih kurs, keuntungan atau kerugian penurunan nilai, dan pendapatan bunga yang dihitung dengan menggunakan metode suku bunga efektif, diakui dalam laba rugi. Jumlah yang diakui dalam laba rugi akan sama dengan jika efek utang yang tercatat di bursa ini diukur pada biaya perolehan diamortisasi. Semua perubahan lain dalam nilai tercatat dari efek utang yang tercatat di bursa diakui dalam penghasilan komprehensif lain dan diakumulasikan dalam cadangan revaluasi investasi. Jika efek utang yang tercatat yang terdaftar ini dihentikan pengakuannya, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam penghasilan komprehensif lain akan direklasifikasi ke laba rugi.

Aset keuangan pada FVTPL

Aset keuangan yang tidak memenuhi kriteria yang diukur pada biaya perolehan diamortisasi atau FVTOCI (di atas) diukur pada FVTPL, khususnya:

- Investasi dalam instrumen ekuitas diklasifikasi sebagai FVTPL, kecuali Grup menetapkan investasi ekuitas yang dimiliki tidak untuk diperdagangkan dan bukan merupakan imbalan kontingen dari kombinasi bisnis, sebagai FVTOCI pada pengakuan awal.
- Instrumen utang yang tidak memenuhi kriteria biaya perolehan diamortisasi atau FVTOCI, diklasifikasi sebagai FVTPL. Sebagai tambahan, aset keuangan yang memenuhi kriteria biaya perolehan diamortisasi dan FVTOCI dapat ditetapkan sebagai FVTPL pada saat pengakuan awal apabila penetapan tersebut mengeliminasi atau mengurangi secara signifikan inkonsistensi pengukuran dan pengakuan (yang disebut "inkonsistensi akuntansi") yang timbul dari pengukuran aset atau liabilitas atau pengakuan keuntungan dan kerugian dengan basis berbeda.

Aset keuangan pada FVTPL diukur pada nilai wajar pada setiap tanggal pelaporan, dengan keuntungan atau kerugian nilai wajar diakui dalam laba rugi sepanjang bukan merupakan bagian dari hubungan lindung nilai yang ditetapkan. Keuntungan atau kerugian bersih yang diakui dalam laba rugi termasuk dividen atau bunga yang diperoleh atas aset keuangan dan dimasukkan dalam pos "pendapatan keuangan". Nilai wajar ditentukan dengan cara yang dijelaskan dalam Catatan 46.

Debt instruments classified as at FVTOCI

Listed debt securities held by the Group are classified as at FVTOCI. Fair value is determined in the manner described in Note 46. The listed debt securities are initially measured at fair value plus transaction costs. Subsequently, changes in the carrying amount of these listed debt securities as a result of foreign exchange gains and losses, impairment gains or losses, and interest income calculated using the effective interest method are recognized in profit or loss. The amounts that are recognized in profit or loss are the same as the amounts that would have been recognized in profit or loss if these listed debt securities had been measured at amortized cost. All other changes in the carrying amount of these listed debt securities are recognized in other comprehensive income and accumulated under the heading of investments revaluation reserve. When these listed debt securities are derecognized, the cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortized cost or FVTOCI (above) are measured at FVTPL, specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designate an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, financial assets that meet either the amortized cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency (so called 'accounting mismatch') that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value as at each reporting date, with any fair value gains or losses recognized in profit or loss to the extent they are not part of a designated hedging relationship (see hedge accounting policy). The net gain or loss recognized in profit or loss includes any dividend or interest earned on the financial asset and is included in the "finance income" line item. Fair value is determined in the manner described in Note 46.

Reklasifikasi atas aset keuangan dan liabilitas

Grup tidak mereklasifikasi aset keuangan setelah pengakuan awal, selain dari kejadian luar biasa dimana terdapat perubahan model bisnis. Liabilitas keuangan tidak pernah diklasifikasi.

Keuntungan dan kerugian kurs mata uang asing

Jumlah tercatat aset keuangan dalam mata uang asing ditentukan dalam mata uang tersebut dan dijabarkan dengan menggunakan kurs spot pada setiap tanggal pelaporan. Secara spesifik:

- Untuk aset keuangan diukur pada biaya perolehan diamortisasi yang bukan merupakan bagian dari hubungan lindung nilai ditetapkan, selisih kurs diakui dalam laba rugi pada pos "keuntungan kurs mata uang asing - bersih";
- Untuk instrumen utang diukur pada FVTOCI yang bukan merupakan bagian dari hubungan lindung nilai ditetapkan, selisih kurs atas biaya perolehan diamortisasi dari instrumen hutang diakui dalam laba rugi pada pos "keuntungan kurs mata uang asing - bersih". Perbedaan nilai tukar lainnya diakui pada keuntungan (kerugian) nilai wajar bersih atas aset keuangan yang diukur pada FVTOCI dalam cadangan lainnya.

Lihat kebijakan akuntansi lindung nilai mengenai pengakuan perbedaan nilai tukar dimana komponen risiko mata uang asing dari aset keuangan ditetapkan sebagai instrumen lindung nilai untuk lindung nilai atas risiko mata uang asing.

Penurunan nilai aset keuangan

Grup mengakui penyisihan kerugian untuk kerugian kredit ekspektasian ("ECL") atas piutang usaha dan piutang lain-lain. Nilai kerugian kredit ekspektasian diperbarui pada tanggal pelaporan untuk mencerminkan perubahan risiko kredit sejak pengakuan awal masing-masing instrumen keuangan.

Grup selalu mengakui ECL sepanjang umurnya untuk piutang usaha dan aset kontrak. Kerugian kredit ekspektasian atas aset keuangan diestimasi menggunakan matriks provisi berdasarkan pengalaman kerugian kredit historis Grup, disesuaikan untuk faktor spesifik debitur, kondisi ekonomi umum serta penilaian atas arah kondisi kini dan perkiraan masa depan pada tanggal pelaporan, termasuk nilai waktu atas uang jika tepat.

Reclassification of financial assets and liabilities

The Group does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which there is a change in business model. Financial liabilities are never classified.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate as at each reporting date. Specifically:

- For financial assets measured at amortized cost that are not part of a designated hedging relationship, exchange differences are recognized in profit or loss in the "gain on foreign exchange - net" line item;
- For debt instruments measured at FVTOCI that are not part of a designated hedging relationship, exchange differences on the amortized cost of the debt instrument are recognized in profit or loss in the "gain on foreign exchange - net" line item. Other exchange differences are recognized in other comprehensive income in net fair value gain (loss) on financial assets at FVTOCI in other reserves.

See hedge accounting policy regarding the recognition of exchange differences where the foreign currency risk component of a financial asset is designated as a hedging instrument for a hedge of foreign currency risk.

Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses ("ECL") on trade and other accounts receivable. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognizes lifetime ECL for trade accounts receivable and contract assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

Untuk semua instrumen keuangan lainnya, Grup mengakui ECL sepanjang umur ketika telah ada peningkatan risiko kredit yang signifikan sejak pengakuan awal. Jika, sebaliknya, risiko kredit pada instrumen keuangan tidak meningkat secara signifikan sejak pengakuan awal, Grup mengukur penyisihan kerugian untuk instrumen keuangan tersebut sejumlah ECL 12 bulan. Penilaian apakah ECL sepanjang umur harus diakui didasarkan pada peningkatan signifikan dalam kemungkinan terjadinya atau pada risiko gagal bayar sejak pengakuan awal dan bukan didasarkan pada bukti aset keuangan yang mengalami kerugian kredit pada tanggal pelaporan atau kejadian gagal bayar sebenarnya.

Kerugian kredit ekspektasian sepanjang umur merupakan kerugian kredit ekspektasian yang timbul dari seluruh kemungkinan peristiwa gagal bayar selama perkiraan umur instrumen keuangan. Sebaliknya, ECL 12 bulan mewakili porsi ECL sepanjang umur yang timbul dari peristiwa gagal bayar pada instrumen keuangan yang mungkin terjadi dalam 12 bulan setelah tanggal pelaporan.

#### Peningkatan risiko credit secara signifikan

Dalam menilai apakah risiko kredit pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Grup membandingkan risiko gagal bayar yang terjadi pada instrumen keuangan pada tanggal pelaporan dengan risiko gagal bayar yang terjadi pada instrumen keuangan pada tanggal pengakuan awal. Dalam melakukan penilaian, Grup mempertimbangkan baik informasi kuantitatif maupun kualitatif yang wajar dan mendukung, termasuk pengalaman historis dan informasi bersifat perkiraan masa depan, yang tersedia tanpa biaya atau upaya berlebihan. Informasi masa depan yang dipertimbangkan mencakup prospek masa depan industri di mana debitur Grup beroperasi, yang diperoleh dari laporan ahli ekonomi, analisis keuangan, badan pemerintah, lembaga terkait, dan organisasi serupa lainnya, serta pertimbangan berbagai sumber eksternal aktual dan prakiraan informasi ekonomi yang terkait dengan operasi inti Grup.

Secara khusus, informasi berikut diperhitungkan ketika menilai apakah risiko kredit telah meningkat secara signifikan sejak pengakuan awal:

- penurunan yang signifikan pada indikator pasar eksternal atas risiko kredit untuk instrumen keuangan tertentu, contohnya penurunan signifikan pada spread kredit, harga *swap* gagal bayar kredit bagi peminjam, atau rentang waktu atau tingkat nilai wajar aset keuangan lebih rendah dari biaya perolehan diamortisasinya;

For all other financial instruments, the Group recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost;

- memburuknya kondisi usaha, keuangan atau ekonomi yang terjadi saat ini atau prakiraan yang akan menyebabkan penurunan signifikan atas kemampuan peminjam untuk menyelesaikan kewajiban utangnya;
- terdapat penurunan yang signifikan terhadap hasil operasi peminjam, baik secara aktual atau yang diperkirakan akan terjadi;
- peningkatan risiko kredit secara signifikan pada instrumen keuangan lainnya dari peminjam yang sama;
- perubahan signifikan yang tidak menguntungkan baik secara aktual atau yang diperkirakan dalam lingkungan peraturan, ekonomi, atau lingkungan teknologi peminjam yang mengakibatkan perubahan signifikan atas kemampuan peminjam dalam memenuhi kewajiban utangnya.

Terlepas dari hasil penilaian di atas, Grup membuat praduga risiko kredit aset keuangan telah meningkat signifikan sejak pengakuan awal ketika pembayaran kontraktual tertunggak lebih dari 30 hari, kecuali jika Grup memiliki informasi yang wajar dan didukung yang menunjukkan hal sebaliknya.

Meskipun demikian, Grup mengasumsikan bahwa risiko kredit pada instrumen keuangan tidak meningkat secara signifikan sejak pengakuan awal jika instrumen keuangan tersebut ditetapkan memiliki risiko kredit yang rendah pada tanggal pelaporan. Instrumen keuangan bertekad memiliki risiko kredit rendah jika:

- a. instrumen keuangan memiliki risiko gagal bayar yang rendah;
- b. debitur memiliki kapasitas yang kuat untuk memenuhi kewajiban arus kas kontraktualnya dalam waktu dekat; dan
- c. memburuknya kondisi ekonomi dan bisnis dalam jangka panjang dapat, tetapi tidak selalu, menurunkan kemampuan peminjam untuk memenuhi kewajiban arus kas kontraktualnya.

Grup menganggap aset keuangan memiliki risiko kredit rendah ketika aset memiliki peringkat kredit eksternal '*investment grade*' sesuai dengan definisi yang dipahami secara global atau jika peringkat eksternal tidak tersedia, aset tersebut memiliki peringkat internal '*performing*'. *Performing* berarti bahwa rekanan memiliki posisi keuangan yang kuat dan tidak ada jumlah yang tertunggak.

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- a. the financial instrument has a low risk of default;
- b. the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- c. adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of '*investment grade*' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of '*performing*'. *Performing* means that the counterparty has a strong financial position and there is no past due amounts.

Grup secara teratur memantau efektivitas kriteria yang digunakan untuk mengidentifikasi apakah telah terjadi peningkatan risiko kredit yang signifikan dan merevisinya jika perlu untuk memastikan bahwa kriteria tersebut mampu mengidentifikasi peningkatan risiko kredit yang signifikan sebelum jumlahnya jatuh tempo.

#### Definisi gagal bayar

Grup menganggap hal-hal berikut ini merupakan peristiwa gagal bayar untuk tujuan manajemen risiko kredit internal karena pengalaman historis menunjukkan bahwa aset keuangan yang memenuhi salah satu kriteria berikut umumnya tidak dapat dipulihkan:

- ketika terdapat pelanggaran persyaratan keuangan oleh debitur; atau
- informasi yang dikembangkan secara internal atau diperoleh dari sumber eksternal menunjukkan bahwa debitur kemungkinan tidak akan membayar kreditornya, termasuk Grup, secara penuh (tanpa memperhitungkan jaminan yang dimiliki oleh Grup).

Terlepas dari analisis di atas, Grup menganggap bahwa gagal bayar telah terjadi ketika aset keuangan tertunggak lebih dari 60 hari kecuali jika Grup memiliki informasi yang wajar dan didukung untuk menunjukkan bahwa kriteria yang lebih panjang lebih tepat.

#### Aset keuangan memburuk

Aset keuangan mengalami penurunan nilai kredit ketika satu atau lebih peristiwa yang memiliki dampak buruk pada estimasi arus kas masa depan dari aset keuangan tersebut telah terjadi. Bukti bahwa aset keuangan mengalami penurunan nilai termasuk data yang dapat diobservasi tentang peristiwa berikut:

- kesulitan keuangan yang signifikan dari penerbit atau peminjam;
- pelanggaran kontrak, seperti kejadian gagal bayar atau tunggakan;
- pihak pemberi pinjaman, untuk alasan ekonomik atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, telah memberikan konsesi pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya;

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collateral held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 60 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

#### Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization;

- hilangnya pasar aktif untuk aset keuangan itu akibat kesulitan keuangan; atau
- pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi.

#### Kebijakan penghapusan

Grup menghapuskan aset keuangan ketika ada informasi yang menunjukkan bahwa pihak lawan berada dalam kesulitan keuangan yang buruk dan tidak ada prospek pemulihan yang realistis, contoh ketika pihak lawan dalam proses likuidasi atau telah memasuki proses kebangkrutan. Aset keuangan yang dihapuskan dapat menjadi subjek aktivitas paksaan dalam prosedur pemulihan Grup, dengan mempertimbangkan nasihat hukum yang sesuai. Setiap pemulihan yang terjadi diakui dalam laba rugi.

#### Pengukuran dan pengakuan atas kerugian kredit ekspektasian

Pengukuran kerugian kredit ekspektasian merupakan fungsi dari *probability of default*, *loss given default* (yaitu besarnya kerugian jika terjadi gagal bayar) dan eksposur pada gagal bayar. Penilaian *probability of default* dan *loss given default* berdasarkan data historis yang disesuaikan dengan informasi masa depan seperti dijelaskan di atas. Adapun eksposur atas gagal bayar, untuk aset keuangan, diwakili oleh nilai tercatat bruto aset pada tanggal pelaporan; untuk kontrak jaminan keuangan, eksposur mencakup jumlah yang ditarik pada tanggal pelaporan, ditambah dengan jumlah yang diperkirakan akan ditarik di masa depan sebelum tanggal gagal bayar yang ditentukan berdasarkan tren historis, pemahaman Grup mengenai kebutuhan pembiayaan masa depan yang spesifik dari debiturnya, dan informasi perkiraan masa depan lainnya yang relevan.

Untuk aset keuangan, kerugian kredit ekspektasian diestimasi sebagai selisih antara seluruh arus kas kontraktual yang jatuh tempo kepada Grup sesuai dengan kontrak dan seluruh arus kas yang diekspektasi akan diterima oleh Grup, didiskontokan pada suku bunga efektif awal. Untuk piutang sewa, arus kas yang digunakan untuk menentukan kerugian kredit ekspektasian konsisten dengan arus kas yang digunakan dalam mengukur piutang sewa berdasarkan PSAK 73.

- the disappearance of an active market for that financial asset because of financial difficulties; or
- the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

#### Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

#### Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the lease receivable in accordance with PSAK 73.

Apabila kerugian kredit ekspektasian sepanjang umur diukur secara kolektif untuk kasus dimana bukti kenaikan signifikan risiko kredit pada level instrumen individual tidak tersedia, instrumen keuangan dikelompokkan dengan dasar sebagai berikut:

- Sifat instrumen keuangan (yaitu piutang usaha dan lain-lain dan jumlah tagihan kepada pelanggan Grup masing-masing dinilai sebagai grup terpisah);
- Status jatuh tempo;
- Sifat, besaran dan jenis industri debitur;
- Sifat jaminan untuk piutang sewa pembiayaan; dan
- Peringkat risiko kredit jika tersedia.

Pengelompokan ditelaah secara teratur oleh manajemen untuk memastikan setiap kelompok mempunyai karakteristik risiko yang sama.

Jika Grup telah mengukur cadangan kerugian untuk instrumen keuangan sebesar ECL sepanjang umurnya pada tahun pelaporan sebelumnya, tetapi menentukan pada tanggal pelaporan ini bahwa kondisi untuk ECL sepanjang umurnya tidak lagi terpenuhi, Grup mengukur cadangan kerugian sejumlah ECL 12 bulan pada tanggal pelaporan ini, kecuali untuk aset yang menggunakan pendekatan yang disederhanakan.

Grup mengakui keuntungan atau kerugian penurunan nilai dalam laba rugi untuk semua instrumen keuangan dengan penyesuaian terkait ke jumlah tercatat melalui akun cadangan kerugian, kecuali untuk investasi pada instrumen hutang yang diukur pada FVTOCI, dimana penyisihan kerugian diakui dalam penghasilan komprehensif lain dan diakumulasi dalam cadangan revaluasi investasi, dan tidak mengurangi nilai tercatat aset keuangan pada laporan posisi keuangan konsolidasian.

#### Penghentian pengakuan aset keuangan

Grup menghentikan pengakuan aset keuangan jika dan hanya jika hak kontraktual atas arus kas yang berasal dari aset keuangan berakhir, atau Grup mentransfer aset keuangan dan secara substansial mentransfer seluruh risiko dan manfaat atas kepemilikan aset kepada entitas lain. Jika Grup tidak mentransfer serta tidak memiliki secara substansial seluruh risiko dan manfaat kepemilikan serta masih mengendalikan aset yang ditransfer, maka Grup mengakui keterlibatan berkelanjutan atas aset yang ditransfer dan liabilitas terkait sebesar jumlah yang mungkin harus dibayar. Jika Grup memiliki secara substansial seluruh risiko dan manfaat kepemilikan aset keuangan yang ditransfer, Grup masih mengakui aset keuangan dan juga mengakui pinjaman yang dijamin sebesar pinjaman yang diterima.

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments (i.e. The Group's trade and other accounts receivables and amounts due from customers are each assessed as a separate group);
- Past-due status;
- Nature, size and industry of debtors;
- Nature of collaterals for finance lease receivables; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which the simplified approach was used.

The Group recognizes an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

#### Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

Pada penghentian pengakuan aset keuangan yang diukur pada biaya perolehan diamortisasi, perbedaan antara nilai tercatat aset dan jumlah imbalan yang diterima dan piutang diakui dalam laba rugi. Selain itu, pada penghentian pengakuan investasi dalam instrumen utang yang diklasifikasikan sebagai FVTOCI, keuntungan atau kerugian kumulatif yang sebelumnya diakumulasi dalam cadangan revaluasi investasi, direklasifikasi ke laba rugi. Sebaliknya, pada penghentian pengakuan investasi dalam instrumen ekuitas yang telah dipilih Grup pada pengakuan awal untuk diukur di FVTOCI, keuntungan atau kerugian kumulatif yang sebelumnya diakumulasi dalam keuntungan (kerugian) nilai wajar bersih atas aset keuangan yang diukur pada FVTOCI dalam cadangan lainnya tidak direklasifikasi ke laba rugi, tetapi dipindahkan ke saldo laba.

#### **Liabilitas Keuangan dan Instrumen Ekuitas**

##### Klasifikasi sebagai liabilitas atau ekuitas

Instrumen utang dan ekuitas yang diterbitkan oleh Grup diklasifikasikan sebagai liabilitas keuangan atau ekuitas sesuai dengan substansi perjanjian kontraktual dan definisi liabilitas keuangan dan instrumen ekuitas.

##### Instrumen ekuitas

Instrumen ekuitas adalah setiap kontrak yang memberikan hak residual atas aset Grup setelah dikurangi dengan seluruh liabilitasnya. Instrumen ekuitas yang diterbitkan oleh Grup dicatat sebesar hasil penerimaan bersih setelah dikurangi biaya penerbitan langsung.

##### Liabilitas Keuangan

Liabilitas keuangan diklasifikasikan sebagai "FVTPL" atau "pada biaya perolehan diamortisasi" menggunakan metode suku bunga efektif.

##### Liabilitas keuangan yang diukur pada FVTPL

Liabilitas keuangan diklasifikasi FVTPL ketika liabilitas keuangan merupakan 1) imbalan kontinjen yang diakui oleh pihak pengakuisisi dalam kombinasi bisnis ketika PSAK 22 diterapkan, 2) dimiliki untuk diperdagangkan, atau 3) ditetapkan sebagai FVTPL.

##### Liabilitas keuangan dimiliki untuk diperdagangkan jika:

- diperoleh terutama untuk tujuan dibeli kembali dalam waktu dekat; atau
- pada pengakuan awal merupakan bagian dari portofolio instrumen keuangan tertentu yang dikelola Grup secara bersama dan terdapat bukti mengenai pola ambil untung dalam jangka pendek aktual saat ini; atau

On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in an equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the net fair value gain (loss) on financial assets at FVTOCI in other reserves is not reclassified to profit or loss, but is transferred to retained earnings.

#### **Financial Liabilities and Equity Instruments**

##### Classification as debt or equity

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

##### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

##### Financial Liabilities

Financial liabilities are classified as either financial liabilities "at FVTPL" or "at amortized cost" using the effective interest method.

##### Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is 1) contingent consideration of an acquirer in a business combination to which PSAK 22 applies, 2) held for trading, or 3) it is designated as at FVTPL.

##### A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing in the near term; or
- on initial recognition it is part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or

- merupakan derivatif yang tidak ditetapkan dan tidak efektif sebagai instrumen lindung nilai.

Liabilitas keuangan selain liabilitas keuangan yang diperdagangkan dapat ditetapkan sebagai FVTPL pada saat pengakuan awal jika:

- mengeliminasi atau mengurangi secara signifikan inkonsistensi pengukuran dan pengakuan yang dapat timbul; atau
- liabilitas keuangan membentuk bagian dari kelompok aset keuangan, liabilitas keuangan atau keduanya dikelola dan kinerjanya dievaluasi berdasarkan nilai wajar, sesuai dengan manajemen risiko atau strategi investasi yang didokumentasikan dan informasi tentang kelompok tersebut disediakan secara internal.
- Merupakan bagian kontrak yang mengandung satu atau lebih derivatif melekat, dan PSAK 55 atau PSAK 71 mengizinkan seluruh kontrak gabungan (aset atau liabilitas) ditetapkan sebagai FVTPL.

#### Pengukuran selanjutnya liabilitas keuangan pada FVTPL

Liabilitas keuangan pada FVTPL diukur pada nilai wajar, dengan keuntungan atau kerugian yang timbul atas perubahan nilai wajar diakui dalam laporan laba rugi sepanjang hal tersebut tidak menjadi bagian dari hubungan lindung nilai yang ditentukan (lihat kebijakan akuntansi lindung nilai). Keuntungan atau kerugian bersih yang diakui dalam laba rugi menggabungkan setiap bunga yang dibayarkan atas liabilitas keuangan dan termasuk dalam bagian "keuntungan lain-lain - bersih" dalam laporan laba rugi konsolidasian.

Namun, untuk liabilitas keuangan yang ditetapkan pada FVTPL, jumlah perubahan nilai wajar liabilitas keuangan yang dapat diatribusikan pada perubahan risiko kredit liabilitas diakui dalam penghasilan komprehensif lain, kecuali jika pengakuan dampak risiko kredit di penghasilan komprehensif lain akan menciptakan atau memperbesar inkonsistensi akuntansi dalam laba rugi. Sisa perubahan dari nilai wajar atas liabilitas diakui dalam laba rugi. Perubahan nilai wajar yang dapat diatribusikan pada risiko kredit liabilitas keuangan yang diakui dalam penghasilan komprehensif lain tidak akan direklasifikasi ke laba rugi; sebaliknya, perubahan tersebut dipindahkan ke saldo laba pada saat penghentian pengakuan liabilitas keuangan.

- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both which is managed and its performance is evaluated on a fair value basis in accordance with a documented risk management or investment strategy, and information about the grouping is provided internally on that basis.
- It forms part of a contract containing one or more embedded derivatives, and PSAK 55 or PSAK 71 permits the entire combined contract (asset or liability) to be designated as at FVTPL.

#### Subsequent measurement of financial liabilities at FVTPL

Financial liabilities at FVTPL are measured at fair value, with any gains or losses arising on changes in fair value recognized in profit or loss to the extent that they are not part of a designated hedging relationship (see hedge accounting policy). The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability and is included in the "other gains - net" line item in the consolidated statements of profit or loss.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. The remaining amount of change in the fair value of liability is recognized in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in other comprehensive income are not subsequently reclassified to profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

Liabilitas keuangan pada biaya perolehan diamortisasi

Liabilitas keuangan yang bukan merupakan 1) imbalan kontingen dari pihak pengakuisisi dalam kombinasi bisnis, 2) dimiliki untuk diperdagangkan, atau 3) ditetapkan sebagai FVTPL, selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

Metode suku bunga efektif

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari liabilitas keuangan dan metode untuk mengalokasikan biaya bunga selama tahun yang relevan. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran kas masa depan (mencakup seluruh komisi dan bentuk lain yang dibayarkan dan diterima yang merupakan bagian yang tak terpisahkan dari suku bunga efektif, biaya transaksi dan premium dan diskonto lainnya) selama perkiraan umur liabilitas keuangan, atau (jika lebih tepat) digunakan periode yang lebih singkat untuk memperoleh nilai tercatat bersih pada saat pengakuan awal.

Keuntungan dan kerugian kurs mata uang asing

Untuk liabilitas keuangan dalam mata uang asing dan diukur pada biaya perolehan diamortisasi pada setiap tanggal pelaporan, keuntungan atau kerugian kurs mata uang asing ditentukan berdasarkan biaya perolehan diamortisasi dari instrumen. Keuntungan atau kerugian kurs mata uang asing diakui dalam laba rugi untuk liabilitas keuangan yang tidak merupakan bagian dari hubungan lindung nilai ditetapkan. Untuk yang ditetapkan sebagai instrumen lindung nilai untuk lindung nilai atas risiko mata uang asing, keuntungan dan kerugian selisih kurs diakui dalam penghasilan komprehensif lain dan diakumulasikan dalam komponen ekuitas yang terpisah.

Nilai wajar liabilitas keuangan dalam mata uang asing ditentukan dalam mata uang asing tersebut dan dijabarkan pada kurs yang berlaku pada akhir periode pelaporan. Untuk liabilitas keuangan yang diukur pada FVTPL, komponen nilai tukar mata uang asing merupakan bagian dari keuntungan atau kerugian nilai wajar dan diakui dalam laba rugi untuk liabilitas keuangan yang tidak merupakan bagian dari hubungan lindung nilai ditetapkan.

Financial liabilities at amortized cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortized cost using the effective interest method.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period to the net carrying amount on initial recognition.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortized cost as at each reporting date, the foreign exchange gains and losses are determined based on the amortized cost of the instruments. These foreign exchange gains and losses are recognized in profit or loss for financial liabilities that are not part of a designated hedging relationship. For those which are designated as a hedging instrument for a hedge of foreign currency risk, foreign exchange gains and losses are recognized in other comprehensive income and accumulated in a separate component of equity.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognized in profit or loss for financial liabilities that are not part of a designated hedging relationship.

Penghentian pengakuan liabilitas keuangan

Grup menghentikan pengakuan liabilitas keuangan, jika dan hanya jika, liabilitas Grup telah dilepaskan, dibatalkan atau kadaluarsa. Selisih antara jumlah tercatat liabilitas keuangan yang dihentikan pengakuannya dan imbalan yang dibayarkan dan utang diakui dalam laba rugi.

Ketika Grup bertukar dengan pemberi pinjaman, satu instrumen utang menjadi instrumen lain dengan persyaratan yang berbeda secara substansial, pertukaran tersebut dicatat sebagai penghapusan liabilitas keuangan orisinal dan pengakuan liabilitas keuangan baru. Demikian pula, Grup memperhitungkan modifikasi substansial dari ketentuan liabilitas yang ada atau bagian dari liabilitas tersebut sebagai pelepasan liabilitas keuangan orisinal dan pengakuan liabilitas baru. Diasumsikan bahwa persyaratannya berbeda secara substansial jika nilai kini arus kas yang didiskonto berdasarkan persyaratan yang baru, termasuk setiap *fee* (imbalan) yang dibayarkan setelah dikurangi setiap *fee* (imbalan) yang diterima dan didiskonto menggunakan suku bunga efektif orisinal, berbeda sedikitnya 10% dari nilai kini sisa arus kas yang didiskonto yang berasal dari liabilitas keuangan orisinal. Jika modifikasi tidak substansial, maka perbedaan antara: (1) jumlah tercatat liabilitas sebelum modifikasi; dan (2) nilai kini dari arus kas setelah modifikasi, diakui dalam laba rugi sebagai keuntungan atau kerugian modifikasi dalam keuntungan dan kerugian lainnya.

**h. Kas dan Setara Kas**

Untuk tujuan penyajian arus kas, kas dan setara kas terdiri dari kas, bank dan semua investasi yang jatuh tempo dalam waktu tiga bulan atau kurang dari tanggal perolehannya dan yang tidak dijamin serta tidak dibatasi penggunaannya.

**i. Investasi pada Entitas Asosiasi**

Entitas asosiasi adalah suatu entitas yang mana Grup mempunyai pengaruh yang signifikan. Pengaruh signifikan adalah kekuasaan untuk berpartisipasi dalam keputusan kebijakan keuangan dan operasional *investee* tetapi tidak mengendalikan atau mengendalikan bersama atas kebijakan tersebut.

Derecognition of financial liabilities

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

When the Group exchanges with the existing lender one debt instrument into another one with the substantially different terms, such exchange is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, the Group accounts for substantial modification of terms of an existing liability or part of it as an extinguishment of the original financial liability and the recognition of a new liability. It is assumed that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective rate is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. If the modification is not substantial, the difference between: (1) the carrying amount of the liability before the modification; and (2) the present value of the cash flows after modification is recognized in profit or loss as the modification gain or loss within other gains and losses.

**h. Cash and Cash Equivalents**

For cash flow presentation purposes, cash and cash equivalents consist of cash on hand and in banks and all unrestricted investments with maturities of three months or less from the date of placement.

**i. Investments in Associate**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Penghasilan dan aset dan liabilitas dari entitas asosiasi dicatat dalam laporan keuangan konsolidasian dengan menggunakan metode ekuitas, kecuali ketika investasi diklasifikasikan sebagai dimiliki untuk dijual, sesuai dengan PSAK 58 *Aset Tidak Lancar yang Dimiliki untuk Dijual dan Operasi yang Dihentikan*.

Dengan metode ekuitas, investasi pada entitas asosiasi diakui di laporan posisi keuangan konsolidasian sebesar biaya perolehan dan selanjutnya disesuaikan untuk perubahan dalam bagian kepemilikan Grup atas laba rugi dan penghasilan komprehensif lain dari entitas asosiasi yang terjadi setelah perolehan. Ketika bagian Grup atas kerugian entitas asosiasi melebihi kepentingan Grup pada entitas asosiasi (yang mencakup semua kepentingan jangka panjang, yang secara substansi, membentuk bagian dari investasi bersih Grup dalam entitas asosiasi), Grup menghentikan pengakuan bagiannya atas kerugian selanjutnya. Kerugian selanjutnya diakui hanya apabila Grup mempunyai kewajiban bersifat hukum atau konstruktif atau melakukan pembayaran atas nama entitas asosiasi.

Investasi pada entitas asosiasi dicatat dengan menggunakan metode ekuitas sejak tanggal pada saat *investee* menjadi entitas asosiasi. Setiap kelebihan biaya perolehan investasi atas bagian Grup atas nilai wajar bersih dari aset yang teridentifikasi dan liabilitas dari entitas asosiasi yang diakui pada tanggal akuisisi, diakui sebagai *goodwill*. *Goodwill* termasuk dalam jumlah tercatat investasi, dan diuji penurunan nilainya sebagai bagian dari investasi. Setiap kelebihan kepemilikan Grup dari nilai wajar bersih aset yang teridentifikasi dan liabilitas atas biaya perolehan investasi, sesudah pengujian kembali, segera diakui di dalam laba rugi pada tahun diperolehnya investasinya.

Persyaratan dalam PSAK 48 *Penurunan Nilai Aset* ("PSAK 48"), diterapkan untuk menentukan apakah perlu untuk mengakui setiap penurunan nilai sehubungan dengan investasi pada entitas asosiasi. Bila diperlukan, jumlah tercatat investasi (termasuk *goodwill*) diuji penurunan nilai sesuai dengan PSAK 48, sebagai suatu aset tunggal dengan membandingkan antara jumlah terpulihkan (mana yang lebih tinggi antara nilai pakai dan nilai wajar dikurangi biaya pelepasan) dengan jumlah tercatatnya. Rugi penurunan nilai diakui langsung pada nilai tercatat investasi. Setiap pembalikan dari penurunan nilai diakui sesuai dengan PSAK 48 sepanjang jumlah terpulihkan dari investasi tersebut kemudian meningkat.

The results of operations and assets and liabilities of associate are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case, it is accounted for in accordance with PSAK 58 *Non-current Assets Held for Sale and Discontinued Operations*.

Under the equity method, an investment in an associate is initially recognized in the consolidated statements of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. Any excess of the cost of acquisition over the Group's share of the net fair value of identifiable assets and liabilities of the associate recognized at the date of acquisition, is recognized as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss in the period in which the investment is acquired.

The requirements of PSAK 48 *Impairment of Assets* ("PSAK 48"), are applied to determine whether it is necessary to recognize any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with PSAK 48, as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized in accordance with PSAK 48 to the extent that the recoverable amount of the investment subsequently increases.

Grup menghentikan penggunaan metode ekuitas sejak tanggal saat investasinya berhenti menjadi investasi pada entitas asosiasi atau ventura bersama atau ketika investasi diklasifikasi sebagai dimiliki untuk dijual. Ketika Grup mempertahankan kepemilikan dalam entitas yang sebelumnya merupakan entitas asosiasi atau ventura bersama dan sisa investasi tersebut merupakan aset keuangan, Grup mengukur setiap sisa investasi pada nilai wajar pada tanggal tersebut dan nilai wajar tersebut dianggap sebagai nilai wajar pada saat pengakuan awal sesuai dengan PSAK 71. Selisih antara jumlah tercatat pada asosiasi pada tanggal metode ekuitas dihentikan, dan nilai wajar dari setiap bunga yang ditahan dan dihasilkan dari pelepasan sebagian kepentingan dalam asosiasi termasuk dalam penentuan keuntungan atau kerugian pada pelepasan asosiasi. Selanjutnya, Grup mencatat seluruh jumlah yang sebelumnya telah diakui dalam penghasilan komprehensif lain yang terkait dengan entitas asosiasi tersebut dengan menggunakan dasar perlakuan yang sama dengan yang disyaratkan jika entitas asosiasi telah melepaskan secara langsung aset dan liabilitas yang terkait. Seluruh jumlah yang diakui dalam penghasilan komprehensif lain yang terkait dengan entitas asosiasi direklasifikasi ke laba rugi (sebagai penyesuaian reklasifikasi) pada saat penghentian metode ekuitas.

Grup melanjutkan penerapan metode ekuitas jika investasi pada entitas asosiasi menjadi investasi pada ventura bersama atau investasi pada ventura bersama menjadi investasi pada entitas asosiasi. Tidak terdapat pengukuran kembali ke nilai wajar pada saat perubahan kepentingan.

Jika Grup mengurangi bagian kepemilikan pada entitas asosiasi tetapi Grup tetap menerapkan metode ekuitas, Grup mereklasifikasi ke laba rugi proporsi keuntungan atau kerugian yang telah diakui sebelumnya dalam penghasilan komprehensif lain yang terkait dengan pengurangan bagian kepemilikan (jika keuntungan atau kerugian tersebut akan direklasifikasi ke laba rugi atas pelepasan aset atau liabilitas yang terkait).

Ketika Grup menambah bagian kepemilikan pada entitas asosiasi yang sudah dimiliki sebelumnya dan entitas tersebut tetap sebagai entitas asosiasi, imbalan yang dialihkan atas penambahan kepemilikan tersebut ditambahkan ke nilai tercatat sebelumnya tanpa mempertimbangkan nilai wajar bersih aset yang teridentifikasi dan liabilitas atas entitas asosiasi tersebut.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures any retained investment at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with PSAK 71. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part of interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognized in other comprehensive income by that associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest (if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities).

Where the Group increases its interest in its existing associate and it remains as an associate, the consideration transferred of the additional interest is added to the existing carrying amount without considering the fair value of the associate's identifiable assets and liabilities.

Ketika Grup melakukan transaksi dengan entitas asosiasi, keuntungan dan kerugian yang timbul dari transaksi dengan entitas asosiasi diakui dalam laporan keuangan konsolidasian Grup hanya sebesar kepemilikan dalam entitas asosiasi yang tidak terkait dengan Grup.

Grup menerapkan PSAK 71, termasuk persyaratan penurunan nilai, untuk kepentingan jangka panjang dalam entitas asosiasi atau ventura bersama ketika metode ekuitas tidak diterapkan dan yang merupakan bagian dari investasi neto pada *investee*. Selanjutnya, dalam menerapkan PSAK 71 untuk kepentingan jangka panjang, Grup tidak memperhitungkan penyesuaian nilai tercatat yang disyaratkan oleh PSAK 15 *Investasi pada Entitas Asosiasi dan Ventura Bersama* (PSAK 15) (misalnya, penyesuaian nilai tercatat kepentingan jangka panjang yang timbul dari alokasi kerugian *investee* atau penilaian penurunan nilai berdasarkan PSAK 15).

#### **j. Persediaan**

Persediaan dinyatakan berdasarkan biaya perolehan atau nilai realisasi bersih, mana yang lebih rendah. Biaya terdiri atas bahan langsung dan, jika berlaku, biaya tenaga kerja langsung dan biaya *overhead* yang dikeluarkan untuk membawa persediaan ke lokasi dan kondisinya saat ini. Biaya perolehan ditentukan dengan metode rata-rata tertimbang. Nilai realisasi bersih merupakan estimasi harga jual dari persediaan dikurangi seluruh biaya penyelesaian dan estimasi biaya yang diperlukan untuk penjualan.

#### **k. Aset Tetap – Pemilikan Langsung**

Aset tetap yang dimiliki untuk digunakan dalam produksi atau penyediaan barang atau jasa atau untuk tujuan administratif dicatat berdasarkan biaya perolehan setelah dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai.

Penyusutan diakui dengan menggunakan metode garis lurus setelah memperhitungkan nilai residu berdasarkan taksiran masa manfaat ekonomis aset tetap sebagai berikut:

|                            | <u>Tahun/Years</u> |
|----------------------------|--------------------|
| Bangunan dan prasarana     | 4-30               |
| Mesin                      | 4-37               |
| Kendaraan bermotor         | 4-8                |
| Peralatan dan perlengkapan | 4-8                |

Masa manfaat ekonomis, nilai residu dan metode penyusutan direviu setiap akhir tahun dan pengaruh dari setiap perubahan estimasi tersebut berlaku prospektif.

Tanah dinyatakan berdasarkan biaya perolehan dan tidak disusutkan.

When a Group entity transacts with an associate, profits and losses resulting from the transactions with the associate are recognized in the Group's consolidated financial statements only to the extent of its interest in the associate that are not related to the Group.

The Group applies PSAK 71, including the impairment requirements, to long-term interests in an associate or joint venture to which the equity method is not applied and which form part of the net investment in the *investee*. Furthermore, in applying PSAK 71 to long-term interests, the Group does not take into account adjustments to their carrying amount required by PSAK 15 *Investment in Associate and Joint Venture* (PSAK 15) (i.e. adjustments to the carrying amount of long-term interests arising from the allocation of losses of the *investee* or assessment of impairment in accordance with PSAK 15).

#### **j. Inventories**

Inventories are stated at cost or net realizable value, whichever is lower. Cost comprises direct materials and, where applicable, direct labor costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is determined using the weighted average method. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

#### **k. Property, Plant and Equipment – Direct Acquisitions**

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated at cost, less accumulated depreciation and any accumulated impairment losses.

Depreciation is recognized using the straight-line method after calculating the residual values based on the estimated useful lives of the assets as follows:

|                               |
|-------------------------------|
| Buildings and infrastructures |
| Machineries                   |
| Motor vehicles                |
| Furniture and fixtures        |

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

Land is stated at cost and is not depreciated.

Biaya berkala untuk *overhaul* mesin yang dikapitalisasi disusutkan dengan menggunakan garis lurus selama periode sampai *overhaul* berikutnya.

Beban pemeliharaan dan perbaikan dibebankan pada laba rugi pada saat terjadinya. Biaya-biaya lain yang terjadi selanjutnya yang timbul untuk menambah, mengganti atau memperbaiki aset tetap dicatat sebagai biaya perolehan aset jika dan hanya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke entitas dan biaya perolehan aset dapat diukur secara andal.

Aset tetap dihentikan pengakuannya pada saat pelepasan atau ketika tidak ada manfaat ekonomik masa depan yang diharapkan timbul dari penggunaan aset secara berkelanjutan. Keuntungan atau kerugian yang timbul dari pelepasan atau penghentian pengakuan suatu aset tetap ditentukan sebagai selisih antara hasil penjualan dan nilai tercatat aset dan diakui dalam laba rugi.

Aset yang telah disusutkan sepenuhnya yang masih digunakan tetap termasuk dalam laporan keuangan konsolidasian.

Properti dalam proses konstruksi ("aset dalam penyelesaian") untuk tujuan produksi, persediaan atau administrasi, atau tujuan yang belum ditentukan, dicatat sebesar harga perolehan, dikurangi kerugian penurunan nilai yang diakui. Biaya perolehan termasuk biaya profesional. Penyusutan aset ini, dengan dasar yang sama seperti aset properti lainnya, dimulai saat aset tersebut siap untuk digunakan sesuai dengan tujuannya.

#### **I. Properti Investasi**

Properti investasi adalah tanah untuk menghasilkan rental atau untuk kenaikan nilai atau keduanya. Properti investasi diukur sebesar biaya perolehan setelah dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai.

Tanah dinyatakan berdasarkan biaya perolehan dan tidak disusutkan.

Properti investasi dihentikan pengakuannya pada saat dilepas atau ketika properti investasi tidak digunakan lagi secara permanen dan tidak memiliki manfaat ekonomi masa depan yang diharapkan dari pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian atau pelepasan properti investasi ditentukan dari selisih antara hasil neto pelepasan dan jumlah tercatat aset dan diakui dalam laba rugi pada periode terjadinya penghentian atau pelepasan.

Capitalized cost of major periodical overhauls of machinery is depreciated using the straight line method over the period to the next overhaul.

The cost of maintenance and repairs is charged to profit or loss as incurred. Other costs incurred subsequently to add to, replace part of, or service an item of property, plant and equipment, are recognized as asset if, and only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

Fully depreciated assets still in use are retained in the consolidated financial statements.

Properties in the course of construction ("construction in progress") for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

#### **I. Investment Property**

Investment property is land held to earn rentals or for capital appreciation or both. Investment property are measured at cost less accumulated depreciation and any accumulated impairment losses.

Land is stated at cost and is not depreciated.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

**m. Sewa**

Grup sebagai penyewa

Grup menilai apakah sebuah kontrak mengandung sewa, pada tanggal inisiasi kontrak. Grup mengakui aset hak-guna dan liabilitas sewa terkait sehubungan dengan seluruh kesepakatan sewa di mana Perusahaan merupakan penyewa, kecuali untuk sewa jangka-pendek (yang didefinisikan sebagai sewa yang memiliki masa sewa 12 bulan atau kurang) dan sewa yang aset dasarnya bernilai-rendah. Untuk sewa-sewa tersebut, Grup mengakui pembayaran sewa sebagai beban operasi secara garis lurus selama masa sewa kecuali dasar sistematis lainnya lebih merepresentasikan pola konsumsi manfaat penyewa dari aset sewa.

Liabilitas sewa awalnya diukur pada nilai kini pembayaran sewa masa depan yang belum dibayarkan pada tanggal permulaan, yang didiskontokan menggunakan suku bunga implisit dalam sewa. Jika suku bunga ini tidak dapat ditentukan, Grup menggunakan suku bunga pinjaman inkremental khusus untuk penyewa.

Pembayaran sewa yang diperhitungkan dalam pengukuran liabilitas sewa terdiri atas:

- pembayaran tetap (termasuk pembayaran tetap secara-substansi), dikurangi insentif sewa;
- pembayaran sewa variabel yang bergantung pada indeks atau suku bunga yang pada awalnya diukur dengan menggunakan indeks atau suku bunga pada tanggal permulaan;
- jumlah yang diperkirakan akan dibayarkan oleh penyewa dalam jaminan nilai residual;
- harga eksekusi opsi beli jika penyewa cukup pasti untuk mengeksekusi opsi tersebut; dan
- pembayaran penalti karena penghentian sewa, jika masa sewa merefleksikan penyewa mengeksekusi opsi untuk menghentikan sewa.

Liabilitas sewa disajikan sebagai pos terpisah dalam laporan posisi keuangan konsolidasian.

Liabilitas sewa selanjutnya diukur dengan meningkatkan jumlah tercatat untuk merefleksikan bunga atas liabilitas sewa (menggunakan metode suku bunga efektif) dan dengan mengurangi jumlah tercatat untuk merefleksikan sewa yang telah dibayar.

**m. Leases**

The Group as lessee

The Group assesses whether a contract is or contains a lease, at the inception of the contract. The Group recognizes a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate specific to the lessee.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect the interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Grup mengukur kembali liabilitas sewa (dan melakukan penyesuaian terkait terhadap aset hak-guna) jika:

- terdapat perubahan dalam masa sewa atau perubahan dalam penilaian atas eksekusi opsi pembelian, di mana liabilitas sewa diukur dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto revisian;
- terdapat perubahan sewa masa depan sebagai akibat dari perubahan indeks atau perubahan perkiraan pembayaran berdasarkan nilai residual jaminan di mana liabilitas sewa diukur kembali dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto awal (kecuali jika pembayaran sewa berubah karena perubahan suku bunga mengambang, di mana tingkat diskonto revisian digunakan); atau
- kontrak sewa dimodifikasi dan modifikasi sewa tidak dicatat sebagai sewa terpisah, di mana liabilitas sewa diukur dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto revisian.

Aset hak-guna terdiri dari pengukuran awal atas liabilitas sewa, pembayaran sewa yang dilakukan pada saat atau sebelum permulaan sewa dan biaya langsung awal. Aset hak-guna selanjutnya diukur sebesar biaya dikurangi akumulasi penyusutan dan kerugian penurunan nilai.

Jika Grup dibebankan kewajiban atas biaya membongkar dan memindahkan aset sewa, merestorasi tempat di mana aset berada atau merestorasi aset pendasar ke kondisi yang disyaratkan oleh syarat dan ketentuan sewa, provisi diakui dan diukur sesuai PSAK 57 *Provisi, Liabilitas Kontijensi, dan Aset Kontijensi*. Biaya tersebut diperhitungkan dalam aset hak-guna terkait, kecuali jika biaya tersebut terjadi untuk memproduksi persediaan.

Aset hak-guna disusutkan selama tahun yang lebih singkat antara masa sewa dan masa manfaat aset pendasar. Jika sewa mengalihkan kepemilikan aset pendasar atau jika biaya perolehan aset hak-guna merefleksikan Grup akan mengeksekusi opsi beli, aset hak-guna disusutkan selama masa manfaat aset pendasar. Penyusutan dimulai pada tanggal permulaan sewa.

Aset hak-guna disajikan sebagai pos terpisah di laporan posisi keuangan konsolidasian.

Grup menerapkan PSAK 48 untuk menentukan apakah aset hak-guna mengalami penurunan nilai dan mencatat kerugian penurunan nilai yang teridentifikasi sebagaimana dijelaskan dalam kebijakan aset penurunan nilai.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of the exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); or
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets comprise the initial measurements of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying assets to the conditions required by the terms and conditions of the lease, a provision is recognized and measured under PSAK 57 *Provisions, Contingent Liabilities, and Contingent Assets*. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying assets. If a lease transfers ownership of the underlying assets or the cost of the right-of-use assets reflects that of the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying assets. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies PSAK 48 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the impairment of assets policy.

Sewa variabel yang tidak bergantung pada indeks atau suku bunga tidak diperhitungkan dalam pengukuran liabilitas sewa dan aset hak-guna. Pembayaran terkait diakui sebagai beban dalam tahun di mana peristiwa atau kondisi yang memicu pembayaran tersebut terjadi dan dicatat dalam pos "Beban umum dan administrasi" dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

#### Grup sebagai pesewa

Grup melakukan perjanjian sewa sebagai pesewa sehubungan dengan tangki dan dermaga.

Sewa di mana Grup sebagai pesewa diklasifikasikan sebagai sewa pembiayaan atau sewa operasi. Ketika persyaratan sewa secara substansial mengalihkan seluruh risiko dan manfaat yang terkait dengan kepemilikan ke penyewa, kontrak tersebut diklasifikasikan sebagai sewa pembiayaan. Seluruh sewa lainnya diklasifikasikan sebagai sewa operasi.

Penghasilan sewa dari sewa operasi diakui secara garis lurus selama masa sewa yang relevan. Biaya langsung awal yang terjadi dalam menegosiasikan dan mengatur sewa operasi ditambahkan ke jumlah tercatat aset sewa dan diakui secara garis lurus selama masa sewa.

#### **n. Penurunan Nilai Aset Non-Kuangan**

Pada akhir setiap tahun pelaporan, Grup menelaah nilai tercatat aset non-keuangan untuk menentukan apakah terdapat indikasi bahwa aset tersebut telah mengalami penurunan nilai. Jika terdapat indikasi tersebut, jumlah terpulihkan dari aset diestimasi untuk menentukan tingkat kerugian penurunan nilai (jika ada). Bila tidak memungkinkan untuk mengestimasi jumlah terpulihkan atas suatu aset individual, Grup mengestimasi jumlah terpulihkan dari unit penghasil kas atas aset. Ketika dasar alokasi yang wajar dan konsisten dapat diidentifikasi, aset perusahaan juga dialokasikan ke masing-masing kelompok unit penghasil kas, atau sebaliknya mereka dialokasikan ke kelompok terkecil dari kelompok unit penghasil kas di mana dasar alokasi yang wajar dan konsisten dapat diidentifikasi.

Jumlah terpulihkan adalah nilai tertinggi antara nilai wajar dikurangi biaya pelepasan dan nilai pakai. Dalam menilai nilai pakainya, estimasi arus kas masa depan didiskontokan ke nilai kini menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset dengan estimasi arus kas masa depan belum disesuaikan.

Variable rents that do not depend on an index or rate are not included in the measurements of the lease liability and the right-of-use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occur and are included in the line "General and administrative expenses" in the consolidated statement of profit or loss and other comprehensive income.

#### The Group as lessor

The Group enters into lease agreements as a lessor with respect to tank and jetty.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognized on a straight-line basis over the terms of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased assets and recognized on a straight-line basis over the lease term.

#### **n. Impairment of Non-Financial Assets**

At the end of each reporting period, the Group reviews the carrying amount of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

Jika jumlah terpulihkan dari aset non-keuangan (unit penghasil kas) lebih kecil dari nilai tercatatnya, nilai tercatat aset (unit penghasil kas) diturunkan menjadi sebesar jumlah terpulihkan dan rugi penurunan nilai segera diakui dalam laba rugi.

Ketika penurunan nilai selanjutnya dibalik, jumlah tercatat aset (atau unit penghasil kas) ditingkatkan ke estimasi yang direvisi dari jumlah terpulihkannya, namun kenaikan jumlah tercatat tidak boleh melebihi jumlah tercatat ketika kerugian penurunan nilai tidak diakui untuk aset (atau unit penghasil kas) pada tahun-tahun sebelumnya. Pembalikan rugi penurunan nilai diakui segera dalam laba rugi.

Kebijakan akuntansi untuk penurunan nilai aset keuangan dijelaskan dalam Catatan 3g.

**o. Provisi**

Provisi diakui ketika Grup memiliki kewajiban kini (baik bersifat hukum maupun bersifat konstruktif) sebagai akibat peristiwa masa lalu, kemungkinan besar Grup diharuskan menyelesaikan kewajiban dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Jumlah yang diakui sebagai provisi adalah hasil estimasi terbaik pengeluaran yang diperlukan untuk menyelesaikan kewajiban kini pada akhir tahun pelaporan, dengan mempertimbangkan risiko dan ketidakpastian yang meliputi kewajibannya. Apabila suatu provisi diukur menggunakan arus kas yang diperkirakan untuk menyelesaikan kewajiban kini, maka nilai tercatatnya adalah nilai kini dari arus kas (ketika pengaruh nilai waktu uang bersifat material).

Ketika beberapa atau seluruh manfaat ekonomi untuk penyelesaian provisi yang diharapkan dapat dipulihkan dari pihak ketiga, piutang diakui sebagai aset apabila terdapat kepastian bahwa penggantian akan diterima dan jumlah piutang dapat diukur secara andal.

**p. Pengakuan Pendapatan**

Penjualan barang

Pendapatan Grup terutama dihasilkan dari penjualan barang jadi kepada pelanggan. Penjualan tersebut sebagian besar terdiri dari satu elemen pengiriman dan pendapatan diakui pada satu titik waktu tertentu pada saat pengendalian barang telah dialihkan kepada pelanggan. Penjualan ekspor dan lokal diakui pada saat Grup memenuhi kewajiban pelaksanaannya dengan mengalihkan produk petrokimia kepada pelanggan, yang umumnya melalui kapal, truk atau pipa. Pemindahan barang umumnya terjadi pada saat yang sama ketika kepemilikan produk petrokimia berpindah ke pelanggan.

If the recoverable amount of the non-financial asset (cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

Accounting policy for impairment of financial assets is discussed in Note 3g.

**o. Provisions**

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

**p. Revenue Recognition**

Sale of goods

The Group's revenue is primarily generated from the sale of finished products to customers. Those sales predominantly contain a single delivery element and revenue is recognized at a single point in time when control has been transferred to the customers. Export and local sales are recognised when the Group satisfies a performance obligation by transferring the petrochemical products to customers, which generally via vessels, truck or pipeline. A transfer of goods generally occurs at the same time when the title of petrochemical products passes to customers.

Pendapatan dari penjualan barang diukur berdasarkan imbalan yang menjadi haknya dalam kontrak dengan pelanggan dan tidak termasuk jumlah yang ditagih atas nama pihak ketiga. Grup mengakui pendapatan ketika mengalihkan pengendalian barang atau jasa kepada pelanggan, yaitu pada saat pengiriman barang.

#### Pendapatan listrik

Pendapatan penjualan listrik diakui berdasarkan pemakaian energi listrik (kWh). Umumnya, pelanggan dapat membeli token mereka sendiri (prabayar) atau ditagih setiap bulan (pascabayar). Untuk pelanggan pascabayar, pendapatan dari penjualan listrik diakui setiap bulan berdasarkan hasil baca meter atas pemakaian pelanggan. Untuk pelanggan prabayar, Grup mengakui pendapatan berdasarkan estimasi jumlah penggunaan token pelanggan pada periode tertentu.

#### Pendapatan sewa tangki dan dermaga

Kebijakan akuntansi untuk pendapatan sewa tangki dan dermaga diungkapkan dalam Catatan 3m.

### **q. Imbalan Kerja**

#### Imbalan kerja jangka pendek

Liabilitas diakui atas manfaat yang menjadi hak karyawan sehubungan dengan upah dan gaji, cuti tahunan dan cuti sakit dalam periode di mana jasa terkait diserahkan, sebesar jumlah yang tidak didiskontokan dari pembayaran manfaat ekspektasian sebagai imbalan atas jasa tersebut.

Hak karyawan atas cuti tahunan diakui ketika karyawan mendapat hak. Provisi dibuat untuk liabilitas cuti tahunan akibat jasa yang diserahkan oleh karyawan sampai tanggal periode pelaporan.

#### Imbalan pascakerja program pensiun iuran pasti

Pembayaran kepada program manfaat pensiun iuran pasti dibebankan ketika karyawan telah menyerahkan jasa yang memberikan hak kepada karyawan atas iuran.

#### Imbalan pascakerja program imbalan pasti

Grup membukukan imbalan pasca kerja imbalan pasti untuk karyawan sesuai dengan Undang-Undang Ketenagakerjaan No. 13/2003. Grup menghitung selisih antara imbalan yang diterima karyawan berdasarkan undang-undang yang berlaku dengan manfaat yang diterima dari program asuransi untuk pensiun normal.

Revenue from sale of goods is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognizes revenue when it transfers control of a product to a customer, upon delivery of goods.

#### Electricity revenue

Revenue from sale of electricity is recognized based on electricity usage (kWh). Generally, customers can buy their own token (prepaid) or are billed monthly (postpaid). For postpaid customers, revenue from sales of electricity is recognized monthly based on meter-reading result of each customer. For prepaid customers, the Group recognizes the revenue based on their estimated usage during the period.

#### Tank and jetty lease revenue

Accounting policies for tank and jetty lease revenue are disclosed in Note 3m.

### **q. Employee Benefits**

#### Short-term employee benefits

A liability is recognized for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefit expected to be paid in exchange for that service.

Employee entitlements to annual leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

#### Defined contribution pension plan

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions.

#### Defined benefit plan

The Group provides post-employment benefits as required under Labor Law No. 13/2003 (the "Labor Law"). For normal pension scheme, the Group calculates and recognizes the higher of the benefits under the Labor Law and those under such pension plan.

Perusahaan melakukan pendanaan untuk imbalan ini yang dikelola oleh sebuah perusahaan asuransi. Pendanaan tersebut tidak memenuhi syarat sebagai aset program.

Biaya penyediaan imbalan ditentukan dengan menggunakan metode *projected unit credit* dengan penilaian aktuarial yang dilakukan pada setiap akhir periode pelaporan tahunan. Pengukuran kembali, terdiri dari keuntungan dan kerugian aktuarial, tercermin langsung dalam laporan posisi keuangan konsolidasian yang dibebankan atau dikreditkan ke penghasilan komprehensif lain periode terjadinya. Pengukuran kembali diakui dalam penghasilan komprehensif lain tercermin sebagai pos terpisah pada penghasilan komprehensif lain di ekuitas dan tidak direklasifikasi ke laba rugi.

Biaya jasa lalu diakui dalam laba rugi ketika terjadi amandemen program atau kurtailmen, atau ketika Grup mengakui biaya restrukturisasi terkait atau pesangon, jika lebih dahulu. Bunga neto dihitung dengan mengalikan tingkat diskonto dengan liabilitas atau aset imbalan pasti neto. Biaya imbalan pasti dibagi menjadi tiga kategori:

- Biaya jasa (termasuk biaya jasa kini, biaya jasa lalu serta keuntungan dan kerugian kurtailmen dan penyelesaian).
- Beban atau pendapatan bunga neto.
- Pengukuran kembali.

Grup menyajikan dua komponen pertama dari biaya imbalan pasti di laba rugi. Keuntungan dan kerugian kurtailmen dicatat sebagai biaya jasa lalu.

Kewajiban imbalan pensiun yang diakui pada laporan posisi keuangan konsolidasian merupakan defisit atau surplus aktual dalam program imbalan pasti Grup. Surplus yang dihasilkan dari perhitungan ini terbatas pada nilai kini manfaat ekonomik yang tersedia dalam bentuk pengembalian dana program dan pengurangan iuran masa depan ke program.

Grup mengakui haknya dalam penggantian berdasarkan polis asuransi sebagai aset terpisah, yang diukur sebesar nilai wajarnya. Dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian, beban terkait dengan program imbalan pasti dapat disajikan secara neto setelah dikurangkan dengan jumlah yang diakui dalam penggantian.

#### Imbalan kerja jangka panjang lain

Liabilitas yang diakui sehubungan dengan imbalan kerja jangka panjang lain diukur pada nilai kini estimasi arus kas keluar masa depan yang diharapkan akan dilakukan oleh Grup sehubungan dengan jasa yang diberikan oleh karyawan hingga tanggal pelaporan.

The Company made funding of this benefit through an investment fund being managed by an insurance company. Such funding does not qualify as a plan asset.

The cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, is reflected immediately in the consolidated statements of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected as a separate item under other comprehensive income in equity and will not be reclassified to profit or loss.

Past service cost is recognized in profit or loss when the plan amendment or curtailment occurs, or when the Group recognizes related restructuring costs or termination benefits, if earlier. Net interest is calculated by applying a discount rate to the net defined benefit liability or asset. Defined benefit costs are in to three categories:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements).
- Net interest expense or income.
- Remeasurement.

The Group presents the first two components of defined benefit costs in profit or loss. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the consolidated statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

The Group recognizes its right to reimbursement under the insurance policy as a separate assets, which is measured at fair value. In the consolidated statement of profit or loss and other comprehensive income, the expense relating to a defined benefit plan is presented net of the amount recognized for a reimbursement.

#### Other long-term employee benefits

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Pesangon

Liabilitas untuk pesangon diakui mana yang terjadi lebih dulu ketika entitas tidak dapat lagi menarik penawaran imbalan tersebut dan ketika entitas mengakui biaya restrukturisasi terkait.

**r. Pajak Penghasilan**

Beban pajak penghasilan merupakan jumlah pajak kini terutang dan pajak tangguhan.

Pajak kini

Pajak kini terutang berdasarkan laba kena pajak untuk suatu tahun. Laba kena pajak berbeda dari laba sebelum pajak seperti yang dilaporkan di laba rugi karena tidak memperhitungkan penghasilan atau beban yang dikenakan pajak atau dikurangkan pada tahun berbeda dan tidak memperhitungkan pos-pos yang tidak pernah dikenakan pajak atau tidak dapat dikurangkan. Liabilitas Grup untuk pajak kini dihitung berdasarkan tarif pajak yang telah berlaku pada akhir tahun pelaporan.

Provisi diakui untuk penentuan pajak yang tidak pasti, tetapi kemungkinan besar akan mengakibatkan arus keluar dana kepada otoritas pajak. Provisi diukur sebesar estimasi terbaik atas jumlah ekspektasian yang terhutang. Penilaian berdasarkan pada pertimbangan professional pajak dalam Grup yang didukung dengan pengalaman lalu atas aktivitas tersebut.

Pajak tangguhan

Pajak tangguhan diakui atas perbedaan temporer antara jumlah tercatat aset dan liabilitas dalam laporan keuangan konsolidasian dengan dasar pengenaan pajak yang digunakan dalam perhitungan laba kena pajak. Liabilitas pajak tangguhan umumnya diakui untuk seluruh perbedaan temporer kena pajak. Aset pajak tangguhan umumnya diakui untuk seluruh perbedaan temporer yang dapat dikurangkan sepanjang kemungkinan besar bahwa laba kena pajak akan tersedia sehingga perbedaan temporer dapat dimanfaatkan. Aset dan liabilitas pajak tangguhan tidak diakui jika perbedaan temporer timbul dari pengakuan awal (selain dari kombinasi bisnis) dari aset dan liabilitas suatu transaksi yang tidak mempengaruhi laba kena pajak atau laba akuntansi. Selain itu, liabilitas pajak tangguhan tidak diakui jika perbedaan temporer timbul dari pengakuan awal *goodwill*.

Termination

A liability for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognizes any related restructuring costs.

**r. Income Tax**

Income tax expense represents the sum of the current tax payable and deferred tax.

Current tax

The current tax payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognized for those matters for which the tax determination is uncertain but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the Group supported by previous experience in respect of such activities.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary differences arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary differences arises from the initial recognition of goodwill.

Aset dan liabilitas pajak tangguhan diukur dengan menggunakan tarif pajak yang diharapkan berlaku dalam periode ketika liabilitas diselesaikan atau aset dipulihkan berdasarkan tarif pajak (dan peraturan pajak) yang telah berlaku atau secara substantif telah berlaku pada akhir periode pelaporan.

Pengukuran aset dan liabilitas pajak tangguhan mencerminkan konsekuensi pajak yang sesuai dengan cara Grup memperkirakan, pada akhir tahun pelaporan, untuk memulihkan atau menyelesaikan jumlah tercatat aset dan liabilitasnya.

Jumlah tercatat aset pajak tangguhan ditelaah ulang pada akhir tahun pelaporan dan dikurangi jumlah tercatatnya jika kemungkinan besar laba kena pajak tidak lagi tersedia dalam jumlah yang memadai untuk mengkompensasikan sebagian atau seluruh aset pajak tangguhan tersebut.

Pajak kini dan pajak tangguhan diakui sebagai beban atau penghasilan dalam laba rugi tahun berjalan, kecuali untuk pajak penghasilan yang timbul dari transaksi atau peristiwa yang diakui di luar laba rugi (baik dalam penghasilan komprehensif lain maupun secara langsung di ekuitas), dalam hal tersebut pajak juga diakui di luar laba rugi, atau yang timbul dari akuntansi awal kombinasi bisnis. Dalam hal kombinasi bisnis, pengaruh pajak termasuk dalam akuntansi kombinasi bisnis.

Aset dan liabilitas pajak tangguhan saling hapus ketika entitas memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus aset pajak kini terhadap liabilitas pajak kini dan ketika aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan yang sama atas entitas kena pajak yang sama atau entitas kena pajak yang berbeda yang memiliki intensi untuk memulihkan aset dan liabilitas pajak kini dengan dasar neto, atau merealisasikan aset dan menyelesaikan liabilitas secara bersamaan, pada setiap periode masa depan dimana jumlah signifikan atas aset atau liabilitas pajak tangguhan diharapkan untuk diselesaikan atau dipulihkan.

#### **s. Rugi per Saham Dasar**

Rugi per saham dasar dihitung dengan membagi rugi bersih yang diatribusikan kepada pemilik entitas induk dengan jumlah rata-rata tertimbang saham yang beredar pada tahun yang bersangkutan.

#### **t. Instrumen Derivatif**

Grup menggunakan berbagai variasi instrumen keuangan derivatif untuk mengelola eksposur atas risiko suku bunga dan risiko perubahan nilai tukar mata uang asing termasuk kontrak valuta berjangka, *interest rate swap and cross currency swap*.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on the tax rates (and tax laws) that have been enacted, or substantively enacted, by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of their assets and liabilities.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax are recognized as an expense or income in profit or loss, except when they relate to items that are recognized outside of profit or loss (whether in other comprehensive income or directly in equity), in which case the tax is also recognized outside of profit or loss, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is included in the accounting for the business combination.

Deferred tax assets and liabilities are offset when there is legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities when there is an intention to settle its current tax assets and current tax liabilities on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

#### **s. Loss per Share**

Loss per share is computed by dividing net loss attributable to the owners of the Company by the weighted average number of shares outstanding during the year.

#### **t. Derivative Financial Instruments**

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risk including foreign exchange forward contracts, interest rate swap and cross currency swap.

Derivatif awalnya diakui pada nilai wajar pada tanggal kontrak dilakukan dan selanjutnya diukur kembali pada nilai wajarnya pada setiap akhir tahun pelaporan. Dampak keuntungan atau kerugian diakui segera di laba rugi kecuali jika derivatif ditetapkan dan efektif sebagai instrumen lindung nilai di mana saat pengakuan di laba rugi bergantung pada sifat dari hubungan lindung nilai.

Derivatif dengan nilai wajar positif diakui sebagai aset keuangan sedangkan derivatif dengan nilai wajar negatif diakui sebagai liabilitas keuangan. Derivatif tidak saling hapus dalam laporan keuangan kecuali Grup memiliki hak yang memiliki kekuatan hukum dan intensi untuk saling hapus.

Suatu derivatif disajikan sebagai aset tidak lancar atau liabilitas jangka panjang jika sisa jatuh tempo dari instrumen lebih dari 12 bulan dan tidak diharapkan akan direalisasi atau diselesaikan dalam jangka waktu 12 bulan. Derivatif lainnya disajikan sebagai aset lancar atau liabilitas jangka pendek.

#### u. Akuntansi Lindung Nilai

Grup menggunakan instrumen keuangan derivatif – *cross currency swap* dan *interest rate swap* untuk mengelola eksposur atas risiko suku bunga dan fluktuasi nilai tukar.

Pada inisiasi hubungan lindung nilai, Grup mendokumentasi hubungan antara instrumen lindung nilai dan *item* yang dilindung nilai, bersama dengan tujuan manajemen risiko dan strategi pelaksanaan lindung nilai. Selanjutnya, pada saat dimulainya lindung nilai dan secara berkelanjutan, Grup mendokumentasikan apakah instrumen lindung nilai sangat efektif dalam rangka saling hapus perubahan dalam nilai wajar atau perubahan arus kas dari *item* yang dilindung nilai yang dapat diatribusikan pada risiko lindung nilai.

##### Lindung Nilai atas Arus Kas

Bagian efektif dari perubahan nilai wajar derivatif yang ditujukan dan memenuhi kualifikasi sebagai lindung nilai arus kas diakui sebagai penghasilan komprehensif lain dan terakumulasi pada cadangan lindung nilai arus kas. Keuntungan atau kerugian yang terkait dengan bagian yang tidak efektif langsung diakui dalam laba rugi, dan termasuk dalam "keuntungan lain-lain - bersih".

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair values at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as hedging instrument in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognized as a financial asset whereas a derivative with a negative fair value is recognized as a financial liability. Derivatives are not offset in the financial statements unless the Group has both a legally enforceable right and intention to offset.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and is not expected to be realized or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

#### u. Hedge Accounting

The Group enters into derivative financial instruments – *cross currency swap* and *interest rate swap* to manage its exposure to interest rate and foreign exchange fluctuations.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

##### Cash Flow Hedges

The effective portion of changes in the fair value of derivatives that were designated and qualified as cash flow hedges was recognized in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion was recognized immediately in profit or loss, and is included in the "other gains - net" line item.

Jumlah yang sebelumnya diakui sebagai penghasilan komprehensif lain dan terakumulasi dalam ekuitas direklasifikasi ke laba rugi pada periode ketika *item* yang dilindung nilai diakui dalam laba rugi, di pos yang sama dari laporan laba rugi dan penghasilan komprehensif lain konsolidasian dengan *item* yang dilindung nilai. Namun, ketika suatu lindung nilai atas prakiraan transaksi yang kemudian menimbulkan pengakuan aset non-keuangan atau liabilitas non-keuangan, keuntungan dan kerugian yang sebelumnya diakui sebagai penghasilan komprehensif lain dan terakumulasi di ekuitas dipindahkan dari ekuitas dan termasuk dalam pengukuran awal biaya dari aset non-keuangan atau liabilitas non-keuangan.

Akuntansi lindung nilai dihentikan pada saat Grup membatalkan hubungan lindung nilai, ketika instrumen lindung nilai kadaluwarsa atau dijual, dihentikan atau digunakan, atau ketika tidak lagi memenuhi persyaratan akuntansi lindung nilai. Keuntungan dan kerugian diakui dalam penghasilan komprehensif lain dan terakumulasi di ekuitas saat itu tetap berada di bagian ekuitas dan akan diakui pada saat prakiraan transaksi yang pada akhirnya diakui dalam laba rugi. Ketika prakiraan transaksi tidak lagi diharapkan akan terjadi, akumulasi keuntungan atau kerugian dalam ekuitas langsung diakui dalam laba rugi.

#### **v. Informasi Segmen**

Segmen operasi diidentifikasi berdasarkan laporan internal mengenai komponen dari Grup yang secara regular direviu oleh pengambil keputusan operasional dalam rangka mengalokasikan sumber daya dan menilai kinerja segmen operasi.

Segmen operasi adalah suatu komponen dari entitas:

- a. yang terlibat dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain dari entitas yang sama);
- b. yang hasil operasinya dikaji ulang secara regular oleh pengambil keputusan operasional untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya; dan
- c. dimana tersedia informasi keuangan yang dapat dipisahkan.

Informasi yang digunakan oleh pengambil keputusan operasional dalam rangka alokasi sumber daya dan penilaian kinerja mereka terfokus pada kategori dari setiap produk.

Amounts previously recognized in other comprehensive income and accumulated in equity were reclassified to profit or loss in the periods when the hedged item was recognized in profit or loss, in the same line of the consolidated statement of profit or loss and other comprehensive income as the recognized hedged item. However, when the hedged forecast transaction resulted in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognized in other comprehensive income and accumulated in equity were transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Hedge accounting was discontinued when the Group revoked the hedging relationship, when the hedging instrument expired or was sold, terminated, or exercised, or it no longer qualified for hedge accounting. Any gain or loss recognized in other comprehensive income and accumulated in equity at that time remained in equity and was recognized when the forecast transaction was ultimately recognized in profit or loss. When a forecast transaction was no longer expected to occur, the gain or loss accumulated in equity was recognized immediately in profit or loss.

#### **v. Segment Information**

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performances.

An operating segment is a component of an entity:

- a. that engages in business activities from which it may earn revenues and incurred expenses (including revenues and expenses relating to the transactions with other components of the same entity);
- b. whose operating results are reviewed regularly by the entity's chief operating decision maker to make decision about resources to be allocated to the segments and assess its performance; and
- c. for which discrete financial information is available.

Information reported to the chief operating decision maker for the purpose of resource allocation and assessment of performance is more specifically focused on the category of each product.

#### 4. PERTIMBANGAN KRITIS AKUNTANSI DAN SUMBER UTAMA KETIDAKPASTIAN ESTIMASI

Dalam penerapan kebijakan akuntansi Grup, yang dijelaskan dalam Catatan 3, direksi diwajibkan untuk membuat pertimbangan, estimasi dan asumsi tentang jumlah tercatat aset dan liabilitas yang tidak tersedia dari sumber lain. Estimasi dan asumsi terkait didasarkan pada pengalaman historis dan faktor-faktor lain yang dianggap relevan. Hasil aktualnya mungkin berbeda dari estimasi tersebut.

Estimasi dan asumsi yang mendasari ditelaah secara berkelanjutan. Revisi estimasi akuntansi diakui dalam periode dimana estimasi tersebut direvisi jika revisi hanya mempengaruhi periode tersebut, atau pada periode revisi dan periode masa depan jika revisi mempengaruhi periode saat ini dan masa depan.

##### Pertimbangan Kritis dalam Penerapan Kebijakan Akuntansi

Dalam proses penerapan kebijakan akuntansi yang dijelaskan dalam Catatan 3, tidak terdapat pertimbangan kritis yang memiliki dampak signifikan pada jumlah yang diakui dalam laporan keuangan konsolidasian, selain dari penyajian estimasi yang diatur di bawah ini.

##### Sumber Utama Ketidakpastian Estimasi

Asumsi utama mengenai masa depan dan sumber utama ketidakpastian estimasi lainnya pada akhir tahun pelaporan, yang memiliki risiko signifikan yang mengakibatkan penyesuaian material terhadap jumlah tercatat aset dan liabilitas dalam tahun pelaporan berikutnya dijelaskan di bawah ini:

##### **Penyisihan penurunan nilai persediaan**

Seiring dengan kondisi pasar yang tidak stabil dan penuh tantangan, meskipun persediaan memiliki perputaran yang cepat, terdapat risiko bahwa nilai realisasi bersih atas persediaan Grup kemungkinan dicatat dibawah nilai tercatat. Dalam menentukan nilai realisasi bersih barang jadi, manajemen membuat estimasi harga jual berdasarkan harga jual masa lalu dan harga bahan baku terkini, dan mempertimbangkan fluktuasi harga atau biaya setelah akhir tahun. Walaupun diyakini bahwa estimasi harga jual yang digunakan dalam mengestimasi penyisihan penurunan nilai persediaan telah sesuai dan wajar, namun perubahan signifikan atas asumsi ini dapat berdampak material terhadap penyisihan penurunan nilai persediaan, yang akan mempengaruhi operasi Grup.

Nilai tercatat persediaan diungkapkan dalam Catatan 8.

#### 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

##### Critical Judgments in Applying Accounting Policies

In the process of applying the accounting policies described in Note 3, management has not made any critical judgement that has significant impact on the amounts recognized in the consolidated financial statements, apart from those involving estimates, which are dealt with below.

##### Key Sources of Estimation Uncertainty

The key assumptions concerning future and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are discussed below:

##### **Allowance for decline in value of inventories**

As the market conditions continue to be volatile and challenging, although the inventories are considered to have high turnover, there is a risk that the net realizable value of the Group's inventories may be below cost. In determining the net realizable value of the finished goods, management makes estimates of the selling prices based on the historical selling prices and current raw material prices, and taking into account the fluctuations of price or cost after the end of the period. While it is believed that the estimated selling prices of the inventories used in the estimation of the allowance for decline in value of inventories are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of the allowance for decline in value of inventories, which will impact the result of the Group's operations.

The carrying amount of inventories is disclosed in Note 8.

#### Taksiran Masa Manfaat Ekonomis Aset Tetap

Masa manfaat setiap aset tetap Grup ditentukan berdasarkan periode kegunaan yang diharapkan dari aset tersebut. Estimasi ini ditentukan berdasarkan pengalaman atas aset sejenis. Masa manfaat setiap aset direviu secara periodik dan disesuaikan apabila prakiraan berbeda dengan estimasi sebelumnya karena keausan, keusangan teknis dan komersial, hukum atau keterbatasan lainnya atas pemakaian aset. Namun terdapat kemungkinan bahwa hasil operasi di masa mendatang dapat dipengaruhi secara signifikan oleh perubahan atas jumlah serta periode pencatatan biaya yang diakibatkan karena perubahan faktor yang disebutkan di atas.

Perubahan masa manfaat aset tetap dapat mempengaruhi jumlah beban penyusutan yang diakui dan nilai tercatat aset tersebut.

Nilai tercatat aset tetap diungkapkan dalam Catatan 14.

#### Liabilitas Imbalan Kerja

Penentuan liabilitas imbalan kerja tergantung pada pemilihan asumsi tertentu yang digunakan oleh aktuaris dalam menghitung jumlah liabilitas tersebut. Asumsi tersebut termasuk antara lain tingkat diskonto dan tingkat kenaikan gaji. Realisasi yang berbeda dari asumsi Grup akan diakui sebagai penghasilan komprehensif lain dan akan berpengaruh terhadap jumlah liabilitas. Walaupun asumsi Grup dianggap tepat dan wajar, perubahan signifikan dalam hasil aktual atau perubahan signifikan asumsi yang digunakan dapat berpengaruh secara signifikan terhadap liabilitas imbalan kerja Grup.

Nilai tercatat dari liabilitas imbalan kerja dan asumsi aktuarial diungkapkan dalam Catatan 23.

#### Akuisisi atas KCE dan PT Krakatau Tirta Industri ("KTI")

Proses awal akuisisi entitas anak melibatkan pengidentifikasian dan penentuan nilai wajar yang akan dialokasikan ke aset dan liabilitas yang dapat diidentifikasi dari entitas yang diakuisisi. Nilai wajar atas aset yang diperoleh, termasuk aset tak berwujud, dan liabilitas yang diambil alih ditentukan oleh tenaga ahli valuasi eksternal. Setiap perubahan dalam asumsi yang digunakan dan estimasi yang dibuat dalam menentukan nilai wajar akan berdampak pada nilai tercatat aset dan liabilitas tersebut.

Alokasi nilai wajar atas harga pembelian diungkapkan pada Catatan 11 dan 38.

#### Estimated Useful Lives of Property, Plant and Equipment

The useful life of each item of the Group's property, plant and equipment are estimated based on the period over which the asset is expected to be available for use. Such estimation is based on experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset. It is possible, however, that future results of operations could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above.

A change in the estimated useful life of any item of property, plant and equipment would affect the recorded depreciation expense and decrease in the carrying amounts of these assets.

The carrying amounts of property, plant and equipment is disclosed in Note 14.

#### Employment Benefits Obligation

The determination of provision for employment benefits obligation is dependent on selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include among others, discount rate and rate of salary increase. Actual results that differ from the Group's assumptions recognized as other comprehensive income and affect the recorded provision. While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual results or significant changes in assumptions may materially affect the Group's provision for employment benefits obligation.

The carrying amount of employment benefits obligation and the actuarial assumptions are disclosed in Note 23.

#### Acquisition of KCE and PT Krakatau Tirta Industri ("KTI")

The initial process on the acquisition of subsidiary and associate involves identifying and determining the fair values to be assigned to the identifiable assets and liabilities of the acquired entities. The fair value of the assets acquired, including the intangible assets, and liabilities assumed are determined by external valuation experts. Any changes in the assumptions used and estimates made in determining the fair values will impact the carrying amount of these assets and liabilities.

The fair value allocation of the purchase price is disclosed in Notes 11 and 38.

Sebelum menerima pelanggan baru, Grup akan menelaah apakah calon pelanggan memenuhi persyaratan yang ditetapkan.

Before accepting a new customer, the Group will assess whether the potential customer meets the required conditions.

Sebelum menyetujui penjualan kredit, Grup memeriksa sisa batas kredit yang dapat diberikan kepada pelanggan tersebut. Pelanggan diharuskan untuk melunasi piutang sebelumnya, sebelum penjualan kredit yang baru disetujui. Otorisasi manajemen tingkat atas diperlukan untuk menyetujui penjualan kredit yang telah melewati batas kredit.

Before approving any credit sales, the Group checks the remaining credit limit for the respective customer. Customers are required to settle their outstanding receivables before the new credit sales are approved. Approval by top level management is required for credit sales above the credit limit.

Cadangan kerugian kredit untuk piutang usaha telah diukur sejumlah ECL sepanjang umur. ECL pada piutang usaha diestimasi berdasarkan matriks provisi dengan mengacu pada pengalaman gagal bayar debitur masa lalu dan analisis posisi keuangan debitur saat ini, disesuaikan dengan faktor-faktor yang spesifik dari debitur dan kondisi ekonomi umum industri di mana debitur beroperasi.

The ECL on trade accounts receivable are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtors current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate.

Tidak ada perubahan dalam teknik estimasi atau asumsi signifikan yang dibuat selama tahun pelaporan berjalan.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

Tabel berikut merinci profil risiko piutang usaha dari kontrak dengan pelanggan berdasarkan matriks provisi Grup. Karena pengalaman historis kerugian kredit Grup tidak menunjukkan pola kerugian yang berbeda signifikan untuk segmen pelanggan yang berbeda, ketentuan untuk cadangan kerugian berdasarkan status masa lalu tidak lagi dipisahkan antara basis pelanggan Grup yang berbeda.

The following table details the risk profile of trade accounts receivable from contracts with customers based on the Group's provision matrix. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Group's different customer base.

Piutang lain-lain sebagian besar merupakan piutang atas, bunga, biaya pelabuhan, *water treatment* dan klaim asuransi.

Tidak ada bunga yang dibebankan atas piutang lain-lain.

Untuk tujuan penilaian penurunan nilai, piutang lain-lain dianggap memiliki risiko kredit yang rendah dan tidak terdapat peningkatan risiko gagal bayar yang signifikan sejak pengakuan awal. Oleh karena itu, untuk tujuan penilaian penurunan nilai piutang ini, cadangan kerugian diukur sebesar sejumlah ECL 12 bulan.

Dalam menentukan ECL, manajemen telah memperhitungkan posisi keuangan pihak terkait, disesuaikan dengan faktor-faktor spesifik dari pihak terkait dan kondisi ekonomi umum industri dimana pihak terkait beroperasi, dalam memperkirakan kemungkinan terjadinya gagal bayar pinjaman serta kerugian saat terjadinya gagal bayar. Manajemen berpendapat bahwa piutang lain-lain memiliki kerugian kredit yang tidak material.

Other accounts receivable mostly are interest receivable, port fee, water treatment and insurance claim.

There is no interest charged for other accounts receivable.

For purpose of impairment assessment, the other receivable is considered to have low credit risk and there has been no significant increase in the risk of default since initial recognition. Accordingly, for the purpose of impairment assessment for this receivable, the loss allowance is measured at an amount equal to 12-month ECL.

In determining the ECL, management has taken into account the financial position of the relevant parties, adjusted the factors that are specific to the relevant parties and general economic conditions of the industry in which the relevant parties operate, in estimating the probability of default of the other accounts receivable as well as the loss upon default. Management believes that the other accounts receivables have immaterial credit loss.

Interest Risk

Risiko Gaji

Nilai kini kewajiban imbalan pasti dihitung dengan mengacu pada gaji masa depan peserta program. Dengan demikian, kenaikan gaji peserta program akan meningkatkan liabilitas program itu.

Salary Risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Goodwill timbul dalam kombinasi bisnis karena biaya perolehan kombinasi termasuk suatu premi pengendalian. Selanjutnya, imbalan yang dibayar untuk kombinasi secara efektif termasuk jumlah yang terkait dengan sinergi yang diharapkan, pertumbuhan pendapatan, pengembangan pasar yang akan datang dan penggabungan tenaga kerja. Manfaat ini tidak diakui terpisah dari goodwill karena manfaat tersebut tidak memenuhi kriteria pengakuan untuk aset tak berwujud yang dapat diidentifikasi.

Goodwill arose in the business combination because the cost of the combination included a control premium. In addition, the consideration paid for the combination effectively included amounts in relation to the benefit of expected synergies, revenue growth, future market development and assembled workforce. These benefits are not recognized separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets.

## 45. FINANCIAL INSTRUMENTS, FINANCIAL RISK AND CAPITAL MANAGEMENT

### a. Categories and Classes of Financial Instruments

- 121 -

Pada tanggal 1 April 2022, Grup mereklasifikasi portofolio investasi obligasi dari nilai wajar melalui kategori pengukuran pendapatan komprehensif lain sebesar US\$ 393.341 ribu dan ke dalam kategori pengukuran biaya diamortisasi sebagai akibat dari perubahan model bisnis. Manajemen Grup menentukan bahwa karena perubahan internal dalam mengelola investasi obligasi di mana untuk hasil jangka panjang, investasi dalam obligasi tersebut saat ini dimiliki dalam model bisnis yang tujuannya adalah untuk memiliki aset untuk mendapatkan arus kas kontraktual dan membiayai pengembangan dari CAP2. Setelah tanggal reklasifikasi, instrumen ini tidak akan diukur pada nilai wajar dengan perubahan nilai wajar pada pendapatan komprehensif lain.

Portofolio investasi pada obligasi direklasifikasi pada nilai wajar. Namun, pada tanggal reklasifikasi, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam penghasilan komprehensif lain dikeluarkan dari ekuitas dan disesuaikan dengan nilai wajar portofolio investasi obligasi. Akibatnya, portofolio investasi pada obligasi diukur pada tanggal reklasifikasi seolah-olah selalu diukur pada biaya perolehan diamortisasi. Suku bunga efektif dan pengukuran kerugian kredit ekspektasian tidak disesuaikan sebagai akibat dari reklasifikasi. Risiko kredit pada pengakuan awal terus digunakan untuk menilai perubahan risiko kredit pada obligasi.

Pada tanggal 31 Desember 2023, nilai wajar investasi pada obligasi yang dicatat pada biaya perolehan diamortisasi adalah sebesar US\$ 603.786 ribu (31 Desember 2022: US\$ 686.947 ribu).

**b. Tujuan dan kebijakan manajemen risiko keuangan**

Fungsi *Corporate Treasury* Grup menyediakan jasa untuk bisnis, mengkoordinasikan akses ke pasar keuangan domestik dan internasional, memantau dan mengelola risiko keuangan yang berkaitan dengan operasi Grup melalui laporan risiko internal yang menganalisis eksposur dengan derajat dan besarnya risiko. Risiko ini termasuk risiko pasar (termasuk risiko mata uang, risiko suku bunga dan risiko harga lainnya), risiko kredit dan risiko likuiditas.

On April 1, 2022, the Group reclassified the portfolio of investment in bonds out of the fair value through other comprehensive income measurement category amounted to US\$ 393,341 thousand and into the amortised cost measurement category as a result of the change in the business model. The Group's management determined that due to internal changes in managing these investment in bonds in which for a long term yield, these investment in bonds are currently held within a business model whose objective is to hold assets to collect the contractual cash flows and finance the development of CAP2. Subsequent to the reclassification date, these instruments will no longer be measured at fair value with changes in fair value recognized in other comprehensive income.

The portfolio of investment in bonds is reclassified at fair value. However, at the reclassification date, the cumulative gain or loss previously recognised in other comprehensive income is removed from equity and adjusted against the fair value of the portfolio of investment in bonds. As a result, the portfolio of investment in bonds is measured at the reclassification date as if it had always been measured at amortised cost. The effective interest rate and the measurement of expected credit losses are not adjusted as a result of the reclassification. The credit risk at initial recognition continues to be used to assess changes in the credit risk on the bonds.

As of December 31, 2023, the fair value of investment in bonds carried at amortised cost amounted to US\$ 603,786 thousand (December 31, 2022: US\$ 686,947 ribu).

**b. Financial risk management objectives and policies**

The Group's *Corporate Treasury* function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

Grup berusaha untuk meminimalkan dampak dari risiko dengan menggunakan instrumen keuangan derivatif untuk lindung nilai terhadap eksposur risiko. Penggunaan derivatif keuangan diatur oleh kebijakan Grup yang disetujui oleh dewan direksi, yang memberikan prinsip-prinsip tertulis pada risiko nilai tukar, risiko suku bunga, risiko kredit, penggunaan derivatif keuangan dan instrumen derivatif non-keuangan, dan investasi atas kelebihan likuiditas. Kepatuhan terhadap batasan kebijakan dan eksposur ditinjau oleh auditor internal secara terus menerus. Grup tidak melaksanakan atau memperdagangkan instrumen keuangan, termasuk instrumen keuangan derivatif, untuk tujuan spekulasi.

Fungsi *Corporate Treasury* melaporkan secara berkala kepada dewan direksi untuk memantau risiko dan mengurangi eksposur risiko.

#### **i. Manajemen risiko pasar**

Aktivitas Grup terekspos terutama untuk risiko keuangan atas perubahan nilai tukar mata uang asing (Catatan 45.b.ii) dan suku bunga (Catatan 45.b.iii). Grup mengadakan berbagai instrumen keuangan derivatif untuk mengelola eksposur risiko mata uang asing dan risiko suku bunga, termasuk:

- *Swap* suku bunga untuk mengurangi risiko kenaikan suku bunga;
- Kontrak valuta asing berjangka untuk mengurangi eksposur terhadap fluktuasi nilai tukar; dan
- *Cross Currency Swap* untuk mengurangi risiko kenaikan suku bunga dan kurs pada utang obligasi.

Tidak terdapat perubahan eksposur Grup terhadap risiko pasar atau cara mengelola dan mengukur risiko tersebut.

#### **ii. Manajemen risiko mata uang asing**

Grup terekspos pengaruh fluktuasi nilai tukar mata uang asing terutama karena transaksi yang didenominasi dalam mata uang asing seperti penjualan domestik, beberapa beban tertentu dan pinjaman yang didenominasi dalam Rupiah. Jumlah eksposur bersih mata uang selain Dolar Amerika Serikat Grup pada tanggal pelaporan diungkapkan dalam Catatan 42.

Grup memelihara saldo kas dalam mata uang Rupiah yang cukup untuk memenuhi kebutuhan pembayaran dalam Rupiah.

The Group seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Group policies approved by the board of directors, which provide written principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. Compliance with policies and exposure limits is reviewed by the internal auditors on a continuous basis. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Corporate Treasury function reports regularly to the board of directors to monitor risks and mitigate risk exposures.

#### **i. Market risk management**

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates (Note 45.b.ii) and interest rates (Note 45.b.iii). The Group enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk, including:

- Interest rate swaps to mitigate the risk of rising interest rates;
- Forward foreign exchange contracts to mitigate exposures to exchange rate fluctuating; and
- Cross currency swap to mitigate the risk of rising interest rate and foreign exchange on the bonds payable.

There has been no change to the Group's exposure to market risk or the manner in which these risks are managed and measured.

#### **ii. Foreign currency risk management**

The Group is exposed to the effect of foreign currency exchange rate fluctuation mainly because of foreign currency denominated transactions such as domestic sales, certain expenditure and borrowings denominated in Indonesian Rupiah. The Group's net open currency other than U.S. Dollar exposure as of reporting date is disclosed in Note 42.

The Group maintains sufficient cash balance denominated in Indonesian Rupiah to cover the payments denominated in Indonesian Rupiah.

#### Analisis sensitivitas mata uang asing

Analisis sensitivitas Grup di bawah ini terhadap peningkatan dan penurunan Dollar Amerika Serikat terhadap mata uang Rupiah menggunakan 2% pada tanggal 31 Desember 2023 (31 Desember 2022: 1%), dengan seluruh variabel konstan lainnya, rugi bersih setelah pajak untuk tahun yang berakhir 31 Desember 2023 akan naik/turun sebesar US\$ 3.716 ribu (rugi bersih setelah pajak 2022: turun/naik sebesar US\$ 260 ribu). 2% pada tanggal 31 Desember 2023 (31 Desember 2022: 1%) adalah tingkat sensitivitas yang digunakan ketika melaporkan secara internal risiko mata uang asing kepada para karyawan kunci, dan merupakan penilaian manajemen terhadap perubahan yang mungkin terjadi pada nilai tukar valuta asing. Analisis sensitivitas hanya mencakup *item* instrumen keuangan dalam mata uang moneter selain Dolar Amerika Serikat yang ada dan menyesuaikan translasinya pada akhir periode untuk perubahan persentase dalam nilai tukar mata uang asing.

Menurut pendapat manajemen, analisis sensitivitas tidak representatif atas risiko valuta asing melekat karena eksposur pada akhir periode pelaporan tidak mencerminkan eksposur selama tahun berjalan.

#### Kontrak valuta berjangka

Pada tahun 2022, Grup menandatangani kontrak valuta asing berjangka tertentu sebagai lindung nilai atas dampak terkait fluktuasi harga pembelian bahan baku Grup. Grup menggunakan strategi lindung nilai lanjutan, menggunakan kontrak dengan periode hingga 6 bulan. Pada saat jatuh tempo kontrak berjangka, Grup melakukan kontrak baru yang ditujukan sebagai hubungan lindung nilai terpisah.

Tabel berikut merinci kontrak valuta asing berjangka yang ada pada akhir periode pelaporan:

#### Foreign currency sensitivity analysis

The Group's sensitivity analysis below to the increase and decrease in the U.S. Dollar against Indonesian Rupiah the relevant foreign currencies uses 2% at December 31, 2023 (December 31, 2022: 1%), with all other variables held constant, net loss after tax for the year ended December 31, 2023 would increase/decrease by US\$ 3,716 thousand (net loss after tax 2022: decrease/increase by US\$ 260 thousand). 2% as at December 31, 2023 (December 31, 2022: 1%) are the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding monetary items of financial instrument denominated in currency other than U.S. Dollar and adjusts its translation at the period end for percentage change in foreign currency rates.

In management's opinion, the sensitivity analysis is unrepresentative for the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

#### Forward foreign exchange contracts

In 2022, the Group has entered into certain forward foreign exchange contracts as hedge of exposure against the fluctuation in the purchase price of the Group's raw materials. The Group utilizes a rollover hedging strategy, using contracts with terms of up to 6 months. Upon maturity of forward contract, the Group enters into a new contract designated as separate hedging relationship.

The following table details the forward foreign currency ("FC") contracts outstanding at the end of the reporting period:

### iii. Manajemen risiko tingkat bunga

Grup terpapar risiko suku bunga karena entitas dalam Grup meminjam dana dari bank mayoritas dalam Dolar Amerika Serikat dengan tingkat bunga mengambang. Risiko ini dikelola oleh Grup, antara lain, dengan menggunakan kontrak *swap* suku bunga. Aktivitas lindung nilai dievaluasi secara reguler untuk menyelaraskan dengan pandangan suku bunga dan *defined risk appetite*, untuk memastikan strategi lindung nilai paling efektif telah diterapkan.

Eksposur Grup atas suku bunga liabilitas keuangan dirinci dalam bagian manajemen risiko likuiditas pada catatan ini.

Grup terkena suku bunga acuan Dolar Amerika Serikat LIBOR dan suku bunga bebas risiko SOFR. Eksposur yang timbul atas aset dan liabilitas keuangan derivatif dan non-derivatif (misalnya utang bank dan utang obligasi).

Pada tahun 2023, Grup dan beberapa lembaga keuangan sepakat untuk mengubah persyaratan beberapa utang bank menjadi transisi ke SOFR. Tidak ada ketentuan lain yang diubah sebagai bagian dari transisi. Grup mencatat perubahan ke SOFR dengan menggunakan panduan praktis dalam PSAK 71, yang mengizinkan Grup untuk mengubah dasar penentuan arus kas kontraktual secara prospektif dengan merevisi suku bunga efektif.

#### Transisi suku bunga acuan untuk instrumen keuangan non-derivatif

Seperti yang diungkapkan di atas dan di Catatan 21, Grup melakukan transisi atas beberapa utang bank jangka panjang ke SOFR. Saldo utang bank jangka Panjang tersebut sejumlah US\$ 755.923 ribu pada tanggal 31 Desember 2023.

#### Transisi suku bunga acuan untuk derivatif dan hubungan lindung nilai

Seperti yang diungkapkan di atas, Grup telah mengalihkan utang bank jangka panjang ke SOFR senilai US\$ 755.923 ribu. Selama tahun 2023 Grup melakukan derivatif yang setara namun saling-hapus terhadap derivatif semula dan derivatif baru di luar pasar berdasarkan SOFR ditambah *spread* tetap dengan persyaratan yang sama dengan derivatif semula (yaitu nilai wajar pada hari pertama derivatif SOFR baru sama dengan derivatif LIBOR semula). Perubahan ini dilakukan sebagai akibat langsung dari reformasi dan setara secara ekonomi. Grup mengubah dokumentasi lindung nilai untuk memasukkan derivatif baru dan mengubah risiko lindung nilai yang ditetapkan menjadi "variabilitas arus kas dari pinjaman bank yang dihasilkan dari perubahan SOFR". Hubungan lindung nilai tidak dihentikan dan akumulasi keuntungan dalam carangan lindung nilai arus kas dianggap telah berdasarkan SOFR.

### iii. Interest rate risk management

The Group is exposed to interest rate risk because entities in the Group borrow funds from banks largely in United States Dollar at floating interest rates. The risk is managed by the Group by the use of interest rate swap contracts. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note.

The Group is exposed to United States Dollar LIBOR and risk free interest rate SOFR. The exposures arise on derivatives and non-derivative financial assets and liabilities (e.g. bank loans and bonds payable).

In 2023, the Group and certain financial institutions has agreed to amend the terms of certain bank loans to transition to SOFR. No other terms were amended as part of the transition. The Group accounted for the change to SOFR using the practical expedient in PSAK 71, which allows the Group to change the basis for determining the contractual cash flows prospectively by revising the effective interest rate.

#### Interest rate benchmark transition for non-derivative financial instruments

As disclosed above and in Note 21, the Group transitioned certain long-term bank loans to SOFR. The outstanding long-term bank loans amounted to US\$ 755,923 thousand as of December 31, 2023.

#### Interest rate benchmark transition for derivatives and hedge relationships

As disclosed above, the Group has transitioned to SOFR amounting to US\$ 755,923 thousand of its long-term bank loans. During 2023 the Group entered into an equal but offsetting derivative against the original derivative and a new off-market derivative based on SOFR plus fixed spread on the same terms as the original derivative (i.e. the fair value on day one of the new SOFR derivative was the same as the original LIBOR derivative). This change was done as a direct consequence of the reform and on an economically equivalent basis. The Group changed the hedge documentation to include the new derivatives and amended the designated hedged risk to "variability in the cash flows of the bank borrowings resulting from changes in SOFR". The hedge relationship was not discontinued and the accumulated gain in the cash flow hedge reserve is deemed to be based on SOFR.

Berikut merupakan risiko utama Grup atas aset dan liabilitas keuangan derivatif dan non-derivatif yang belum dilakukan transisi:

Risiko suku bunga dasar

Terdapat dua elemen risiko sebagai mana dijabarkan di bawah ini:

- Jika negosiasi bilateral dengan rekanan Grup tidak berhasil diselesaikan sebelum penghentian LIBOR, terdapat ketidakpastian yang signifikan terkait dengan tingkat suku bunga yang akan berlaku. Hal ini menimbulkan risiko suku bunga tambahan yang tidak dapat diantisipasi ketika kontrak ditandatangani dan tidak masuk dalam strategi manajemen risiko suku bunga. Misalnya, dalam beberapa kasus, klausul *fallback* dalam kontrak pinjaman LIBOR dapat mengakibatkan tingkat bunga menjadi tetap untuk jangka waktu yang tersisa pada penawaran LIBOR terakhir. Grup bekerja sama dengan semua rekanan untuk menghindari hal ini terjadi, namun jika hal ini terjadi, kebijakan manajemen risiko suku bunga Grup akan berlaku normal dan dapat mengakibatkan penyelesaian atau perpindahan ke *swap* suku bunga baru untuk mempertahankan campuran antara utang suku bunga mengambang dan tetap.
- Basis risiko suku bunga dapat timbul jika instrumen nonderivatif dan instrumen derivatif yang dimiliki untuk mengelola risiko suku bunga pada instrumen nonderivatif beralih ke suku bunga acuan alternatif pada waktu yang berbeda. Risiko ini juga dapat muncul ketika derivatif semula bertransisi pada waktu yang berbeda. Grup akan memantau risiko ini terhadap kebijakan manajemen risikonya.

Risiko likuiditas

Terdapat perbedaan mendasar antara LIBOR dan suku bunga acuan alternatif yang akan diadopsi oleh Grup. LIBOR merupakan suku bunga *forward-looking* yang diterbitkan untuk suatu periode (misalnya 3 bulan) pada awal periode tersebut dan termasuk di dalamnya spread kredit antar bank, sedangkan suku bunga acuan alternatif biasanya merupakan suku bunga semalam bebas risiko yang diterbitkan pada akhir periode semalam tanpa adanya spread kredit melekat. Perbedaan ini menimbulkan tambahan ketidakpastian atas pembayaran bunga dengan suku bunga mengambang yang akan memerlukan tambahan pengelolaan likuiditas. Kebijakan pengelolaan risiko likuiditas Grup telah diperbarui untuk memastikan sumber daya likuid yang cukup untuk mengakomodasi kenaikan tak terduga dalam suku bunga semalam.

The following are the key risks for the Group on derivatives and non-derivative financial assets and liabilities which have not yet transitioned:

Interest rate basis risk

There are two elements to this risk as outlined below:

- If the bilateral negotiations with the Group's counterparties are not successfully concluded before the cessation of LIBOR, there are significant uncertainties with regard to the interest rate that would apply. This gives rise to additional interest rate risk that was not anticipated when the contracts were entered into and is not captured by our interest rate risk management strategy. For example, in some cases the fallback clauses in LIBOR loan contracts may result in the interest rate becoming fixed for the remaining term at the last LIBOR quote. The Group is working closely with all counterparties to avoid this from occurring, however if this does arise, the Group's interest rate risk management policy will apply as normal and may result in closing out or entering into new interest rate swaps to maintain the mix of floating rate and fixed rate debt.
- Interest rate risk basis may arise if a non-derivative instrument and the derivative instrument held to manage the interest risk on the non-derivative instrument transition to alternative benchmark rates at different times. This risk may also arise where back-to-back derivatives transition at different times. The Group will monitor this risk against its risk management policy.

Liquidity risk

There are fundamental differences between LIBOR and the alternative benchmark rates which the Group will be adopting. LIBOR is forward-looking term rates published for a period (e.g. 3 months) at the beginning of that period and include an inter-bank credit spread, whereas alternative benchmark rates are typically risk free overnight rates published at the end of the overnight period with no embedded credit spread. These differences will result in additional uncertainty regarding floating rate interest payments which will require additional liquidity management. The Group's liquidity risk management policy has been updated to ensure sufficient liquid resources to accommodate unexpected increases in overnight rates.

Risiko akuntansi

Jika transisi ke suku bunga acuan alternatif untuk kontrak tertentu diselesaikan dengan cara yang tidak memperbolehkan penerapan keringanan yang diperkenalkan dalam amandemen Tahap 2, dapat menyebabkan penghentian hubungan akuntansi lindung nilai, peningkatan volatilitas dalam laba rugi jika lindung nilai yang ditetapkan kembali tidak sepenuhnya efektif dan terjadi volatilitas dalam laba rugi jika instrumen keuangan non-derivatif dimodifikasi atau dihentikan pengakuannya. Grup bertujuan untuk menyetujui perubahan kontrak yang memungkinkan penerapan PSAK 71. Secara khusus, Grup tidak berusaha untuk merombak derivatif atau menutup derivatif dan memasuki pasar derivatif baru di mana derivatif telah ditetapkan dalam hubungan lindung nilai.

Risiko litigasi

Jika tidak tercapai kesepakatan untuk menerapkan reformasi acuan suku bunga pada kontrak yang ada (misalnya yang timbul dari interpretasi yang berbeda dari persyaratan *fallback* yang ada), terdapat risiko perselisihan berkepanjangan dengan rekanan yang dapat menimbulkan biaya hukum dan biaya tambahan lainnya. Grup bekerja sama dengan seluruh rekanan untuk menghindari hal ini terjadi.

Risiko operasional

Tidak terdapat kontrak warisan LIBOR milik Grup yang mencakup klausul penggantian yang memadai dan kuat untuk penghentian suku bunga acuan. Berbagai kelompok kerja di industri sedang membuat ketentuan *fallback* untuk berbagai instrumen dan IBOR, yang dipantau secara ketat oleh Grup. Grup berencana untuk mentransisikan sebagian besar kontrak terkait IBOR ke suku bunga bebas risiko melalui pengenalan, atau amandemen, klausul *fallback* ke dalam kontrak yang akan mengubah dasar penentuan arus kas suku bunga dari IBOR ke RFR pada waktu yang disepakati.

Grup akan terus menerapkan amandemen PSAK 55 sampai ketidakpastian yang timbul dari reformasi tingkat acuan suku bunga sehubungan dengan waktu dan jumlah arus kas yang mendasari Grup terekspos sampai selesai. Grup berasumsi bahwa ketidakpastian ini tidak akan berakhir sampai kontrak Grup yang merujuk kepada IBOR diubah sampai tanggal penentuan pergantian tingkat acuan suku bunga, arus kas dari suku bunga acuan alternatif, dan penyesuaian spread yang relevan. Sebagian dari hal ini akan bergantung pada pengenalan klausul *fallback* yang masih harus ditambahkan dalam kontrak Grup dan negosiasi dengan pemberi pinjaman dan pemegang obligasi.

Accounting risk

If transition to alternative benchmark rates for certain contracts is finalized in a manner that does not permit the application of the reliefs introduced in the Phase 2 amendments, this could lead to discontinuation of hedge accounting relationships, increased volatility in profit or loss if re-designated hedges are not fully effective and volatility in the profit or loss if non-derivative financial instruments are modified or derecognised. The Group is aiming to agree changes to contracts that would allow PSAK 71 reliefs to apply. In particular, the Group is not seeking to novate derivatives or close out derivatives and enter into new on-market derivatives where derivatives have been designated in hedging relationships.

Litigation risk

If no agreement is reached to implement the interest rate benchmark reform on existing contracts (e.g. arising from differing interpretation of existing fallback terms), there is a risk of prolonged disputes with counterparties which could give rise to additional legal and other costs. The Group is working closely with all counterparties to avoid this from occurring.

Operational risk

None of the Group's LIBOR legacy contracts include adequate and robust fallback clauses for a cessation of the referenced benchmark interest rate. Various working groups in the industry are working on fallback provisions for different instruments and IBORs, which the Group is monitoring closely. The Group is planning to transition the majority of its IBOR-linked contracts to risk free rates through introduction of, or amendments to, fallback clauses into the contracts which will change the basis for determining the interest cash flows from IBOR to RFR at an agreed point in time.

The Group will continue to apply the amendments to PSAK 55 until the uncertainty arising from the interest rate benchmark reforms with respect to the timing and the amount of the underlying cash flows that the Group is exposed to ends. The Group has assumed that this uncertainty will not end until the Group's contracts that reference IBORs are amended to specify the date on which the interest rate benchmark will be replaced, the cash flows of the alternative benchmark rate and the relevant spread adjustment. This will, in part, be dependent on the introduction of fallback clauses which have yet to be added to the Group's contracts and the negotiation with lenders and bondholders.

Eksposur Grup terhadap suku bunga asset keuangan dan liabilitas keuangan dirinci dalam bagian manajemen risiko likuiditas pada catatan ini.

Analisis sensitivitas suku bunga

Analisis sensitivitas di bawah ini telah ditentukan berdasarkan eksposur suku bunga untuk instrumen derivatif dan non-derivatif pada akhir periode pelaporan. Untuk liabilitas tingkat bunga mengambang, analisis tersebut disusun dengan asumsi jumlah liabilitas terutang pada akhir periode pelaporan itu terutang sepanjang tahun. Kenaikan atau penurunan 100 basis poin digunakan ketika melaporkan risiko suku bunga secara internal kepada karyawan kunci dan merupakan penilaian manajemen terhadap perubahan yang mungkin terjadi pada suku bunga.

Jika suku bunga lebih tinggi/rendah 100 basis poin pada 31 Desember 2023 (31 Desember 2022: 100 basis poin) dan semua variabel lainnya tetap konstan, rugi bersih setelah pajak, untuk tahun yang berakhir pada 31 Desember 2023 akan naik/turun sebesar US\$ 10.557 ribu (31 Desember 2022: rugi bersih setelah pajak akan naik/turun sebesar US\$ 18.262 ribu). Hal ini terutama disebabkan oleh eksposur Grup terhadap suku bunga atas pinjaman dengan suku bunga variabel.

Kontrak *swap* suku bunga

Dalam kontrak *swap* suku bunga, Grup setuju untuk menukar perbedaan antara jumlah tingkat bunga tetap dengan mengambang yang dihitung atas jumlah pokok nosional yang disepakati. Meskipun tidak ditetapkan dan memenuhi kualifikasi sebagai akuntansi lindung nilai, kontrak-kontrak yang memungkinkan Grup untuk mengurangi risiko perubahan suku bunga eksposur arus kas pada utang tingkat bunga variabel. Nilai wajar *plain vanilla* (tingkat bunga tetap untuk tingkat bunga mengambang) *swap* dihitung dengan menambahkan nilai kini dari pembayaran bunga tetap yang telah diketahui dari awal *swap* (*fixed leg*) dan nilai kini dari pembayaran bunga mengambang yang ditentukan pada setiap tanggal pembayaran yang ditentukan (*floating leg*). Tingkat suku bunga rata-rata didasarkan pada tingkat bunga tetap yang dibayarkan oleh bank.

Kontrak *swap* suku bunga diselesaikan secara triwulanan. Tingkat bunga mengambang pada *swap* suku bunga adalah *London Interbank Offered Rate* (LIBOR). Grup akan menyelesaikan perbedaan antara tingkat bunga tetap dan mengambang secara dasar neto.

The Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points on December 31, 2023 (December 31, 2022: 100 basis point) higher/lower and all other variables were held constant, net loss after tax, for the year ended December 31, 2023, would increase/decrease by US\$ 10,557 thousand (December 31, 2022: net loss after tax would increase/decrease by US\$ 18,262 thousand). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

Interest rate swap contracts

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Although not designated and qualified for hedge accounting, those contracts are enable the Group to mitigate the risk of changing interest rates on the cash flow exposures on issued variable rate debt. The fair value of a plain vanilla (fixed rate for floating rate) swap is computed by adding the present value of the fixed coupon payments known at the start of the swap (*fixed leg*) and present value of the floating coupon payments determined at the agreed dates of each payment (*floating leg*). The average interest rate is based on the fixed rate paid by the banks.

The interest rate swaps are settled on a quarterly basis. The floating rate on the interest rate swaps is London Interbank Offered Rate (LIBOR). The Group will settle the difference between the fixed and floating interest rate on a net basis.

#### iv. Manajemen risiko harga petrokimia

Pendapatan Grup sangat bergantung pada penjualan barang-barang turunan/ olahan petrokimia *naphtha* yang sangat dipengaruhi oleh harga petrokimia dunia. Di sisi lain, harga petrokimia dunia dapat berfluktuasi secara signifikan yang dipengaruhi terutama oleh harga minyak mentah *Brent* dan faktor permintaan dan penawaran.

Untuk memitigasi risiko ini, Grup mengkombinasikan strategi metode penetapan harga maupun waktu penetapan dengan terus memperhatikan perkembangan global yang mempengaruhi pasar petrokimia.

#### v. Manajemen risiko kredit

Nilai tercatat aset keuangan pada laporan keuangan konsolidasian setelah dikurangi dengan cadangan kerugian, mencerminkan eksposur Grup terhadap risiko kredit.

Grup mengembangkan dan mengelola peringkat risiko kredit untuk mengkategorikan eksposur sesuai dengan tingkat risiko gagal bayar. Grup menggunakan catatan perdagangannya sendiri untuk memeringkat pelanggan utama dan debitur lainnya.

Kerangka peringkat risiko kredit kini Grup terdiri dari kategori berikut:

| Kategori/<br><i>Category</i>      | Deskripsi/ <i>Description</i>                                                                                                                                                                                                                                                             | Dasar pengakuan ECL/<br><i>Basis for recognizing ECL</i>                                 |

#### iv. Petrochemical price risk management

The Group's revenue is highly dependent on naphtha petrochemical process, which in turn is highly influenced by global petrochemical prices, which tend to be cyclical and subject to significant fluctuations. Global petrochemical prices are subject to numerous factors beyond the Group's control, including mainly Brent crude oil price and supply and demand factors.

To mitigate this risk, the Group combines strategies of price fixing method and the timing of price fixing, while maintaining close attention on global developments that affect petrochemical market.

#### v. Credit risk management

The carrying amount of financial assets recorded in the consolidated financial statements, net of any allowance for losses, represents the Group's exposure to credit risk.

The Group develops and maintains its credit risk gradings to categorize exposures according to their degree of risk of default. The Group uses its own trading records to rate its major customers and other debtors.

The Group's current credit risk grading framework comprises the following categories:

- (i) Grup menentukan ECL pada pos-pos tersebut menggunakan matriks provisi, yang diestimasi berdasarkan pengalaman kerugian kredit historis berdasarkan status utang debitur masa lalu, yang disesuaikan dengan kondisi saat ini dan perkiraan kondisi ekonomi di masa depan.

Grup telah mengadopsi prosedur dalam memperluas persyaratan kredit kepada pelanggan dan dalam memantau risiko kreditnya. Grup hanya memberikan kredit kepada pihak lawan yang layak kredit. Kas dan deposito berjangka ditempatkan pada lembaga yang layak kredit dan memiliki kerugian kredit yang tidak material.

Meskipun eksposur kredit Grup terkonsentrasi terutama di Indonesia, tidak terdapat konsentrasi risiko kredit signifikan pada pelanggan atau kelompok pelanggan tertentu.

Rincian lebih lanjut dari risiko kredit pada piutang usaha dan piutang lain-lain diungkapkan masing-masing pada Catatan 6 and 7.

The table below details the credit quality of the Group's financial assets as well as maximum exposure to credit risk by credit risk rating grades:

- (i) The Group determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

The Group has adopted procedures in extending credit terms to customers and in monitoring its credit risk. The Group only grants credit to credit worthy counterparties. Cash and time deposits are held with creditworthy institutions and is subject to immaterial credit loss.

Although the Group credit exposure is concentrated mainly in Indonesia, it has no significant concentration of credit risk with any single customer or group of customers.

Further details of credit risks on trade and other accounts receivable are disclosed in Notes 6 and 7, respectively.

## vi. Manajemen risiko likuiditas

Tanggung jawab utama untuk manajemen risiko likuiditas terletak pada dewan direksi, yang telah membentuk kerangka kerja manajemen risiko likuiditas yang sesuai untuk mengelola pendanaan jangka pendek, menengah dan jangka panjang dan persyaratan manajemen likuiditas. Grup mengelola risiko likuiditas dengan memelihara cadangan yang memadai, fasilitas perbankan dan fasilitas pinjaman cadangan, dengan terus memantau arus kas prakiraan dan aktual. Manajemen berpendapat bahwa kas masa depan yang dihasilkan dari kegiatan usaha cukup untuk memenuhi kebutuhan modal kerja dan melunasi pinjaman jangka pendek saat jatuh tempo. Kebutuhan pembiayaan untuk modal kerja ditelaah secara berkala dan pada saat diperlukan.

Rincian fasilitas tambahan yang belum digunakan yang dimiliki Grup untuk mengurangi risiko likuiditas termasuk dalam Catatan 44a.

### Tabel risiko likuiditas dan suku bunga

## vi. Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows. Management believes that future cash to be generated from operations is sufficient to meet working capital requirements and settle the current portion of outstanding loans as they fall due. Financing requirements for working capital are reviewed on a regular basis and where deemed necessary.

Details of additional undrawn facilities that the Group has at its disposal to further reduce liquidity risk are included in Note 44a.

### Liquidity and interest risk tables

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment period. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Group may be required to pay.

**d. Pengukuran Nilai Wajar**

Nilai wajar instrumen keuangan yang dicatat pada biaya perolehan diamortisasi

Direksi menganggap bahwa nilai tercatat aset keuangan dan liabilitas keuangan, kecuali utang obligasi dan utang bank dengan tingkat bunga tetap mendekati nilai wajarnya.

Investasi pada obligasi pemerintah dengan tingkat bunga tetap dikelompokkan ke dalam level 1 dengan nilai wajar dan nilai tercatat masing-masing sebesar US\$ 603.786 ribu dan US\$ 646.911 ribu pada 31 Desember 2023 (31 Desember 2022: masing-masing sebesar US\$ 696.850 ribu dan US\$ 705.798 ribu).

Utang obligasi dikelompokkan ke dalam level 1 dengan nilai wajar dan nilai tercatat masing-masing sebesar US\$ 627.072 ribu dan US\$ 609.818 ribu pada 31 Desember 2023 (31 Desember 2022: masing-masing sebesar US\$ 554.663 ribu dan US\$ 529.765 ribu).

Utang bank dengan tingkat bunga tetap dikelompokkan ke dalam level 2 dengan nilai wajar dan nilai tercatat masing-masing sebesar US\$ 3.175 ribu dan US\$ 3.162 ribu pada 31 Desember 2023 (31 Desember 2022: masing-masing sebesar US\$ 3.399 ribu dan US\$ 4.053 ribu).

Teknik penilaian dan asumsi yang diterapkan untuk tujuan pengukuran nilai wajar

Nilai wajar aset keuangan dan liabilitas keuangan ditentukan sebagai berikut:

- Nilai wajar aset keuangan dan liabilitas keuangan dengan syarat dan kondisi standar dan diperdagangkan di pasar aktif ditentukan dengan mengacu pada harga pasar
- Nilai wajar *swap* suku bunga dihitung dengan menambahkan nilai kini dari pembayaran bunga tetap yang telah diketahui dari awal *swap* (*fixed leg*) dan nilai kini dari pembayaran bunga mengambang yang ditentukan pada setiap tanggal pembayaran yang ditentukan (*floating leg*).
- Nilai wajar kontrak valuta berjangka mata uang asing diukur dengan menggunakan kurs kuotasi yang berasal dari suku bunga kuotasi sesuai jatuh tempo kontrak.
- Nilai tercatat dari aset dan liabilitas keuangan yang jatuh tempo dalam satu tahun mendekati nilai wajarnya karena jatuh tempo dalam jangka pendek. Untuk aset keuangan dan liabilitas keuangan jangka panjang, biaya perolehan diamortisasi mendekati nilai wajarnya karena instrumen tersebut dikenakan tingkat bunga pasar.

**d. Fair Value Measurements**

Fair value of financial instruments carried at amortized cost

The directors consider that the carrying amounts of financial assets and financial liabilities, except bonds payable and bank loan with fixed rate interest approximate their fair values.

Investment in government bonds are grouped into level 1 with fair value and carrying amount amounting to US\$ 603,786 thousand and US\$ 646,911 thousand, respectively, as of December 31, 2023 (December 31, 2022: masing-masing sebesar US\$ 696,850 thousand and US\$ 705,798 thousand).

Bonds payable are grouped into level 1 with fair value and carrying amount amounting to US\$ 627,072 thousand and US\$ 609,818 thousand, respectively, as of December 31, 2023 (December 31, 2022: US\$ 554,663 thousand and US\$ 529,765 thousand, respectively).

Bank loan with fixed interest rate are grouped into level 2 with fair value and carrying amount amounting to US\$ 3,175 thousand and US\$ 3,162 thousand, respectively, as of December 31, 2023 (December 31, 2022: US\$ 3,399 thousand and US\$ 4,053 thousand, respectively).

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- The fair value of interest rate swap is computed by adding the present value of the fixed coupon payments known at the start of the swap (*fixed leg*) and present value of the floating coupon payments determined at the agreed dates of each payment (*floating leg*).
- Foreign currency forward contracts are measured using quoted forward exchange rates derived from quoted interest rates matching maturities of the contracts.
- The carrying amount of financial assets and liabilities due in one year approximates fair value because of their short-term maturity. For non-current financial assets and financial liabilities, the amortized cost approximates fair value because such instruments carry market rate of interest.

Hirarki pengukuran nilai wajar atas aset dan liabilitas Grup

Tabel berikut ini merangkum nilai tercatat dan nilai wajar aset dan liabilitas, yang dianalisis nilai wajarnya berdasarkan pada:

- Pengukuran nilai wajar level 1 adalah yang berasal dari harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik; yang dapat diakses entitas pada tanggal pengukuran;
- Pengukuran nilai wajar level 2 adalah yang berasal dari input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya derivasi dari harga); dan
- Pengukuran nilai wajar level 3 adalah yang berasal dari teknik penilaian yang mencakup input untuk aset atau liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

Fair value measurements hierarchy of the Group's assets and liabilities

The following tables summarize the carrying amounts and fair values of the assets and liabilities, analyzed among those whose fair value is based on:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 fair value measurements are those derived from inputs other the quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

#### 46. KONDISI INDUSTRI

Petrokimia, yang mengubah minyak dan gas menjadi segala jenis produk sehari-hari – seperti plastik, pupuk, kemasan, pakaian, perangkat digital, peralatan medis, deterjen atau ban – merupakan bagian integral dari masyarakat modern. Dengan demikian permintaan petrokimia, elemen kunci dari barang-barang konsumen yang tak terhitung jumlahnya, secara intrinsik terkait dengan permintaan dan pengeluaran konsumen. Selain produk penting untuk kehidupan kita sehari-hari, petrokimia juga ditemukan di banyak bagian sistem energi modern, termasuk panel surya, bilah turbin angin, baterai, insulasi termal untuk bangunan, dan suku cadang kendaraan listrik.

Seperti yang diketahui secara luas, industri petrokimia menghadapi beberapa tantangan akibat pandemi COVID-19 yang masih berlangsung, yang menyebabkan gangguan rantai pasokan global dan melemahnya permintaan produk petrokimia. Selain itu, meningkatnya ketegangan geopolitik, sengketa perdagangan, dan ketidakpastian ekonomi global juga berdampak pada industri.

#### 46. INDUSTRY CONDITION

Petrochemicals, which turn oil and gas into all sorts of daily products – such as plastics, fertilisers, packaging, clothing, digital devices, medical equipment, detergents, or tyres – are integral to modern societies. As such demand for petrochemicals, a key element of countless consumer goods, is intrinsically linked to consumer demand and spending. In addition to products critical to our daily lives, petrochemicals are also found in many parts of the modern energy system, including solar panels, wind turbine blades, batteries, thermal insulation for buildings, and electric vehicle parts.

It was widely known that the petrochemical industry faced several challenges due to ongoing COVID-19 pandemic, which caused disruptions in global supply chains and weakened demand for petrochemical products. Additionally, increasing geopolitical tensions, trade disputes, and uncertainty in the global economy also impacted the industry.

Namun, lingkungan yang penuh tantangan telah menjadi katalisator yang mendorong perlunya memprioritaskan kembali inisiatif ramah lingkungan dan mempercepat pertumbuhan permintaan akan produk yang berkelanjutan dan ramah lingkungan.

Mulai tahun 2023, Tiongkok, sebagai produsen dan konsumen petrokimia terbesar di dunia, telah membuka kembali perbatasannya membawa kabar baik bagi industri tersebut. Pemulihan ekonomi negara, pembukaan kembali pabrik dan bisnis diperkirakan akan mendorong permintaan untuk pulih pada tahun 2023 dan seterusnya secara internasional.

Sebagai salah satu produsen petrokimia terbesar di wilayah ini, Grup menavigasi operasinya dengan optimisme terhadap pemulihan sambil tetap tangguh dan waspada terhadap ketidakpastian global, kekhawatiran resesi, dan stagflasi. Menyadari sifat siklikal industri petrokimia, Grup telah dengan bijak mendiversifikasi portofolio bisnisnya dengan memperluas tidak hanya di sektor petrokimia tetapi juga ke bisnis kimia dan infrastruktur. Meskipun dihadapkan pada tantangan, Grup tetap berkomitmen untuk memajukan rencana ekspansinya dan bertujuan untuk terus melayani negara dengan produk dan layanan berkualitas terbaiknya sambil juga berkontribusi pada pertumbuhan ekonomi Indonesia.

Dari sisi operasional, kinerja operasional yang berkelanjutan dan keselamatan tetap menjadi fokus utama Grup dengan penerapan protokol kesehatan yang ketat bagi karyawan dan pengunjung eksternal di semua lokasi seperti fasilitas produksi, site office dan kantor pusat. Grup menegaskan kembali tujuannya untuk menghindari risiko penularan yang dapat datang kapan saja dan di mana saja. Komitmen Grup pada penerapan Lingkungan, Sosial dan Tata Kelola (ESG) yang berdampak juga telah menerima penghargaan dan kemitraan yang diterima sepanjang tahun. Grup menerapkan inisiatif Transformasi Digital untuk proses bisnis Grup dengan menghadapi era Industri 4.0 dan menegaskan peran Chandra Asri Group sebagai pionir dalam transformasi digital bagi industri sejenis.

Grup berhasil mempertahankan akses ke pasar perbankan dan obligasi, mengamankan tingkat dan syarat yang menguntungkan. Selain itu, Grup juga memperluas dan meningkatkan fasilitas kredit impor-ekspor serta menjaga manajemen kewajiban yang proaktif untuk terus memperkuat struktur modalnya. Selanjutnya, Grup secara aktif memperluas basis investor domestik dengan memajukan pasar obligasi Rupiah, mendiversifikasi portofolio sumber pendanaannya.

However, the challenging environment has become a catalyst that drives the need to re-prioritize green initiatives and accelerates demand growth for sustainable and environmentally friendly products.

Starting in 2023, China, as the world's largest producer and consumer of petrochemicals, has reopened its borders and brings great news to the industry. The country's economic recovery, the reopening of factories and businesses are expected to drive the demand to recover in 2023 and beyond globally.

As one of the largest petrochemical producers in the region, the Group navigates its operations with optimism on recovery while remaining resilient and vigilant of global uncertainties, fear of recession and stagflation. Recognizing the cyclical nature of the petrochemical industry, the Group has prudently diversified its business portfolios by expanding not only in petrochemical sector but also into the chemical and infrastructure business. Despite the challenges, the Group remains committed to advancing its expansion plan and aims to continue serving the nation with its top-quality products and services while also contributing towards Indonesia economic growth.

From operational perspective, sustained operational and safety performance remain the major focus of the Group with strict health protocols implementation for employees and external visitors in all locations such as production facilities, site office and head office. The Group reiterates its aim to avoid the risk of transmission that may come anytime and anywhere. The Group's commitment on impactful Environmental, Social and Governance (ESG) stewardship has also been rewarded and partnerships received during the year. The Group implements Digital Transformation initiatives for its business processes to address the Industry 4.0 era and reaffirms the role of the Chandra Asri Group as a pioneer in digital transformation for similar industries.

The Group effectively sustains access to banking and bond markets, securing favorable rates and terms. It also extends and enhances import-export credit facilities and maintains proactive liability management to bolster its capital structure continually. Furthermore, the Group actively expands its domestic investor base by fostering the development of the Rupiah bond market, diversifying its financing sources portfolio.
